Ayer's Sarsaparilla

Is a concentrated extract of the choice root, so combined with other substances of still greater alterative power as to afford an efficacious antidote for diseases Sarsaparilla is reputed to cure. Such a remedy is surely wanted by those who suffer from strumous complaints, and that one which will accomplish their cure must prove, as this has, of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found in the following complaints:

Scrofulous Swellings and Sores, Skin Diseases, Pimples, Pustules, Blotches, Eruptions, St Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, &c.

Syphilis or Venereal Disease is expelled from the system by the prolonged use of this SARSAPARILLA, and the patient is left in comparative health.

Female Diseases are caused by Scrofula in the blood, and are cured by this EXTRACT OF SARSAPARILLA.

Do not discard this invaluable medicine, because worthless compounds have been passed by unthinking pretending to be Sarsaparilla, when it was not. When you have used AYER's—then, and not till then, will you know the virtues of Sarsaparilla. For minute particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the agent below named will furnish gratis to all who call for it.

AYER'S CATHARTIC PILLS, for the cure of Costiveness, Jaundice, Dyspepsia, Dysentery, Foul Stomach, Headache, Piles, Rheumatism, Heartburn arising from Disordered Stomach, Pain or Morbid Inaction of the Bowels, Dysentery, Loss of Appetite, Liver Complaint, Dropsy, Worms, Gout, Neuralgia, and for a Dinner Pill.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best Aperient in the world for all the purposes of a family physic.

Prepared by J. C. AYER & CO., Lowell, Mass, and sold by all Druggists and Dealers in Medicine everywhere. myl—3m

Now is the Time to Sub cribe for THE GREAT FAMILY NEWSPAPER

The New-York Weekly Tribune

Is printed on a large double-medium sheet making eight pages of six broad columns. It contains all the important Editorials published in THE DAILY TRIBUNE, except those of merely local interest; also literary and Scientific Intelligence; Reviews of the most interesting and important New Books; the Letters from our large corps of correspondents; the latest news received by telegraph from Washington and all other parts of the country; a Summary of all important Intelligence in this city and elsewhere; a synopsis of the Proceedings of Congress and State Legislature when in session; the Foreign News received by every steamer; Exclusive Reports of the Proceedings of the Farmers' Club of the American Institute; Talks about Fruit, and other Horticultural and Agricultural information; Market, Financial, Cattle, Dry Goods and General Market Reports which are published in THE DAILY TRIBUNE. THE SEMI-WEEKLY TRIBUNE also gives, in the course of a year, THREE or FOUR of the

BEST AND LATEST POPULAR NOVELS,

by living authors. The cost of these alone, if bought in book-form, would be from six to eight dollars. If purchased in the ENGLISH MAGAZINES, from which they are carefully selected, the cost would be three or four times that sum. Now here also are so much current intelligence and permanent literary matter be had at so cheap a rate as in THE SEMI-WEEKLY TRIBUNE. Those who know the principles and impartial character of THE TRIBUNE can increase its power and influence by joining with their neighbors in forming clubs to subscribe for THE SEMI-WEEKLY EDITION. It will in that way be supplied to them at the lowest price at which such a paper can be printed.

SECRETARY McCULLOCH.—A correspondent of the Anson Advocate gives a sketch of the early life of the present Secretary of the Treasury, from which it appears that Mr. McCulloch was a native of Maine, and resided for many years at Kennebunk Landing (previous to his removal to Fort Wayne, Ind.,) with his father, Hugh McCulloch, senior. The latter for many years carried on the business of a ship builder at the Landing.

A good story is told of Hugh, the elder, which will bear repeating. A sharp, thievish boy, one day stole a fish from McCulloch's store, and was making off with it, when he was detected in the very act, and old Hugh set his wits to work to devise some impromptu punishment for the offender. Pretty soon the old man led the culprit, holding the fish in one hand, out in front of the store where all the idlers were assembled, and mounting him upon an empty hogshead, bade him repeat the confession he had prepared for him, to wit:

I stole a pollock
From Hugh McCulloch,
To carry home to mother;
But now I am found out
I'll turn about
And never steal another.

"Now d—n you," said old Hugh, "say it just as I did." Now McCulloch was one of those unfortunates born without palates to their mouths, and yet blessed with stentorian lungs, and you may readily fancy the snort and scream with which his poetical confession was uttered. And with the last injunction, to "say it just as he did," the cunning culprit mimicked old Hugh so thoroughly, as to "bring down the crowd." This so irritated McCulloch, that he seized the pollock and aimed a blow at the mimic's head, which would have demolished him, had he not dodged it and took to his heels.

— The Hallowell Gazette says the liquor sellers have had a hard time during the recent term of the Supreme Court at Rockland. About $1500 fines and costs were paid.

— In the Hudson County Court, New York, last week, Samuel Williams, a colored man, sued to recover five thousand dollars damages for false imprisonment on a charge of having in his possession a stolen horse, which afterwards proved to belong to him. The jury believing that Williams had suffered more than five thousand dollars worth, gave him a verdict for fifteen thousand.

OLIVE A. GRANT of Portsmouth in the County of Rockingham and State of New Hampshire, respectfully libels and gives the Court to understand and be informed that she was lawfully married to her husband, JOHN E. GRANT, by Rev. Mr. Pike, at Newburyport in the State of Massachusetts, on the fourteenth day of November, A. D. Eighteen Hundred and Fifty-one, and that she has ever since resided in Portsmouth and Newington in this State except when temporarily absent therefrom, and that she and her said husband lived in said Portsmouth for more than seven years thereafter; that she has ever conducted as a faithful wife to said John; that the said John on divers days between the date of the said marriage and March, A. D. Eighteen Hundred and Sixty, treated your libellant with extreme cruelty; that the said John on divers days in the years Eighteen Hundred and Sixty and Eighteen Hundred and Sixty-one, at Boston in the State of Massachusetts, committed adultery with one Mrs. Ellison and with divers other lewd women whose names are unknown to this libellant; and that said John at said Portsmouth in the month of March, A. D. Eighteen Hundred and Sixty, without sufficient cause, and without the consent of said Olive, abandoned her, and has refused for three years together to cohabit with her, said abandonment and refusal continuing down to the time of filing this libel

And said John in the month of March, 1861, left said libellant, and has ever since willingly absented himself from her for the space of three years together, to wit: from said March, 1861, to the filing of this libel, without making suitable provision for her support and maintenance, and continues so to do.

Wherefore she prays that a divorce from the bond of matrimony existing between her and said John, may be decreed, and that the custody of her minor child, VENORA E. GRANT, who has been constantly supported by her since her birth, may be decreed to her; and for such other relief in the premises as the Court may deem just and proper. OLIVE A. GRANT.

In the Supreme Judicial Court—Rockingham, ss.

This libel having been filed in the office of the Clerk of said Court this twenty fifth day of April A. D 1866:

It is Ordered that said OLIVE A. GRANT notify said JOHN E. GRANT to appear at the next Law Term of said Court, to be held at Exeter on the third Tuesday of June next, then and there to show cause, if any he has, why the prayer thereof should not be granted, by causing a true and attested copy of said libel and this order thereon to be published three weeks successively in the DAILY MORNING CHRONICLE, a newspaper printed at Portsmouth in the County of Rockingham, the last publication whereof to be at least thirty days before said term.

Morning Chronicle.

Portsmouth N. H.

FRIDAY, MAY 11, 1866.

IN THE U. S. SENATE, May 9, Mr. Grimes, from the Naval Committee, reported a bill to restore Commander Charles Hunter to his former rank in the Navy.—Commander Hunter captured a blockade runner on the coast of Cuba, at which the Spanish Government took offence, and he was dismissed. The bill was passed.

The Post Office appropriation bill was taken up, the pending question being on Mr. Trumbull's amendment, before reported.

Mr. Wilson made a speech, eulogizing the Republican party and condemning the reconstruction policy of the President.

Mr. Doolittle, in a brief speech, reviewed the relations of the President to the Union party, alleging that he was adhering to the Baltimore platform, upon which he was elected.

Mr. Nye made some remarks condemnatory of the President's exercise of the pardoning power in the case of the rebels.

[This *amendment* will probably be rejected—and a separate bill passed.]

In the HOUSE, the bill was unanimously passed giving Admiral Faragut a secretary with the rank of Lieutenant in the Navy.

The reconstruction amendment to the Constitution was then considered.

Mr. Bloomall supported it.

Mr. Broomall said, so far from treason being made odious, it was a most popular institution at the South, and loyalty had been made odious.

Mr. Raymond, in the course of his remarks expressed *approval* of the measure except the 3d section. He also alluded to the eagerness with which Mr. Stevens acceded to the suggestion of the name of Gen. Grant as a candidate of the Union party in 1868 for the Presidency, as giving assurance that there would be no dissent in the party on that subject when the right time should come.

Mr. McKee supported the measure. He proposed to amend Mr. Garfield's motion to recommit, with instructions to strike out the 3d section and insert the following:

"All persons who voluntarily adhered to the late insurrection, giving aid and comfort to the so-called Confederate States, are forever excluded from holding any office of profit or trust under the Government of the United States."

Mr. Boutwell denounced the Democratic party, whose position every traitor in the South and every sympathizer with treason in the North sustained, and in this hour of national peril it was their sad misfortune to be compelled to admit that he who secured the suffrages of the people for the second office in the Government, accepted the doctrine of the Democratic party as his policy. Mr. Boutwell supported the measure before the House.

Mr. Stevens gave notice that at 3 o'clock to-morrow afternoon he would move the previous question and ask a vote on the resolution.

☞ On Wednesday the First Regiment Maryland colored troops U. S. V. returned home and made a handsome appearance. Whilst passing through the western section of Baltimore a conflict occurred between some of the colored people following the soldiers and a number of whites. Blows were exchanged, fire arms are reported to have been used, and one or two persons wounded. That same night one worthless fellow named John Price shot another named James in the American Theatre.—James died at midnight. He was a second in the recent prize-fight near Washington.

☞ The New York Anniversaries are lively this year. The Anti-Slavery Society met in Dr. Cheever's church. The attendance was large. The quaker family was fully represented, as were the colored people. Mr. Phillips took the chair and was attended by Rev. Mr. Sargent of Boston, Rev. Mr. Frothingham, Theodore Tilton and numerous ladies. Mr. Phillips read letters from Senator Sumner, Hon. W. D. Kelley and Chief Justice Chase. These gentlemen went for the fullest and widest suffrage, and the sentiments were loudly applauded. Mr. Kelly compared the army of freedom to the army of the United States under McClellan. President Johnson was McClellan, Secretary Seward was Fitz John Porter, and Mr. Raymond was Buell. But Congress would take care of them all.

☞ The gratifying reception accorded to the first number of "The Galaxy," the new fortnightly magazine, has encouraged the publishers to increase its size by the addition of sixteen pages. This enlargement will give greater variety and interest to its contents, by affording room for numerous attractive contributions. Price 25 cents a number; $3.00 for the volume of twelve numbers. Address W. C. & F. P. Church, No. 39 Park Row, New York.

FRUIT.—It is said that there have been more fruit trees planted out this spring, in New England, than has ever been in any former season.

Local.

☞ On and after Monday, May 14, an Express Train will be run between Boston and Portland, leaving Portland at 6 P. M. and Boston at 7 P. M.

On Mondays, Wednesdays and Fridays the Express Train to and from Boston will run via Boston & Maine Railroad, stopping only at Saco, Biddeford, Kennebunk, North Berwick, South Berwick Junction, Dover, Exeter, Haverhill and Lawrence.

On Tuesdays, Thursdays and Saturdays will run via the Eastern Railroad, stopping only at Saco, Biddeford, Kennebunk, North Berwick, Portsmouth, Newburyport, Salem and Lynn.

A special Freight Train, with Passenger Car attached, will leave Biddeford for Portland at 8 A. M.

On Tuesdays, Thursdays and Saturdays the Express Train leaves Portsmouth for Boston at 7:56 P. M., and for Portland at 9 P. M.

☞ The Portsmouth correspondent of the Portland Advertiser gives this item:

No one who is not an eye witness to the profits arising by working in certain gangs in the Navy Yard, are aware how much some of the laborers lay by. A workman in the sheathing department whose wages was $1.75 per day, from the result of one year's labor, built and paid for a house and lot which cost him $1000. An accident prevented his wife from having a piano, which she wanted ever so much. Some pattern tumbled on a dinner pail (which are never marked,) overturning it, and behold instead of being empty it was full of clippings. The result was a discharge.

U. S. CIRCUIT COURT, May 10.—Edward H. Goodwin, indicted for breaking into and stealing from Frank G. Wentworth's store at Fort Constitution, was found guilty by the jury and sentenced to three months' imprisonment. [To us this seems a ridiculously light sentence, but we are informed that outside influence was brought to bear in the case, though we cannot vouch for the statement.]

Frank Fairbanks, indicted for altering fractional currency, plead nol. con., and was sentenced to pay a fine of one dollar and to be imprisoned one year at hard labor.

Clarissa A. Roll, for breaking open letters in violation of the Post Office law, (13 1-2 years old,) plead nol. con., and was sentenced to pay a fine of one dollar and to three months imprisonment at hard labor.

The trial of Benizah Woodbury, indicted for having and concealing counterfeit fractional currency, with intent to utter and pass the same, was then commenced.

☞ Mr. Roberts, who is now enjoying the hospitalities of our jail, for horse-stealing, appears to have been quite a jockey in horse flesh. Prior to his theft from Mr. Somerby, he hired a horse and buggy of Ezra Batchelder in Beverly, which he sold to Geo. Guppy in Dover on Sunday last. The horse was next sold to Joe Cushing of circus fame, and again to Andrew Roberts, upon whose premises it was found by our police on Thursday, and taken possession of for the benefit of the rightful owner.

☞ The commendable desire to beautify and improve seems to be quite prevalent among our citizens, and we think there never has been a year when the painting and repair of buildings was more general with us than the year just past. That we do not notice this alone the following extract from the correspondence of a Portland paper will show:

"This is a desirable point for a residence of those who have retired from the active pursuits of life. Within a few years the houses have been brushed up, and some of the finest residences have been put up, that may be found in New England. Fine roads abound, and within a few miles are found the finest beaches, which are much resorted too in the summer."

☞ The International Circus, under the veteran Wheeler, combined with the "Grecian Arena," will exhibit in this city to-day. Ever the most popular of shows here, this circus will probably be no exception to the general rule. Feats of great difficulty in gymnastics and horsemanship are offered for the edification and amusement of those who attend, besides the usual amount of fun.

☞ One day since the Grand Jury has been in attendance at the U. S. District Court in this city, one of our jewellers was favored with a call from a customer whom he at once set down as some sturdy yeoman who had come to Court, and so remarked: "I suppose you are down on the Jury?" "Not by a ——sight, I belong in Eliot, and I'm *down on a drunk*."

☞ A reduction in the price of labor has caused a large number of the hands employed at Fort Constitution in this harbor to leave.

MARINE NEWS.—William D. Hayes and James Fowler, two marines who had deserted from the U. S. steamer Mackinaw, now at Boston, were arrested in this city on Thursday, and cleared for the former port that evening by Collector Kent.

— It is believed that not less than five hundred cows have died in the District of Columbia from the cattle disease. The disease is said to have come from Pennsylvania.

☞ After the bombardment of Valparaiso, the Danish Consul General sent a note to the Spanish Admiral, saying his government would hold Spain responsible for the damage done to Danish property in Valparaiso. The Admiral refused to receive his note.

Immediately after the bombardment at Valparaiso the English Minister was requested to vacate the premises occupied by him, and no one will rent him another house. His name was also stricken from the list of members of the Club Dela Union.

Only two lives were lost and eight wounded. Several churches were destroyed and 151 government stores, valued at half a million dollars, and containing upward of $8,000,000 worth of foreign merchandise.

Five hundred and forty-five thousand dollars will repair all damages to public edifices, while the bulk of the loss will fall on foreigners.

☞ We are requested to draw attention to an advertisement, in this day's paper, of the New York Disinfecting Company, who have erected a large building in New York for the manufacture of Disinfectants: as this is a matter of public interest we do so cheerfully, and beg our readers to pay all the attention possible to cleanliness (for, cholera or no cholera, cleanliness is a godly virtue), and spare no pains in assisting to ward off so fearful a visitation as this disease, by the free use of disinfectants which are recommended by the New York Board of Health. This is a substantial company, we are told, and their article, coming recommended as it is, will be of incalculable benefit to the public.

BUTTER.—The price of butter at St. Albans, Vermont, on Tuesday, was from 45 cents to 46 cents per pound.

PORNEY, the murderer of the Deering family, at Philadelphia, is to be hung on Friday, June 8.

—— Major General B. F. Butler will lecture in Manchester, Saturday evening, May 12.

— The colored hands employed in a lumber mill in Charleston, S. C., "struck" recently, when their places were supplied with white men, and the work went on uninterruptedly.

— The citizens of Columbia, S. C., have appointed a committee to ascertain whether Gen. Sherman or Hampton set fire to that city.

— The New Orleans Picayune advises persons leaving Northern cities for fear of cholera to go South during the summer, as cholera has never been known to make its appearance there until cold and damp weather, say in October or November.

— A good thing. A loving heart, a pleasant countenance, a pleasant word, and a few bars of J. Monroe Taylor Gold Medal Soap, are commodities which a man should never fail to take home with him. The four together will season his food, keep his clothes clean, soften his pillow, and give him many pleasant thoughts, besides having his good wife and children say of him that he has done his part in making a happy household, all by patronizing the Gold Medal Soap. 85

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used; and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. Price $1.50.

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn, who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. Price $1.50 per bottle.

Sold by Druggists everywhere.

QUICK CURES AND LOW PRICES.

ver Twenty Thousand Patients Cured Annually

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the latest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blies, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healthes, and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsle and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease, but

AMERICAN AND FOREIGN PATENTS

R. H. EDDY,

Solicitor of Patents,

Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,

78 State Street, opposite Kilby Street, BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to secure a late a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

REDUCTION IN PRICE

OF THE

AMERICAN WATCHES.

MADE AT WALTHAM, MASS:

In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed

With Gold at Par,

so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The best of ten years and the manufacture and sale of

More than 200,000 Watches,

have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.

We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plates:

1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy & Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.

The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,

ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED

to be the best time-keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit orders for single watches.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

ALLCOCK'S POROUS PLASTERS.—A celebrated physician says "he was amazed at the great number of beneficial indications produced by one of these plasters. He affirms that *headache* is cured by one worn just below the breast-bone; that one placed over the navel will cure hysterics, as well as dysentery, and affections of the bowels."

CURE OF VARICOSE VEINS.

City Point, Va., January 24, 1865.

T. ALLCOCK & CO.:

Gentlemen: Seeing your notice in the Police Gazette, I got four of your Porous Plasters and placed them on the parts where the pains were most severe, and in less than twelve hours could walk as well as ever. I could hardly believe it, I was so well pleased. I wanted to see if the lameness would come back on me or not, so I did more walking that day than I had done in a week. The next day I had some pain in my hip, but I put on a plaster there and in two hours the pain was all gone, nor have I felt it since. Certainly they are the best application for the relief and cure of pains in the joints and back, and for varicose or enlarged veins, I have ever known, and I would not be without them on any account. Yours truly,

MAGGIEL'S

Spring and Summer Remedies.

"Great oaks from little acorns grow." The worst diseases known to the human race spring from causes so small as to almost defy detection. The volumes of scientific lore that fill the shelves of the medical fraternity only go to prove and elaborate these facts. Then guard yourselves while you may. The smallest pimple on the skin is a tell tale and indicator of disease. It may fade and die away from the surface of the body, but it will reach the vitals, perhaps, at last, and death be the result and final close. MAGGIEL'S BILIOUS, DYSPEPTIC and DIARRHŒA PILLS cure where all others fail. While for Burns, Scalds, Chilblains, Cuts, and all affections of the skin, MAGGIEL'S SALVE is infallible. Sold by J. Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

UNITED STATES CIRCUIT COURT, May 9th.—Upon the coming in of the Court this afternoon, Mr. Rand, U. S. Attorney for this District, announced the death of Hon. Matthew Harvey, late U. S. Judge of this District, with appropriate remarks upon his life and character,—and on behalf of the Bar offered the following Resolutions:

Resolved, That in the death of the late Hon. Matthew Harvey we mourn the loss of an able, upright, experienced and courteous Magistrate, who, for nearly half the period since the organization of the Federal Courts, has faithfully and acceptably performed the duties of Justice of the United States District Court for the New Hampshire District; and who, through a long life of varied usefulness, was beloved as a man and revered as a Judge.

Resolved, That the Bar, in token of respect for the memory of Judge Harvey, will wear the usual badge of mourning for thirty days.

Resolved, That the United States Attorney for this District, Mr. Rand, be requested, on behalf of the Bar, to present to the Court this afternoon the above resolutions, with a request that they be entered upon the records of the Court.

Wm. H. Y. Hackett addressed the Court, as follows:

May it please your Honor:—Upon the opening of the Term yesterday morning, those of us who have long been familiar with this Court saw with pain the chair beside you was vacant. That chair which had been occupied by the side of Story, Woodbury and Curtis, as well as yourself, was for the first time in thirty-five years without an occupant. To me this incident was inexpressibly painful. I had been here with Mason, Woodbury, Bartlett, Cutts, Cushman and Cutter, the day your late associate took his seat on this Bench. With scarcely an exception, I have attended the Terms of both Courts from that day to this—attracted as much by my affectionate regard for the Judge, as by professional engagements in the Courts.

Matthew Harvey was born in Sutton, graduated at Dartmouth, read and practiced law in Hopkinton. He early obtained a highly respectable professional position, but he soon entered public life. Nearly fifty years ago the town of Hopkinton elected him to our House of Representatives. In 1818 and the two subsequent years he was Speaker of the House. He was then elected a Representative to the 17th Congress, and re-elected to the 18th Congress. In 1825 he was elected to the State Senate, and in that and the two following years he was elected President of the Senate. In 1828 he was elected to the Executive Council from the Hillsborough District, and in 1830 he was elected Governor of the State. So that Judge Harvey has been the presiding officer of each branch of our Legislature three successive years, a member of the Executive Council, and Governor of the State. I can recall the name of no gentleman of the State who has received similar tokens of the public confidence. In 1831, while fulfilling the duties of Governor, he was appointed Judge of the U. S. District Court,—and this position he held, discharging the duties to universal acceptance, until his death. Perhaps no Judge for so long a time was ever more practical and uniform in attending the terms of Court. He was in town a few weeks ago, held the March term of his Court, apparently in his usual health, spoke to his friend the Clerk of his great age, and expressed some hesitation about remaining in office to join in holding this term. He died at his home in Concord after a few hours' illness on the 7th of April last, in the 85th year of his age—thus ending a long, successful and honored life without bodily suffering or mental decay. He died as he would have chosen to die.

No more upright magistrate ever occupied the seat of justice; no more kind and genial man ever sweetened the toils of the Court Room. In addition to his attainments as a lawyer and judge, he was a gentleman of scholarly tastes and habits—accurately read in the history of his country and the lives of its prominent men.

To those of us who have long practised at this Bar, it appears but a short time since your Honor took your seat in this Court,—yet if the report in the morning papers be true as to the resignation of the District Judge of Maine, you have within that time witnessed a change in every District Judge in your Circuit. These changes have not lost you or brought you a more acceptable associate than Matthew Harvey.

JUDGE CLIFFORD'S REPLY.

The Court cordially concurs with the Bar in the resolutions they have adopted as a tribute of respect to the memory of Hon. Matthew Harvey, deceased, late District Judge of the United States for this District, and will cordially comply with their request that the same may be entered in the minutes of the Court. Such a testimonial is no more than what is due to the high character and long public services of the deceased. Connected as he has been with the Federal judiciary in this District for thirty-five years, it is eminently proper that the Bar should give expression not only to the sense of the loss they have sustained in his death, but to the kindly remembrance they have of his fidelity to duty, and his uniform urbanity in all his official relations. When a faithful judge and a good man has fallen in our midst, it is fit that the bar should for the moment suspend their usual avocations and unite in some proper testimonial of respect to his memory, as a matter of justice to the deceased, and as an encouragement to those who survive him to follow in his footsteps and imitate his example.

Judge Harvey has held many public positions,—and it may be truly said that in all of them he has enjoyed the confidence and esteem of all who knew him, as a man of pure motives and unsullied life and character. He was seven times elected to the House of Representatives in this State, from the town in which he first located himself to pursue his profession, and he was afterwards twice elected to the Senate of the State from that Senatorial District. While in the House of Representatives, he was elected Speaker, and he was the presiding officer of the Senate during both of years he served in that body. His course in the Legislature was so acceptable to the people of the State that in the year 1821 he was elected to Congress, and was re-elected and served for a second term.

Leaving Congress, he was chosen to the Council of the State, and in 1830 was elected Governor. During that year a vacancy occurred in the office of District Judge for this District, and he was immediately selected by Gen. Jackson to fill that place, which is now made vacant by his death. Since his appointment generations have passed away, and yet it is said he was never absent from the Court for a single day. Few men of this State have enjoyed greater honors, and none have gone to the grave with a more general acknowledgment of their integrity and purity of life.

My acquaintance with the deceased commenced eight years ago, and during that period he has always been present at every term of the court, and it affords me pleasure to say that he was always ready to render me every assistance in his power, and to bear testimony to his fidelity as a judge and to the uprightness of his intentions in everything which pertained to our official intercourse.

His decease left in office but one of the four judges presiding in the district courts of the circuit at the time of my appointment, and the journals of the day announce that the only remaining one has resigned. They were men in advanced life when I came into the court, but they were men of the highest integrity and rigor in experience. Simple justice requires me to say that they received me with the utmost kindness and urbanity, and have always been ready to the extent of their ability to render what assistance they could in the performance of the duties of the circuit court. Two are gone, but two remain, and they have my best wishes that their lives and health may be continued.

Agreably to the request of the bar, I direct that the resolutions presented be inserted in the minutes of the court.

DR. E. R. CORARER'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, Nos. 298, 300, and 302 Henry street, N. Y.—Office, 42 Cedar street.

This Company organized on a permanent basis, with Courtaret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish Disinfecting Fluids for sick rooms, nurseries, urinals, water closets, privies, cesspools, sewers, gutters, ships, railroads, hospitals, prisons, and public institutions of all kinds, slaughter-houses, offal and fat-boiling establishments; all kinds of manures (*immensely* increasing the value of the latter), and wherever noxious and offensive gases exist. These agents are deodorizers, antiseptics, antiputrescents, and disinfectants in the scientific meaning of the words. They remove noxious gases and odors by chemical principles—leaving in their places *healthful air*; they are DESTROYERS, and not simply *concealers* of poisonous gases—not injurious to utensils in which they are used. The attention of medical and scientific men is directed to these disinfectants. Attached are testimonials in favor of this great discovery, which, with hundreds of others, can be seen at the Company's office.

From 618 Broadway, New York, will arrive in PORTSMOUTH May 14th, and take rooms at the FRANKLIN HOUSE, for a short time only.

A Clear Case of Clairvoyant Sight.

DEAR MADAM:—Permit me to tender you my sincere thanks for the cure you have effected on my child. My daughter, ten years old, was taken sick last January in a very singular manner. We called in six of the best Physicians in the city; they said the case was a very singular one—they never saw one like it—and came to the conclusion they could not tell what the disease was. Some friends advised that we should call on a Clairvoyant; there being none in Providence that we could rely on, we wrote to Mrs MANCHESTER, in Portland, describing her symptoms. She immediately examined her case and told that she had a Snake in her stomach, told where she had drank it, and that it had been growing, and from the best of her judgement she should think it ten or twelve inches long. I gave the child her prescription and in a few hours the child expelled the snake alive from the stomach; it was measured and found to be eleven and a half inches long. We have it preserved, that all may see for themselves that the statement is really so. I am confident that the child could not have lived, had it not been for Mrs Manchester, and we feel as though she never could be repaid for her skill. MARY RAY,

GEO. W. RAY.

Providence, R. I., Nov. 10, 1865.

BANGOR, May 15th, 1865.

MRS MANCHESTER—Dear Madam: When you were in Bangor last Summer, I called to see you with a child of mine that had been sick for four years. I had taken her to a number of physicians, and none could tell what ailed her or even her symptoms. You examined her case and told me exactly her symptoms from the commencement of her sickness, which were very peculiar; also told me there was another alive in her, and also said there was a number of them, and told me that she drank them from a rain-water cistern. You said that you could not warrant a cure, but would try and do the best you could for her. She commenced taking your medicine in August last, and from that time until December, she chief passed off large quantities of what we call *Tadpoles*, from rain water, and I think, and am certain that the child must have died had it not been for you. And I advise everybody to see Mrs Manchester, for I know that she has the power of knowing the condition of a person diseased better than any Physician that I have ever heard of. Please have this published, and let the world know that there is one who practices what they profess to.

Very truly and gratefully yours,

GEORGE E. MARTIN,

DISEASED TEETH, in all stages, treated, and in a very large number of cases entirely cured.

Charges for such operations necessarily high, but nothing in comparison to the value of the Teeth. men14

WHICH IS THE

Leading Life Insurance Comp'y

IN THE UNITED STATES?

Which is the Safest and the Cheapest?

The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of the

MUTUAL BENEFIT

LIFE INSURANCE COMPANY,

to be the *largest*, the "expenses of management" the *smallest*, the "ratio of assets to liabilities" or the *security* furnished to its members, the *largest* of any life institution in the country.

Premiums received in 1864.....$2,089,072
" " " " 1865.....3,029,087
Ratio of expenses to premiums rec'd in '64..12.96
" " " " " '65..12.10
Ratio of assets to liabilities, Jan. 1, 1865....151.35

The inevitable conclusion from these official facts, is that the

MUTUAL BENEFIT LIFE

Insurance Company

IS THE BEST AND THE CHEAPEST.

Because its NET ASSETS are proportionably LARGER than those of any other Life Insurance Company in the United States.

Because its "Managing Expenses" are LESS, and it has a LARGER SURPLUS to divide among its members than any Company in the United States.

Remember! Will some one inform the public of that mysterious process by which a Company with a surplus proportionably *much less*, and expenses very much larger than another, can yet divide *more* to its members, and insure them at *less cost*? How is it done? Where does the money come from?

Every intelligent man will see at once that it *cannot be done*. Yet we have Agents among us that make this their boast.

Any one disposed or intending to insure can be furnished with the requisite information by applying to

Morning Chronicle.

THE ROBINS HAVE COME BACK AGAIN.

There's a call upon the housetop, an answer from the plain,
There's a warble in the sunshine, a twitter in the rain;
And through my heart, at sound of these,
There comes a nameless thrill,
As sweet as odor to the rose,
Or verdure to the hill;
And all these joyous mornings
My heart pours forth this strain—
"God bless the dear old robins,
Who have come back again."

For they bring a thought of Summer, of dreamy, luscious days,
Of king-cups in the meadows, making a golden haze,—
A longing for the clover blooms,
For roses all aglow,
For fragrant orchards, where the bees
With droning murmurs go.
I dream of all the beauties
Of Summer's golden reign,
And sing—"God keep the robins,
Who have come back again."

☞ Some democrats say that the South has yielded more than she should, and more than anybody had a right to demand. She yielded only to compulsion, and there are no limits to the rights of conquerors. Those who conquered the Confederacy had the right to do as they pleased with the Confederates, and it is a matter of regret that they did not exercise their right so far as to settle the matter of reconstruction without asking the opinion of their captives. This they might have done in a spirit at once merciful and firm, and thus have restored peace to the country.

The Vicksburg Herald, which has a special contract with the State Department for printing the United States laws passed during the last five years, and for which they receive several thousand dollars, informs its readers in an editorial that the laws of this Congress must be held to be of no binding force.—*Tribune.*

This is another evidence of the diplomacy of Mr. Seward, that makes the country happy, we suppose. With what gusto Mr. Seward punishes traitors! Soub Forney's Chronicle because it defends Congress, and pamper the Vicksburg Herald because it denounces Congress. Great is diplomacy. *Monitor.*

— Cave Johnson, whom we had supposed dead, has turned up again, but only to be turned out of the Senate of Tennessee. He was elected to that body, and when his eligibility was doubted on the ground that he was a traitor, he made a speech "defining his position," which showed the doubt was well taken; and he was sent back to those who chose him. The old fellow is 74; and that he should stick to rebel doctrines, tho' he denies that he was for secession, but "went with his State," shows how hopeless is the task of washing Southrons into Unionists.—*Traveller.*

AGENTS WANTED
—FOR THE—
Great National Work,
THE
STANDARD HISTORY of the WAR,

Complete in one very large Volume of over 1,000 pages,

Splendidly Illustrated with over 150 Fine Portraits of Generals, Battle Scenes, Maps and Diagrams.

In the selection of matter for this great work the author has confined himself strictly to *official data* derived from the reports of Northern and Southern Generals, the report of the Committee on the Conduct of the War, National and Rebel Archives, etc.

He has carefully avoided the introduction of any matter not strictly *reliable* and *official*, and has succeeded in producing what is universally demanded, a *fair* and *official* History of the War. The great superiority of this work over all others is everywhere acknowledged. It is marked by a degree of thoroughness and accuracy attempted by no contemporary.

Disabled officers and soldiers, teachers, energetic young men, and all in want of profitable employment, should send at once for circulars, and see why it sells faster and gives better satisfaction than any other History published. Address, JONES BROTHERS & CO., 14 Phœnix Building, Boston.

WANTED.—LOSSING'S SUPERBLY ILLUSTRATED HISTORY OF THE WAR. 3 vols. 600 pages each. Over 1,000 fine engravings, besides maps, diagrams, etc., costing $50,000. Indorsed by Governors of all the States, leading Generals, prominent literary men, and others. This presents a profitable and permanent business to active, intelligent men or women, clergymen, and others. ANDREW BOYD, General Agent New England States, 255 Washington street, Boston, Mass.

Ayer's Sarsaparilla

Is a concentrated extract of the choice root, so combined with other substances of still greater alterative power as to render it an effectual antidote for diseases Sarsaparilla is reputed to cure. Such a remedy is surely wanted by those who suffer from strumous complaints, and that one which will accomplish their cure must prove, as this has, of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found in the following complaints:—

Scrofula, Scrofulous Swellings and Sores, Skin Diseases, Pimples, Pustules, Blotches, Eruptions, St Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, &c.

Syphilitic or Venerial Disease is expelled from the system by the prolonged use of this SARSAPARILLA, and the patient is left in comparative health.

Female Diseases are caused by Scrofula in the blood, and are often cured by this EXTRACT OF SARSAPARILLA.

Do not discard this invaluable medicine, because you have been imposed upon by something pretending to be Sarsaparilla, when it was not. When you have used AYER'S—then, and not till then, will you know the virtues of Sarsaparilla. For minute particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the agent below named will furnish gratis to all who call for it.

AYER'S CATHARTIC PILLS, for the cure of Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Headache, Piles, Rheumatism, Heartburn arising from Disordered Stomach, Pain or Morbid Sensation of the Bowels, Languidness, Loss of Appetite, Liver Complaint, Dropsy, Worms, Gout, Neuralgia, and for a Dinner Pill.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best Aperient in the world for all the purposes of a family physic.

Daily Morning Chronicle

VOL. XXVII. PORTSMOUTH, N. H. SATURDAY, MAY 12, 1866. No. 112.

The Chronicle.

— It is said that about forty tons of fish are caught annually at Moosehead Lake.

— The St. Croix Courier says that it is stated that Killian and his confrees left their hotel bill and other debts in Easport, amounting to upwards of $1000, unpaid.

— Intelligence has been received at Nashville that a mob broke into and sacked a building occupied by the Freedmen's Bureau at Meridian, Miss., and then set fire and burned the building. It is also stated that on the 30th ult. Geo. Burra, at Grenada, Miss., was foully murdered.

—Dr. J. G. Holland (Timothy Titcomb) has retired from the Springfield Republican, with which he has been connected for many years. He intends spending next year in Europe, and will hereafter devote his energies to literary pursuits exclusively, untrammeled by the cares and responsibilities of newspaper connection.

— Louisville is suffering from a visitation of rats, and a city ordinance is proposed giving a premium of a cent a head for every Norway rodent that shall be daily produced before the City Treasurer. It is said that a man of ordinary industry, working eight hours daily, may earn from five to fifteen dollars per day by killing rats, even at this low rate.

— A gentleman in Deerfield, Mass., has an old Indian burial-ground in the rear of his house, and it is said of him that when he has a dinner party at his house he entertains his guests after dinner by inviting them to the home lot and digging up an old Indian, very much after the style of the King of Naples, who uncovers a house in Pompeii.

THE LIGHT OF THE WORLD.
DR. MAGGIEL'S
PILLS AND SALVE
These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century do private practice the ingredients in these
Life-giving Pills!
Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be
A Very Fountain of Youth,
For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle-aged, they will prove most invaluable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth ever
AN ETERNAL SPRING!
It was left for this day and hour to realize the dream, and show, in one glorious fact, the magic that made it fair.
Those Famous Remedies
Cannot stay the flight of years, but they can force back and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—
FOR BILIOUS DISORDERS
Nothing can be more productive of cure than these Pills. Their action on the sluggish liver is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest
VEGETABLE COMPOUNDS.
They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe
For Cutaneous Disorders
And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.
DR. MAGGIEL'S PILLS
Invariably Cure the Following Diseases.
Asthma,
Bowel Complaints,
Coughs,

Morning Chronicle.

Portsmouth N. H.

SATURDAY, MAY 12, 1866.

RECONSTRUCTION IN CONGRESS.—Thursday, May 10, was a busy day in Congress. In the SENATE, the bill granting Admiral Farragut a Secreary passed.

The resolution asking the Secretary of War what were the intentions of the Government with regard to the works at Harper's Ferry was passed.

The bill authorizing the coinage of five cent pieces was passed.

The bill imposing twenty five per cent. advalorem duty on cattle imported into the country, was passed with an amendment exempting for ten days cattle already owned by American citizens now in British Provinces.

The Post Office appropriation bill was taken up.

Mr. Nye continued his remarks commenced Wednesday against the President's policy and in favor of the punishment of traitors.

Mr. Doolittle in reply, defended President Johnson, and pitched into the Radicals; and closed his speech by warning the Republican party of the *political volcano* which would burst upon them if they attempted to carry out radical measures!

The Senate, in executive session, confirmed without a division the nomination of Mr. Smyth to be Collector of the port of New York, and also Gen. Knipe, to be Postmaster at Harrisburg.

Mr. Doolittle's volcano, however didn't frighten the House, tho' his speech cleared the galleries of the Senate.

In the House, the Reconstruction Amendment was taken up, and debated. General Banks made a strong speech in favor of the measure, Farnsworth of Ill. and Thad. Stevens did the same. Rogers and others, opposed.

Stevens moved the precious question.—This was not acceptable to many conservative Republicans, who desired to amend the proposed amendment by striking out the third section, but the Democrats practiced the same tactics that they did when universal suffrage was carried in the House instead of qualified suffrage—they united with the radical Republicans, and the previous question was seconded by a vote of 84 ayes to 79 nays.

The main question was then ordered, by the same vote, 84 to 79. The Speaker put the vote on the main question. This time there was a division—*every man elected as a Republican* coming squarely up to the work, no matter what his personal opinions or predilictions on the third section might have been. When the Clerk called Henry J. Raymond every one was attentive to hear how he would vote, for his hostility to the third section was well known, and when he responded aye there was a round applause on the floor and in the galleries.

Only two men suspected of taint of loyalty, voted nay, viz. Smith and Rousseau of Kentucky. Speaker Colfax had his own name called at the close,—and then the vote stood, Yeas 128, Nays 37! more than three quarters.

The speaker, in announcing the vote, said two-thirds of the voting was in the affirmative, and "I declare the Joint Resolution passed." The announcement was greeted with considerable jubilation in the hall, the members clapped their hands.—There was also a clapping of hands in the galleries, to which Mr. Eldridge took exception, asking whether the business of the House was to be disturbed by the people in the gallery, but Mr. Jack Rogers said that now was the time for the niggers to wave their handkerchiefs, and he hoped that they would be permitted to do so.

The Speaker, however, admonished the members on the floor, as well as the spectators in the galleries, that they must observe the rules of the House, and that neither applause nor disapprobation should be manifested.

Mr. Eldridge followed this up by saying he did not want to be disturbed by "niggerheads" in the gallery.

The Speaker informed the member from Wisconsin that he must not insult the spectators in the galleries.

A resolution was adopted directing the Committee on Invalid Pensions to inquire into the expediency of amending the pension laws, to place dependent fathers on the same footing as mothers.

A resolution was adopted directing the Commissioner of Public Buildings to communicate a list of his clerks, specifying those, if any, who have been in the rebel army.

☞ One of the directors of the Merchants' National Bank, recently suspended in Washington, says that its failure was due to fraud and swindling. He had, while a director, frequently examined the books, and found them so full of mistakes and inconsistencies which nobody could or would explain, that he some time ago resigned and sold his stock. The president was not a man of means, and had a salary of only two thousand dollars, yet managed to live at the rate of ten or twelve thousand.

Correspondence of the Chronicle.

By the fire at the Shoals, more than half the property of the town was destroyed. The value of what is left is reduced one-third. The number of inhabitants will be considerably lessened. And the high taxes and heavy war debt will press crushingly on all that is left of the previously fast improving little place. The town records are missing, and probably consumed, as is also the beautiful case of surgical instruments presented to the town by the Rev. Daniel Austin. At the critical moment—the island being magnificently bridged by a broad sheet of roaring flame—the high wind changed its direction, thus saving the Church, Schoolhouse and Parsonage from destruction, as well as several dwellings in the vicinity. Though no lives were lost, several persons had narrow escapes. Mrs. Sally Caswell was considerably burned, but was rescued through a side window. Mr. John Downs was nearly suffocated with smoke and cinders; but borne in the strong arms of his son Oliver to a place of safety, he soon rallied. Mr. Morrison Foss of Rye had a fall from a roof, and might have been seriously if not fatally injured, but for the timely assistance of Mr. James Haley, Jr., who caught him in his fall, wrenching himself severely in the generous act. Mr. T. H. Sterling, residing on one of the river islands, had the very hair of his head burned, and holes in his clothing, in his heroic efforts to save the property of others.

Where all did well, it is embarrassing to designate any by name. Mr. Christian Johnson, with his crew of assistants from a neighboring island, was promptly on hand, well supplied with buckets—the only means of conveying water in case of fire at the Shoals. To Mr. James Randall is mainly due the credit of saving one house covered with cinders and licked by flame. Mr. Origen Caswell had to keep himself drenched to prevent being burned at his post, searching for a keg of gunpowder, which he found and removed, lest by its explosion precious lives around might be sacrificed. Mr. William Berry forgot his own effects in the burning building and devoted himself to saving those of another. Mr. Lorenzo Berry sprang from his bed, and in *dishabille* ran to a sleeping neighbor whose house was enveloped in dense smoke, to alarm the family that might otherwise all be burned together.

Though the scene was appalling enough for the stoutest hearts, still no foolish fainting or frenzy characterized the women, who, with commendable composure packed up, and with their little ones—whose large eyes looked wonderingly—were conducted to places of safety. The view of the little town is greatly changed. A circle of inferior buildings environs the burnt district, and desolation is stamped on all. At the Chapel, on Sabbath evening, sad but still strong hearts gathered for religious instruction from the terrible lesson. The deep words of the great prophet—"Wickedness burneth as a fire," afforded a pointed application. After the service, it was unanimously

Resolved, That the thanks of this town are due to Mr. Morrison Foss of Rye, and to Mr. T. H. Sterling of Portsmouth, for their very efficient aid in staying the terrible conflagration that threatened the utter destruction of the town; and that we rejoice with them, their families and friends, at their escape from serious harm while voluntarily engaged in rescuing life and saving property.

Resolved, That a copy of the above be forwarded by the Selectmen for publication in the Daily Chronicle, of Portsmouth.

In behalf of the town:

R. G. HALEY,
A. J. LEAVITT,
J. OLIVER DOWNS,
} Selectmen.

O. S. CASWELL, Town Clerk.

Among those who lost their all may be noticed Mr. Origen Caswell, Mrs. Sally Caswell, Mr. Jackson Caswell and Mr. William Berry, neither of whom had any insurance. On the origin of the fire, opinion is divided. How any one could be so black-hearted as to maliciously destroy a whole town, and endanger the lives of women and children, is hard to conceive, and still many things indicate an incendiary, though nothing *positive* is apparently known about it. A legal investigation of the matter could do nobody any harm.

The kind-hearted proprietor of the Atlantic House, always anxious and careful about fire, was so shocked by the alarm and presence of the dread element, that he was for several minutes entirely unable to rise from bed. An invalid just returning, found his own home burned down, his sister's house in ashes, his brother's residence smouldering ruins, and of his aunt's, only a few scattered pieces of charcoal—an accumulation of misfortunes rendering him emphatically homeless. Altogether, it is a dark day for the Shoals; and though we shall bravely do all we can ourselves to recover from the calamity, still it does not seem to be too much, nor inappropriate, that we should look with expectation to our old friends and patrons for a helping hand in this time of need. Friends in Portsmouth, Newburyport, Boston, New York and Philadelphia! a few boxes of underclothing, bedding, &c., or the means for their purchase, consigned to the Selectmen for distribution, would now be gratefully received and seriousably applied.

G. BEEBE, Missionary.

Gosport, N. H., May 8th.

STODDARD'S CHOLERA SPECIFIC is a well known and effective medicine. Its testimonials are from our own citizens, men whom we all know, and who occupy the higher walks of life. It is no patent nostrum, got up at this time to feed upon the fears and cupidity of the public. It has stood the test of time, and been productive of the happiest results in hundreds of instances. We feel no hesitation whatever in commending it, and in advising all families to employ its agency for the cure of the diseases for which it is specially recommended. The remedy is the same which was used so successfully at Constantinople by Missionary Hamlin during the rage of cholera there, and also in New York during the cholera season of 1849. Its ingredients are published on the label of each bottle. All may understand, therefore, exactly what they are taking, and in this respect, as well as in its happy effects upon the patient, it is unlike nearly every other advertised medicine extant. Messrs. Stoddard & Burton, proprietors of the Specific, are well known in this city and vicinity as honorable dealers, who would not attempt to impose upon the public an article unworthy of its confidence. Besides, the Specific already enjoyes the benefit of at least ten years' trial, and has secured the highest commendations among those who know the manufacturers. The Specific is carefully prepared, and none but the purest ingredients are used. We feel perfectly safe in recommending the article in all cases for which it is claimed to be a specific.—*Troy Daily Times.*

SHIP BUILDERS STRIKE IN NEW YORK The ship builders' strike in New York city, in which the ship-caulkers, joiners and carpenters struck for the eight hour system, has been going on for the last five weeks and still continues, occasioning much deprivation among that class of mechanics. Ten thousand men are thus thrown out of employment and great suffering is the consequence. The pawn shops are overrun with articles pledged by these mechanics to supply their families with the necessaries of life. The employers are so organized as to be able to resist the strike, and say they will do so, if it takes a year. Many of the men are willing to be employed at the old prices, but the Trades Unions will not permit it.

NEW HAMPSHIRE ITEMS.

—— Orders have come from Washington to Concord, to arrest a war-widow who draws a pension,—but who is really no widow at all, but a wife.

—— A young Frenchman had both legs and both arms broken, by getting into the machinery of the Holderness Paper Mill, on Tuesday.

☞ On Monday, at Waltham, Mass., one Angus M'Millane, was foolishly trying experiments on some shells, (among old iron,) with a hot iron rod, when one exploded, killing Capt. Howard, who was passing; also killing two little boys; and badly wounding the foolish experimenter.

☞ It is reported that Fort Goodwin, Arizona, was lately taken by 2000 Indians, and the garrison, 124 men, all killed but one. It is supposed the Indians gained admittance on pretence of making a treaty.

REDUCTION IN PRICE

OF THE

AMERICAN WATCHES.

MADE AT WALTHAM, MASS.

In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed

With Gold at Par,

so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of

More than 200,000 Watches,

have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.

We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:

1. "American Watch Co., Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy & Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.

The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,

ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED

to be the best time-keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit orders for single watches.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

ALLCOCK'S POROUS PLASTERS.—A celebrated physician says "he was amazed at the great number of beneficial indications produced by one of these plasters. He affirms that *headache* is cured by one worn just below the breast-bone; that one placed over the navel will cure hysterics, as well as dysentery, and affections of the bowels."

CURE OF VARICOSE VEINS.

City Point, Va., January 24, 1865.

T. ALLCOCK & CO.:

Gentlemen: Seeing your notice in the Police Gazette, I got four of your Porous Plasters and placed them on the parts where the pains were most severe, and in less than twelve hours could walk as well as ever. I could hardly believe it, I was so well pleased. I wanted to see if the lameness would come back on me or not, and did more walking that day than I had done in a week. The next day I had some pain in my hip, but I put on a plaster there and in two hours the pain was all gone, nor have I felt it since. Certainly they are the best application for the relief and cure of pains in the joints and back, and for varicose or enlarged veins, I have ever known, and I would not be without them on any account. Yours truly,

MAGGIEL'S

Spring and Summer Remedies.

"Great oaks from little acorns grow." The worst diseases known to the human race spring from causes so small as to almost defy detection. The volumes of scientific lore that fill the tables and shelves of the medical fraternity only go to prove and elaborate these facts. Then guard yourselves while you may. The smallest pimple on the face is a cell tale and indicator of disease. It may fade and die away from the surface of the body, but it will reach the vitals, perhaps, at last, and death be the result and final close. MAGGIEL'S BILIOUS, DYSPEPTIC and DIARRHEA PILLS cure where all others fail. While for Burns, Scalds, Chilblains, Cuts, and all abrasions of the skin, MAGGIEL'S SALVE is infallible. Sold by J. Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liverspot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, without injuring the texture or color of the skin, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Local.

IN BOARD OF ALDERMEN, Thursday evening, May 10, a petition of Foxwell C. Staples and others, for the use of the attic of Hanover street school house, was referred to the Com. on City Lands and Buildings.

Petition of Henry A. Palmer for leave to open drain on Washington street was referred to Committee on Streets.

Leave was granted to John Donovan to relay sidewalk on State street; also to W. N. Illsley for relay of sidewalk on State St.

Communication of Clark. H. Wentworth relative to Railroad Crossing on Vaughan street, and damage to carriage while passing the same, was referred to Committee on Streets.

Leave was granted for gas lights on corner of Market and Hanover streets, and on Elm street.

Petition of J. Brooks for new sidewalk on Cabot street was granted.

Voted, That the Principals of the High Schools be requested to inform the Board of Aldermen of the names of all pupils attending said schools who are not residents of Portsmouth, and the length of time such pupils have attended the schools.

The Committee on Streets were requested to report on the condition of Whidden street.

IN COMMON COUNCIL, the Committee on 2d reading of bills reported back in a new draft an ordinance relating to junk dealers. Report accepted, and the bill was read a first time.

The Appropriation Bill was then taken up and each item separately acted upon.

The appropriation of $3000 for pay of engineers and firemen was laid on the table for one week.

An appropriation of $3000 for repairing outside of building now occupied for city offices was lost—yeas 5, nays 8.

An appropriation of $100 for celebration of Independence was stricken out, 10 to 4.

An amendment to appropriation of $900 for two night soil carts, adding $100 for gilding and $100 for weathercock or vane for each cart, was lost, and the whole appropriation stricken out.

Appropriations were passed of $2000 for re-building House of Correction; $1200 for construction of a reservoir; $10,000 for purchase and alteration of Academy; and $10,000 for new Ward Room and School House in Ward 3.

POLICE COURT, May 11.—Oscar Swett, an itinerant clock-cleaner, was brought up by Officer Teague for disturbing the domestic tranquility of a family on Hanover street, contrary to the laws made and provided. He was fined $6.86, and not having the needful, went to farming.

Joseph Fabyan, an old sandy-haired veteran in the cause of Bacchus, was fined $6.86, and he went to the Farm by preference, that place being more like home to him than any other.

John Wm. White was arraigned for assaulting Albion Wilson, on the 8th of this month, with intent to murder. Owing to the impossibility of Mr. Wilson being able to attend, White's case was continued till next Thursday, 17th. His bail was fixed at $1000, in default of which he went to jail.

☞ In connection with the course of Col. George in a recent case in this city, the Independent Democrat remarks:

We do not see why courts and magistrates should permit, in the trial of cases before them, such gross and wanton abuse of witnesses, as one too often hears of now-a-days. That an attorney should be permitted to badger, brow beat, bamboozle and bull-rag a witness upon the stand for the opposite party, for the mere purpose of confusing him and disgracing him in the eyes of the jury, as is often done, is an impediment in the course of true justice, as well as a disgrace to our system of judicial trials and examinations which should be done away with instanter. The presiding judge or magistrate certainly has power in the premises, to insist that the witness stand shall not be rendered, through an attorney's heartless defiance of the rules of ordinary decency and common civility, as disagreeable a position for any sensitive man or woman, as would be the criminal's box. No lawyer who has not more brass than brains, and less heart than either, will resort to the practice of abusing witnesses. The good lawyer may be close, severe, and acute in his cross-examinations, but he will be gentlemanly. The biography of the really great men in the profession confirms this view. To drive at the witness with the foaming ferocity of a raving bulldog is not the way to elicit the truth, or to find out whether he is telling it or not.

[To this may be added, that in many cases, the learned counsel and his client are more afraid of the *truth* than of any thing else, and do all they can to keep it off, or stave it off.]

PERSONAL.—C. M. Morse, Esq., of that popular summer hotel, the Pemigewasset House, at Plymouth, has been spending a few days in our city.

☞ The fourteen days necessary to render it a law expired yesterday in regard to the City Ordinance relating to the closing of all places where liquor is sold in this city.

☞ Those prime favorites, "Cotton, Murphy & Smith's Minstrels," are to visit us again next week.

☞ Have you attended the sale of ocean shells, Japanese curiosities, &c., at Wendell's auction room, 70 State street? Rare pieces of workmanship from all parts of the world, and elegant shells from the depths of the ocean, are among the collection, and must be sold without reserve. The agent for these valuable goods leaves this city on Monday. So drop in and secure an elegant ornament at a low price.

☞ On Friday morning Marshal Kent received a telegram from the Sheriff of Essex Co., Mass.,—"Hold Wm. H. Roberts; he is a runaway from our House of Correction." But the Marshal has already *holed* him on charges that will be likely to furnish him more distinguished apartments than those in a House of Correction.

☞ Mr. Wendell sells carpets, curtains, furniture, &c., at 10 o'clock to-day.

Betton & Co. also have their regular sale at that hour.

At 11 o'clock Sheriff Morse will dispose of a large lot of liquors, cigars, &c., at store of A. J. Shorey & Co., on Penhallow street.

☞ On and after Monday, May 14, an Express Train will be run between Boston and Portland, leaving Portland at 6 P. M. and Boston at 7 P. M.

On Mondays, Wednesdays and Fridays the Express Train to and from Boston will run via Boston & Maine Railroad, stopping only at Saco, Biddeford, Kennebunk, North Berwick, South Berwick Junction, Dover, Exeter, Haverhill and Lawrence.

On Tuesdays, Thursdays and Saturdays will run via the Eastern Railroad, stopping only at Saco, Biddeford, Kennebunk, North Berwick, Portsmouth, Newburyport, Salem and Lynn.

A special Freight Train, with Passenger Car attached, will leave Biddeford for Portland at 8 A. M.

On Tuesdays, Thursdays and Saturdays the Express Train leaves Portsmouth for Boston at 7:56 P. M., and for Portland at 9 P. M.

☞ The Traveller says that Messrs. McKay & Aldus, of East Boston, have just completed one of the largest diving-bells in the country for the Eastern Railroad Company. It is designed to aid in building a bridge across the the Merrimac. Its sides are square, and its shape conical, 8 feet at the base and 4 feet at the top; it is 6 1-2 feet deep, has capacity for six men to work in, with 8 lights on the top and 8 in the sides. It is worked by a powerful derrick and chain, and its apparatus for supplying the workmen with air, is said to be of the latest improvement.

IMPORTANT.—The fact that cannot be too often stated, or too strongly urged upon the public, that the majority of the Saleratus in market is not only *very unhealthy*, but actually a slow poison, causing teeth to decay, and bringing on disease generally. Thanks to science, skill, perseverance and energy, that the man still lives who invented Herrick Allen's Gold Medal Saleratus, which has and is still doing such great wonders in the culinary department. MRS. MANCHESTER,

The Independent

CLAIRVOYANT!

—AND—

ECLECTIC PHYSICIAN!

From 618 Broadway, New York, will arrive in PORTSMOUTH May 14th, and take rooms at the FRANKLIN HOUSE, for a short time only.

A Case of Clairvoyant Sight.

DEAR MADAM:—Permit me to tender you my sincere thanks for the cure you have effected on my child. My daughter, ten years old, was taken sick last January in a very singular manner. We called in six of the best Physicians in the city; they said the case was a very singular one—they never saw one like it—and came to the conclusion they could not tell what the disease was. Our friends advised that we should call on a Clairvoyant; there being none in Providence that we could rely on, we went to Mrs MANCHESTER, in Portland, describing her symptoms. She immediately examined her case and told that she had a snake in her stomach, told where she had drank it, and that it was been growing, and from the best of her judgement she should think it ten or twelve inches long. I gave the child her prescription and in a few hours the child ejected the snake alive from the stomach; it was measured and found to be eleven and a half inches long. We have it preserved, that all may see for themselves that this statement is really so. I am confident that the child could not have lived, had it not been for Mrs Manchester, and we feel as though she never could be repaid for her skill. MARY RAY,

GEO. W. RAY.

Providence, R. I., Nov. 10, 1865.

BANGOR, May 15th, 1865.

MRS MANCHESTER—Dear Madam: When you were in Bangor last Summer, I called to see you with a child of mine that had been sick for four years. I had taken her to a number of physicians, and none could tell what ailed her or even her symptoms. You examined her case, and told me exactly her symptoms from the commencement of her sickness, which were very peculiar; also told me there was something alive in her, and also said there was a number of them, and told me that she drank them from a rain-water cistern. You said that you would not warrant a cure, but would try and do the best you could for her. She commenced taking your medicine in August last, and from that time till December, the child passed off large quantities of what we call *Tadpoles*, from rain water, and I think, and am certain that the child must have died had it not been for you. And I advise everybody to see Mrs Manchester, for I know that she has the power of knowing the condition of a person disease better than any Physician that I have ever heard of. Please have this published, and let the world know that there is one who practices what they profess to.

Very truly and gratefully yours,

GEORGE E. MARTIN,

WHICH IS THE

Leading Life Insurance Comp'y

IN THE UNITED STATES?

Which is the Safest and the Cheapest?

The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of the

MUTUAL BENEFIT

LIFE INSURANCE COMPANY,

to be the *largest*, the "expenses of management" the *smallest*, the "ratio of Assets to Liabilities," or the *security* furnished to its members, the *largest* of any like institution in the country.

Premiums received in 1864..... $3,088,072

Ratio of expenses to premiums rec'd in '64.. 12.96

" " " " " 1865.. 12.95

Ratio of assets to liabilities, Jan. 1, 1865.... 151.85

The inevitable conclusion from these official facts, is that the

MUTUAL BENEFIT LIFE Insurance Company

IS THE BEST AND THE CHEAPEST.

Because its NET ASSETS are proportionably LARGER than those of any other Life Insurance Company in the United States.

Because its "Managing Expenses" are LESS, and it has a LARGER SURPLUS to divide among its members than any Company in the United States.

QUERY. Will some one inform the public of that mysterious process by which a Company with a smaller surplus proportionably to its business, and expenses *very much larger* than another, can yet divide *more* to its members, and insure them at *less cost*? How is it done? Where does the money come from?

Every intelligent man will see at once that it *cannot be done*. Yet we have Agents among us that make this their boast.

Any one disposed or intending to insure can be furnished with the requisite information by applying to

DR. E. R. COURARET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, Nos. 26, 28, 30, and 302 Henry street, N. Y.—Office, 42 Cedar street.

This Company organized on a permanent basis, with Courtaret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish its DISINFECTING FLUIDS for sick rooms, nurseries, urinals, water closets, privies, cesspools, sewers gutters, ships, railroads, hospitals, prisons, and public institutions of all kinds, slaughter-houses, offal and fish-boiling establishments; all kinds of manure (*immensely* increasing the value of the latter), and wherever poison gas and offensive gases exist. These agents are deodorizers, antiseptics, antiputrescents, and disinfectants in the scientific meaning of the words They remove noxious gases and odors by chemical properties—leaving in their place *healthful air*; they are DESTROYERS, and *not merely absorbents* of poisonous gases—not injurious to utensils in which they are used. The attention of medical and scientific men is directed to these disinfectants. Attached are testimonials in favor of this great discovery, which, with hundreds of others, can be seen at the Company's office

DELAVAN HOUSE, Albany, March 30, 1866.

To the President of the New York Disinfecting Co.:

Dear Sir: It is all it is represented to be. We have made many trials of disinfectants, but now consider that we have found an article which surpasses all others as a remedy against all bad odors. T. ROESSEL & CO.

NEW YORK, April 9, 1866.

To the President of the New York Disinfecting Co:

Dear Sir: We pronounce it without exception to be the best we have ever known. Its effect upon every matter is complete and instantaneous.

Morning Chronicle.

CASE OF POISONING.—A case of willful poisoning occurred last week in our neighboring town of Cape Elizabeth. It seems that a young lady, a daughter of Mr. Samuel Dam, attended a festival on Thursday even, and found in her pocket, on returning home, some lozenges, of which she tasted, though she did not know how they came there. She was taken very sick on Friday morning, but by the aid of several physicians she was somewhat relieved of the effect of the poison on Saturday. It was ascertained that the lozenges were saturated with strychnine and morphine enough to cause death had a whole one been taken. A certain party is strongly suspected of the diabolical plan of attempting the young lady's life, and may be arrested and held to answer for the crime.—*Port. Press.*

— The Charleston (S. C.) Courier is making strenuous efforts to invite white labor to settle in that State. They have discovered that there is an immense amount of unimproved water power there and valuable mineral resources to be developed.

— A Washington letter writer tells a droll story of the President, by which it would appear that he was shaved the other day, when the barber accidentally tweaked his nose a little too hard. "Pardon me," said the barber, very naturally. "Put your hand in my coat pocket and pull out one," rejoined the Chief Magistrate, "and I'll fill it out for you when you've done."

HIGHLY IMPORTANT

UNFORTUNATE FEMALES!

DR BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficiency in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Blender, &c.

His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.

Office, No. 23 Endicott street.

Persons at a distance can consult DR. BRISCOE, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.

Address DR. BRISCOE, at No. 23 Endicott St. Boston, Mass., stating symptoms. All communications are confidential.

Patients furnished with rooms and board if desired, and secrecy observed in every case.

Office hours from 9 A. M. to 9 P. M.

Boston, July 16, 1866. 1TuSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.

N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.

P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, No. 7 Endicott street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your case. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to his office practise for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE

In all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Persons who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Great National Work,

THE

STANDARD HISTORY of the WAR,

Complete in one very large Volume of over 1,000 pages,

Splendidly Illustrated with over 150 Fine Portraits of Generals, Battle Scenes, Maps and Diagrams.

In the selection of matter for this great work the author has confined himself strictly to *official data* derived from the reports of Northern and Southern Generals, the report of the Committee on the Conduct of the War, National and Rebel Archives, etc.

He has carefully avoided the introduction of any matter not strictly *reliable* and *official*, and has succeeded in producing what is universally demanded, a *fair and impartial* History of the War. The great superiority of this work over all others is everywhere acknowledged. It is marked by a degree of thoroughness and accuracy attempted by no contemporary.

Disabled officers and soldiers, teachers, energetic young men, and all in want of profitable employment, should send at once for circulars, and see why it sells faster and gives better satisfaction than any other History published. Address, JONES BROTHERS & CO., 14 Tremont Building, Boston.

The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two page pamphlet sent in a sealed envelope, free to any address.

Price $2 per bottle, or three bottles for $5. Sold by all druggists; or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor,

Dr. W. B. MERWIN, 37 Walker St., N. Y.

Cherokee Remedy,

Cures all Urinary Complaints, viz: *Gravel, Inflammation of the Bladder and Kidneys, Retention of Urine, Strictures of the Urethra, Dropsical Swellings, Black Dust Deposits,* and all diseases that require a diuretic, and when used in conjunction with the

CHEROKEE INJECTION,

does not fail to cure *Gonorrhœa, Gleet and all Mucous Discharges* in Men, and *Leucorrhœa or Whites in Females.* The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.

Price, Remedy, One Bottle, $2, Three Bottles, $5.
" Injection, " " $2, " " $5.

The Cherokee "*Cure,*" "*Remedy,*" and "*Injection*" are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds,—in order to make money—in place of these. *Be not deceived.* If the druggists will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us in *perfect confidence.* We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,

A WHOLESOME BILL.—In the U. S. Senate, May 9, a bill was introduced to regulate appointments to and removals from office, and ordered to be printed. It provides that no person appointed to civil offices by the President, and confirmed by the Senate, shall be removable by the President, unless the same is consented to by the Senate, provided that members of the Cabinet may at any time be removed without the consent of the Senate. If the fixed term of any officer, however, expires during the recess of the Senate, the President may appoint a successor, who shall hold office until the end of the next succeeding session of the Senate, unless sooner superseded. Officers whose appointments have been conferred by the President or heads of departments alone may be removed at any time by the same. The President is authorized to temporarily suspend, during the recess, and by the advice of the Attorney General, any incompetent, corrupt or dishonest officeholder, and appoint his successor, to hold office until thirty days after the commencement of the next session of the Senate, the fact to be laid before the Senate within ten days after such commencement, the Senate to exercise the power of confirming or rejecting such suspension and appointment. No suspended officer is to receive compensation during suspension. In case of reappointments to office by the President, which the Senate rejects, or on which it refuses or neglects to take action, such office shall be vacant and no salary allowed. No person rejected by the Senate shall be again appointed by the President during the recess; nor shall the President appoint any person to fill a vacancy happening during the recess by death, resignation, expiration of term or other casualty not dependent on the will or action of the President. This bill ought to be passed by a two thirds vote of both houses.

AMERICAN AND FOREIGN PATENTS
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,
78 State Street, opposite Kilby Street,
BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person more competent and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

Morning Chronicle.

Portsmouth N. H.

MONDAY, MAY 14, 1866.

☞ A Washington dispatch of May 9, says:—

The report that the President has issued a proclamation declaratory of the true intention and meaning of his Peace Proclamation, is without any authority.

The report was ludicrous, and so is this denial of it:—and the proclamation itself, with the author (whoever he may be) would deserve to be laughed at,—were not the interests at stake so very important. We called it a riddle,—and so did the News, when it came out: and it has been variously understood, or misunderstood.

— Barnum has signed the pledge. We suppose that it is a business operation, as the tee-totalers are getting a monopoly of the humbug of the age.—*Exchange.*

[P. T. Barnum has been a tee-totaler for many years: and it is by no means improbable that in re-organizing some temperance society, he may have repeated his signature recently. The tee-totalers may have been "getting a monopoly of" sobriety—as they are only ones that are *sure* to be sober.]

☞ At an adjourned meeting of the 3d Parish in Portland, it was voted to concur with the Church in calling Rev. Mr. Walton (when the two Councils would instal) to be their pastor; and the Committee were directed to offer $2000 salary. No dissenting votes were offered; but we presume it is not to be inferred that no opposition exists. The whole case is something like this: the people have the right to choose their own religious teacher; the Councils which they called had the right to instal or not, according to their best judgment; and as they did not instal, the people have the right to call another that will do it. The old Independent Church in Portsmouth *ordained* some of their Ministers, without a Council; and Rev. Charles Milton, pastor of the largest congregation in Newburyport, was "*read* into office by the Deacons of the Church," and staid there many years. After his death, Rev. Mr. Campbell, the present minister, was installed by a Council, and no notice (that we ever heard of.) was taken of the previous action.

INTERNAL REVENUE.—The U. S. Internal Revenue collected is as follows:

In the First District of this State, comprising the counties of Rockingham, Strafford, Belknap and Carroll. From September, 1862, when the revenue law went into operation, until June 30, 1863, 10 months, the aggregate revenue returns in the First District amounted to $153,102. For the next entire year, closing June 30, 1864, the collections reached $320,099; while the next twelve months, dating up to June 30, 1865, showed the large return of $681,-719. For the six months ending with the 31st of last December, the figures were $589,913, making the sum total of revenue collections in the First District from September, 1862, to December 31, 1865, $1,744,833. There have been no cases of fines for frauds, and the penalties collected have amounted to only a trifling sum. The outstanding taxes at the present time reach about $1000.

Among the largest revenue returns for the six months closing with December, 1865, were Portsmouth $68,131, which sum includes an ale tax of $20,485; New Market $31,515, Exeter $24,110, Salem $10,706, South New Market $9276, Candia $4203, Deerfield $2738, Hampstead $2299, Windham $1722, Epping $1672, Derry $1592, Dover $116,801, Rochester $85,649, Somersworth $62,300, Rollinsford, $28,811, Farmington $20,590, Milton $11,891, Laconia, $44,379; Gilford, $7583; Meredith, $5022; Alton, $2849; Wolfeboro', $9521; Conway, $3882, and Sandwich, $2265.

The following is a summary of the returns for New Hampshire.

Amount of revenue collected for the first ten months closing with June, 1863, in the First District, $153,102; Second, $218,810; Third, $102,451. For the year ending June, 1864, First District, $320,099; Second, $491,248; Third, $179,102. For the year ending June, 1865, First District, $681, 719; Second, $1,380,922; Third, $374,453. For the six months ending December 31, 1865, First District, $589,913; Second, $997,889; Third, $302,463. First District total, $1,744,533; Second District total, $3,068,869; Third District total, $958,469. Grand total for the entire State up to December 31, 1865, $5,792,171.

It may properly be mentioned that one great source of revenue is from manufactures, which accounts in part for the difference in the three districts. The Third District is, generally speaking, a "rural" section; the First District has a fair show for manufactures, while in the Second District the whirling spindles of Nashua and Manchester, and the varied business of Concord, swell the returns to over three millions.

It is often said of New Hampshire that she is poor in the light of material wealth, but rich in the production of great men, and that the sign of her "manufactures" is a "Great Stone Face" chiseled in rock on the summit of Profile Mountain. The truth of the above assertion, so far as men are concerned, the world knows by heart, and in vindication of her alleged poverty in other respects, we point to an internal revenue tax of nearly six millions of dollars, which, in addition to other taxes, she has easily paid since September, 1862.

NEW HAMPSHIRE ITEMS.

—— Mrs. Egan a widow, 35 years old, committed suicide on Monday, at Nashua; cause, great mental depression.

—— Rev. Mr. Flanders, of the Universalist Church in Nashua, is going to Europe on leave of absence, to be gone about four months.

—— Geo. W. Whittemore has been taken up in Nashua, for striking Ammi M. George on the head with a cane, and putting out one of his eyes.

—— At the Laconia Iron foundry a few days ago, Gilman Rowe, an apprentice, was badly burnt, by explosion of melted iron, caused by his using a wet ladle.

—— The house of Dea. Jona. Brown in Gilmanton, was struck by lightning, April 21. Mrs. B. was knocked down and received a heavy shock, but is recovering.

—— The last outstanding bond of the Worcester and Nashua Railroad Co. was cancelled May 3d. Sixteen years ago the corporation was half a million in debt.

—— The Wolfborough News says the wind was so strong last week on Lake Winnepisseogee as to be a serious inconvenience to persons engaged rafting logs.

—— A few Sabbaths since, the floor of the Congregational Church at Milford settled several inches, during service time, causing not a few pale faces, but without any injury to worshippers.

—— Captain George M. Dakin, formerly of the New Hampshire Light Battery, having been appointed to the regular army, his friends have presented him with an elegant sword and belt.

—— The people of Wolfborough Village have formed a precinct, in order to avail themselves of laws applicable thereto.—Amongst other objects sought is the purchase of a fire engine.

—— Two little girls, children of Asa Wentworth in Ossipee, April 29, built a fire in a pasture:—one of them, aged 7, fell into the fire, and was so burnt that she died next day.

—— They had an old fashioned occurrence in Rochester a few days since: a barn raising by the gratuitous labor of the townsmen of a Mr. Chesley. Upward of a hundred took supper with the owner, after the frame was put together.

—— The City Marshal of Concord has served notice upon all places where it is supposed liquors are sold, that he shall proceed to execute his instructions from the Board of Mayor and Aldermen in the matter of the enforcement of the law prohibiting the sale of intoxicating liquors.

—— Nashua people have chosen the following officers for the next State Fair; Hiram T. Morrill, General Superintendent, Aaron F. Stevens, Chief Marshal; George Bowen, L. M. Wright and J. B. Farrett, Assistant Marshals; V. C. Gilman, Treasurer.

—— The Senate in Executive session, last week, confirmed the appointment of Brevet Colonel Joseph H. Potter, 19th Infantry, U. S. A. to be Brigadier General by Brevet for gallant and meritorious services during the war, as Colonel of the 12th N. H. Vols.

—— Brevet Major General Samuel A. Duncan, of Meriden, was mustered out of the service, last Friday, as Colonel of the 4th United States colored troops. He entered the service in September 1862 as Major of the 14th N. H. Vols., and was promoted to the Colonelcy of the 4th U. S. colored troops, September 4th, 1863.

—— In Concord, on the 3d inst., an Irish boy, named Gibney, six years old, while picking chips on the railroad, crawled between the wheels of a car, and lay across the rail. An engine backing down to hitch, the car was driven back over the boy's body. He was killed instantly, his body being cut in two.

—— The New Hampshire Volunteer Militia appears to prosper in other parts of the State, tho' not in this. On the 8th of May, by order of Gov. Smyth, Adj. Gen. Head issued general orders organizing three Companies, viz., Manchester War Veterans, at Manchester; Gilmore Rifles, at Fisherville in Concord; and Smyths Guards, at Boscawn.

—— The death of William Hutchings of Penobscot, Maine, the past week, leaves only one Revolutionary pensioner. I have been able to examine the records and find the last survivor of the Revolution, to be Lemuel Cook, of Clarendon, Orleans, Co., N. Y. He was born near Wolfborough, Carroll Co., N. H., which was then a part of Strafford County, and, credited to the quota of New Hampshire during the Revolution. There are four widows now drawing Revolutionary Pensions under the Acts of Congress of Feb. 2, 1858 and Feb. 1, 1853; one of these is Betsy Whipple, widow of Stephen Whipple, residing in Coos County New Hampshire.—*Cor. Ind. Dem.*

—— Mr. Hutchins, the last Revolutionary soldier in New England, was a native of York, this County, and enlisted at the age of 15 years. He was taken prisoner at Castine, the only battle in which he was ever engaged; but on account of his youth was soon released. His father was a soldier in the French and Indian war. He lived to see the fifth generation of his descendants, numbering in all 350. He used to say that he had served under George II., George III., and George Washington.—There are but two or three others living, who actually served in the war of the Revolution, and the grave will soon close over the last of them.—*Biddeford Journal.*

Correspondence of the Chronicle.

WASHINGTON, May 9.

[We omit some paragraphs relating to the Reconstruction Amendment.]

It is to be regretted that the dominant party in Congress are not yet prepared to come up fully to the demands of justice; for the question of suffrage will never be settled until it is settled rightly,—and it will remain a disturbing element in national politics until it is thus settled. But the Reconstruction Committee had not only to consider what was strictly right; they had also to consider the temper of Congress, and judge how far the representatives of the people are prepared to go in the right direction. The plan of the Committee, therefore, represents not simply the views of its members, but their judgment of what it is possible to secure at this stage of affairs.

It is a source of some amusement to observe the comments and predictions of the Copperhead press in regard to the plan [of Reconstruction] now before Congress. Before the report was made, the hostile presses here in the District, which are numerous and virulent, declared that the Committee were irreconcilably divided, and must inevitably break up without agreeing upon any plan. When their predictions in this respect were falsified, they began to prophecy that the scheme proposed would not meet the assent of Congress; and if it should, it could never receive the sanction of the country. In all their prognostications, the wish has been father to the thought; and I am greatly mistaken if the course of events does not show their authors to be lacking in sagacity.

The House is working with commendable industry this week, and it now appears as if the members designed to adjourn in season to spend four or five months among their constituents before the opening of the next session. With their labors in committee during the forenoon, the consideration of reconstruction in the afternoon, and attention to the tax bill in the evening, they are exceeding the limits set upon labor by the advocates of the eight-hour law.

It now seems to be generally understood that the bill for the admission of Colorado will be vetoed by the President, who is not disposed to put two Senatorial votes into the hands of the opponents of his policy. The defeat of the measure will not, however, be taken much to heart by its supporters, for it cannot be denied that some of them voted for it with some twinges of conscience, in view of the illiberal clause in the Constitution of the embryo State, excluding colored men from the privilege of voting.

The debate in the Senate during the past week, upon the question of the President's power to make removals from office, has taken a very wide range, and the action thus far indicates that the majority do not intend to adopt a restrictive measure by indirection. Senator Henderson's bill, which proposes to regulate appointments by a special act, will meet with a much more favorable consideration than has been given to the proposal to engraft the measure upon an appropriation bill. PAUL.

THE U. S. SENATE, on Friday, May 11, struck out the amendment to the Post Office bill (forbidding payment of officers appointed in recess of Congress in certain cases,) by a vote of 23 to 16.

The Post Office Appropriation bill was then passed, and the Senate adjourned to Monday.

The House was not in session.

WASHINGTON ITEMS.—An attempt will be made in the Senate to pass Senator Henderson's bill restricting the President's power to removals from office.

The veto of the Colorado bill will be presented to a special cabinet meeting on Monday, and then transmitted to the Senate.

The committee on Ways and Means will not touch the tariff law until final action has been taken upon the Internal Revenue law.

The indications are that the Senate will strike out the third section of the Reconstruction measure or substitute a provision declaring that certain classes of prominent rebels shall forever be ineligible to office under the National Government.

NOT VERY POPULAR.—In the Massachusetts House of Representatives a day or two ago, the report (leave to withdraw) on the petition for a law to inflict the same penalties on the buyer as on the seller of intoxicating liquors, came up for action, the question being on substituting a bill in accordance with the prayer of the petition. The question of substitution was taken by yeas and nays, and the bill was rejected—19 to 139. The report of the committee was then accepted.

☞ Dr. Trall, lately of the Herald of Health, has commenced the publication of a new monthly, "The Gospel of Health," in New York, at $1 a year.

☞ Thanks to Senators Clark of this State and Henderson of Missouri for documentary favors.

GOLD, Saturday, 128 7-8. Sent to Europe, $1,075,000.

☞ In New York city, May 10, the jubilee of the American Bible Society was celebrated. The receipts of the Society the past year have been unprecedently large. They exceed the receipts of the year of peace before the war, when the whole country was open to the agents of the society, in the full sum of $253,000. The receipts and disbursements of the Society during the fifty years of its existence have been over $10,000,000. The hero of the anniversaries has been Major General O. O. Howard. He has addressed most of the societies with eminent ability. He has proved himself so brave and heroic, so eloquent and earnest, as to win all hearts, and gain quite as many laurels on the platform as he won upon the field.

The American Board of Commissioners for Foreign Missions had a great meeting May 11.

The National Temperance Society held its first annual meeting at the Cooper Institute May 11. The crowded audience was electrified by the eloquence of Gen. Howard and Henry Ward Beecher. It was one of the best of public meetings.

EVERY SATURDAY.—This Weekly is precisely what it claims to be,—a journal of choice reading selected from current literature. The editor has the range of all the English and Continental Reviews, Magazines, and first-class Weeklies, which press into their service the ablest, wisest, and wittiest writers of Europe. From this immense store house, he selects that which he judges best adapted to suit the taste and intelligence of the American people. Each number being complete in itself, it is just the thing for travellers; and each number is of such sterling merit that it is just the thing for those who stay at home. Whoever wishes the freshest and choicest foreign literature, must get "Every Saturday." Published by Ticknor & Fields, Boston. J. H. Foster has it in this city.

THE MEMPHIS RIOTS.—The Memphis Post of the 5th inst. has details of continued outrages upon the freedmen in that city the day previous. Two colored men were shot dead without the least provocation and several (discharged soldiers) were robbed by policemen. At Chelsea, close by Memphis, five negroes, including a woman, were killed, one being chopped down with a hatchet, and several others were severely wounded. The Post says the trouble grew out of a long standing feud between the police and the negroes, the police having habitually treated the negroes with a great deal of harshness and brutality.

Ayer's Sarsaparilla

Is a concentrated extract of the choice root, so combined with other substances of still greater alterative power as to afford an effectual antidote for diseases Sarsaparilla is reputed to cure. Such a remedy is surely wanted by those who suffer from strumous complaints, and that one which will accomplish their cure must prove, as this has, of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found in the following complaints:—

Scrofula, Scrofulous Swellings and Sores, Skin Diseases, Pimples, Pustules, Blotches, Eruptions, St Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, &c.

Syphilis or Venerial Disease is expelled from the system by the prolonged use of this SARSAPARILLA, and the patient is left in comparative health.

Female Diseases are caused by Scrofula in the blood, and are often cured by this EXTRACT OF SARSAPARILLA.

Do not discard this invaluable medicine, because you have been imposed upon by something pretending to be Sarsaparilla, when it was not. When you have used AYER'S—then, and not till then, will you know the virtues of Sarsaparilla. For minute particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the agent below named will furnish gratis to all who call for it.

AYER'S CATHARTIC PILLS, for the cure of Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Headache, Piles, Rheumatism, Heartburn arising from Disorded Stomach, Pain or Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Liver Complaint, Dropsy, Worms, Gout, Neuralgia, and for a Dinner Pill.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best Aperient in the world for all the purposes of a family physic.

Prepared by J. C. AYER & CO., Lowell, Mass, and sold by all Druggists and Dealers in Medicine everywhere. my1—2m

REDUCTION IN PRICE

OF THE

AMERICAN WATCHES.

MADE AT WALTHAM, MASS.

In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed

With Gold at Par,

so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of

More than 200,000 Watches,

have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.

We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:

1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy & Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.

The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,

ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED

to be the best time-keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit orders for single watches.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

ALLCOCK'S POROUS PLASTERS.—A celebrated physician says "he was amazed at the great number of beneficial indications produced by one of these plasters. CURE OF VARICOSE VEINS.

City Point, Va, January 24, 1865.

T. ALLCOCK & Co.:

Gentlemen: Seeing your notice in the Police Gazette, I got four of your Porous Plasters and placed them on the parts where the pain were most severe, and in less than twelve hours could walk as well as ever. I could hardly believe it, I was so well pleased. I wanted to see if the lameness would come back on me or not, so I did more walking that day than I had done in a week. The next day I had some pain in my hip, but I put on a plaster there and in two hours the pain was all gone, nor have I felt it since. Certainly they are the best application for the relief and cure of pains in the joints and backs, and for varicose or enlarged veins, I have ever known, and I would not be without them on any account. Yours truly,

MAGGIEL'S

Spring and Summer Remedies.

"Great oaks from little acorns grow." The worst diseases known to the human race spring from causes so small as to almost defy detection. The volumes of scientific lore that fill the tables and shelves of the medical fraternity go to prove and elaborate these facts. Then guard yourselves while you may. The smallest pimple on the skin is a tell tale and indicator of disease. It may fade and die away from the surface of the body, but it will reach the vitals, perhaps, at last, and death be the result and final close. MAGGIEL'S BILIOUS, DYSPEPTIC and DIARRHEA PILLS cure where all others fail. While for Burns, Scalds, Chilblains, Cuts, and all abrasions of the skin, MAGGIEL'S SALVE is infallible. Sold by J. Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liverspot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. Dr. B. C. PERRY, who has made diseases of the skin a speciality, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

POLICE COURT, May 12.—George Perry, otherwise known as "Commodore Perry," went to the Circus and became intoxicated with delight, such as you buy *songlimes* in a grocery store. He was arrested on Congress street by the Marshal; he resisted, tore the Marshal's coat completely off from him, but at last surrendered. He now occupies the Almshouse, and will continue so to do for about sixty days.

Lizzie Emerson, from Dover, was found drunk on Hanover street. She paid her fine, and has gone back to the "city of spindles."

"Hattie" Carter, a young denizen of Madison street, for "night walking" was "picked up" by Officer Underhill, and has been forwarded to the House of Correction for four months. This is her second appearance on that stage.

Charles W. Fernald was sufficiently over the bay to recuperate the city strong-box to the amount of $6.86.

Thomas Connor, a lad of ten years, had his case continued. He was charged with the larceny of some bricks and mortar.

Communication.

FOURTH OF JULY.—Shall it be celebrated? Aside from patriotism, the celebrating of our National Independence day is pecuniarly a great help of Portsmouth. A celebration will bring into the city at least ten to twenty thousand dollars, which is distributed among our hotels, restaurants, saloons, and in fact among all classes of business, directly or indirectly. An outlay of five or six hundred dollars is all that is necessary, to get up a respectable celebration. Those who reap the greatest benefits from these demonstrations, should give their attention to the matter, and see that the day is observed. Business is dull and this method of reviving it for a short time will be a great help to the community. There are those who in former years have taken the direction of such affairs, and who are now ready to give advice and information in regard to projecting a celebration the coming Fourth. Who will start the ball? H.

☞ We notice that within a short time past, quite a number of ships of the navy have been sent to the Charlestown Yard, while we have had no arrival at Portsmouth for many months and our mechanics are ready for more work than is offered. We trust our Congressional Delegation are not so much engrossed upon the Senatorial question, as to allow them to forget our Navy Yard.

TO THE SICK.—Madame Manchester (says an exchange) is allowed by competent judges to be a thorough scientific professional, the celebrity of whose skill in curing disease is a household word. Her apartments are continually filled with eager seekers after the first, best, and more than all other blessings—health. Those who have diseases, and especially such as have confounded and made dumb the general rule of doctors, should by all means call on Madame M. She has spent the best part of a vigorous life in investigating diseases and their cure, and by going beyond books to nature and vital common sense, has succeeded in obtaining information and a corresponding skill, which others cannot boast. It is no wonder that one who thus thinks, investigates, acts for herself, should have a success in reality, which others only have in hope or dreams. Those having diseases should at once obtain her advice. Madame Manchester will be at the Franklin House, Portsmouth, May 14th. See advertisement in another column.

U. S. DISTRICT COURT, Clifford J.—*Friday*, May 11, 1866.—Benajah Woodbury of Winchester, for passing counterfeit currency and having it in his possession, with intent to pass. Convicted and sentenced to pay a fine of $50, and be imprisoned at hard labor in the jail at Keene, two years.

Michael L. G. O'Brien of Manchester. Three indictments for selling cigars not stamped, and one for acting as broker without license. Continued—the deft. being confined in jail in Boston as a witness in a murder case.

Alanson L. Haines of Wentworth. Two indictments for passing counterfeit currency. Plea not guilty.

Saturday, May 12.—The case of A. L. Haines occupied the jury the entire day, resulting in an acquittal on one of the indictments, although at the first ballot the jury stood ten for conviction to two for acquittal.

G. B. French, for having in his possession counterfeit fractional currency. Plea not guilty. Rand for U. S. Hackett and George for Deft. This case is in order for to-day (Monday).

☞ The ordinance to prevent engines running on the sidewalks was a good one. The Bangor Times states that on Tuesday, "the hose carriage of No. 6 Engine Company, taking the sidewalk on State Street, come in contact with, knocked down and ran over an old man named Matthew McCart, inflicting injuries upon him from which his physician says he cannot possibly recover."

— The strike of iron molders at Troy, N. Y., after a duration of six weeks, ended on Saturday in a compromise between the men and employers.

— The steam mill of Otis Allen, in Middlesex street, Lowell, was totally destroyed by fire on Friday night. Loss $50,000; insurance slight.

— A dispatch from New Orleans states that the release of Dr. Gwin is doubtful. He hesitates to take the oath and says he never intends to violate his allegiance.

— Gen. Howard has received a dispatch from Gen. Fiske at Memphis, stating that the school houses for colored children, destroyed by the mob, will be rebuilt and occupied in ten days.

— At New Orleans, Judge Abell, of the First District Court, has decided the Civil Rights bill unconstitutional and not binding on the Court. He argues that the present Congress is unconstitutionally constituted! Great is Abell.

— A Washington dispatch says the examination of antecedents of the Clerks in the various Departments, under Green Clay Smith's resolutions, show that several have been in the rebel army. One is a near relative of Senator Cragin of New Hampshire.

— Generals Steadman and Fullerton have reported upon the workings upon the Freedmen's Bureau in Virginia and North Carolina. They sustain charges of speculation against the agents of the Bureau and recommended their removal and transfer of duties to the officers commanding troops in these States.

— At Nashville, Tenn., May 10, the Freedmen's Court, in the case of Ella Stevenson, a free woman of color, for the recovery of 200 acres of land, a large amount of property and damages for violation of trusts, adjudged that she be paid damages for enslavement of herself and her sons in $3000, together with other sums, amounting in the aggregate to $4386.

MRS. MANCHESTER,

The Independent

CLAIRVOYANT!

—AND—

ECLECTIC PHYSICIAN!

From 618 Broadway, New York, will arrive in PORTSMOUTH May 14th, and take rooms at the FRANKLIN HOUSE, for a short time only.

A Clear Case of Clairvoyant Sight.

DEAR MADAM:—Permit me to tender you my sincere thanks for the cure you have effected on my child. My daughter, ten years old, was taken sick last January in a very singular manner. We called in six of the best Physicians in the city; they said the case was a very singular one—they never saw one like it—and came to the conclusion they could not tell what the disease was. Some friends advised that we should call on a Clairvoyant; there being none in Providence that we could rely on, we wrote to Mrs MANCHESTER, in Portland, describing her symptoms. She immediately examined her case and told that she had a Snake in her stomach, told where she had drank it, and that it had been growing, and from the best of her judgement she should think it ten or twelve inches long. I gave the child her prescription and in a few hours the child ejected the snake alive from the stomach; it was measured and found to be eleven and a half inches long. We have to preserve, that all may see for themselves that this statement is really so. I am confident that the child could not have lived, and it not been for Mrs Manchester, and we feel as though she never could be repaid for her skill. MARY RAY,

GEO. W. RAY.

Providence, R. I., Nov. 10, 1865.

BANGOR, May 15th, 1865.

MRS MANCHESTER—Dear Madam: When you were in Bangor last Summer, I called to see you with a child of mine that had been sick for four years. I had taken her to a number of physicians, and none could tell what ailed her or even her symptoms. You examined her case, and told me exactly her symptoms from the commencement of her sickness, which were very peculiar; also told me there was something alive in her, and also said there was a number of them, and told me that she drank them from a rain-water cistern. You said that you would not warrant a cure, but would try and do the best you could for her. She commenced taking your medicine in August, and from that time forward, remember, the child passed off large quantities of what we call *Tadpoles*, from rain water, and I think, and am certain that the child must have died had it not been for you. And I advise everybody to see Mrs Manchester, for I know that she has the power of knowing the condition of a person she cases better than any Physician that I have ever heard of. Please have this published, and let the world know that there is one who practices what they profess to.

Very truly and gratefully yours,

CHOLERA! CHOLERA!

Prof. Bouve's Atmospheric Purifier.

This article has been extensively used as a Deodorizing Agent by the governments of Egypt, Turkey and France, during the late Cholera epidemic, and is the most perfect disinfectant extant. It effectually destroys all noxious gases and effluvia arising from decaying animal or vegetable matter, and for purifying Hospitals, Vaults, Drains, Cess-pools, &c., cannot be surpassed.

DR. STEVENS, No 5 Daniel Street, would give notice that he has REDUCED the price of Permanent Sets of ARTIFICIAL TEETH on the Vulcanite Base, to that charged for them before the war.

He would also give notice that he is doing a new style of work for Under Sets of Teeth, called the COMBINATION BASE (Gold and Vulcanite) which produces by far the finest work offered to the public. The price is something in advance of that charged for the Vulcanite alone, but the strength, durability, ease of bearing, and beauty of finish combined by it, more than double the value of the Teeth. mh12

FIRST ASSISTANT in the Office of DR. STEVENS, No. 5 DANIEL STREET.

DR. WEED can be found at his place of business at all hours of the day and night, for the performance of any of the operations that come within the call of his profession.

Dr. A. P. STEVENS, No. 5 Daniel St., makes the saving of teeth a leading and painful front teeth, a speciality in his business. He also successfully restores to their natural shape broken or badly decayed teeth, by building out corners and sides with PURE GOLD. (In many cases teeth so restored are as strong as any of their brothers and sisters, and in all cases are made permanently useful for a long series of years.) DISEASED TEETH, in all stages, treated, and in a very large majority of cases entire success attained.

Charges for such operations necessarily high, but nothing in comparison to the value of the Teeth. mon14

WHICH IS THE

Leading Life Insurance Comp'y

IN THE UNITED STATES?

Which is the Safest and the Cheapest?

The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of the

MUTUAL BENEFIT

LIFE INSURANCE COMPANY,

to be the *largest*, the "expenses of management" the *smallest*, the "ratio of Assets to Liabilities," or the *security* furnished to its insurers, the *largest* of any like institution in the country.

Premiums received in 1864.....$2,089,072
" " " " 1865.....3,029,087
Ratio of expenses to premiums rec'd in '64...12.26
" " " " " " " '65...12.19
Ratio of assets to liabilities, Jan. 1, 1865....151.85

The inevitable conclusion from these official facts, is that the

MUTUAL BENEFIT LIFE

Insurance Company

IS THE BEST AND THE CHEAPEST.

Because its NET ASSETS are proportionally LARGER than those of any other Life Insurance Company in the United States.

Because its "Managing Expenses" are LESS, and it has a LARGER SURPLUS to divide among its members than any Company in the United States.

QUERY. Will some one inform the public of that mysterious process by which a Company with a surplus proportionably *much less*, and expenses *very much* larger than another, can yet divide *more* to its members, its insurers, at *less cost?* How is it done? Where does the money come from?

Every intelligent man will see at once that it *cannot be done*. Yet we have Agents among us that make this their boast.

Any one disposed or intending to insure can be furnished with the requisite information by applying to

From the Portsmouth Journal

PRESENTATION.—Hon. Horton D. Walker, who has been Superintendent of the Middle St. Baptist Sabbath School in this city for an uninterrupted period of twenty-four years, resigned that position several weeks since upon the occurrence of the anniversary of his taking the office. On Sunday last the session of the School was devoted to an expression of the sentiments of the members towards their late Superintendent. Resolutions were passed expressive of the respect and esteem of the teachers and scholars, and of their regret at his resignation. The Pastor of the church, Rev. Mr. Lane, *then*, in behalf of the school, in a beautiful and appropriate address, presented to Mr. Walker, as a testimonial of the kind regard of the members of the school an elegant gold headed ebony cane, to which each member of the school had contributed. He made very happy allusions to the long period in which Mr. W. had performed his duties, and the love which the School had borne for him in all those years; the appropriateness of the present as a staff for future declining years, while it indicated that support which the members of the school will be ever ready to render him in all his life to come, and no less indicated that staff upon which he as a christian could lean should every earthly support be withdrawn. The concluding portion of his remarks alluding to Mr. W's office in the school as compared with the many honors which the public had bestowed upon him, was well made, referring to the closing hour of life, when earthly hours should lose their importance in near approach of another world he would look back upon his duties in the Sabbath school as by far the most important, and lastingly honorable of any which in a life of uncommon usefulness he had been called upon to perform. There were many moist eyes in the school as Mr. Walker responded, and the closing scene of his duties as Superintendent must have left an impression that his was a successful performance of his duties.

PLEURO-PNEUMONIA IN YORK, ME.—We are informed that the cattle disease has made its appearance on the farm of Mr. Henry Frathy, in York. He has lost an ox, a cow and steer—three more were sick and are probably dead. The Selectmen have called in suitable aid for an examination, and the disease so thoroughly resembles that which prevailed in Massachusetts a year or two since, that there is little doubt of its being the same. Two of the cattle were killed by the Selectmen's order. Our informant says, that Mr. Frathy is a good farmer, and keeps ten head of cattle. He has a cellar for manure under his barn, and beneath it are sometimes buried dead animals for decomposition, which perhaps has tended to create the disease.

THE BASE BALL CLUB.—We understand that this new organization in our city is flourishing. The Club practice from 4 to 6 P. M. daily in the field on Middle street, opposite Anthony; and for the accommodation of ladies and other visitors, seats have been erected, overlooking the grounds.

We notice several sentences to *hard labor* in County jails made by Judge Clifford this week. We know of no hard labor performed there, unless it be *doing nothing*.

FULL CONFESSION OF PROBST, THE PHILADELPHIA MURDERER.

Probst has made a full confession to his priest of all the murders of the Deering family, commencing with Cornelius Carey, the hired boy. He had no accomplice in his bloody work. After describing the murder of the boy Carey, he says:

The sight of the blood of the boy produced in me a devilish and blood-thirsty feeling, and I determined at once to murder the whole family.

He disposed of the body of the boy, as described before, and then deliberately walked over to the house. He entered and told Charlie, the little boy next in years to Willie, who was absent, that he wanted him to help him do some work in the barn. The little fellow followed him, and as soon as he got him inside the barn door he despatched him with a small axe he had secured. He then went back to the house and told Mrs. Deering there was something the matter with one of the cows, and he wanted her to come to the barn. She waited for

WILL CASE.

At a Probate Court holden at South Berwick, Me., for the County of York, the first Tuesday of April, 1866, an instrument purporting to be the will of Justin S. Bartlett late of Elliot, Me., came up to be allowed and was disputed by Sylvester Bartlett on account of inability of mind on the part of the said J. S. Bartlett, whereupon the Judge of Probate appointed the next day as a day of trial, and agreed to hold a court at the residence of the late J. S. Bartlett. The attending witnesses were Asa Gowen, Stephen Worster and Jonathan F. Worster. Asa Gowen was a Justice of the Peace, and wrote the will. His testimony was first taken. He stated that Justin's wife, Mrs. Emily D. Bartlett, came to his house sometime about a week before the will was made, and talked about making a will and asked him if he could make the will sometime. She said that some persons had suggested that he ought to make a will, and mentioned Dr. Guptill as one, and Mr. Parsons another. Dr. Guptill was the attending physician. Said she spoke of no other business; the morning before the will was written he noticed Justin was out of the house near the road, as he went past to his work at the Navy Yard he stopped and spoke to him about his health, had no conversation about the will—and passed on. The next morning he was at or about the same place when he came along and his wife was with him. She said he wanted me to make his will, I asked in what way he wished to dispose of his property, and she answered he proposed to give the property to her, providing there were no heirs at his decease, and he assented to it. He passed on to the Navy Yard, made the will that day, and returned at night, Stephen Worster was with him in the morning and heard the conversation, and also returned with him that night. Jonathan F. Worster also met at the same time, and they all went into the house. The will was then read by Mr. Gowen, who asked Mr. Bartlett if that was what he wanted, and he answered in the affirmative; he then told him he might sign it if he chose, and he signed it. Mr. Gowen then asked him if it was his wish that they should sign the will as witnesses, he said yes, and then they all signed it. Mr. Gowen, at the request of Mrs. Bartlett, took the will to keep, and they all returned home.

Stephen Worster was called—Said he did not know much about Mr. Bartlett, as he had not much conversation with him for a year or more past, said Mr. Gowen asked Mr. Bartlett if it was his wish that they should sign as witnesses.

Elias Furbush called—Was at work at the house of Mrs. Bartlett the day will was made, saw Mr. and Mrs. B. talking with Mr Gowen in the morning at the wagon, thought he was better that day than common, did not recollect of anything he did that day, wanted to go home that day, and did about 4 o'clock, did not like to stay, did not like to see him have the fits. We had some young chickens, I told him he must take care of them and not let them get cold and die, he said he would see to that. After he had the fits he used to be stupid, it would last him an hour, sometimes longer—after each it was longer; after he got through striving he would lay as if asleep for a while. *Cross questioned*—he would appear like himself the next day; the most part of the time, when he appeared like himself he would talk like any other person. I went home because he had such fits that I was not willing to stay any longer. I think he had four fits where I was there or before I went home; he was longer coming out of them the more he had. I went there because Mrs. Bartlett was so lonesome. She got another girl when I told her I could not stay any longer. I think that it might be Mrs. Bartlett that told me that he made his will the day that I left. I have noticed something about his eyes; he had a singular way of moving his eyes, he would snap his eyes and a sigular way of rolling his eyes. I presumed Mary J. Lord came down the same night I left.

Mary J. Lord was called—I went to Mrs. Bartlett's to work sometime in November last. Don't recollect that Mr. Bartlett had any conversation with me the day I came. Came in the afternoon and went home again, and came again in the morning about 8 o'clock to stop. Saw Mr. Bartlett the next morning; he appeared well; don't recollect any conversation he made the next morning; he waited upon the house some. I saw nothing out of the way with him the day I came there. He appeared of as strong mind as usual. I considered him as strong-minded enough to do business and dispose of his property. He had a fit the next week after I came. I saw no difference in him after I had the fit. I don't recollect whether he was so well after that as he was before or not. *Cross examined*—I was watching Justin the next morning to see how he appeared. That is the way I am enabled to testify that he appeared well. I watched him a few moments as he went about the house in morning. I commenced watching him when he first came down. I can't recollect that he did anything but go to the barn. This was the first morning I was there. I saw no difference in his appearance till he had his fits. I saw no difference in his appearance until the last part of December. I did not learn that he had made a will till after he had died. I don't recollect of any change in him the Sunday after I came on Friday. I saw a letter that he wrote that Sunday to his sisters out West. Mrs. Bartlett handed the letter to me. (Hesitated a good deal.) I don't know why she handed it to me. I do not recollect what she said, or that she said anything. I tried to read it. I read some, and some I could not read. It is hard to tell how much I did read. I read some. I gave it up because he was coming. I can't tell whether it was a sensible letter or not. It was written some time on that Sunday. Mrs. Bartlett told me that he was going to write his sisters. I do not recollect whether Mrs. B. and I talked about that letter or not. I do not know but what I have expressed an opinion about that letter. I have spoken about it a number of times in common conversation. I don't recollect that I have mentioned it to any one in particular. I do not recollect anything that has been said about the letter. I think it would be hard to tell when it has been talked about. I think that I have heard Mrs. Bartlett (his wife) speak about it. I don't recollect what she said about it. I have heard quite a number speak of it. I don't recollect any person in particular. I do not recollect about having any conversation with Mrs. Bartlett about sending the letter. I recollect about being at Mr. Sylvester Bartlett's that Sunday that the letter was written. Jane was there. I do not recollect about saying anything about Justin or the letter. I don't recollect that Justin's name was mentioned. I went up there to see the folks—Mr. Sylvester Bartlett I believe was not at home, he was I think gone down East.

Morris Goodwin called—Saw Mr. Bartlett in his first fit—saw him in several, they lasted him about 15 minutes, he would then appear a little dumpish, sometimes 24 hours sometimes longer. Sometimes after he had a fit he would be dumpish the next day. After he got over this he would be the same as he had been since he lost his children, kind of sad. I have had conversation with him a number of times, one time in particular, in regard to carrying a letter to the Post Office for him. I don't know what day it was or who it was directed to. I think it was on Monday. It was sometime about the time he made his will, a few days after he came to me and asked me what I did with the letter, said it was not paid, and paid me the postage I paid on it. I could not say he had a strong mind, but I never tried him, but for anything that I could see his mind was good enough. I did not see any difference but that he was as well as he had been for the last year, except when he had the fits; 48 hours after his fits he was as capable of doing business as ever he was, it was common talk that he had made his will from the day after he made it.

Cross-examined—I don't know as I can identify any particular person, that I heard speak of it. They said that Justin Bartlett had made a will. I think that Mr. J. F. Worster talked about his making a will in the barn, this was before he made the will. I should say that 40 different persons called up and asked me about that will. I will say 10 or a dozen different ones asked me whether Justin had made a will. I don't know that I could tell any one that asked me about the will. I know about his going to the mill to get some hops with the team, one 4-ox, and 1 2-ox team, I think it was in December. One team run into the fence and stove it. One of the teams came home alone. I do not know why he took two teams. Mr. Merrill said he intended to go to Shorey's Brook after a load of wood of Mrs. Justin Bartlett's. Shorey's Brook is in the opposite direction from the mill where he went. One team came unloaded and no one with it, I could not tell whether he or Mr. Merrill drove the other team home.

Rev. A. R. Sylester called—I have been in the habit of visiting Mr. Bartlett once a week, since I have been here, some times twice a week, after he first had his fits. I visited him more or less in November and December last, I was in the 29th of November in the evening, my wife was with me. Justin and wife and Mary J. Lord were there I think. We staid nearly through the evening, I should judge it was 8 o'clock. Justin appeared very well, sociable, seemed in very good spirits, would converse very freely and very well, not at all rambling or wandering in his conversation, he talked considerably for him. We tried to sing. I believe we all sung. I mean to embrace him. He appeared to enjoy the singing very much. I was in one evening just before Thanksgiving, December 7. I should judge that I stopped an hour that time. I saw Mr. Bartlett. I think Miss Furbush was there. He appeared about as he usually did when I saw him. Conversed quite freely, not inclined to make much conversation except on religious subjects. I never saw him for a day or two or perhaps two or three days after he had his fits. He always conversed with me rationally and understandingly, until the very last times. About the time he died, I could not judge of his capacity to make a will, but I should not have hesitated to have done business with him. His mind was not quite so active as before, but he conversed rationally on subjects between us. He paid me two dollars the 29th of November. *Cross-examined*—There was a report that his mind was affected by these fits. I should say that he was not a man of such sound mind as if he had not had these fits. It seemed to make his mind less active. I have observed that in my intercourse with him. In the latter part I think that I saw an increasing weakness of mind after he had had four or five fits. I took no pains to draw him out to ascertain his mental capacity. I think that I could see that the fits had an effect upon his mind. It was rather to please him than for my own pleasure that I called. He never spoke to me about making any will.

Wm. Plaisted called—Was at work for James W. Bartlett last summer. I used to see Justin most every day when I was there. I saw him a few times after he had fits, dont know but a good many times. I saw him the first of October. I left the 17th day of October,—the last day I worked.

Nathaniel Frost called—Saw Justin after he had had his fits. Saw him at Sylvester's. He had a fit shortly after I saw him. Before he got home he did not appear to say much only when you spoke to him, and then he answered. He traveled round and looked round. He inquired after a stove tub that he had lent to Wm. Nason four or five weeks before. I guess he went down cellar. He inquired if Mr. Nason had fetched the tub back. Did not say anything after he found he had not brought it back. He went out and got into the carriage and his brother Sylverter carried him home.

Cross-examined—It was in November. He did not say much and I noticed him. I should not say that he appeared just as he used to before he was sick. All the talk he made then was about the tub. I watched him because he had had those fits. I run my eye round after him while I was at work. I think I told some one that I thought he acted strangely until he learned for the tub.

J. P. Shapleigh called—And testified to Justin's calling to him while he was going by with team, and asking him to carry up to Mr. Simpson's some timber for Morris Goodwin. some time in November last. Also that he lent him a sled during his sickness. Stated that his memory and knowledge seemed to be as good as ever. Said I should not have hesitated to have made any contracts with him at any time.

Samuel Clark called—And stated that some time in November, paid his wife's mother's tax, about $14, to him,—he was collector that year.

A. R. Sylvester re-called—Immediately after the forenoon service, on Sunday, Justin left his pew and came up the aisle and up the steps to me in the pulpit and spoke to me as usual and shook hands with me. Said they wished me to give notice of the meeting of the Ladies' Circle at James Bartlett's the next

TUESDAY, MAY 15, 1866.

CHARGE OF JUDGE UNDERWOOD TO THE GRAND JURY.—The charge of Judge Underwood to the Grand Jury of the United States District Court at Norfolk, Va., has been published. After alluding to the fact that the liability of persons who were subject to the parole agreed upon by the commanders of the two armies has been settled, he states that the Court is now in a condition, since the writ of habeas corpus has been restored, to investigate and punish some of the crimes committed against our laws. Both the President and the Court were of the opinion that treason was was one of the greatest of crimes and ought to be punished, and that the leaders of the late rebellion were either public enemies or traitors. In the opinion of the Attorney General, Washington was not the proper place for trial, but it should be in Virginia, where the offence was committed. The tardiness of the prosecution was necessary, and the subject should be approached with all possible deliberation, caution and clemency. He states that one great cause of the recent troubles was the ignorance of the people; that the masses of the people were so profoundly ignorant of the condition of public affairs, and so misled and deceived by the intensely selfish and wicked aristocracy, as not to be morally responsible for their participation in the late rebellion, and that it would be adding cruelty to injustice to hold them so.

In comparing the First Congressional District, containing nineteen counties—the birthplace of four Presidents—with the State of Rhode Island, he says:

"There is not now, as its Representative in Congress thirty years ago boasted, a single newspaper published, and so long has the schoolmaster been abroad, that probably more than three-fourths of its native-grown men and women can neither read nor write. Rhode Island, with its half-million acres, has nearly double the population, ten times the wealth, enterprise and education, and then contributes to the national treasury more than twenty times the amount of that district, with its more than two millions of fertile acres lying on both sides of the Chesapeake Bay, and on the great rivers James, York, Rappahannock and Potomac, having the greatest commercial, oyster and fishing capabilities of almost any district in the United States."

He denounces the recent conflict of the two races, the unprovoked attack by white men upon unarmed and unresisting colored people, and says that not until this violence is stopped will the country be relieved from the presence of Northern bayonets. He does not approve of the action of the Lieutenant General in using the military power to abate such papers as have been disloyal; for he believes that the cause of good government may gain more by the exposure of treasonable designs through the most disloyal press, than it would by punishment and suppression. By restraint the disease would not be cured, but would only become concealed, and more dangerous by concealment.

DESTITUTION IN ALABAMA.—The agent of the Freedmen's Bureau in North Alabama has increased the quantity of rations issued to the destitute white people there from 140,000 to 210,000 for the present month, and a similar *increase* is to be made in other sections of the State.

Will not some economical patriot oppose or veto the appropriation for the Freedmen's Bureau?—or kick the Bureau itself out of doors, as the caricature suggested? What would be said if the rations for the blacks increased now?

We in New England have little idea of the wretchedness of the *poor* whites of the South:—and many who were rich there before their foolish rebellion, are now poor enough.

THE RECENT BANK FAILURES.—The results of the failure of Messrs. Bayne & Co., of Baltimore, the cause of the failure of the Merchants' National Bank, Washington, proves to have been more disastrous, financially, than was at first supposed. Four of the Baltimore banks, at least, are sufferers; one of the oldest and most reliable is said to have lost $390,000, which will no doubt somewhat curtail dividends for a time. Another is said to have lost $100,000. And besides these, many private individuals have lost largely.

HONORS TO THE REBEL DEAD.—Southern newspapers received at Washington show that in every city and town in Dixie on the 20th instant, the graves of those who fell fighting against the Union were profusely decked with flowers. In Raleigh, North Carolina, the stores closed and the ladies met in the Senate Chamber, where they were addressed by Seaton Gales, editor of the Sentinel. They then went to the cemetery, where, we are told, "they decorated the hallowed graves of their brave dead, and then festooned them with flowers from the home of Andrew Johnson's father, to testify their respect for the President and their gratitude for the magnanimous policy which he has adopted."

GOLD, Monday, 1391 8.

NEW HAMPSHIRE ITEMS.

—— Out of a tax of $9800 in Enfield, the three Shaker "families" pay $1788.

—— Wm. D. Walker, formerly of Hanover, has been chosen Principle of the public schools in Monterey, Cal.

—— Rev. G. W. Bailey, of Lebanon, has received and accepted a call to the pastorate of the Universalist church in Morrisville, Vt.

—— Sunday afternoon, 5th inst., a dwelling house at East Enfield, occupied by Mr. John Fox, was burned, also a small barn attached to it. The fire was set by children while their parents were away from home.

—— The body of religious believers throughout New England, known as "Christians," will hold their 21st Annual Session in Wolfborough, this State, the 5th, 6th and 7th of June.

—— Chas. A. Cook of Milton, entered the army as a volunteer, and of course passed muster, before he was twelve years of age. He served about one year, was wounded four times, and now at fourteen years he draws a pension of ninety-six dollars a year.

—— Among the list of patents for the week ending May 8, are the following to parties in this State:

William H. Finn of Nashua, for improved machine for cutting wire.

Moses W. Page of Franklin, for improvement in the preparation of leather; also, for improved process of tanning.

J. D. Cochran of Milford, for improvement in seeding machine; also, for improvement in corn planter.

☞ Poor old ex-Gov. Henry A. Wise, of Virginia, has been making some speeches lately, which show him to be as crazy as ever: but he can't do much harm now.

TEXAS COTTON CROP.—If it quits raining—and if we don't have a drouth—and if the worms stay away—and if the cholera don't come—and if the summer isn't too hot for the freedmen—we say, put the cotton crop of old Gonzales down as the "biggest" known for years. Fact—*Gonzales Inquirer.*

NEW TOWN.—Forty-seven years ago the town of Barrington was severed into nearly equal parts, and the northern portion incorporated by the name of *Strafford.* The purpose is now entertained of dividing Strafford. The Rochester Courier says the petitioners for a division are working in earnest, and with strong hope of success. One of the reasons alleged by the petitioners is the bitter partisan spirit and proceedings of the Democratic party. Although the Republicans pay a large share of the taxes, yet they are treated with extreme rigor: not being allowed so much as a highway surveyor; and more than that, they allege that the money is taken from the southerly portion of the town, where the Republicans are in the majority, and expended in the northerly section. It would seem by the article in the Courier that the Democrats of Strafford have contributed $5000 to defeat a division.

— As flowers never put on their best clothes on Sundays, but wear their spotless raiment and exhale their odors every day, so let your life, free from stain, ever give forth the fragrance of goodness.

— The youth who follows his appetites, too soon seizes the cup before it has received its best ingredients, and by anticipating his pleasures, robs the remaining parts of life of their share, so that his eagerness only produces a manhood of imbecility and an age of pain.

— Having voted not to have an Angell for their Mayor, the people of Providence last Wednesday declared against a proposition to introduce pure water into the city.

— It is proposed to buy the Cheasspeake Female College, situated near Fortress Monroe, and convert it into a Theological Seminary for colored aspirants after ministerial honors, under the patronage of the Northern Baptist Home Missionary Society.

— The Boston Transcript says, Wade Hampton's complaint that South Carolina is not represented in Congress is equal in effrontery to the appeal of the criminal who killed his father and mother and then asked the court to have pity on him, as he was an orphan!

— Fears are entertained in the western part of New York State that canal navigation may be interfered with in consequence of the severe drouth which has prevailed throughout the State this spring. With the exception of the year 1856, there has not been a spring when so little rain has fallen in thirty years.

— The library of George Augustus Sala has been sold—probably because the owner had no further use for it. It contained many curious books, with presentation volumes, and other interesting memorials.—Most of the library consisted of light literature, and each volume was lettered G. A. S.—That was not bad; for both the library and the owner abounded in *gas.*

— The London Patriot notices, as a singular proof of the growth of superstition among the upper classes in England, the fact that during Lent scarcely a marriage was announced; one day there were but three notices of weddings; but as soon as Lent was over and Easter began they flowed over into the second column of the Times.

JEFF. DAVIS.—A letter from Norfolk states that J. Gillingham of Fairfax County, who had been appointed by Judge Underwood foreman of the Grand Jury, had declined, and asked to be excused from serving on the Jury at all. District Attorney Chandler had received from Washington an indictment against Jeff. Davis for treason, and as a public enemy, which the Grand Jury would doubtless adopt and present.

Mrs. Jeff. Davis had visited Norfolk to procure groceries and a household outfit, and had been treated with marked consideration, the loyal citizens paying all her bills and sending her many presents of wines, hams, jellies and boquets. She spoke of the health of her husband as enfeebled, and declared that if he could not be released from the fort, he would die.

[It would not be a greater calamity to have *him* die, than it was to have one of our best young men, the only son of a widow in this city, fall in battle with the rebels—or than to have any one of the 100,000 others, better men than he, on *both* sides, killed in the strife caused by the ambition, avarice and wickedness of a mean oligarchy, of which he was the chosen Chief. The civil trial looks like a prospective farce. He should have had a military trial long ago, or been suffered to get away with the stolen money to Havana.]

DESTROY CATERPILLARS.—The Newton Horticultural Society report the best method of destroying the caterpillars, recommending a *concerted effort* for the extermination of these pests. They recommend that every one examine homesteads and farms, and make firewood of all decayed and scrubby apple-trees, and all wild cherry-trees, from walls and pastures, and even wood-lots, upon which the caterpillers delight to revel; these being their outposts, from which they supply a new crop for the coming year. The fruit trees also are to be constantly searched at early dawn and the worms destroyed until not a nest can be found. To the proposition of some to *cut down* the apple-trees and improve the land they occupy for other purposes, the report says that, were there no remedy for the evil of the caterpiller the committee would make a similar recommendation; but while it is possible to destroy both caterpillers and canker-worms by means recommended and proved efficacious, they are unwilling to resort to such a desperate alternative. The Newton horticulturists furnish a hint to fruit growers everywhere.

REV. THEODORE CLAPP.—Late Louisville papers announce the rapidly approaching end of this distinguished divine, who for thirty-five years was pastor of a church in New Orleans, where he was universally beloved by the citizens. No particular disease is destroying his earthly tenement, but his system is worn out and he is fading away. This announcement will be received with regret throughout New England. He is a native of Easthampton, Mass., where he was born March 27, 1792—making him now 74 years of age.

STRINGENT DEPARTMENT REGULATIONS.—There is much excitement among the clerks in the War Department, caused by the appearance of a formidable series of "regulations," framed by some of the West Point officers now at the head of the bureau, which many clerks will have sign or to resign. One is against smoking, while it is notorious that nine army men out of ten follow the example of Gen. Grant and smoke incessantly. But "civilians" cannot be permitted to enjoy the weed.

SOUTHERN RAILROAD RESPONSIBILITIES.—It will be remembered that at the close of the war the Quartermaster's Department permitted a number of the Southern railroads to retain the United States rolling stock on them, and to give their notes in exchange, payable at different dates. The first set of these notes became due last month, but not one of them was paid, and as yet no steps have been taken to secure their payment.

— The Supreme Court of Maine have set aside that portion of the will of Ira Crocker of Portland; by which he made provision for the accumulation of the interest on $40,000, which was bequeathed to his grand-children, said interest and principal not to be touched for twenty-five years. They held that such devises are invalid and cannot be sustained.

— A correspondent in Havana writes that if he wanted to describe the island of Cuba in a single line, he should call it "the land of the flea and the home of the slave."

A RICH WOMAN'S TABLE.—A curious *dejeuner* was given in Paris on a Sunday in last month, by Madame M——, whose enormous fortune, a million sterling, alleged beauty, seat on horseback, horses, carriages, hotel, stables, etc., are things daily talked of and displayed in Paris. The guests assembled in a long gallery, draped with green curtains. Breakfast was served—eaten—coffee and cigars followed; and then a bell rang, and all the draperies were suddenly withdrawn. And where did the guests find themselves? *In the stable,* where there were eighteen horses, who had also breakfasted, but *not* of truffles and champagne and *cigarettes,* and behind the curtains.

A VENERABLE AUTHORESS.—Mrs. Somerville, now in her eighty-seventh year, has just completed a vast work, embodying all the latest results of science in relation to the ultimate particles of matter. Those who have seen the MS. are assured that when the book appears this summer it will be found to surpass rather than fall short of the merits of the "Physical Geography" and "Connection of the Sciences," which half a century ago gave her the first rank among intellectual women of England.

IN THE GOLDEN AGE OF GIRLHOOD, preserve the beauty of the teeth with SOZODONT, and then, when the hair is silvered and the eyes dimmed with years, the mouth will still reveal two glittering rows of unsullied ivory.

HONEST.—There is a man out West who labors under the delusion that "Hon." placed before a man's name stands for Honest; if that was the true version, it would be placed before, behind, in the middle, over, under and all around the J. Mourge Taylor Gold Medal Soap, for it is really the only honest Soap made. It is not to be wondered at that the ladies prefer it to any other, there is nothing like it. 86

Ayer's Sarsaparilla

Is a concentrated extract of the choice root, so combined with other substances of still greater alterative power as to afford an effectual antidote for diseases Sarsaparilla is reputed to cure. Such a remedy is surely wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove, as this has, of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found in the following complaints:—

Scrofula, Scrofulous Swellings and Sores, Skin Disease, Pimples, Pustules, Blotches, Eruptions, St Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, &c.

Syphilis or Venereal Disease is expelled from the system by the prolonged use of this SARSAPARILLA, and the patient is left in comparative health.

Female Diseases are caused by Scrofula in the blood, and are often cured by this EXTRACT OF SARSAPARILLA.

Do not discard this invaluable medicine, because you have been imposed upon by something pretending to be Sarsaparilla, when it was not. When you have used AYER'S—then, and not till then, will you know the virtues of Sarsaparilla. For minute particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the agent below named will furnish gratis to all who call for it.

AYER'S CATHARTIC PILLS, for the cure of Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Headache, Piles, Rheumatism, Heartburn arising from Disordered Stomach, Pain or Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Liver Complaint, Dropsy, Worms, Gout, Neuralgia, and for a Dinner Pill.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best Aperient in the world for all the purposes of a family physic.

REDUCTION IN PRICE

OF THE

AMERICAN WATCHES.

MADE AT WALTHAM, MASS:

In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed

With Gold at Par,

so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of

More than 200,000 Watches,

have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.

We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:

1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy & Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.

The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,

ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED

to be the best time-keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit orders for single watches.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

ALLCOCK'S POROUS PLASTERS.—A celebrated physician says "he was amazed at the great number of beneficial indications produced by one of these plasters. He affirms that *headache* is cured by one worn just below the breast-bone; that one placed over the navel will cure hysterics, as well as dysentery, and affections of the bowels."

CURE OF VARICOSE VEINS.
City Point, Va., January 24, 1865.
T. ALLCOCK & Co.:
Gentlemen: Seeing your notice in the Police Gazette, I got four of your Porous Plasters and placed them on the parts where the pains were most severe, and in less than twelve hours could walk as well as ever. I could hardly believe it. I was so well pleased. I wanted to see if the lameness would come back on me or not, so I did more walking that day than I had done in a week. The next day I had some pain in my hip, but I put on a plaster there and in two hours the pain was all gone, nor have I felt it since. Certainly they are the best application for the relief and cure of pains in the joints and back, and for varicose or enlarged veins, I have ever known, and I would not be without them on any account. Yours truly,

A SUMMER HOTEL AT NEWCASTLE.—*Messrs. Editors:* I wonder that the people of Great Island do not move in the matter of having a good summer hotel, when the place has so many advantages over all others in the neighborhood.

1st. In addition to a good beach, the attractions of the Forts and Navy Yard to interest strangers. 2d. The view of shipping passing up and down the river, and making temporary stops for a harbor. 3d. Not half so far from a market. 4th. Handy when boats are passing up river or to the Shoals. 5th. Nearer to printing-offices and postal communication. 6th. Convenient for female visitors to go shopping. 7th. Conveyance by two good coaches, and nearer by half to railway stations. 8th. Convenient to attend amusements, or the different kinds of churches. 9th. Location not in the neighborhood of marshes or woods to generate flies or mosquitoes. 10th. One of the most sightly and healthy locations in the world. 11th. A good place for steamers to take or land passengers.

The wonder is that the people of the place can sit still and see large and flourishing hotels around them, and not move in the matter to put themselves in a way to reap the benefit from having a large amount of money spent among them. We should suppose that the stock for a good and large hotel might be taken up at the place itself. If not, we can see no good reason why some of it might not be taken in Portsmouth, especially by those citizens who own shares in the Newcastle bridges. Cannot there be found a *man* in one or both places that will move in the matter? B.

Messrs. Editors:—In your issue of Monday I read an article in relation to the celebrating of Independence Day. I, for one, hope to see the day observed, and would like to have the Young Folks represented, as in days gone by, when the school-teachers, with their scholars, decorated in garlands, took a prominent part in the exercises. Doubtless the "little folks" would all feel interested, and we hope they will have a chance to enjoy themselves on the coming Fourth. *

RYE BEACH.—The quiet stillness which reigns at Rye Beach this season is all the more impressive from the contrast which it presents to the excitements of "the season," when the heated term has driven its city crowds to this cool retreat. We took a drive to the Atlantic House, where last summer we saw the gallant Farragut surrounded by gay and loyal ladies, amid the flutter of flags and the music of a martial serenade; now stillness reigns; the house has its eyes shut, and the piazza swept; the fresh grass is springing green around the forsaken paths, then so nimbly pressed by the dainty feet of the summer beauties. We passed on to the neat little cottage beyond the hotel, where dwells in the snuggest comfort the enterprising owner, John C. Philbrick, Esq. Just beyond his house, toward the sounding sea, the quiet gave place to activity,—and the sound of the hammer called our attention to his new Hotel there being built. The principle of our loyal landlord has ever been—"comfort, not show;" and in this new enterprise it will still prevail, for, instead of cutting it up into seven by nine rooms, he has arranged for only thirty good-sized, airy rooms,—every one eligible, and with a view of the ocean from its windows. The larger hall upon the second floor—running the entire length of the Hotel—will open at the seaward end upon an extensive verandah or balcony, enclosed with glass coverings, which may be shut when the weather is cool. Below and beyond the observatory is spread a smooth green lawn for the children's play-ground, or for croquet—being sheltered on the east by surrounding rows of well-grown willow trees, and beyond the willows a wide, sweeping view of the ever-changing sea, with its "toiling" ships. We learn that Mr. Philbrick intends to have the whole completed in season for occupancy this summer,—and we wish for him in the future the success which has crowned his past, and which he so well deserves.

The prospect is good for an extraordinary rush to the cool beach houses of Rye this season, where the pure ocean air will dispel the lurking fears of cholera and give strength to the weakly, health to the sickly, and put new life into those almost dead. P.

U. S. DISTRICT COURT, May 14.—The case of Geo. B. French was in course of trial all day.

In our report of the doings of the Court on Saturday, we reversed the standing of the Jury on the first [informal] ballot;—it should have read, "ten for acquittal to two for conviction."

☞ If any of that wicked generation that seeketh after a sign are in town, they need go no farther than the Square, where they can make a selection from those on the front of Mr. John Sise's store.

POLICE COURT, May 11.—Michael Long, who has spent the most of his time at the House of Correction for the past two years, was again sent up for thirty days, and taxed $3.86 costs of Court, for "kicking up a muss" in Mrs. Berry's Shamrock House, on Fleet street.

James Field, another gentleman who has dignified the same habitation with his presence, was fined $6.86, which he paid.

Hiram Foy, who said he was here securing help for for the Newburyport mills, made a mistake, and secured his own help for the city, at the Farm for one month. His fault was that ever-failing one—intoxication.

Margaret Carey, a very comely young lady, was induced by an indiscreet friend to take some beer. She took too much, and didn't know what *aled* her. Some kind-hearted P. P. took compassion on her and gave her a night's lodging at the Hotel on Market Square, for which the good-natured judge allowed her to pay $6.86.

Sarah Hutchinson, a young lady from Massachusetts, for "night-walking," was sent to the H. of C. for four months, and a cost of $4.80 added.

Another *femme du pave* of the same genus, only very much taller, was allowed to depart the city limits forthwith. Her name is Frances A. Marden. She intends to take up her future residence in Kittery.

☞ In Boston, on Monday, the case of Mr. Joseph C. Perkins of this city, whose arrest on a charge of having counterfeit money in his possession we mentioned some weeks since, came before the Grand Jury, who found no indictment, thus holding Mr. P. guiltless of any evil intent.

☞ "Cholera, Dysentery, Coughs, Colds and Rheumatism are quickly cured by AMERICAN LIFE DROPS.

WHAT EVERYBODY SAYS must be true, is an old proverb. And it is a fact beyond dispute that all tell one story about the almost miraculous cures performed by Coe's Dyspepsia Cure. Chronic and obstinate cases of Dyspepsia of long standing will surely give way to its curative powers. Indigestion, sick headache, heartburn, cramps, pains and colic, in either stomach or bowels, souring and rising of food, constipation, general debility, flatulency, cannot exist when Coe's Dyspepsia Cure is used. Holloway's Pills.—Bodily Prostration.—A word of advice.—No other medicine has yet been discovered to equal the effect of Holloway's Pills, in their rapid cure of all morbid affections of the brain and weariness or enervation of the body; the one being intimately allied with the other. The primary cause of this disease exists in the stomach, and these medicines are especially adapted for purifying the blood, correcting the derangements of the liver, strengthening the digestive organs, and invigorating the general system. —
MRS. MANCHESTER,
The Independent
CLAIRVOYANT!
—AND—
ECLECTIC PHYSICIAN!
From 618 Broadway, New York, will arrive in PORTSMOUTH May 14th, and take rooms at the FRANKLIN HOUSE, for a short time only.

A Clear Case of Clairvoyant Sight.

DEAR MADAM:—Permit me to tender you my sincere thanks for the cure you have effected on my child. My daughter, then two years old, was taken sick last January in a very singular manner. We called in six of the best Physicians in the city; they told the case was a very singular one—they never saw one like it—and came to the conclusion they could not tell what the disease was. Some friends advised that we should call on a Clairvoyant; there being none in Providence that we could rely on, we wrote to Mrs MANCHESTER, in Portland, describing her symptoms. She immediately turned her mind to the case and told that she had a Snake in her stomach, told where she had drank it, and that it had been growing, and from the best of her judgement she should think it ten or twelve inches long. I gave the child her prescription and in a few hours the child ejected the snake alive, from the mouth; it was measured and found to be eleven and a half inches long. We have it preserved, that all may see for themselves that the statement is really so. I am confident that the child could not have lived, had it not been for Mrs Manchester, and we feel as though she never could be repaid for her skill. MARY RAY.
GEO. W. RAY.
Providence, R. I., Nov. 10, 1865.

BANGOR, May 15th, 1865.
MRS MANCHESTER—Dear Madam: When you were in Bangor last Summer, I called to see you with a girl of nine that had been sick for four years. I had taken her to a number of physicians, and none could tell what ailed her or even the symptoms of her disease. You examined her, and told me exactly her symptoms from the commencement of her sickness, which were very peculiar; also told me there was something alive in her, and also said there was a number of them, and told me that she drank them from a rain-water cistern. You said that you would not warrant a cure, but would try and do the best you could for her. She commenced taking your medicine in August last, and from that time till December, the child passed off large quantities of what we call *Tadpoles*, from rain water, and I think, and am certain that the child must have died had it not been for you. And I advise everybody to see Mrs Manchester, for I know that she has the power of knowing the condition of a person diseased better than any Physician that I have ever heard of. Please have this published, and let the world know that there is one who practices what they profess to.
Very truly and gratefully yours,
GEORGE E. MARTIN,
my8ins MARY L. MARTIN.

Important.
DR. STEVENS, No 5 Daniel Street, would give notice that he has REDUCED the price of Permanent Sets of ARTIFICIAL TEETH on the Vulcanite Base, to that charged for them before the war.
He would also give notice that he is doing a new style of work for Under Sets of Teeth, called the COMBINATION BASE (Gold and Vulcanite) which produces by far the finest work offered to the public. The price is something in advance of that charged for the Vulcanite alone, but the strength, durability, ease of bearing, and beauty of finish obtained by it, more than double the value of the teeth. mh12

Surgeon Dentist,
FIRST ASSISTANT in the Office of Dr. STEVENS, No. 5 DANIEL STREET.
DR. WEED can be found at his place of business at all hours of the day and night, for the performance of any of the operations that come within the call of his profession.

Dr. A. P. STEVENS, No. 5 Daniel St., makes the saving of ULCERATED and painful front teeth, a specialty in his business. He also succeeds in filling such teeth as are too broken or badly decayed teeth, by building out corners and sides with PURE GOLD. (In many cases teeth so restored are as strong as any of their brother members, and in all cases are rendered eminently useful for a long series of years.) DISEASED GUMS, in all stages, treated, and in a very large majority of cases entire success attained.
Charges for such operations necessarily high, but nothing in comparison to the value of the teeth. mch14

WHICH IS THE
Leading Life Insurance Comp'y
IN THE UNITED STATES?
Which is the Safest and the Cheapest?
The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of the
MUTUAL BENEFIT
LIFE INSURANCE COMPANY,
to be the *largest*, the "expenses of management" the *smallest*, the "ratio of Assets to Liabilities," or the *security* furnished to its members, the *largest* among the institutions of the country.

Premiums received in 1864	$2,089,072
" " " 1865	3,029,087
Ratio of expenses to premiums rec'd in '64	11.96
" " " " " '65	12.30
Ratio of assets to liabilities, Jan. 1, 1865	151.85

The inevitable conclusion from these official facts, is that the
MUTUAL BENEFIT LIFE
Insurance Company
IS THE BEST AND THE CHEAPEST.
Because its NET ASSETS are proportionably LARGER than those of any other Life Insurance Company in the United States.
Because its "Managing Expenses" are LESS, and it has a LARGER SURPLUS to divide among its members than any Company in the United States.
QUERY. Will some one inform the public of that mysterious process by which a Company with a surplus proportionably *much less*, and expenses *very much* larger than another, can yet divide more to its members, and insure them at *less cost?* How is it done? Where does the money come from?
Every intelligent man will see at once that it *cannot be done.* Yet we have Agents among us that make this their boast.
Any one disposed or intending to insure can be furnished with the requisite information by applying to
HENRY A. YEATON, Agent.

Morning Chronicle.

NEW YORK LICENSE LAW.—The N. Y. Herald says the Metropolitan Excise law continues to be a subject of general consideration and speculation, and much anxiety and uneasiness is manifested among a certain class of dealers, who will be excluded by the Board from the benefits of a license, and great efforts have been made to induce the Commissioners of the Board of Excise to recede from their decision to exclude grocers, but in vain. They now look to the Liquor Dealers' Society for protection, and it appears that by this body they have been advised to continue their business as usual—that is, to sell their liquor without a license, if they cannot obtain one—until further notice. It is conceded that the institution of corner groceries must cease to exist if the sale of liquor by the grocers is prohibited.

They concede too much, then. It used to be urged here in Portsmouth that grocery stores could not be made to pay without selling liquors;—and some early attempts were failures. But now, half of all the groceries that are sold here, are sold from stores that do not sell liquors; and several of the most prosperous stores are in this class.

Corner groceries, properly conducted, are not only a convenience, but a blessing; and if license should be granted to sell liquors anywhere, we do not see why not on a corner: but a committee on the spot may see better, and therefore judge better, than we can.

The Herald says the German retailers are represented by a powerful organization, the object of which is to secure "protection against all oppressive and restrictive trade and Sunday laws."

This society has issued a call to prepare for a grand demonstration in opposition to the bill, on account of the Sunday clause, by all the German musical, trade, workingmen's and benevolent societies and associations. This mass meeting is not simply intended for a demonstration in favor of those directly interested; but it is to embrace a protest of the entire German population against the spirit of intolerance and Puritanism which, it is alleged, pervades the law, and which is again attempted to be introduced in several other states to threaten the customs and peculiar habits of the German people in this country.

So it seems there is strong opposition even to a license law, if any attempt is made to enforce it.

The article concludes as follows:

It was first intended to dispute the constitutionality of the new law; but the Liquor Dealers' Associations, by the advice of their counsellors, have come to the conclusion that nothing can be done to avert the operation of the law in question, and that they will have to submit to it. In fact, the general impression is that there is nothing to shake the constitutionality of the new Excise law, said law not being prohibitory, but a law of regulation. The public at large is gratified that, under the new system to be inaugurated, establishments of a questionable character and disreputable places will be debarred from obtaining a license, and that they will be likely to be abolished.

[We hope good will come out of the law—but in the meantime, some faithful officers must have a hard fight of it. Such a great evil as drunkenness in New York city, is not to be overcome without great effort.]

—FOR THE—
Great National Work,
—THE—
STANDARD HISTORY OF THE WAR,
Complete in one very large Volume of over 1,000 pages,

Splendidly Illustrated with over 150 Fine Portraits of Generals, Battle Scenes, Maps and Diagrams.

In the selection of matter for this great work the author has confined himself strictly to *official data* derived from the reports of Northern and Southern Generals, the report of the Committee on the Conduct of the War, National and Rebel Archives, etc.

He has carefully avoided the introduction of any matter not strictly *reliable* and *official*, and has succeeded in producing what is universally demanded, a *fair* and *impartial* History of the War. The great superiority of this work over all others is everywhere acknowledged. It is marked by a degree of thoroughness and accuracy attempted by no contemporary.

Cures *General Debility, Weakness, Hysterics in Females, Palpitation of the Heart and all Nervous Diseases.* It restores new life and vigor to the aged, causing the hot blood of youth to course the veins, restoring the *Organs of Generation, removing Impotency and this Lassitude, Debility, restoring Manliness into the system and full vigor*, thus proving a perfect "*Elixir of Love*," removing *Sterility* and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life, causing the weak and debilitated to have renewed strength and vigor, and the entire system to thrill with joy and pleasure.

"As the Phœnix rises from the ashes of its fire, animated with new life"—so does

Price, one bottle $2; three bottles $5; sent by express to any address.

Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make money. Be not deceived—ask for these medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed from observation. We will be pleased to receive letters with full statements in regard to any disease with which ladies or gentlemen are afflicted, address all letters for medicines, pamphlets, or advice, to the sole proprietor,

CHOLERA
DISARMED!!!

The Chief Causes of Pestilence Destroyed.

DR. E. R. COURARET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, Nos 298, 300, and 302 Henry street, N. Y.—Office, 42 Cedar street.

This Company organized on a permanent basis, with Couraret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish to Dispensaries Hospitals for sick rooms, nurseries, urinals, water closets, privies, cesspools, sewers, gutters, ships, railroads, hospitals, prisons, and public institutions, of all kinds, slaughter houses, offal and fat-boiling establishments; all kinds of manures (*immensely* increasing the value of the latter) wherever poisonous and offensive gases exist. These agents are deodorizers, antiseptics, antiputrescents, and disinfectants in the scientific meaning of the terms. They remove noxious gases and odors by chemical principles—leaving in their places *healthful* and *invigorating* substitutes, and *destroy elements* of poisonous gases—not injurious to utensils in which they are used. The attention of medical men is called to the value of these fluids as disinfectants. Attached are testimonials in favor of this great discovery, which, with hundreds of others, can be seen at the Company's office.

DELAVAN HOUSE, Albany, March 30, 1866.

To the President of the New York Disinfecting Co.:

Dear Sir: It is all it is represented to be. We have used the many trials of disinfectants, now consider that we have found an article which surpasses all others as a remedy against all bad odors. ROBERTS & CO.

NEW YORK, April 9, 1866.

To the President of the New York Disinfecting Co:

Dear Sir: We pronounce it without exception to be the best we have ever used. Its effect upon every matter is complete and instantaneous.

WILL CASE.

Thursday evening, I think that none of James Bartlett's family were present the day I gave this notice. I have heard Mrs. Bartlett say that she did not wish her husband to go out.

Oliver Lord called—Who stated that he saw Justin the morning of the 24th of November (the day the will was made) that Mrs. Bartlett said it was his best day, &c. Saw him about five minutes. Said he spoke to him and shook hands with him, and kind of smiled and sat down again. Saw no difference in him. His wife talked with me about his health. I got the impression from what she said that he was decidedly better that day than he had been. I dont know that he took any notice of what she said.

Mary J. Lord called—We were in the habit of singing, evenings. Mr. Bartlett and myself, and sometimes his wife used to sing. In turning over the book he used sometimes to say "there is a tune we used to sing at singing school." He frequently referred to our going to school together.

Cross examined—I took his coat from him on Sunday. I took it away from him because I thought it was not best for him to go to church. I could not tell when that was. I am unable to say what month it was in. I will not swear that I never heard Mrs. Justin Bartlett speak about his putting the cat into the stove. I do not now recollect of hearing her. I may have heard her speak of it a number of times. I have said all that I have to say about that point. I am not capable of judging whether he was a pretty good singer or not. I guess it would be pretty hard to tell which was the best singer. It was sacred music. Sometimes we came out together, and sometimes one and sometimes the other ahead in the tune. I dont know whether he resented the taking away of his coat or not. I did not see any thing of it. I do not recollect what the reason was that I was not willing that he should go to meeting.

J. F. Worster called—I have been intimately acquainted with Justin S. Bartlett for the last five years. I have not had any dealings with him. I saw him most of the time about every day for the last year. I worked on the barn where he lived two years ago last November. Worked then on the barn about 40 days. I came in the next spring to work on the house till December. I saw Justin about daily. He did work, as I wanted material, with the team. I worked for James Bartlett last summer, on his barn. Saw Justin as often as once a day, except about three days that I was absent at different times, since he was sick in paying up to the time of his death. Formerly he appeared as well as general men of his class. But from the time after paying that he was sick he was different. I was absent when he was taken sick, on my return he was about here every day, but without the physical ability to perform daily labor as he was previous to the attack. I also observed a failing in his mind. That he had a very careless, heedless way with him, between the 1st and 15th of August last. He continued along in that way. We were all very anxious to inquire after his health and how he felt. If you would ask him the question how he felt, he would stand and look you in the face. He could not readily answer the question that you asked him. If any subject or question was asked about his health or not he would answer yes or no. He did not seem to have the faculty of making an immediate answer to your question, and he continued on in that way. There seemed to be a general decrease in his mind from what he formerly was, prior to his sickness till the time he had his first fit. I saw him at James Bartlett's the Monday after he had the first fit. I met Mr. Sylvester Bartlett there, he came to me in sorrow and told me about the circumstances of his brother Justin. I had not before ascertained the effect in regard to the fits. He expressed his feelings; said he, he is a perfect wreck. That day at noon we were called to the house. Justin was in another fit. I found him lying on the floor, we then used our exertions to bring him to, and got him on the lounge. I should think I was with him one half hour at that time. I left him unconscious of anything. I came up after dinner to see him. He still laid there on the lounge in the posture that I left him but was then able to speak but not in any way inclined to converse—simply answer questions. I think he was that evening able so as to be out of doors, or to the door yard. I think that I perceived very readily that the fits had a very great effect on his mental capacity. The next morning I saw him; I came down that way on purpose to see him, he stood in the porch, I asked him how he felt but he did not readily answer me. I asked him then, I recollect well, if he felt better: well, said he "I think I do." I saw him every day. I think I discovered a decrease in his mental ability: he did not at that time do much, if any work. I think that he did part of the time take care of his own barn. I could see that there was a deficiency; whenever he undertook to do any job he did not seem to understand how to take hold of anything to accomplish the object; generally there was strangeness of look about the eyes, and a dark look in the face like a rush of blood, and a bloated appearance in his face, his eyes stared wide open, the dark look in his face was more so, soon after his fits, but generally looked so, his actions were singular from what they formerly were. I think the next fit after the one in the house I help take him out of the carriage. I think that this was on Saturday, we took him into the house and laid him on the lounge. I then left him. I saw him the Monday following, he then appeared feeble both in mind and body, did not seem to have any ambition or desire to do anything. I think that I never failed to ask him after his health a day while I was there; his appearance got to be familiar with me, he had a vacant look. I think it better expressed in that way. I do not and did not consider him of sufficient capacity to do business at all times after he had his fits. I saw him have another fit, I think it was the day Dr. Jewett came there to see him. I never had any conversation directly with Mr. Gowin about the will before it was made. Mr. Gowin came to me and asked me to speak to Justin about setting up his business, and making his will, he said that his wife had been to his house to talk to him. I told him I would speak to him about it. This was six to ten days before the making of the will—can't state the exact time—this was at the Hall above here or at the meeting house below here. I did not do it. I was again, the day previous to the evening that we were called in to do the business about the will, while at work near Mr. Bartlett's, beckoned to by Mr. Gowin as he went past. I went to the wagon, he then asked me if I had said anything to Justin about his business. I told him that I had not, but would.

In an hour or more Justin came where I was. I spoke to him, asked him how he felt, &c. He replied, "Well, I don't feel so well as I wish I did." I think I asked him if he had done anything about settling up his business. He replied that he had not. I said, "I would if I were you, Justin." I think he said we have been talking about it, that was all said. He never made any reply to the matter to me. Mr. James Merrill notified me that Mrs. Bartlett wanted me to call at Justin's house when I went home, the evening the will was made, and during the afternoon Mrs. Bartlett came where I was and and asked me if I was going to call in the evening. I told her I would call. We did not stop more than an hour at the time the will was witnessed.

After the will was finished I went home, and at the usual hour retired. My mind led me to the transaction of this will. I could not sleep thinking of what we had done, and it truly troubled me. When I came to look at the thing candidly, I thought that I had done that that I wished that I could recall. I thought that it did not look like the proper way of doing business under the circumstances. From my heart I did not think that Justin was capable of doing that business. I made a remark to my brother afterwards that I would give a good deal if my name was off that instrument, and my brother expressed himself in similar terms and feelings.

My opinion of his capacity to make a will was formed from my own personal knowledge of him at the time. I think I have heard Mr. Gowen express an opinion about the will case. As I was returning home passed his house he called me, and said Mrs. Bartlett wanted to know what we were going to do with the will. We were on or near the steps of the house. We talked together that the only way to dispose of the will would be to send it to the Probate Court. I remarked that I did not think the will a valid one, or to that effect, but decided that that was the only proper way to dispose of it. I think, and believe, that he remarked to me about the same in substance, that is, in regard to the validity of the will. We then went into the house and commenced conversation with Mrs. Bartlett who was there about the will. She remarked that she wanted to know what was to be done with the property as it was getting late in the season. I think that in conversation that I had with her at one time, she did remark to me something to the purport that she had some doubt about the validity of the will.

At this time in the testimony, the Court took a recess of an hour for dinner, which was at noon the second day of the trial, and when they came together again the counsel for the widow, through the Judge, proposed a settlement without going on with the trial longer. This was readily assented to on the part of Sylvester Bartlett, and that night they came to a final settlement by paying the widow ($2300,) twenty-three hundred dollars, what she said she would take, she having all the household furniture and provisions. As the property in dispute was probably worth about ($4,000,) four thousand dollars, her part of it, setting aside the will, would have been about thirteen or fourteen hundred dollars, her life time; but her husband's brother gave her the twenty-three hundred, and would have been willing and glad to have settled any time since the death of his brother, but the widow would not make any offer of settlement, until compelled to or do worse, which was taken no advantage of on the part of her husband's brother. After the settlement of the claims, the question came up as to the allowing the will. Mr. S. Bartlett said he did not want the will allowed, as that was what he was fighting for, but that they might go to the Judge and see what he would do with the will under the testimony. And he said he should not allow the will under the testimony he had heard. This being the case, we should think the chance of proving the will would be small, as all the testimony taken was in favor of the will, except what the attesting witnesses had said, as there was no witnesses brought against the will.

Portsmouth N. H.

WEDNESDAY, MAY 16, 1866.

WASHINGTON ITEMS.—The white Irish workmen engaged in clearing out the canal which runs through Washington, who have been working on the eight-hour plan, and who are expected to vote for the re-election of Mayor Wallack, struck Monday for higher pay. A gang of colored men promptly took their places, but the white men refused to permit them to work, and began to pelt them with stones. The police came, arrested the ringleaders and locked them up, after which the colored men shoveled away unmolested.

The old residents here are troubled about the bill introduced into Congress for taking away their charter, and have petitioned against it.

H. N. Easby has been nominated for Mayor by the Eight Hour Working Men's Leagues. *Ease*by is a very appropriate name for a Mayor on that ticket.

Secretary Seward has gone to Auburn, and will visit Santa Anna.

Gov. Boutwell hesitates about going to Memphis to investigate the riots, but is urged not to resign.

WASHINGTON ITEMS.—The House Committee are preparing a report in favor of the trial of Jeff. Davis by a Military Commission for various violations of the articles of war and complicity in the assassination conspiracy. The report is very voluminous and contains a chain of circumstantial evidence, various links of which were obtained from the ruins of the Confederacy.

Secretary McCulloch has sent to the Senate Finance Committee a draft of a new bill providing for funding the national debt into a new five per cent. consolidated loan. He has also decided to redeem all outstanding certificates of indebtedness and issue no more in the future.

The Mexican Legation says Santa Anna is a French spy and hope if he reaches Chihuahua he will be speedily hung.

THE LAST PROPHECY.—A book has just appeared in London, under the title of "Louis Napoleon, the destined Monarch of the World," &c., by the Rev. M Baxter, author of "The Coming Battle." Mr. Baxter makes the end of the world come in 1873; but for six or seven years previous, Louis Napoleon, the real Antichrist, is to become substantially sole monarch of the world. But, after making a covenant with the Jews for the rebuilding of Jerusalem, he is to begin the prosecution of Christians, which answers to the pouring out of the vials. The time of "the ascension of the one hundred and forty-four thousand wise virgins" is duly fixed, and also of the battle of Armageddon, when the "great beast" (Louis Napoleon) is to be overthrown. It is said that twelve thousand copies of this curious and absurd book have already been sold.

CAVE JOHNSON.—While the question of permitting Cave Johnson to occupy a seat in the Tennessee Senate was before that body, he was allowed to advocate his cause in a speech. In his remarks he approved the rebellion, eulogized the Southern troops for bravery and patriotism, boasted that he had three sons in the Southern army, and denied that the negroes were lawfully emancipated.

THE EIGHT-HOUR MOVEMENT IN NEW ORLEANS.—The eight-hour men in New Orleans have run against a snag. They have a large organization there advocating this change, and the Tribune, a paper edited, owned and published by colored men, thinks that if eight hours per diem will do for white men, there is no reason why black labor should be called upon to do ten hours' work for the same pay. The white men fail to see the matter in that light.

GOLD, Tuesday, from 130 3-8 to 129 3-4.

— At a great Mahommedan festival at Lahore, India, prayers were publicly offered for the Queen of England—the first time in India that Mahommedans have offered prayers for a Christian Monarch.

— A lot of mutilated currency was received lately at the Treasury Department, with the following note: "To the Secretary of the Treasury—Sir: I have sent herewith some old veterans, who have done the country some service, and are ready to be mustered out."

— The man arrested as the alleged murderer of his wife, whose body was found in a field in Cromwell, Conn., last week, has been discharged, there being evidence that the woman committed suicide.

— A rough estimate was recently made of the property and estates of the Marquis of Westminster, when it was estimated that, if realized, they would amount to the enormous sum of £46,000,000 ($230,000,000.)

— It is understood that the President has signed the amendatory habeas corpus act. This protects all officers who, acting under orders, made what is known as arbitrary arrests during the war.

NEW HAMPSHIRE ITEMS.

—— Rev. T. H. Miller is to preach at South Hampton on Sunday, May 27.

—— Benj. Hobbs of this State has been promoted Surgeon in the 20th Army Corps, and ordered to take charge of a post hospital in Texas.

—— The house, barn and outbuildings of J. M. & G. W. Platts, at Londonderry, together with all their stock and furniture, were burned last week. The loss was heavy, with but small insurance.

—— St. John's Day, which occurs on Sunday this year, is to be celebrated by the Masonic Fraternity in Claremont on Tuesday, June 26th, when the Masonic Temple is to be dedicated and a large attendance of the brotherhood is expected from the various towns of the County and State.

A BIG TUMOR.—"Cardigan" of East Canaan writes us that Dr. Kimball of Lowell removed a tumor from the wife of C. Hubbard, Esq., of Danbury, on the 7th inst., which weighed *seventy-five* pounds. At present Mrs. Hubbard is considered to be in a fair way for recovery.—*Mirror.*

ORDER CONCERNING BANKS.—Treasurer Spinner has issued a circular addressed to the cashiers of national banks, requiring each one of them to render to him simultaneously with transcripts of accounts current a statement showing the amount held to the credit of each disbursing officer of the United States, arranged under the heads of war, navy and miscellaneous, giving the aggregate of each classification and of all the classifications in figures.

Paymaster General Bruce has issued an order requiring all paymasters to report to the Treasurer of the United States at the close of each week the balance deposited to their credit, and to state in what bank such balance is deposited.

PLEURO-PNEUMONIA.—A report being circulated that this disease has appeared in the herd of Mr. Henry Freethy, of York, we are happy to inform our readers that Mr. Goodale, Secretary of the Board of Agriculture, visited the herd on Saturday last, and found that, although six had died, the disease bore no resemblance to the cattle disease which prevailed in Massachusetts a few years ago—the lungs in the animals of Mr. Freethy's herd being scarcely affected at all—this disease affecting chiefly the liver, kidneys and other viscera of the abdomen. The animals have been kept apart from all others, and are still, as a measure of precaution, although no evidence exists of its being contagious.—*Saco Democrat.*

ANDOVER, MASS.—The people of this town have voted to erect a building for a high school. Sums amounting to $15,000 have been given for that purpose by two gentlemen, and the town has added sufficient to make up $22,000. The building is to be put up near the "Old Tavern House," about midway between the centre of the town and the depot village.

JEFF. DAVIS' INDICTMENT.—The indictment of Jeff. Davis has been made public, but contains nothing not published a year ago.

Chief Justice Chase has informed the President that he will preside at a court held in Richmond if a Presidential proclamation is first issued declaring martial law in Virginia at an end.

FATAL ACCIDENT.—Last week John Crowell, son of Calvin W. Crowell, of Ayer's Village, Haverhill, Mass., while playing with a heavy lumber wagon, started it down a steep grade. Not being able to control it, the wagon ran against an apple tree, the youth being between the shafts, and had his back broken. He lived but a short time.

DOWN WITH THE DUST.—The city of Cambridge has appropriated $2000 to sprinkle the streets this season, and the citizens have added $5000 thereto by subscription.

— The body of Preston King, who drowned himself some time ago, has been found floating in a dock at New York.

—"I always sing to please myself," said a gentleman, who was humming a tune in company. "Then you are not at all difficult to please," said a lady who sat next to him.

— Rockport, Mass., has almost a monopoly in the manufacture of isinglass. It is made from the sounds of the fish called hake, and the business is very active during the winter months.

— A man named Frank or Fred Richards, with a companion, has been arrested in Biddeford for having counterfeit twenties on the First National Bank of Portland, Conn., and also postal currency.

— The Senators from Colorado feel confident that the President has changed his mind and will yet sign the bill to admit Colorado into the Union. They claim to have induced this change of opinion by facts and statistics presented to the President.—[Not very reliable.]

— The East Greenwich Pendulum says a fire that caught in Fisherville, Exeter, R. I., from a bonfire kindled by some children in the edge of the woods, burned over a tract three miles long and one mile wide, destroying the cord wood, damaging the standing trees, and causing a heavy loss.

CONGRESS is at work again. The Reconstruction Constitutional amendment will not be considered in the Senate until Wednesday or Thursday, as Senators desire time to confer together about it, and to consider the amendments proposed.—Mr. Stewart proposes to strike out the third section and to pass it as a bill, with an alternative providing for impartial suffrage, to which the States lately in rebellion are required to give their assent as a condition to their return to the Union. It excludes from office the rebel President, Vice President, members of the 36th Congress, heads of Departments who went into the rebellion, and also those who were cruel to Union prisoners. On complying with these terms, the States mentioned are to be admitted, and universal amnesty declared in such States.

In the House, on Monday, Mr. Chanler of New York City interrupted the morning session by offering a resolution complimentary to the patriotism of the President "in saving the nation by his vetoes from the wicked and revolutionary acts of malignant and mischievous men." Mr. Stevens moved that the resolution be not entertained, and the House sustained the resolution by a large majority. Gen. Schenck immediately introduced a resolution censuring Mr. Chanler for attempting to insult the House by such a reflection on the acts of the members.

Mr. Chanler was allowed time to explain and apologize if he saw fit, or not. He chose to make the matter worse by declaring that he would, if he could, oust the whole Republican side, and send Thad. Stevens to that hell, surrounded with bayonets, to which he had wished to consign others. The vote of censure was adopted 72 to 30.

Mr. Schenck said he would have proposed expelling Mr. Chanler, but he hardly believed he understood the character of the resolutions he had offered.

Chanler is said to belong to a rich family, to have a thick head, and to represent one of the worst districts in New York city.

A resolution was offered that a committee of three be appointed to proceed to Memphis, there to investigate the late alleged riots, &c., with power to send for persons and papers. Adapted—yeas 87, nays 22.

The Speaker announced as the special committee on the Memphis riots, Messrs. Washburne of Illinois, Boutwell of Mass., and Le Blonde.

Mr. Blaine of Maine offered the following, and the House unanimously adopted it:

Whereas, By the recent decision of the Supreme Court of the United States, the stock of National Banks is made subject to the same rate of taxation with other property, by State and municipal authority; therefore,

Resolved, That the Committee of Ways and Means be instructed to inquire into the expediency of removing all taxes levied by the National Government on said banks, except the half per cent. per annum on the average amount of their deposits.

☞ In the late debate on reconstruction, in the House of the Representatives, Mr. Farnsworth of Illinois sustained the proposed amendment. Unless some such measure were adopted, the Copperheads, with their allies, the Southern rebels, might yet usurp the control of national affairs. They would doubtless elect, if they could, to the Presidency, not Andrew Johnson, but Robert E. Lee, and then we might expect to find a cabinet composed of such men as Ben Wood and Vallandigham. He then indulged in some strictures upon the President's course, declaring that the Copperheads, North and South, glorified Andrew Johnson, that the confidants of Booth and Paine were to be found among his supporters.

MARYLAND.—A lively contest has sprung up in Maryland which is likely to attract considerable attention. The majority of the State Executive Committee of the Union party refused to call a State Convention and voted down a resolution indorsing the registry law by which rebel voters are kept from the polls. Whereupon four of the committee—a minority—issued an address calling a State Convention to meet in Baltimore on the 6th of June. They declare in favor of sustaining the registry law, of maintaining intact the great Union party, of upholding the Republican members of Congress, and of disfranchising the country's traitors. The majority of the Committee had previously endorsed President Johnson's policy and condemned Congress. Thus it will be seen the lines are drawn. Governor Swann has recently given in his adhesion to the majority of the Committee, whose party is supposed to be led by Montgomery Blair. But the Republican press of Maryland is almost unanimously in favor of the action taken by the minority of the Committee, and heartily urges a full representation in the approaching Convention.

— A special dispatch dated New Orleans 13th inst., says one white person and five negroes were burned to death at a fire on New Levee street on Saturday night.

— Governor Goodwin, delegate to Congress from Arizona, is inclined to believe that the report of the massacre at Fort Goodwin is true.

— Gen. Howard has commenced the distribution of the $25,000 appropriated by Congress to the suffering freedmen of the District of Columbia, dividing the city into four districts. Every reported case of destitution will be thoroughly examined.

— Would you have sweet and healthy Bread, Biscuit, Cakes and Puddings? Use Herrick Alleu's Gold Medal Saleratus. It takes less in quantity, will not make your Biscuit or Bread yellow, is a sure preventive to the decay of teeth, is perfectly healthy, and makes one fifth more Bread and Biscuit from a barrel of flour. Never use soda if you can procure this article. Try it. Most all good Grocers sell it. 87

REDUCTION IN PRICE
OF THE
AMERICAN WATCHES.
MADE AT WALTHAM, MASS:
In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed
With Gold at Par,
so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of
More than 200,000 Watches,
have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.
We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:
1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy & Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.
The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,
ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED
to be the best time keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit orders for single watches.
CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

ALLCOCK'S POROUS PLASTERS.—A celebrated physician says "he was amazed at the great number of beneficial indications produced by one of these plasters. He affirms that *headache* is cured by one worn just below the breast-bone; that one placed over the navel will cure hysterics, as well as dysentery, and affections of the bowels."

CURE OF VARICOSE VEINS.
City Point, Va, January 24, 1865.
T. ALLCOCK & CO.:
Gentlemen: Seeing your notice in the Police Gazette, I got four of your Porous Plasters and placed them on the veins where the pains were most severe, and in less than twelve hours could walk as well as ever. I could hardly believe it, I was so well pleased. I wanted to see if the lameness would come back on me or not, so I did more walking that day than I had done in a week. The next day I had occasion to walk my big, but I put on a plaster there and in two hours the pain was all gone, nor have I felt it since. Certainly they are the best application for the relief and cure of pains in the limbs and back, and for varicose or enlarged veins, I have ever known, and I would not be without them on any account. Wonderful, but True!
MADAME REMINGTON, the world-renowned Astrologist and Somnambulistic Clairvoyant, while in a clairvoyant state, delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychomotrope, guarantees to produce a perfect and life-like picture of the future husband or wife of the applicant, with date of marriage, occupation, leading traits of character, &c. This is no imposition, as testimonials without number can assert. By stating place of birth, age, disposition, color of eyes and hair, and enclosing fifty cents, and stamped envelope addressed to yourself, you will receive the picture by return mail, together with desired information.

Perry's Moth and Freckle Lotion.
☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. Dr. B. C. Perry, who has made diseases of the skin a speciality, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.
Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for

Local.

POLICE COURT, May 5.—The business in this Court was large. James Field and "Tim" McCarty were charged with drunkenness; the former was sent to the House of Correction for thirty days, and $3.86 costs, and the latter paid a fine of $6.86.

John H. Ferguson was charged with violating Ordinance No. 14, Sec. 4, viz: obstructing the sidewalk on Vaughan street by a step to his office. He maintains that the step is on his property instead of that of the city. Case continued until next Monday.

Ira W. Brock, a very quiet and inoffensive citizen of the southern portion of the city, was complained of by his neighbor, Charles E. Leach, for horsewhipping his (Leach's) boy. It appears that Leach's boy had thrown rocks at Brock's girl, and hence Mr. Brock had perhaps gone a little further than the law intends. He was fined $1 and costs.

Davy Welch and his wife Mary Welch, who keep the "Plains House" on the road to Greenland, were brought up for selling liquor on Sunday. They pleaded ignorance, and had their case continued.

The defendant in a similar case in the city was fined $10, and $4.80 costs, from which he appealed.

FUN TO-NIGHT.—Shorey & Mowry's Minstrels give their first concert here this evening—but some of the members are well known to our amusement goers. The trained dogs are among the most sagacious of their kind, and the "end men" know their "biz" to perfection. We anticipate a good house for them.

NAVAL.—Paymaster John A. Bates, Jr., has been detached from duty at Key West, and ordered North.

ARMY.—Paymaster Simon R. Marston, of this city, has been honorably discharged the service, to bear date June 30.

☞ The case of Geo. B. French before the U. S. District Court was concluded on Tuesday, and the respondent acquitted.

BANVARD'S HOLY LAND, &c.—Among the many entertainments abounding in the land, some are worthy; and, as we have ample assurance, the exhibition by Mr. Hayward both combines excellence and beauty, and is endorsed by very many travellers and good judges of works of art; and in it a fund of valuable information is opened to all, respecting the most interesting points on our globe. It will interest and please the bible reader, as well as others, and we bespeak a full house to look at the rarest works in the United States.

It will open at the Temple on Friday, the 18th, for three days only, with a Matinee on Saturday afternoon for the schools.

The N. Y. Tribune, speaks of it as the finest painting which has visited that city, and the clergy and press throughout New England are loud in its praise, as a moral and entertaining work.

☞ We are very glad that the Common Council at their last meeting refused an appropriation of $3000 to repair the outside of Jefferson Hall. The same amount has already been expended on the miserable old hulk, and the result is that the accommodations there are found to be insufficient. If our city is too poor to build a decent hall, it is certainly too poor to throw away its price in such driblets and then have nothing to show for it.

☞ People offer us, sometimes, articles to "fill up" our paper. We do not want such articles, good as are the intentions of those who offer them. In the course of several years of editorial life we have never seen a day when good matter for the paper was not quite sufficient to enable us to "fill up," taking our pick of articles at that. We have never printed a bad article merely to have the paper "filled up;" every poor article we have given has either been from our own pen, or from the pen of some one whom we did not want to hurt with a "respectfully declined." It seems to be a popular idea that it is huge mechanism and mathematics which make so many yards of matter every day to "fill up" the space of a small mortar bed. So it is,—let any body try it who doesn't believe it,—that the difficulty is in selecting and printing from a mass of matter—as if any one should find many needles in a huge hay stack, having the privilege at the same time of using the stack instead of the needles. Keep your articles intended to "fill up," ladies and gentlemen. Instead of diminishing labor and anathema, they make these articles at the rate of several miles a minute.

Communication.

To the Comic Editor:—You have indeed assigned a sign to the 'concise signs on the Square; but hasn't it since occurred to you that at the same time you ought to have consigned the proverb, "All signs fail in a dry time," to the tomb of the Capulets? SAUL.

☞ Fires in the woods are common in this dry time;—great care should be taken in country and town, to prevent conflagration.

☞ Lynde Block, in Salem, and several wooden buildings on Essex, Charter, and Liberty streets, were destroyed by fire on Monday night.

☞ 2000 acres of woodland, in Sharon, Mass., were burnt over, on Sunday; the fire beginning at noon, from a coal-kiln, and the wind blowing a gale. Loss, near $40,000.

WHAT EVERYBODY SAYS must be true, is an old proverb. And it is a fact beyond dispute that all tell one story about the almost miraculous cures performed by Coe's Dyspepsia Cure. Chronic and obstinate cases of Dyspepsia of long standing will surely give way to its curative powers. Indigestion, sick headache, heartburn, cramps, pains and colic in either stomach or bowels, souring and rising of food, constipation, general debility, flatulency, cannot exist when Coe's Dyspepsia Cure is used. We beg of the afflicted to make the experiment; it can be found at all drug stores. my15—1w

Holloway's Pills.—Bodily Prostration.—A word of advice.—No other medicine has yet been discovered to equal the effect of Holloway's Pills, in their regular use of all morbid affections of the brain and weariness or exertion of the body; the one being intimately allied with the other. Lyon's Periodical Drops!
THE GREAT FEMALE REMEDY FOR IRREGULARITIES.
These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually used and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions accompany each, may be used, and explaining when and why they should not, nor could not be used without producing the result they are intended to cure. Each will be found carefully folded, around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.00.**
Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by letter, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.00 per bottle.**

The Eye, Ear, Catarrh,
—AND—
THROAT!
MRS. MANCHESTER,
The Independent
CLAIRVOYANT!
—AND—
ECLECTIC PHYSICIAN!
From 618 Broadway, New York, will arrive in PORTSMOUTH May 14th, and take rooms at the FRANKLIN HOUSE, for a short time only.

A Clear Case of Clairvoyant Sight.

DEAR MADAM:—Permit me to tender you my sincere thanks for the cure you have effected on my child. My daughter, in years old, was taken sick last January in a very singular manner. We called in six of the best Physicians in the city; they said the case was a very singular one—they never saw one like it—and came to the conclusion they could not tell what the disease was. Some friends advised that we should call on a Clairvoyant: there being none in Providence that we could rely on, we wrote to Mrs MANCHESTER, in Portland, describing her symptoms. She immediately examined her case and told that she had a Snake in her stomach, told where she had drank it, and that it had been growing; and from the best of her judgement she should think it ten or twelve inches long. I gave the child her prescription and in a few hours the child ejected the snake alive from the stomach; it was measured and found to be eleven and a half inches long. We have it preserved, that all may see for themselves that this statement is really so. I am confident that the child could not have lived, had it not been for Mrs Manchester, and we feel as though she never could be repaid for her skill. MARY RAY.
GEO. W. RAY.
Providence, R. I., Nov. 10, 1865.

BANGOR, May 15th, 1865.

MRS MANCHESTER—Dear Madam: When you were in Bangor last Summer, I called to see you with a kind of worm that had been sick for four years. I had taken her to a number of physicians, and none could tell what ailed her or even her symptoms. You examined her case and told me exactly her symptoms from the commencement of her sickness, which were very peculiar; also told me there was something alive in her, and also said there was a number of them, and told me that she drank them from a rain-water cistern. You said that you would not warrant a cure, but would try and do the best you could for her. She commenced taking your medicine in August last, and from that time till December, she child passed off large quantities of what we call *Tadpoles*, from rain water, and I think, and am certain that the child must have died had it not been for you. And I advise everybody to see Mrs Manchester, for I know that she has the power of knowing the condition of a person discased better than any Physician that have ever heard of. Please have this published, and let the world know that there is one who practices what they profess to.
Very truly and gratefully yours,
GEORGE E. MARTIN,
my5ins MARY L. MARTIN.

Important.
DR. STEVENS, No 5 Daniel Street, would give notice that he has ADDED the praise of Permanent Sets of ARTIFICIAL TEETH on the Vulcanite Base, to that charged for them before the war.
He would also give notice that he is doing a new style of work for Under Sets of Teeth, called the COMBINATION BASE (Gold and Vulcanite) which produces by far the finest work offered to the public. The price is something in advance of that charged for the Vulcanite alone, but the strength, durability, ease of boarding, and beauty of finish obtained by it, more than double the value of the teeth. mh12

Surgeon Dentist
FIRST ASSISTANT in the Office of DR. STEVENS, No. 5 DANIEL STREET.
DR. WEED can be found at his place of business at all hours of the day and night, for the performance of any of the operations that come within the call of his profession.

Dr. A. P. STEVENS, No. 5 Daniel St., makes the saving of ULCERATED and painful front teeth, a speciality in his business. He also successfully restores to their natural shape broken or badly decayed teeth, by building out corners and sides with PURE GOLD. (In many cases teeth so restored are as strong as any of their brother members, and in all cases are rendered eminently useful for a long series of years.) DISEASED TEETH, in all stages, treated, and in a very large majority of cases entire success attained.
Charges for such operations necessarily high, but nothing in comparison to the value of the Teeth. mon14

WHICH IS THE
Leading Life Insurance Comp'y
IN THE UNITED STATES?
Which is the Safest and the Cheapest?
The following figures are from the later Reports of the New York Insurance Commissioner, showing the amount of business of the
MUTUAL BENEFIT
LIFE INSURANCE COMPANY,
to be the *largest*, the "expenses of management" the *smallest*, the "ratio of Assets to Liabilities," the *safest*, *cheapest* and best to the members, the *largest* of any like institution in the country:
Premiums received in 1864.....$2,989,072
" " " " " 1865.....3,029,087
Ratio of expenses to premiums rec'd in '64...12.39
" " " " " " '65...12.16
Ratio of assets to liabilities, Jan. 1, 1865....161.85
The inevitable conclusion from these official facts, is that it is the most reliable, safest, cheapest and best Life Insurance Company in the United States.
Because its NET ASSETS are proportionably LARGER than those of any other Life Insurance Company in the United States.
Because its "Managing Expenses" are LESS, and it has LARGER FACILITIES to divide among its members than any Company in the United States.
QUERY. Will some one inform the public of that mysterious process by which a Company with a surplus proportionably *much less*, and expenses *very much larger* than another, can yet divide *more* to its members, and insure them at *less cost?* How is it done? Where does the money come from?
Every intelligent man will see at once that it *cannot be done*. Yet we have Agents among us that make this their boast.
Any one disposed or intending to insure can be furnished with the requisite information by applying to
HENRY A. YEATON, Agent.

Morning Chronicle.

A FORMER BOSTON MERCHANT SENT TO STATE PRISON.—In the Supreme Judicial Court sitting at Amherst, N. H., a few days since, John A. Gannett of Hancock plead guilty on an indictment for forgery, and was sentenced to the State Prison for five years. He procured the bank-book of a girl he was paying attentions to in Hancock, and forged an order on the bank and drew out the money. He was formerly one of a prominent firm of Boston, from which firm he withdrew about ten years ago with $30,000 in cash. This he invested in another concern, and lost $20,000 of it. Naturally vicious, he proceeded from one degradation to another until finally he has hauled up in the State Prison.—*Lowell Courier.*

DARING ROBBERY. — The Lewiston Journal chronicles this:

There was a case of highway robbery on the bridge on Saturday at the high hour of noon. A young man about five years of age who had just sold a cargo of old iron for five cents, was returning homeward with his dearly earned postage stamp in his right hand, when a desperate scoundrel armed to the teeth, aged about six years, sprang from his covert in the bridge, wrenched the precious spondulix from the victim's grasp, took to his heels and escaped.

☞ Not a drop of intoxicating liquors is kept for sale in open violation of the law, in Amesbury or Salisbury, and universal peace and quietude prevails. So popular is the temperance reform that there are three flourishing secret organizations in this village.

The Young Men's Christian Association of this village, organized a few months ago, already numbers upwards of one hundred members. Its regular meetings are fully attended, and a deep interest is manifested in them.—*Villager.*

— Gerritt Smith brought a suit against the Rome and Oswego Railroad, claiming $60,000 for damages to his property. The case was submitted to arbitration, and the referee awarded Mr. Smith $9500.

— The Newark (N. J.) Advertiser intimates that it is impossible to supply the public schools of that State with male teachers, the present salleries being an insufficient inducement. New Jersey proposes to solve the difficulty by employing female instructors.

DR. KNIGHTS' HAIR DRESSING

A VEGETABLE PREPARATION

For beautifying and promoting the luxuriant growth of the hair.

It prevents the hair from falling off or turning gray.

It removes dandruff, cleanses the scalp, cures nervous headache, and all those distressing affections induced by the use of oily or alcoholic Hair Dressings.

Its invigorating properties insure luxuriant locks, inclined to curl, and by its persistent use the hair is restored to bald heads when such a result is possible.

It is splendidly perfumed, will not stain or soil the skin or any article of apparel, and is universally approved—especially by ladies and children.

Great National Work,
THE
STANDARD HISTORY OF THE WAR,

Complete in one very large Volume of over 1,000 pages,

Splendidly Illustrated with over 150 Fine Portraits of Generals, Battle Scenes, Maps and Diagrams.

In the selection of matter for this great work the author has confined himself strictly to *official data* derived from the reports of Northern and Southern Generals, the report of the Committee on the Conduct of the War, National and Rebel Archives, etc.

He has carefully avoided the introduction of any matter not strictly *reliable* and *official*, and has succeeded in producing what is universally demanded, a *fair* and *impartial* History of the War. The great superiority of this work over all others is everywhere acknowledged. It is marked by a degree of thoroughness and accuracy attempted by no contemporary.

Disabled officers and soldiers, teachers, energetic young men, and all in want of profitable employment, should send at once for circulars, and see why it sells faster and gives better satisfaction than any other History published. Address, JONES BROTHERS & CO., 14 Phœnix Building, Boston.

CHOLERA
DISARMED!!!

The Chief Causes of Pestilence Destroyed.

DR. E. R. CORAREE'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, Nos. 298, 300, and 302 Henry street, N. Y.—Office, 42 Cedar street.

This Company organized on a permanent basis, with Courtaret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish its DISINFECTING FLUIDS for sick rooms, nurseries, urinals, water closets, privies, cesspools, sewers, gutters, ships, cattle pens, hospitals, stations, and public institutions of all kinds, slaughter houses, offal and fat-boiling establishments; all kinds of manure (eminently increasing the value of the latter), and wherever poisonous and offensive gases exist. These agents are deodorizers, antiseptics, antiputrescents, and disinfectants in the scientific meaning of the words They remove noxious gases and odors by chemical principles—leaving in their places *healthful* ones. They DESTROYERS, and *not merely absorbents* of poisonous gases—not injurious to utensils in which they are used. The attention of medical and scientific men is directed to these disinfectants. Attached are testimonials in favor of this great discovery, which, with hundreds of others, can be seen at the Company's office.

DELAVAN HOUSE, Albany, March 30, 1866.

To the President of the New York Disinfecting Co.:

Dear Sir: It is all it is represented to be. We have had many trials on our premises, but now consider that we have found an article which surpasses all others as a remedy against all bad odors. T. ROSSEL, Ex. Co.

NEW YORK, April 9, 1866.

To the President of the New York Disinfecting Co.:

Dear Sir: We pronounce it without exception to be the best we have ever tried. Its effect upon every matter is complete and instantaneous.

COLORING DAMAGED TEA.—At a meeting of the Metropolitan Board of Health of New York last Friday, Dr. J. E. Janes, Inspector of the fifth District, gave the following account of the manufacture of a spurious article of tea, which is carried on to a considerable extent in New York.—Tea which has been damaged by shipwreck or water at fires is used:

"The damaged tea is first placed in a cistern of cold water, where it is allowed to remain several hours for the purpose of extracting the saltish or other foreign taste which it may have acquired. It is then dried and sifted, and if any portion of it adheres to another portion and forms lumps, they are broken up by being passed through a sugar crusher. The coloring matter is then added, and the tea removed to a revolving barrel, for the purpose of having the tea and coloring matter thoroughly mixed. The tea is then moistened and again dried, and then it is ready for the market. The proprietor stated that he paid a Chinaman $1000 for the secret of coloring, and he did not wish to impart it to any one unless he had a peremptory order to that effect."

☞ The Cornhill (London) Magazine, gives the following mode of making and publishing authorized Prayers, in the Churches of England, (we presume for special occasions, as in rindepest or cholera times):

One archbishop is first ordered by the queen to prepare a prayer on a given subject; this done, he is required to submit it for approval to the lords of the Privy Council; these gentlemen, we are told, commonly make some alteration in it. The prayer thus amended, is sent to the queen's printer, and is thence dispatched to the parochial clergy, who are ordered to read it aloud in their respective churches, and it is read accordingly.

INTEMPERANCE AND EPIDEMICS.—In the year 1853, when the yellow fever visited New Orleans, about five thousand of the supporters of grog-shops died, before the disease attacked a single temperate man; and in the same year, out of nine hundred who died of cholera, only three were teetotalers. In Albany, N. Y., during that year, when the pestilence swept off one in sixty of the entire population, only one in twenty-five hundred of the strictly temperate were seized.

— In Cincinnati, Ohio, there were seven deaths by suicide last week.

AMERICAN AND FOREIGN PATENTS
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,
78 State Street, opposite Kilby Street,
BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

Morning Chronicle.

Portsmouth N. H.

THURSDAY, MAY 17, 1866.

REPORT OF THE ROYAL COMMISSIONERS ON THE JAMAICA MASSACRE.—The London Times, May 1, contains an article on the investigations made by Messrs. Gurney and Maule, Royal Commissioners to Jamaica, and the result reflects very little credit on the conduct of the English residents in that island. A large number of persons were put to death long after all resistance had ceased. In the case of Gordon there may have been some reason for arresting him, so as to overawe his followers, but none for murdering him as they did. He was assumed to be guilty and was not allowed to prove himself innocent. The Times says:

"Upon this cruel and unscrupulous act, as well as upon the reckless disregard of human rights, if not the inhumanity displayed by several military officers, the Commissioners may be expected to pronounce a decisive condemnation. The alleged enormities of Mr. Ramsay, having been virtually removed from their cognizance by the indictment against him for murder, will call for no special comment."

The conduct of Gov. Eyre is mildly censured, and he is regarded as being unfit for the position which he held. He acted with terrible energy, and allowed himself to be carried away by the passions of the mob instead of restraining them. Instead of maintaining a calm judgment he acted the partisan, and yielded to the panic of his advisers.

"The total number of 'rebels' shot or hung during the continuance of martial law, has been carefully ascertained by the Commissioners, and amounts to 438. This is stated to include all who were sentenced to death by court-martial, shot in the bush, or on the march by soldiers, or hung without form of law. About 600 persons are found to have been flogged, and (what is more startling) no less than 1000 houses of the peasantry, affording shelter for about 4000 souls, were burnt down."

This rather an unfavorable record for the "guardians of civilization."

— To get up the new five-cent piece, which is soon to be issued, it will cost about $600,000. There will be, when the coinage is complete, three and a half million dollars in this money in circulation, that being the amount in postal currency, three and five cents, that the coin is intended to supersede.—*Exchange.*

Will any one tell the public, how many of our old 3-cent pieces there are, and where they are? They are of no more *intrinsic* value than the 3 cent scrip; they are not in circulation,—but they have not gone out of existance. There must have been a very large class of cowards and fools, to hide away such an amount of such money.

GENERAL SANTA ANNA.—The *Courrier des Etats Unis*, speaking of the arrival of this distinguished agitator, and after alluding to the fact that he was among the first to accept a monarchy in his country, suggests that possibly he imagines that as the empire runs some risk by the departure of French troops, and inasmuch as Juarez is not acceptable to the whole of the Mexican people, that he may possibly be accepted as the successor of both.

FEELING IN NORTH CAROLINA.—Gov. Holden of North Carolina has addressed a letter to a prominent member of the United States Senate, stating that hundreds of loyal people are daily leaving North Carolina for the Northwest; that unless some protection is speedily afforded them by the Government every loyal man yet remaining in the State will be compelled to leave, he among the rest.

—— Mrs. Cleaveland C. Cram, of New Boston, committed suicide in that place on Wednesday morning, May 9th, by drowning herself in a well. Her husband left her in bed, and when he returned he found her plunged head-first into the well, and life was extinct. She had been partially insane for several months.

— Rev. Dr. A. L. Stone had a narrow escape at the time of the recent explosion of nitro-glycerine in San Francisco. He was driving down the hill directly toward the scene, and in a minute more would have been in front of the building. He had a full view of the scene.

— Gen. Cox has been advised that the remains of the seven Ohio soldiers who were hanged at Atlanta for participating in the celebrated railroad expedition sent out by Gen. Mitchell, in 1862, have been removed to Chattanooga and their graves appropriately marked

Correspondence of the Chronicle.

PORTLAND, ME., May 16.

Eds. Chronicle:—After considerable of a quietus, we again resume our epistolary intercourse, and will try to tell you something of the doings and rumors of this eastern city of commerce and beauty.

Portland is without doubt growing, but but its progress is slower than it ought to be. If the majority of the wealthy capitalists here would liberally encourage the new enterprises, and invest their money and devote their energies in the direction alluded to, Portland would take immense strides forward. The fact is, but few of the moneyed men take hold of new interests and push them ahead, and among them J. B. Brown stands at the head. He is an honor to the city, and if the rich men at large were like him and a few others associated with him in connection with the leading manufacturing concerns, we should see "wonders in troops," instead of singly. Rip Van Winkle, however, will soon wake up. He can't sleep much longer.

The Portland Rolling Mills, just erected at Cape Elizabeth, will start about June 1st, manufacturing heavy plate iron, railroad iron, rails, &c. Being thus centrally located, a future of great prosperity is predicted for the concern. It is in the hands of practical men, and the Superintendent and hands engaged are experienced in the business, and are mostly from Pennsylvania.

A new sugar refinery, T. O. Hersey, Esq., President, is going up near the Portland Glass Works, on the left of the P. S. & P. Railroad bridge, as you enter the city. New stores are being erected on Commercial street, and at other advantageous sites. The new Custom House is to be built nearly opposite the old Custom House wharf. On Commercial street, a block of stores to be taken down, and a store and commodious building is to take its place. Work will commence at once, and it is under charge of Mr. Charles R. Frost, an experienced and practical builder. The present Custom House and Post Office building is to altered over and fitted up for the U. S. Courts and Post Office. Although the present building is a fine and commanding one, yet for a Custom House it is too far away from the commercial part of the city.

The running of the evening express trains over the P. S. & P., and the B. & M. and Eastern roads, which commenced Monday, is a grand idea, and will prove a wise enterprise, accommodating New York through travel, and also business men here and in this vicinity,—enabling the railroads to successfully compete with the Boston line of steamers which leave here about 7 P. M.

The Board of Trade, at a meeting on Saturday evening last, received a communication of Hon. F. O. J. Smith, accompanied with plans, in regard the improvements of the Presumpscot river and harbor of Portland, projected by the Presumpscot Land and Water Power Co. Mr. S. claims that if the plans are accomplished, no other city on the Atlantic coast can furnish such advantages for manufacturing and commercial interests, and he urges the attention of the Board, and merchants generally, to the undertaking. A resolution of thanks to Mr. Smith, and appreciation of the importance of the case, was passed. The subject will receive the early and earnest attention of the Board.

Neal Dow is going to England to lecture on Temperance.——The change in the weather is severe, and almost as uncomfortable as the present currency change.——Portland needs a first-class hotel.——The seaside houses are being put in trim order, expecting a big season. Your vicinity will be especially favored. With Dumas at Hampton Beach, Lougee at the Atlantic (Rye), Jenness with his new house at the Ocean (Rye), and Philbrick with his cottages at Rye, old Rockingham can't be beat.

SANCHO.

THE SOUTHERN DEAD.—The Richmond Whig says, in regard to the recent decking of rebel graves with flowers, that political significance is not attached to these ceremonies at the South. They are conducted by the ladies, and it is not the habit of the Southern ladies to form political conspiracies. If the men at the South contemplated treason and "civil war," they would resort to other methods than these—nor would they put forward their wives and daughters to do the dangerous work.

EFFECT OF NAPTHA.—George W. Pridham of Portland, a painter at the Grand Trunk repair shop, while engaged in painting the inside of a tender, suddenly fell, and assumed the appearance of a man deeply intoxicated. He was taken home, and soon after went into convulsions, attended by lockjaw. A physician was called, who stated that his condition was the result of inhaling the poisonous vapor from the naptha in the paint. After several hours the man was restored to consciousness, and he is in a fair way of recovery.

— The requirement to print the Washington Post Office advertisements in two papers having the largest circulation in that city, will save the Treasury from $60,000 to $80,000 per annum.

IN THE U. S. SENATE, Tuesday, May 15, Mr. Fessenden gave notice that he should call up the Reconstruction resolutions from the House on Monday and press them to a vote.

A bill was passed fixing Richmond as the place, and May and December as the time for holding the U. S. Circuit Court in Virginia, instead of Norfolk.

The bill appointing an additional Assistant Secretary of the Navy was passed.

The joint resolution to prevent the introduction of cholera was taken up, and after debate the House resolution was so amended as to give the Secretary of the Treasury power to make proper regulations on the subject of quarantine,—and to give "authority to the President to direct the revenue officers and officers commanding revenue cutters to aid in the execution of such quarantine and health laws as may be necessary." Agreed to.

On motion of Mr. Edmunds it was provided that all authority hereby granted shall expire on the 1st of January next. The resolution passed—27 to 12.

The bill to prevent smuggling was discussed and passed.

In the House, Mr. Wilson offered an amendment which he proposes as a substitute for one of the bills reported by the Reconstruction Committee, which was ordered to be printed. It provides that when an amendment shall have become a part of the Constitution, and any State lately in rebellion shall comply with its requirements by modifying its Constitution in conformity therewith, Senators and Representatives from said States, if found duly elected and qualified, and after taking the required oath of office, may be admitted to Congress, provided such State shall establish equal suffrage for all male citizens not less than 21 years of age, and such Senators and Representatives may be admitted to Congress without awaiting the action of other States on said amendment. This shall not require the distranchisement of any loyal person now entitled to vote.

A resolution was adopted that the Pension Committee inquire into the propriety of amending the pension laws so as to prevent pension agents from exacting fees.

The bill to amend the organic act of the Territories of Nebraska, Colorado, Dacotah, Montana, Washington, Idaho, Arizona, Utah and New Mexico, was considered.

Mr. LeBlonde moved to strike out the 9th section, prohibiting any denial of the elective franchise to citizens of the United States, because of race or color, and all persons shall be equal before the law. Rejected. The bill was then passed—79 to 43.

Messrs. Boutwell and Le Blonde were excused from service on the Special Committee ordered to investigate the Memphis riots, and Messrs. Broomall and Shanklin were appointed in their stead.

☞ Tuesday afternoon, as the engine was backing in to the Eastern Depot, Boston, to be attached to the 3 o'clock outward train, two unknown men on the track stepped across to avoid another train, and were run over by the locomotive. The accident occurred on the bridge near the depot. One of the men was killed instantly, while the other, having been knocked overboard, was rescued and conveyed to the Massachusetts Hospital. They were sailors, and belonged to a schooner laying in the vicinity of the bridge.

The injured man on reaching the hospital became conscious, proves to have been less seriously injured than was at first supposed, and hopes are entertained of his recovery. No blame whatever is attached to the engineer, Mr. C. F. Green, who is one of the most skillful, experienced and careful men, or to any person but the parties themselves.

— Cork is almost ready to float over the Atlantic, it has so many people in it who tend this way.

— James G. Ferguson was recently arrested in New York city, charged with being connected with the Exchange place bond robbery. One of the bonds taken from the safe of Mr. Rufus Lord was found in his possession. He was committed without bail.

— Bishop Whipple of Minnesota is at Washington, D. C., administering the rite of confirmation in some of the Episcopal Churches, without distinction of color, to the disgust of the old residents, who believe in the peculiar institution here and hereafter.

— Charles E. Nelson, aged 52 years, who had been in the army, committed suicide by hanging himself in the house of Obed T. Fisher, in Lakeville, on Friday. He lost his wife about five or six weeks since, and that, with his own sufferings from the loss of a limb, and his doubts as to his ability to support himself, led him to self-destruction.

— It appears from a communication from the Navy Department to the House that there is not among the clerks any who were engaged in the rebellion since March 2, 1865, when the resolution was passed that soldiers and sailors should have preference in appointments. No one has been appointed in the Navy Department who has not served either in the army or navy.

☞ Messrs. Lee & Shepard, Boston, have just published "In Trust, or Dr. Bertrand's Household," by Amanda M. Douglass, and "A Thousand a Year," by Mrs. E. M. Bruce. Both are readable books, got up in pleasing style, and the reader cannot fail to find profit and pleasure in their perusal. The latter is dedicated to the band of christian ministers by whose self-sacrificing toil American civilization is so rapidly advancing, and to their patient wives who toil unceasingly with burdens that are never lifted. These works may be obtained at Batchelder's bookstore in this city.

☞ With regard to Secretary Stanton's alleged support of President Johnson's policy, the Chicago Tribune says:

"We have the best reasons for believing that the Secretary of War stands now, as he always stood, among the foremost in the party of Progress—by which we mean the party that believes in the principles of the Declaration of Independence, that "all men are created equal,' and aims to carry that principle into practical effect throughout the United States."

☞ President Johnson on Tuesday vetoed the Colorado bill, giving various reasons. Towards the close of the message he says:—

Eleven of the old States have been for some time and still remain unrepresented in Congress. It is a common interest of all the States——and that in the meantime no new State shall be prematurely and unnecessarily admitted to a participation in the political power which the Federal Government wields, &c.

The Senate laid the message on the table,—to read it on Wednesday.

— Several cargoes of flour are on the way to this country from France, on a speculative adventure.

— Having frequently expressed our opinion in these columns of the superior qualities of the J. Monroe Taylor Gold Medal Soap over any and all others in the market, it appears unnecessary to occupy space to reaffirm that opinion. No eulogy can now add to its reputation, and no disparagement can detract from its merits. The secret of the universal favor which this Soap receives, lies in its invariable purity and excellence. It is one of those articles that returns to the consumer many times the cost. 87

REDUCTION IN PRICE

OF THE

AMERICAN WATCHES.

MADE AT WALTHAM, MASS.

In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed

With Gold at Par,

so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of

More than 200,000 Watches,

have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.

We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:

1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy &Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.

The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,

ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED

to be the best time keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit orders for single watches.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

ALLCOCK'S POROUS PLASTERS.—A celebrated physician says "he was amazed at the great number of beneficial indications produced by one of these plasters. He affirms that *headache* is cured by one worn just below the breast-bone; that one placed over the navel will cure hysterics, as well as dysentery, and affections of the bowels."

CURE OF VARICOSE VEINS.
City Point, Va., January 24, 1865.
T. ALLCOCK & CO.:
Gentlemen: seeing your notice in the Police Gazette, I got four of your Porous Plasters and placed them on the parts where the pains were most severe, and in less than twelve hours could walk as well as ever. I could hardly believe it, I was so well pleased. I wanted to see if the lameness would come back on me or not, so I did more walking that day than I had done in a week. The next day I had some pain in my hip, but I put on a plaster there and in two hours the pain was all gone, nor have I felt it since. Certainly they are the best application for the relief and cure of pains in the joints and backs, and for varicose or enlarged veins, I have ever known, and I would not be without them on any account. Yours truly,

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-erspot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the disfigured spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any person that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these disfigurations, which is at once prompt, infallible and harmless.

Lyon's Periodical Drops!
THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. CLAIRVOYANT!
—AND—
ECLECTIC PHYSICIAN!

From 618 Broadway, New York, will arrive in PORTSMOUTH May 14th, and take rooms at the FRANKLIN HOUSE, for a short time only.

A Clear Case of Clairvoyant Sight.

DEAR MADAM:—Permit me to tender you my sincere thanks for the cure you have effected on my child. My daughter, ten years old, was taken sick last January in a very singular manner. We called in six of the best Physicians in the city; they said the case was a very singular one—they never saw one like it—and came to the conclusion they could not tell what the disease was. Some friends advised that we should call in Clairvoyant; there being none in Providence that we could rely on, we wrote to Mrs MANCHESTER, in Portland, describing her symptoms. She immediately examined her case and told us that she had a snake in her stomach, told where she had drank it, and that it had been growing, and from the best of her judgement she should think it ten or twelve inches long. I gave the child her prescription and in a few hours the child ejected the snake alive from the stomach; it was measured and found to be eleven and a half inches long. We have it preserved in all may see for themselves that this statement is really true. I am confident that the child could not have lived, had it not been for Mrs Manchester, and we feel as though she never could be repaid for her skill. MARY RAY,
GEO. W. RAY.
Providence, R. I., Nov. 10, 1865.

BANGOR, May 15th, 1865.

MRS MANCHESTER—Dear Madam: When you were in Bangor last Summer, I called to see you with a child of mine that had been sick for four years. I had taken her to a number of physicians, and none could tell what ailed her or even her symptoms. You examined her case and told me exactly her symptoms from the commencement of her sickness, which were very peculiar; also told me there was something alive in her, and also said there was a number of them, and told me that she drank them from a rain-water cistern. You said that you would not warrant a cure, but would try and do the best you could for her. She commenced taking your medicine in August last, and from that time till December, the child passed off large quantities of what we call *Tadpoles*, from rain water, and I think, and am certain that the child must have died had it not been for you. And I advise everybody to see Mrs Manchester, for I know that she has the power of knowing the condition of a person discased better than any physician that I have ever heard of. Please have this published, and let the world know that there is one who practices what they profess to.

Very truly and gratefully yours,
GEORGE E. MARTIN,

DR. STEVENS, No 5 Daniel Street, would give notice that he has REDUCED the price of Permanent Sets of ARTIFICIAL TEETH on the Vulcanite Base, to that charged for them before the war.

He would also give notice that he is doing a new style of work for Under Sets of Teeth, called the COMBINATION BASE (Gold and Vulcanite) which produces by far the finest work offered to the public. For price is something in advance of that charged for the Vulcanite alone, but the strength, durability, ease of bearing, and beauty of finish obtained by it, more than double the value of the Teeth. mh12

WHICH IS THE
Leading Life Insurance Comp'y
IN THE UNITED STATES?

Which is the Safest and the Cheapest?

The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of the

MUTUAL BENEFIT
LIFE INSURANCE COMPANY,

to be the *largest*, the "expenses of management" the *smallest*, the "ratio of Assets to Liabilities" or the *security* furnished to its members, the *largest* of any life institution in the country.

Premiums received in 1864 ..... $2,089,072
" " " " 1865 2,020,987
Ratio of expenses to premiums rec'd in '64..12.96
" " " " " '65..12.16
Ratio of assets to liabilities, Jan. 1, 1865 ..... 118.55

The inevitable conclusion from these official facts, is that the

MUTUAL BENEFIT LIFE Insurance Company
IS THE BEST AND THE CHEAPEST.

Because its NET ASSETS are proportionably LARGER than those of any other Life Insurance Company in the United States.

Because its "Managing Expenses" are LESS, and it has a LARGER SURPLUS to divide among its members than any Company in the United States.

QUERY. Will some one inform the public of that mysterious process by which a Company with a surplus proportionably *much less*, and expenses *very much* larger than another, can yet divide *more* to its members, and insure them at *less cost?* How is it done? Where does the money come from?

Every intelligent man will see at once that it cannot be done. Yet we have Agents among us that make this their boast.

Any one disposed or intending to insure can be furnished with the requisite information by applying to

Auctions.

Auction.
On SATURDAY, May 19, at 12 o'clk M.,
on the premises,
[Postponed from April 17th.]

The Real Estate of the late CHARLES W. WALKER, deceased, in said Portsmouth—consisting of the well-known MARKET STREET HOUSE, with the land and buildings connected therewith,—fronting on Market street about 69½ feet, and on Green street about 140 feet; and a lot of LAND on said Green street, with a Stable and Office Building thereon.

The house is large, well-calculated, and conveniently situated for a hotel or large boarding-house, having been occupied as such for many years. It contains 40 rooms, well-lighted, and also a Store. The stable has been used as a Livery Stable, and is 35 by 36 feet.

The premises will be sold to the highest bidder without reserve. If desirable, a portion of the purchase money can remain on mortgage.

To be sold by order of Guardian, by virtue of a license from the Court of Probate for the County of Rockingham.
my11 JOSEPH P. MORSE, Auct.

Guardian's Sale of Real Estate
AT AUCTION.

By virtue of a license from the Hon. Judge of Probate for this County, will be sold at auction,

On SATURDAY, May 26, at 12 o'clk noon,
on the premises,

The COTTAGE HOUSE and LAND No. 8 Manning street, now occupied by Mr Mark Fernald. The house contains five Rooms, is supplied with Aqueduct Water, and is conveniently arranged for a small family.

Immediately after the above, will be sold in one lot, the TWO HOUSES in one block Nos. 7 and 9 Hancock street, with the LAND appurtenant thereto. These houses are entirely separate from each other, have each four rooms besides attics, furnished with aqueduct water, and are now under rent.

At half-past 12 o'clock,

Will be sold on the premises, the COTTAGE HOUSE and LOT No. 3 Anthony street. This lot is fifty feet on Anthony street and extends back 150 feet, and is bordered by a never-failing Spring of excellent water.

The sale is by the guardian of ALICE A. FERNALD, of the Minor interest in the several pieces of property; and at the same time will be offered the interest of MRS A. T. HALE in the estates, giving together a perfect title to each lot.

Terms Cash. For further particulars enquire of JAMES E. HALE, 94 Water street.

Morning Chronicle.

A SPRING MORNING.

What changed to the world, I wonder, last night!
This marvel enchanting that bursts on the sight,
—I this vision of fairy-like grace!
The heaven is so blue, the earth is so green;
A blooming, or slighter, a wonderful sheen,
Is filling all beight and space.

What marvel last night was wrought in my heart?
Oh the sweet strange power that within doth start!
Creations blissful unfold.
New longings and longings so wonderful all;
In truth, now my heart is too narrow and small
For the joy it hath to hold!

BROADCAST THY SEED.

Broadcast thy seed!
Although some portion may be found
To fall on uncongenial ground,
Where sand, or shard, or stone may stay
Its coming into light of day;
Or when it comes, some pestilent air
May make it droop and wither there—
Be not discouraged; some will find
Congenial soil, and gentle wind,
Refreshing dew, and opening shower,
To bring into beauteous flower—
From flower to fruit, to glad thine eyes,
And fill thy soul with sweet surprise.
Do good, and God will bless thy deed—
Broadcast thy seed!

— Maine has an aggregate of 479 miles of railroad.

— The New York Evening Post's Columbia (S. C.) correspondent forwards an affidavit made by William B. Nasle, setting forth that he saw the South Carolina Depot buildings burning before General Sherman entered that city. He also saw cotton burning, and the corpses of persons killed by the explosion at the depot.

— John Randolph is said, upon one occasion, to have visited a race-course near the city of New York. A foolish looking stranger offered to bet him $500 upon the result of the race, and, introducing his companion, said, "Mr. Randolph, my friend here, Squire Tompkins, will hold the stakes." "But, sir," squeaked the orator of Roanoke, "who will hold Squire Tompkins after I give him my money?"

— A bet was made between two Providence men before last Presidential election concerning the result, and the stake, $1000, deposited in the hands of a third person. One of the parties subsequently called on the stakeholder and demanded his money, which was refused. A second time he asked for it and was told that it had been paid over to the winner. On this the loser entered a suit against the stakeholder for the amount, and gained his case.

AGENTS WANTED
—FOR OUR—
Great National Work,
THE
STANDARD HISTORY of the WAR,
Complete in one very large Volume of over 1,000 pages,
Splendidly Illustrated with over 150 Fine Portraits of Generals, Battle Scenes, Maps and Diagrams.

In the selection of matter for this great work the author has confined himself strictly to *official data* derived from the reports of Northern and Southern Generals, the report of the Committee on the Conduct of the War, National and Rebel Archives, etc.
He has carefully avoided the introduction of any matter not strictly *reliable* and *official*, and has succeeded in producing what is universally demanded, a *fair* and *authentic* History of the War. The great superiority of this work over all others is everywhere acknowledged. It is marked by a degree of thoroughness and accuracy attempted by no contemporary.
Disabled officers and soldiers, teachers, energetic young men, and all in want of profitable employment, should send at once for circulars, and see why it sells faster and gives better satisfaction than any other History published. Address, JONES BROTHERS & CO., 14 Phœnix Building, Boston.

HIGHLY IMPORTANT
TO—
UNFORTUNATE FEMALES!
DR BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females.—He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spines, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 23 Endicott street.
Persons at a distance can consult Dr. BRISCOE, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.
Address Dr. BRISCOE, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and securely observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1865. THSly
DR. M. BRISCOE still continues his success in treatment of all Private Diseases, such as Female Complaints, at his old established office, No 23 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
P. S.—Those who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

CHEROKEE PILLS,
Or Female Regulator,
Cure *Suppressed, Excessive and Painful Menstruation, Green Sickness, Nervous and Spinal Affections, Pains in the Back, Side, Headache, Giddiness*, and all diseases that spring from irregularity, by removing the cause and all the effects that arise from it. They are perfectly safe in all cases, except *when forbidden by directions*, and are easy to administer, as they are nicely *sugar coated*. They should be in the hands of every Married Wife, and Mother in the land.
Ladies can address us in perfect confidence, and state their complaints in full, as we treat all Female Complaints, and prepare Medicines suitable for all diseases to which they are the subject.—Thirty-two page pamphlet, in a sealed envelope, free.
The Cherokee Pills are sold by all druggists at $1 per box, or six boxes for $5; or they are sent by mail, free of postage, in an ordinary letter, free from observation, by addressing the sole proprietor,
Dr. W. E. MERWIN, 37 Walker St., N. Y.
N. B.—Cherokee Pills No. 2 are prepared for *especial cases*, when milder medicines fail; these are sent by mail, free of postage, on receipt of $5, *the price of each box.*

DR. WRIGHT'S
REJUVENATING ELIXIR,
Or, Essence of Life,
Cures *General Debility, Weakness, Hysterics in Females, Palpitation of the Heart and all Nervous Diseases.* It restores new life and vigor to the aged, causing the hot blood of youth to course the veins, restoring the *Organs of Generation, removing Impotency and Debility, restoring Manliness and full vigor*, thus proving a perfect "*Elixir of Love*," removing *Sterility* and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life, causing the weak and debilitated to have renewed strength and vigor, and the entire system to thrill with joy and pleasure.
Price, one bottle $2; three bottles $5; sent by express to any address.
Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make money. Be not deceived—ask for these medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with full statements in regard to any disease with which ladies or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,
Dr. W. R. MERWIN, 37 Walker St., N. Y.

The Chief Causes of Pestilence Destroyed.
DR. E. R. COURARET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, Nos 298, 300, and 302 Henry street, N. Y.—Office, 42 Cedar street.
This Company organized on a permanent basis, with Courtaret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish its DISINFECTING FLUIDS for sick rooms, nurseries, animals, water closets, privies, cesspools, sewers, gutters, in hospitals, hospitals, prisons, and public institutions of all kinds, slaughter houses, offal and fat-boiling establishments of all kinds—*most immediately* increasing the value of the latter), and wherever poisonous and offensive gases exist. These agents are deodorizers, antiseptics, antiputrescents, and disinfectants in the scientific meaning of the words. They remove noxious gases and odors by chemical principles—leaving in their place *healthful* ones. They are DESTROYERS, and *not merely absorbents* of poisonous gases—not injurious to utensils in which they are used, and *not* attended with odors, which can be seen at the Company's office.
DELAVAN HOUSE, Albany, March 30, 1866.
To the President of the New York Disinfecting Co.:
Dear Sir: It is regarded by many as a wonder, have made many trials of disinfectants, but now consider that we have found an article which surpasses all others as a remedy against all bad odors. T. ROBSEL & Co.
NEW YORK, April 9, 1866.
To the President of the New York Disinfecting Co:
Dear Sir: We continue to consider your fluid to be the best we have ever known. Its effect upon every matter is complete and instantaneous.

HOSTILITY TO FREEDMEN'S SCHOOLS. In some parts of the South open and violent hostility to the education of freedmen is manifested. The latest case we have noticed occurred at Grenada, Miss., where two young ladies attempted to carry on schools for colored children under the auspices of the American Missionary Association. Mr. J. P. Bardwell, the agent of the Association, writes an account of the affair to the Memphis Post. It appears that Mr. Bardwell obtained permission from Gen. Wood to remove a government building for the purpose of using it as a school-house, which was claimed by the owner of the land as being his property. Attempts were made to arrest Mr. Bardwell for removing the building, which he did not resist, but failed from defects in the warrants. Disappointed in this his enemies adopted another course. While sitting in a lawyer's office on the 28th of April, a brutal assault was committed upon him, of which he says:

In a few minutes a man named Tom Sherman called at the door with two other persons, and asked to see me. Mr. Fairfield went out and left me with these men. Sherman immediately commenced a tirade of foul abuse, telling me that he had a jackass, and wanted me to take care of him.—After making some hard threats he left, but soon returned with a large crowd, and with curses and vile language he pulled me from my chair, seized me by the throat with his left hand, and dealt me a severe blow with a heavy cane which he held in his other hand. He swore that he would kill me in two minutes. Said he: "We must sustain the Government now, and if it was not for that you should die damned quick." When he had beaten me, he left with his crowd. After washing the blood from my head I went to the Mayor's office, where His Honor the Mayor fined the ruffian ten dollars and then let him go. The threats that were made that the house in which the teachers lived should be burned, have compelled us to abandon the attempt to teach the freedmen at Grenada.

Mr. Bardwell further says that after Lieutenant Blanding, of the Freedmen's Bureau, was shot at Grenada, and while he was dying, a committee of the citizens of Grenada waited on Captain May, Sub-Commissioner of the Bureau, and notified him that the teachers must leave, and that if he himself did not leave he would be killed next.

The young ladies who were teaching at Grenada were obliged to board with negro families, as no white families would receive them.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
over Twenty Thousand Patients Cured Annually
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the old World) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of Dr. Teller's Medicines, and have been tested in more than 20,000 cases annually, with immense success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsle and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. Teller has devoted a lifetime to the cure of those diseases upon which his books treat
TO THE LADIES.
Dr. Teller still remains the only Agency in America, for the sale of Dr. Velpeau's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Portsmouth N. H.

FRIDAY, MAY 18, 1866.

WM. LLOYD GARRISON.—The Christian Watchman, of May 17, contains a spirited sketch of the life of Wm. Lloyd Garrison, the Liberator, written by Mrs. Harriet Beecher Stowe, too long for our columns, but to us of great interest, for we knew him intimately and thoroughly in early life, and have never lost sight of his career, tho' we meet only at long intervals.

Being fellow apprentices, we can say that among the many hundreds of compositors whom we have known, no one excelled Garrison in speed or accuracy, and only one in fifty or a hundred deserved to be called his equal. He possessed integrity and firmness of purpose, and whenever these qualities were tested, they were found abundant.

One incident, connected with his Free Press enterprize in Newburyport, seems not to have been known to Mrs. Stowe; but it is worth publishing just now, as a supplement to her sketch.

The Press was by profession democratic in principle, and it was attached to the then existing Republican Party. Some one or more of the party, wished Mr. Garrison to insert an article which attributed to Mr. Allen, of the Herald, who was a federalist, some unfavorable traits of character which G. knew did not belong to him: therefore he declined. The publication was urged, with the threat to withdraw their support and draw off others. Garrison *would not*, could not, belie his own convictions. The threat was executed,—and Garrison stopped his paper, giving very delicately the true reason for it. And then he went back into the Herald Office, and by his services as a journeyman, paid off a debt which he had contracted as a master printer. He knew, as we did, Mr. Allen's personal worth,—and no party was strong enough to induce Lloyd Garrison to defame him,—nor rich enough to buy him over into saying anything which he knew to be false.

The "exorbitant fine," for which he was imprisoned, in Baltimore, was $100. He had not the money, and would not have any effort made to raise it. But Arthur Tappan *paid* it to the authorities,—and then the prison keeper had to turn him out. Mr. G did not wish to have it paid at all,—but it was done, and could not be undone. U. T.

☞ A loyal paper before us has the following sensible remarks:

Harmony of action in all the departments of the government has seemed a necessity for all sections of the country—for all classes of interests—for all classes of the people; and especially for the 4,000,000 freedmen to whom the conquest of the rebellion gave liberty but not rights [powers or privileges] a country but not a home. Feeling the necessity of union in the great Union Party, to secure all these essential interests, we have never hesitated to urge the importance of concert of action. We would get what we believed the best plan of restoration, if we *could*; but if, in such a wide extent of country as ours, with such a multiplicity of opinions and interests, we should become convinced of the impossibility of procuring the adoption of our views, we should consider it no sacrifice to accept the *next best* plan that presented itself; for in the affairs of society, concession is sometimes necessary; and it is better sometimes to take a part of what we want, than to insist upon the whole, and fail to get anything.

KILLED BY CORN SALVE.—Frederick Benjamin, a colored waiter in New Haven, applied a certain corn salve to a troublesome corn, and afterwards put turpentine on it. Result—inflammation—leg amputated—death.

POWDER WASTED.—A salute was fired in New York in honor of President Johnson's veto of the Colorado bill.

— The importunities of office-seekers have forced the new Collector of New York to flee the city. [The new friends of the President—are they?]

— Gen. Fisk advertises for negro workmen to rebuild the negro churches destroyed by the mob in Memphis, and has intimated that the city must foot the bill.

— Justice Field, of the U. S. Supreme Court, is said to have expressed the opinion that the Act of 1862, under which Davis is to be tried, repeals all previous provisions of law for the punishment of treason.

— In Birmingham, Eng., the other day, a woman accidentally killed her infant by pressing its head against the front of her dress, in which a needle was sticking. The needle entered the child's head, and caused fatal injuries.

— Gen. Howard is confident that the agents of the Freedmen's Bureau in North Carolina have been slandered by Generals Steadman and Fullerton. He intends to thoroughly investigate the charges brought against them.

— That was a pleasant and instructive reply made by the chief manager of the immense corporation known as Wells, Fargo & Co.'s California Express, when asked what new lessons his great experience had taught him. "It has taught me," said he, "to trust men. Show confidence in them, and they will prove worthy of it."

NEW HAMPSHIRE ITEMS.

—— At New Boston, an Irishman named Michael Killboy fell from a beam in a barn on Saturday last and fractured his skull. He died on Sunday evening from the effect of the injuries received. He was about 40 years of age, and was employed as a laborer on the farm of Mr. John Warren.

—— The Coos Republican is informed that Mr. Robert Jaques of Northumberland, has 12 sheep, which on the 10th instant had by them 26 living lambs. Two of the sheep had 3 lambs each.

—— An inhabitant of the Upper Coos, says, no one can tell what a day may bring forth; but we can tell what a night recently brought forth to a young farmer in this vicinity: Three calves, two colts, eleven pigs, nine lambs—and a baby.

—— Adj. Gen Head has selected Geo. A. Marden, esq. to edit the Military History of the New Hampshire Regiments during the late war.—He was out for three years as a sharpshooter,—and was a lively correspondent.

☞ A letter from Charles Hamilton, dated Williams Fork, Arizona, April 30, seems to confirm the massacre at Fort Goodwin. He states that the massacre occurred ten days previous, and that of two companies of regulars, 3d battalion of the 14th regiment, consisting of 100 men, only 7 escaped. The remainder were murdered and scalped. The Apaches reaped a rich harvest, carrying off arms, ammunition, commissary stores, etc. A number of supposed friendly Indians were admitted into the fort and suprised the garrison. The tribe called Hualapes had murdered one man and committed other outrages in the vicinity of Williams Fork. [Other accounts leave the matter doubtful.]

☞ The investigation of the Merchants' National Bank affairs, at Washington, shows that 4 per cent. interest per annum had been paid in balances of some of the disbursing officers and agents, who kept their accounts in that bank. Paymaster Paulding's case looks very bad. He has been placed under arrest. The note holders of the Venango National Bank of Franklin, Pa., and the Merchants National Bank of Washington, have been requested to forward their bills for redemption.

☞ A Washington letter of Wednesday says:—

President Johnson is to be serenaded tomorrow night by the National Union Club, of which Assistant Postmaster General Randall is President, and afterward those Cabinet officers in the city are to be successively called upon and will proclaim their views on the questions of the day.

☞ Among the many good papers now published is the American Artizan, a journal of science, mechanics and engineering, published by Brown, Coombs & Co., New York, at $2.50 per year.

☞ A great fire has swept over the pine woods in Sandwich, Mass., damage, $50,000.—One house was burnt.

HYDROPHOBIA.—A girl thirteen years of age, the daughter of an innkeeper named Guyot, residing at Neuville-les-Dames (Am) France, has just died from hydrophobia, after three days of dreadful sufferings. She had never been bitten by a dog, but had often played with one belonging to her father, which was killed in a rabid state. As she sometimes allowed the animal to lick her face at a time when she had a small sore on her lip, the virus is supposed to have been communicated to her in that manner.

FINANCIAL SCHEME.—The London Spectator notices the formation of a company called the "Cash Payment Association," intended to take advantage of the difference between cash and credit prices. Every person who pays ten shillings a year to the association receives a list of shops at which, for ready money, he may obtain goods from seven to twenty-five per cent. cheaper than he otherwise would. The tradesmen give this pledge to the association, being themselves repaid by the additional customers sent them.

— Gen. Sweeney looks upon Stephens, the great Fenian Head Centre, as a spy in English employ.

— In New York city, the car strike has thrown permanently out of employment thousands of men and harmed others. The ship builders strike has been very disastrous, throwing out of the city the business to the amount of $5,000,000.

— Assistant Paymaster J. J. Philbrick, of the U. S. Navy, arrived in New York on the U. S. steamer Massachusetts, April 24, since which time nothing has been heard of him at the Navy Department, and fears are entertained that he may have met with accident or death.

— Col. Denteen, late of the United States army, recently purchased a farm near Atlanta, Ga., which he was improving for a permanent residence. On the 6th inst. he was assaulted by four armed men, who demanded his money and his horses. The Colonel resisted, but was overpowered, after receiving three pistol shot wounds. The ruffians then secured their booty and escaped.

TEXAS.—The work of practical reconstruction does not seem to be progressing in a flattering manner in Texas. A Texan correspondent of the New York Post says that from the time of the surrender up to the issuing of the President's Amnesty, the people were ready to submit to anything, and to denounce the secession leaders who had seduced them into rebellion. But when the Amnesty Proclamation appeared, they found that they were not to be punished or their property confiscated, and the leaders at once cried out, "We told you so; the Government is afraid to do anything, and we told you we would keep you harmless." The effect upon the people was most unfortunate, and is thus described:

At once they rallied, began to clamor for more, to complain of Union men holding the offices, to which they had previously submitted with apparent content; violent persecutions of Union men began; desperadoes were encouraged to defy the officers, and in many places these were forced to resign. The common people rallied to the support of the leaders, and in many places remote from military posts, as bad a state of affairs exists as during the rebellion.

The Unionists being generally law-abiding citizens, are compelled to submit to almost every indignity, being frequently beaten and abused, and hundreds actually killed since the war. The courts are a farce in many places, Union men being threatened and abused for appearing before the Grand Juries against disunionists, or appearing in court as witnesses against them, even in obedience to a subpœna. In many places men avow they do not consider the amnesty oath binding—only took it to enable them to vote. They boast themselves rebels, glory in the name, and curse all Union men. I have just heard that in Parker county there is a party banded together who posted themselves on an eminence near the town, and with long-range guns fired on the Court House, the court being in session. These parties had been indicted for offences against the laws, and were attempting to break up the court because it was not composed of secession or disunion officers.

☞ In Portland on Monday evening, a meeting of the proprietors of the (old) Universalist Meeting House in Pearl street, decided to donate the edifice, organ, &c., to the Society worshipping there, and that hereafter no one should own a pew, but they should be leased annually. After the removal of the 1st Universalist Society to the Congress Square Church the new Pearl St. Society was formed in the old house, and originally consisted of but ten families. This was but a little more than one year ago, and now it has risen to a large society, which within a few weeks past has raised the sum of $10,000, for the purpose of making the church emphatically a free one.

During the summer vacation of the pastor, Rev. Mr. Atwood, Rev. Dr. Chapin, of New York, will supply the pulpit.

GRANT'S FORESIGHT.—Hon. Mr. Shellabarger, of Ohio, recently sent the following letter from Gen. Grant to the clerk's desk to be read, calling attention to the fact that it was penned nearly a month before President Lincoln's emancipation proclamation:

"VICKSBURG, MISS., Aug. 30, 1862

"Dear Sir: * * * The people of the North need not quarrel over the institution of slavery. What Vice President Stephens acknowledges the corner-stone of the Confederacy is already knocked out. Slavery already dead cannot be resurrected. It would take a standing army to maintain slavery in the South if we were to make peace to-day, guaranteeing to the South all their former constitutional privileges. I never was an abolitionist; not even what could be called anti-slavery; but I try to judge fairly and honestly, and it became patent to my mind, early in the rebellion that the North and South could never live at peace with each other except as one nation, and that without slavery. As anxious as I am to see peace established, I would not, therefore, be willing to see any settlement until this question is forever settled.

"Your sincere friend, U. S. GRANT.

"Hon. E. B. WASHBURNE."

☞ In the Massachusetts House of Representatives, Tuesday, the proposed License Liquor Law was denied a third reading, 49 to 146.

— A Mormon agent from Salt Lake has arrived in New York to make arrangements for the reception of about three thousand Mormons from Europe the coming summer. A thousand are to come from Norway and Sweden, and seventeen hundred from England.

— H. Porter & Co.'s distillery and cattle sheds, near Springfield, Mass., were destroyed by an incendiary fire on Tuesday night, together with forty cows in one of sheds. The loss is from $30,000 to $40,000, on which there is no insurance.

— It is proposed in Charleston, S. C., to convert the square of the burnt district into a public garden, on the same plan as the Palais Royal in Paris. This will be enclosed by a fire-proof block of buildings, the lower stories to be used as stores, while the upper will contain cafes, an opera house, etc.

— The strike of the coal-heavers at Port Richmond, which took place about four or six weeks ago, in consequence of the reduction in the price of labor from 30c to 25c per hour, is at an end. A few of the old employees have commenced work at the reduced price, but the great majority now employed are new men. The business along the coal wharves is now progressing without any interruption.

— The Augusta (Ga.) paper states that a party in New York purchased a year ago 350 bales of cotton, for which they paid $1.80 per pound. That cotton was kept until lately, when it was sold for 37 cents per pound, inflicting on the owners the loss of $250,000.

— The Vicksburg Journal says a colored boy named Mingo, employed by Mr. J. Fennimore on his plantation on the Baldwin's Ferry road, while plowing one day last week, found a tin box filled with gold and silver coin, amounting to several thousand dollars.

— Last Saturday, in St. Louis, a woman named Bright was arrested and fined for gross immorality. As she was about paying the fine her husband drew a revolver and shot her through the head, inflicting injuries of which she died in the evening. After shooting his wife Bright turned the pistol against his own bosom, but was foiled in his attempt.

— The U. S. Consul at Santiago, Cape de Verd Islands, writes to the State Department, under date April 13, that in consequence of the continued famine in those islands, the Portuguese government has decreed the entrance in that archipelago, free of duty, of corn, meal, rice, beans, dried and salted meats and lard until the end of the present year.

— It is supposed by some that the Prince of Wales visited this country to obtain a package of Herrick Allen's Gold Medal Saleratus. Whether he did or not, it would do honor to the Queen's table to have as nice light Biscuit as that article always makes. If any one has any doubts on that subject, go to your Grocer, and get a paper immediately, and find of a truth that there is nothing like it. Everybody sells it. 88

REDUCTION IN PRICE
OF THE
AMERICAN WATCHES.
MADE AT WALTHAM, MASS.
In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed
With Gold at Par,
so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of
More than 200,000 Watches,
have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.
We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:
1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy & Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.
The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,
ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED
to be the best time-keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit orders for single watches.
CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

ALLCOCK'S POROUS PLASTERS.—A celebrated physician says "he was amazed at the great number of beneficial indications produced by one of these plasters. He affirms that *headache* is cured by one worn just below the breast-bone; that one placed over the navel will cure hysterics, as well as dysentery, and affections of the bowels."

CURE OF VARICOSE VEINS.
City Point, Va., January 24, 1865.
T. Allcock & Co:
Gentlemen: Seeing your notice in the Police Gazette, I got four of your Porous Plasters and placed them on the parts where the pains were most severe, and in less than twelve hours could walk as well as ever. I could hardly believe it, I was so well pleased. I wanted to see if the lameness would come back on me or not, so I did more walking that day than I had done in a week. The next day I had some pain in my hip, but I put on a plaster there and in two hours the pain was all gone, nor have I felt it since. Certainly they are the best application for the relief and cure of pains in the joints and back, and for varicose or enlarged veins, I have ever known, and I would not be without them on any account. Yours truly,

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and should be removed. This effectually removes them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. POLICE COURT, May 17.—Charles Johnson, for drunkenness, and Frederick Liberty (a nice name for a soldier, by the way,) for the same offence, each and severally paid a fine of $6.86, including costs—rather an expensive inquisition on the benefits of temperance.

I had taken her to a number of physicians, and no one could tell what ailed her or even her symptoms. You examined her case, and told me exactly her symptoms from the commencement of her disease, which were perfect; also told me there was something alive in her, and also said there was a number of them, and told me that she drank them from a rain-water cistern. You said that you would not warrant a cure, but would try and do the best you could for her. She commenced taking your medicine in August last, and from that time till December, the child passed off large quantities of what we call *Tadpoles*, from rain water, and I think, and am certain that the child must have died had it not been for you. And I advise everybody to see Mrs Manchester, for I know that she has the power of knowing the condition of a person dis eased better than any Physician that I have ever heard of. Ayer's Sarsaparilla
Is a concentrated extract of the choice root, so combined with other substances of still greater alterative power as to afford an effectual antidote for diseases Sarsaparilla is reputed to cure. Such a remedy is surely wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove, as this has, of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experience, and many of the worst cases to be found in the following complaints:—
Scrofula, Scrofulous Swellings and Sores, Skin Diseases, Pimples, Pustules, Blotches, Eruptions, St Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, &c.

Syphilis or Venereal Disease is expelled from the system by the prolonged use of this Sarsaparilla, and the patient is left in comparative health.

Female Diseases are caused by Scrofula in the blood, and are often cured by this EXTRACT OF SARSAPARILLA.

Do not discard this invaluable medicine, because you have been imposed upon by something pretending to be Sarsaparilla, when it was not. When you have used AYER'S—then, and not till then, will you know the virtues of Sarsaparilla. For minute particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the agent below named will furnish gratis to all who call for it.

AYER'S CATHARTIC PILLS, for the cure of Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Headache, Piles, Rheumatism, Heartburn arising from Disordered Stomach, Pain or Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Liver Complaint, Dropsy, Worms, Gout, Neuralgia, and for a Dinner Pill.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best Aperient in the world for all the purposes of a family physic.

CLAIRVOYANT!

ECLECTIC PHYSICIAN!

From 618 Broadway, New York, will arrive in PORTSMOUTH May 14th, and take rooms at the FRANKLIN HOUSE, for a short time only.

A Clear Case of Clairvoyant Sight.

DEAR MADAM:—Permit me to tender you my sincere thanks for the cure you have effected on my child. My daughter, ten years old, was taken sick last January in a very singular manner. We called in six of the best Physicians in the city; they said the case was a very singular one—they never saw one like it—and came to the conclusion they could not tell what the disease was. Some friends advised that we should call on a Clairvoyant; there being none in Providence that we could rely on, we wrote to Mrs MANCHESTER, in Portland, describing her symptoms. She immediately examined her case and told that she had a Snake in her stomach, told where she had drank it, and told it had been growing, and from the best of her judgement she should think it ten or twelve inches long. I gave the child her prescription, and in a few hours the child ejected the snake alive from the stomach; it was measured and found to be eleven and a half inches long. We have it preserved, that all may see for themselves that this statement is really so. I am confident that the child could not have lived, had it not been for Mrs Manchester, and we feel as though she never could be repaid for her skill. MARY RAY,
GEO. W. RAY.

He would also give notice that he is doing a new style of work for Under Sets of Teeth, called the COMBINATION BASE (Gum and Vulcanite) which produces by far the finest work offered to the public. The price is something in advance of that charged for the Vulcanite base, but the strength, durability, ease of bearing, and beauty of finish obtained by it, more than double the value of the teeth. mh12

Dr. A. P. STEVENS, No. 5 Daniel St., makes the saving of UNDERSETS and painful front teeth, a specialty in his business. He also success-fully restores to their natural shape broken or badly decayed teeth, by building out corners and sides with PURE GOLD. (in many cases teeth so restored are as strong as any of their brother members, and in all cases are rendered eminently useful for a long series of years.) DISEASED TEETH, in all stages, treated, and in a very large majority of cases entire success attained.

Charges for such operations necessarily high, but nothing in comparison to the value of the Teeth. mch14

WHICH IS THE
Leading Life Insurance Comp'y
IN THE UNITED STATES?
Which is the Safest and the Cheapest?

The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of the

MUTUAL BENEFIT
LIFE INSURANCE COMPANY,

to be the *largest*, the "expenses of management" the *smallest*, the "ratio of Assets to Liabilities," or the *security* furnished its members the *largest* of any like institution in the country.

Premiums received in 1864.....$2,089,072
" " " 1863.....3,029,087
Ratio of expenses to premiums rec'd in '64.....12.86
" " " " " " '63.....12.16
Ratio of assets to liabilities, Jan. 1, 1865....161.85

The inevitable conclusion from these official facts, is that the

MUTUAL BENEFIT LIFE Insurance Company
IS THE BEST AND THE CHEAPEST.

Because its NET ASSETS are proportionably LARGER than those of any other Life Insurance Company in the United States:

Because its "Managing Expenses" are LESS, and it has a LARGER SURPLUS to divide among its members than any Company in the United States.

Query. Will some one inform the public of that mysterious process by which a Company with a surplus proportionably *much less*, and expenses proportionably *larger* than others, can yet divide *more* to its members, and insure them at *less cost?* How is it done? Where does the money come from?

Every intelligent man will see at once that it *cannot be done.* Yet we have Agents among us that make this their boast.

Any one disposed or intending to insure can be furnished with the requisite information by applying to

CENTENARY MISSION BUILDING. — "Considerable interest is felt by the Methodists in reference to the Centenary Mission Building which they propose to erect in New York city from centenary offerings. There are sixty annual conferences, and it is proposed that each conference contribute a block for its walls. The idea is taken from the Washington Monument. It is suggested that each of the conferences have a separate block of marble, granite or metal, with its name, age, contributions to various benevolent objects, missionaries sent out, and various other matters of interest, and that the blocks be placed in the walls of the great hall designed for the public meetings of the society. The idea is an excellent one, and will, no doubt, be carried out.—The Mission Building is to be large and every way adapted to its object, and will probably cost about $100,000. It is to be erected under the supervision of the 'Ladies' Central Centenary Association.'"

— Prentice of the Louisville Journal, makes a wicked lunge at the very underpinning of society. He says "tilting hoops" enable the common people to see a great deal more of good society than they ever saw before."

— William Daily, a native of Ireland, died in New York last week at the advanced age of one hundred and six. Daily though but five feet three inches in height, was remarkable for his great physical strength. He had a sister who died at the age of one hundred and three, and his father attained the same age.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, No. 7 Endicott street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience on a considerable extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of these cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Persons who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three for $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt, had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made,
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No 23 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of misery.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

CHEROKEE PILLS,
Or Female Regulator,
Cure *Suppressed, Excessive and Painful Menstruation, Green Sickness, Nervous and Spinal Affections, Pain in the Back, Sick-Headache, Giddiness,* and all diseases that spring from irregularity, by restoring the course to its healthy effects that arise from it. They are perfectly safe in all cases, except *when forbidden by the Directions,* and are easy to administer, as they are nicely *sugar coated.* They should be in the hands of every Maiden, Wife, and Mother in the land.
Ladies can address us in perfect confidence, and state their complaints in full, as we treat all Female Complaints, and prepare Medicines suitable for all diseases to which they are subject.—Thirty-two page pamphlet, in a sealed envelope, free.
The Cherokee Pills are sold by all druggists at $1 per box, or six boxes for $5; or they are sent by mail, free of postage, in an ordinary letter, free from observation, by addressing the sole proprietor,
Dr. W. R. MERWIN, 37 Walker St., N. Y.
N. B.—Cherokee Pills No. 2 are prepared for *special cases,* when milder medicines fail; these are sent by mail, free of postage, on receipt of $5, *the price of each box.*

DR. WRIGHT'S
REJUVENATING ELIXIR,
Or, Essence of Life,
Cures *General Debility, Weakness, Hysterics in Females, Palpitation of the Heart and all Nervous Diseases.* It restores new life and vigor to the aged, causing the hot blood of *youth to course the veins, restoring the Organs of Generation, removing Impotency and Debility, radiating Manhood throughout the system, and full vigor,* thus proving a perfect *"Elixir of Love,"* removing *Sterility* and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life, causing the weak and debilitated to have renewed strength and vigor, and the entire system to thrill with joy and pleasure.
"As the Phœnix rises from the ashes of its fire, so does this potent new life"—so does this Elixir rejuvenate the system, and give vigor to overcome disease.
Price, one bottle $2; three bottles $5; sent by express free from any address.
Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make money. Be not deceived—ask for these medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with full statements in regard to any disease with which ladies or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,
Dr. W. R. MERWIN, 37 Walker St., N. Y.

CHOLERA
DISARMED!!!
The Chief Causes of Pestilence Destroyed.
DR. E. R. COURARET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, Nos 298, 300, and 302 Henry street, N. Y.—Office, 42 Cedar street.
This Company organized on a permanent basis, with Courarret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish its DISINFECTING FLUIDS for sick rooms, nurseries, urinals, water closets, privies, cesspools, sewers, drains, hospitals, hospital ships, prisons, and public institutions of all kinds, slaughter houses, offal and fat-boiling establishments, and kinds of manures (*immensely* increasing the value of the latter), and wherever noxious and offensive gases exist. These agents are deodorizers, antiseptics, antiputrescents, and disinfectants in the scientific meaning of the words. They remove noxious gases and odors by chemical principles—leaving in their places *healthful* ones, and not simply destroying the sense, *absorbents* of poisonous gases—not injurious to utensils in which they are used. The attention of medical men is specially called to these DISINFECTANTS. Attached are testimonials in favor of this great discovery, which, with hundreds of others, can be seen at the Company's office.
DELAVAN HOUSE, Albany, March 30, 1866.
To the President of the New York Disinfecting Co.:
Dear Sir: It is all it is represented to be. We have made many trials of disinfectants, but now consider that we have found an article which surpasses all others as a remedy against all bad odors. J. DELAVAN SMITH, Prop.
NEW YORK, April 9, 1866.
To the President of the New York Disinfecting Co.:
Dear Sir: We pronounce it without exception to be the best we have ever known, and the effect upon every matter is complete and instantaneous.

DOG STORY.—The following occurred in Newport, R. I., a few days ago:

A fort soldier, about two-thirds drunk, was loafing about the wharf, when a large Newfoundland dog, noted for his sagacity and good-nature, came along, and the soldier commenced playing with him, which the dog appeared to relish equally with the other. At length the contest waxed warm, and the dog rearing upon his hind legs, placed his fore paws upon the breast of his antagonist, throwing him off his balance, and the two fell into the dock together. The soldier either could not swim at all, or was too drunk to help himself, and was in danger of drowning without assistance from the bystanders. At this juncture, however, he was seized by the dog and borne, his head above water, to a boat near by, into which he was lifted by two men, who also subsequently rescued the dog, who had become exhausted by his exertions.

GEN. HOWARD AND THE NEW CHURCH AT WASHINGTON.—At the meeting of the Congregational Union at Brooklyn last week, Gen. Howard begged for the proposed Congregational Church in Washington in the following style:

We must have this Washington church. We are poor. I believe I am the richest member of the congregation, and I recently had to borrow money to buy a house, which cost $8000, and when I subscribed $1000 for this church, I did not know how I was to pay for it. I went off to see my old mother, and while I was gone I lectured every night, and made money enough to pay my subscription. You'll notice that I am egotistical. I am also jealous to a certain extent. I am jealous of my military reputation, and when that is assailed, I want some friend to defend me. Now, I don't think the public has used me quite right. Here in New York you have presented Gen. Grant with $100,000, and Philadelphia has given him a house and lot. Meade has been presented with a house and lot, and Sherman and Sheridan have had valuable presents. Now I want a present. I have refused one or two, but now I want $50,000 to build this Washington church, and I promise you that every cent you subscribe to me, I'll give to the Lord Jesus Christ.

The sum of $6500 was subscribed on the spot.

QUITE CONSCIENTIOUS.—"What do you know of the defendant, Mr. Thompson? Do you consider him a good musician?"

"On that point I wish to swear with great care. I don't wish to insinuate that Mr. Van Slopes is not a good musician. Not at all. But I could not help observing (people will observe queer things at times,) that after he commenced playing on the clarionet, a saw-filer, who lived next door, left home and has never since been heard of!"

"Well, that will do; you may go down, Mr. Thompson. Crier, call the next witness before the court.

AMERICAN AND FOREIGN PATENTS
E. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,
78 State Street, opposite Kilby Street,
BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Portsmouth office proves that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twenty* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

SATURDAY, MAY 19, 1866.

GEN. GRANT ON THE ARMY.—The President has sent a message to the House inclosing a communication from Gen. Grant asking for the immediate passage of an Army bill, assigning as a reason for this request the fact that more troops are needed on the frontier and at the South. He also expresses the opinion that the troops cannot be withdrawn from the South with safety for some time to come. Gen. Grant says:

At the present time settlements are springing up with unusual rapidity in the district of country between the Missouri river and the Pacific ocean, where heretofore the Indian was left in undisputed possession.—Emigrants are pushing to these settlements and to the gold fields of the Rocky Mountains by every available highway. The people flocking to these regions are citizens of the United States and are entitled to the protection of the Government. They are developing the resources of the country to great advantage, thus making it the interest as well as the duty to give them military protection. This makes a much greater force west of the Mississippi necessary than was ever heretofore required.

A small military force is required in all the States recently in rebellion, and it cannot be foreseen that the force will not be required for some time to come. It is still hoped that this force will not be necessary to enforce the laws, either State or National, but the difference of sentiment engendered by the great war which has raged for four years will make the *presence of a military force necessary to give a feeling of security to the people.* All classes disposed to obey the laws will feel this alike.

To maintain order the government has been compelled to retain volunteers. All white volunteers have become dissatisfied, and claim that the contract with them has been violated by retaining them after the war was over. By reason of dissatisfaction they are no longer of use, and might as well be discharged at once—every one now remaining in service. The colored volunteer has *equal* right to claim his discharge, but as yet he has not done so. How long will existing laws authorize the retention of this force, even if they are content to remain?

The United States passed promptly a bill for the reorganization of the army, which in my opinion, is as free from objection as any great measure could possibly be, and which would supply the minimum requisite force. It gives but a few thousand additional men over the present organization, but gives a large number of additional battalions and companies.

The public service, guarding routes of travel over the plains and giving *protection* in the *Southern States*, demands the occupation of a great number of posts. For many of them a small company is just as efficient as one with more men would be.

The bill before Congress, or the one that has passed the Senate, gives an increased number of companies, by diminishing the number of rank and file of each company. It is an exceedingly appropriate measure in this particular, for it provides for the increase when occasions require more men. The company is the smallest unit of organization that can be used without materially injuring discipline and efficiency.

The belief that Congress would act promptly on this matter, if their attention was called to it, has induced me to respectfully ask your attention to it.

No doubt the matter will be attended to, very soon, as it should be. The passages in italic, show very plainly where "my policy" is defective and vicious.

☞ Bishop Burgess, of the Protestant Episcopal Church, in Gardiner, Me, died recently on his way home from the West Indies, where he had been during the winter, for his health. He was a man of talent and worth.

NEW HAMPSHIRE ITEMS.

—— In this State, the official majority for Governor is as follows: Whole number, 65,636. Frederick Smyth had 35,137; John G. Sinclair, 30,481; scattering, 18, Smyth's majority, 4638. The five Republican Councillors are elected by majorities varying from 4560 to 157.

—— A writer in Claremont states that on the 15th of May, 1834, "the snow was two inches deep in the morning—trees loaded with snow—snowed all the forenoon—N. E. storm. The snow would probably have been near a foot deep if the ground had been frozen; it measured six inches in the field as it was."

—— South Hampton was visited by a gang of thieves Friday night, 11th. From the barn of Mr. Jacob B. French they stole a valuable black mare, harness and wagon. They entered the house of Uriah Flanders and took a lot of silver spoons. Other barns and dwellings in the vicinity were visited, but the inmates were awakened by the movements of the villains, and they failed to get any more plunder, but got off with what they had.

—— The Manchester Mirror says that the fire which caught in the woods near Martin's Ferry, on the railroad between Manchester and Concord, from the sparks from a locomotive, had extended back to the old track of the Portsmouth road and burned over about 3000 acres, taking fields, fences, cut and standing wood, as it went, and was still burning on Thursday. The road has 100 men fighting the fire. The Concord Monitor of Thursday afternoon says that the heavy rain of the previous night put out the fire after it had burned over 5000 acres. The fire, during its progress, spread as fast as a man could walk.

Communication.

THE GRAND DIVISION Sons of Temperance, of the State of New Hampshire, held its semi-annual session at Milford on Wednesday, William C. Hatch of Portsmouth, Grand Worthy Patriarch, presiding. The attendance was large. Many of the Divisions were reported in a flourishing condition, and the Order shows an increase of members. The session was harmonious, and it is hoped profitable.

The members of the Order at Milford were whole-hearted in their hospitality to the members of the Grand body. They are also earnest in the cause of Temperance. In their own town they pressed the rum-sellers so hard that they were obliged to quit the traffic: and the only public-house in the place has on its front the words, "This house is closed." They not only left off selling, but to *spite* the temperance people, closed their house, and all the people say, Amen. But there is no danger of any well-disposed persons lacking for entertainment from the good people of Milford.

There are other places in this State where they dare not sell liquors openly. In the cities of Concord and Dover, the city councils have ordered the city marshals to close all the liquor shops immediately. Would that the day might hasten when public opinion will rise up against the traffic in Portsmouth, and make it unpopular for any of its citizens to sell that which destroys the tenderest ties of social life, exiles the sweet endearments of home, and robs the earth of its loveliness.

IN THE U. S. SENATE, Thursday, May 17, the bill prohibiting the transportation of nitro glycerine on passenger vessels or railroads was passed.

The resolution appointing examiners to examine a site for a fresh water basin for the iron-clad navy at Portland, Me., was passed.

The bill granting lands to aid in the construction of a railroad from the Central Pacific Railroad, California, to Portland, Oregon, was passed.

The Diplomatic Appropriation was taken up, amended, and passed.

The West Point Academy bill was taken up. The amendment to leave open the few remaining vacancies in cadetships at West Point for the loyal men in the Southern States, was adopted.

Mr. Wilson offered an amendment prohibiting the appointment of men who have served in the rebel army or navy to the Naval Academy or as cadets at West Point. Adopted, and the bill passed.

The HOUSE made progress on the Tax Bill.

☞ A Valparaiso correspondent of the New York Herald says that "certain highly important documents sent to the Chilian President by the Dictator of Peru have been given to Gen. Kilpatrick and forwarded by him to Washington. These documents came to light in this manner:—Some time ago a French stranger suddenly died in Lima. The Peruvian government took charge of his papers, &c., as is usual, and among them discovered documents which proved him to have been a French agent coming with proposals to the Dictator of Peru to make himself King or Emperor, promising aid in men and money from France under the Mexican flag—in other words through Maximilian. These papers show that there is a nice little scheme between France and Spain to make a jump at all the small South American Republics. England approves but does not help by men or money. The whole Chilian war is part and parcel of the plan. This important information goes by mail to Washington, and you will, of course, have more of it very soon from that source."

☞ Authentic information has been received that the British Government has notified the Cunard Company of the termination of their mail subsidy when the present contract expires, which is next year. The policy of discontinuing the special subsidy grants for the trans-Atlantic mail service, under which the system of monopolies was granted to certain steamship lines, and of establishing self-sustaining ocean service on the basis of postage earnings, inaugurated by the Post Office Department of this country, and so successfully maintained by Postmaster General Dennison, is thus concurred in by the British Government. The heavy subsidy paid by the British Government to the Cunard line has been the chief obstacle to the establishment of reduced rates of postage between this country and the United Kingdom, and to the countries beyond, using the British means of conveyance, will also strengthen the Postmaster General in his opposition to the various speculative and lobbying schemes for mail subsidies, which are being pressed upon the consideration of Congress by parties desiring monopoly grants to establish steamship lines to Europe. The public may now look forward to an early reduction of international postages to European States.

DIVIDEND.—The Bartlett Steam Cotton Mills of Newburyport have declared a semi-annual dividend of 5 per cent.

NOTES OF FORMER DAYS.

Collected and Collated by UNCLE TOBY.

Crescent Frigate — Yellow Fever — Gen. Washington's funeral.

January 18th, 1798, the Crescent frigate, mounting thirty-two guns, sailed from Portsmouth, for the Mediterranean. She was built in this port, under the superintendence of Colonel James Hackett, and was esteemed one of the finest specimens of naval architecture, that ever floated on the waters of the Piscataqua. This frigate was a present from the United States, to the Dey of Algiers, and was supposed, including her cargo, to be worth at least three hundred thousand dollars.

In the summer, an epidemic disorder, commonly called the yellow fever, broke out at the north end. The inhabitants in the vicinity, generally removed, and by that means stopped its extensive progress. The town appointed a committee, consisting of five physicians, and requested them to publish from time to time such regulations for the observance of the inhabitants, as in their opinion may have the greatest tendency to prevent the spreading of the fever. It proved very fatal to those who were attacked with it. At the same the dysentery prevailed at the south end, 1798. From the 20th of July to the 6th of October, one hundred and seven persons died, fifty-five with the fever, and fifty-two with the dysentery and other disorders. Among the fifty-two, were twenty-nine young children.

The Federal Observer was first published by William Treadwell and Samuel Hart, on the 22d day of November.

The Republican Ledger was commenced by George Jerry Osborne, jr., in the month of September, 1799. Both these papers were short lived.

The Rev. Timothy Alden was ordained Collegiate pastor with the Rev. Doctor Haven, of the south church and parish, on the 20th of November.

Tuesday, the 31st day of December, 1799, was set apart to commemorate the death of the illustrious Washington, who departed this life the 14th of that month. At an early hour all public offices, stores, and shops were closed; business and pleasure were suspended. At 11 o'clock a procession moved from the Assembly room so the St. John's Church, in the following order:

The Companies of Artillery, Light Infantry, and Governor Gilman's Blues, with muffled drums, music in crape, arms reversed, side-arms with black bows. Martial music playing the dead march in saul. The Grand Lodge of New Hampshire, accompanied by St. John's Lodge, and many visiting brethren, in the habiments of their order. The Orator and Rector of St. John's Church; United States' Military officers; Commissioned officers of the Militia; Selectmen; Clergy; citizens and strangers, two and two. When the procession entered the church, a solemn piece of music was performed on the organ. Rev. Mr. Willard read the service of the church, and Jonathan M. Sewall, esq., pronounced a eulogy on the sorrowful occasion. A vast concourse of people attended, and almost every individual of respectability wore crape as a badge of mourning, and all the shipping in the harbor hoisted their flags half-mast high.

"From heart to heart, the soft infection ran,
All orders wept the great, the godlike man;"
One tear pervaded every melting eye,
And mourning thousands heav'd one common sigh!

Here pious zeal, and frantic rage were lost,
The only contest, who should weep the most;
Each different name was swallowed up in one,
That name, the *glorious* name of Washington.

In 1800 according to the enumeration, made pursuant to an act of Congress, passed July 9th 1798, there are in Portsmouth, six hundred and twenty-six dwelling houses; of these eighty-six are one story, five hundred and twenty-four are two stories, and sixteen are three stories high. The number of inhabitants, by the census amounted to five thousand three hundred and thirty-nine.—*Adams.*

LADIES.—We take great pleasure in directing the special attention of our lady readers to Messrs. Geo. H. Reed & Co.'s Liquid Dyes. These Dyes, we know from personal experience, possess all the merit claimed for them by Messrs. Reed & Co., a Boston firm of high standing. The representations of the gentlemen comprising this firm are entitled to the utmost confidence of the public.—*Providence Advertiser.*

☞ A Boston paper says the schooner Sarah, of Wells, Me., built over a century ago, arrived there on Wednesday of last week loaded with wood.

— Perfect integrity and a well cooked beefsteak are rare.

— Language fails to tell, and imagination cannot adequately point out, the degree of perfection to which the J. Monroe Taylor's Gold Medal Soap has arrived. It is a model Soap, and has no rival. When the inventor dies, the ladies ought to erect him a monument. His memory should ever be precious in the recollection of all housekeepers. There will never be any such soap after his exit. Some of our contemporaries call it the woman's benefactor, and it justly deserves the title. 88

REDUCTION IN PRICE

OF THE

AMERICAN WATCHES.

MADE AT WALTHAM, MASS.

In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed

With Gold at Par,

so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of

More than 200,000 Watches,

have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.

We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:

1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy & Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.

The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,

ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED

to be the best time-keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit orders for single watches.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

ALLCOCK'S POROUS PLASTERS.—A celebrated physician says "he was amazed at the great number of beneficial indications produced by one of these plasters. He affirms that *headache* is cured by one worn just below the breast-bone; that one placed over the navel will cure hysterics, as well as dysentery, and affections of the bowels."

CURE OF VARICOSE VEINS.
City Point, Va., January 24, 1865.
T. ALLCOCK & Co.:
Gentlemen: Seeing your notice in the Police Gazette, I got four of your Porous Plasters and placed them on the parts where the pains were most severe, and in less than twelve hours could walk as well as ever. I should hardly believe it, I was so well pleased. I wanted to see if the lameness would come back on me or not, so I did more walking that day than I had done in a week. The next day I had some pain in my hip, but I put on a plaster there and in two hours the pain was all gone, nor have I felt it since. Certainly they are the best application for the relief and cure of pains in the joints and back, and for varicose or enlarged veins, I have ever known, and I would not be without them on any account. Yours truly,

Local.

IN BOARD OF ALDERMEN, Thursday evening, May 17, communications from the principals of the High Schools, in response to a resolution of inquiry, were received and accepted.

The Mayor returned the following resolution, passed Apr. 12, 1866:—

"*Resolved*, That the Mayor be requested to notify the Marshal to enforce the present statute law relating to the sale and use of intoxicating liquors in this city."

The Mayor recommended the appointment of Liquor Agents in conformity with the law, and the appropriation of a sufficient sum for the purchase of stocks of liquor, or that the resolution be abrogated. On motion, the resolution was reconsidered and laid on the table.

Leave was granted to Messrs. John Stavers and Albert A. Fernald to construct sidewalks on High street.

The bonds of Night Watchmen Teague, Underhill, Marsh, Burns, Meloon, Glines and Tucker were accepted.

An Ordinance received from the Common Council relating to junk dealers, was read and referred to Committee on Bills on second reading.

The Committee on Schoolhouses reported in favor of well at the Lafayette Schoolhouse. Report adopted.

A communication from S. M. DeMerritt was read and accepted.

IN COMMON COUNCIL, an ordinance relating to junk-dealers was read a second time and passed.

The Appropriation Bill was taken up. The sum of $3000 was appropriated for sprinkling the streets of the city.

Petitions from Engine Companies for increase of pay, together with an ordinance to that effect, were referred to Committee on Bills on second reading.

☞ Messrs. Larrabee & Son, at their new and handsome Saddlery and Harness establishment, on Congress street, have just opened a new and large stock of Riding Saddles, for ladies and gentlemen—of all kinds and prices—from a plain, cheap article, up to the most elegant pattern of McClellan or side-saddle. Also a fine assortment of Ladies' Travelling Bags, Reticules, &c.,—splendid goods at low prices.

These goods, and this establishment generally, are worthy a look over, and liberal patronage. Among other things, we noticed Mr. John T. Larrabee at work on a fine light harness for a gentlemen of this city—which sort of work he can't be beat on, for quality or price, by anybody we know of, far or near. Messrs. Larrabee's show window is not eclipsed by anything of the sort in Boston, and their prices are much lower for the same quality of goods or work. They have now undoubtedly the most complete establishment of the sort over had in this city, and purchasers of anything in their line cannot gain in any way by going abroad.

☞ In the auction line there will be considerable activity to-day. At noon Mr. Morse will sell the Market Street House, with land and stable, situated near the depot, and very conveniently located for a hotel or boarding-house to accommodate the North End.

Mr. Wendell offers a variety of goods at his salesrooms, at 10 o'clock, including carpets, a carriage, harness, &c., and at 12 o'clock will sell a new double-tenement house on Islington street, near Dover street; also two house lots adjoining.

Betton & Co. have their regular sale at 10 o'clock.

☞ The California Minstrels delighted their large audience on Thursday evening—as they always do. Any person who purchased tickets to their entertainment of parties upon the street will confer a favor by calling upon the City Marshal.

By our advertising columns it will be seen that another crack troupe will visit us on Tuesday evening, introducing new features.

☞ The fine yacht Alice, built by Mr. John E. Townsend for Thos. E. Appleton of Boston, is to be launched to-day from her stocks near Liberty Bridge.

Communication.

☞ Who can tell why the postage stamps don't stick now-a-days? Is it that some obscure official has them under a ban, because he wants to cut off the gracious old head of Washington, for the purpose of instating his own phiz? SAUL.

— A curious novelty has just been brought to London and is about to be exhibited to the public. It consists of a remarkable-looking piano, made of flints suspended from an iron frame, which are struck with a short flint to produce the notes. The flints are about forty in number, and elongated, but of various lengths and thicknesses.

— James Parton says of James Gordon Bennett: "He had no friends at the start, he has had none since, and he has none now. The whole of his power as a writer consists in his detection of the evil in things that are good, and the falsehood in things that are true, and of the ridiculous in things that are important."

— They are circulating a story in Washington that the Southern States are to be allowed Representatives in Congress after the lapse of a certain time, provided they will acquiesce in the election of Gen. Grant to the Presidency.—*Boston Herald.*

Then "they"—very poor authority—circulate a very foolish story. Gen. Grant (unless something very strange turns up) bids fair to be elected President—and the rebels or traitors, south or north, may either *acquiesce* or go under, when that happens.

INQUIRY.—In the case of the recent riots in Memphis there are seven several commissions of inquiry appointed. These are the Congressional one; that appointed by order of Gen. Stoneman; the white citizens of Memphis have arranged one; the negroes another; the City Council another, and Gen. Fisk, of the Freedmen's Bureau, and Gen. Howard, have each ordered one.

LOST AT SEA.—On Tuesday last as the schooner Watchman, Capt. Dougherty, of Sedgwick, coal-laden from Elizabethport, N. J., was passing Boon Island, the mate, Mr. Byard, while engaged in reefing the mainsail, stepped from the foot-ropes and fell overboard. The vessel was immediately hove to, and everything possible done to save him, but without avail. He was a promising young man of 22 years of age, and the only support of a widowed mother.

MEXICO.—The Mexican Minister at Washington has received official dispatches from San Juan Baptista, the capital of the State of Tobasco, containing an official account of Col. Mendez's victory, which he obtained over the French at the town of Jonuta, on the 7th of April. After a short battle the garrison surrendered to Col. Mendez, with their cannon, arms, ammunition, etc. The French lost in that way the only point they had in the State.]

— A pious Swiss lady covered the walls of Geneva recently with an immense placards, containing in gigantic letters this question: What shall I do to be saved? A wag had printed placards of similar size and type bearing this answer: "Buy an asbestos iron chest," which he pasted under the old lady's query.

— A boy and a girl of tender age were disputing as to what their mothers could do. Getting impatient, the little girl blurted out by way of a climax and a clincher: "Well, there is one thing that my mother can do that yours can't—my mother can take every one of her teeth out at once."

WHAT EVERYBODY SAYS must be true, is an old proverb. And it is a fact beyond dispute that all tell one story about the almost miraculous cures performed by Coe's Dyspepsia Cure. Chronic and obstinate cases of Dyspepsia of long standing will surely give way to its curative powers. Indigestion, sick headache, heartburn, cramps, pains and colic, in either stomach or bowels, souring and rising of food, constipation, general debility, flatulency, cannot exist when Coe's Dyspepsia Cure is used. We beg of the afflicted to make the experiment; it can be found at all drug stores. my15—1w

MRS. MANCHESTER,
The Independent
CLAIRVOYANT!
—AND—
ECLECTIC PHYSICIAN!
From 618 Broadway, New York, will arrive in PORTSMOUTH May—th, and take rooms at the FRANKLIN HOUSE, for a short time only.

A Clear Case of Clairvoyant Sight.

DEAR MADAM:—Permit me to tender you my sincere thanks for the cure you have effected on my child. My daughter, ten years old, was taken sick last January in a very singular manner. We called in six of the best Physicians in the city; they said the case was a very singular one—they never saw one like it—and came to the conclusion they could not tell what the disease was. Some friends advised that we should call on a Clairvoyant: there being none in Providence that we could rely on, we wrote to Mrs MANCHESTER, in Portland, describing her symptoms. She immediately examined her case and told that she had a snake in her stomach, told where she had drank it, and that it had been growing, and from the best of her judgement she should think it ten or twelve inches long. I gave the child her prescription and in a few hours the child ejected the snake alive from the stomach; it was measured and found to be eleven and a half inches long. We have it preserved, that all may see for themselves that this statement is really so. I am confident that the child could not have lived, had it not been for Mrs Manchester, and we feel as though she never could be repaid for her skill. MARY RAY,
GEO. W. RAY.
Providence, R. I., Nov. 10, 1865.

BANGOR, May 15th, 1865.

MRS MANCHESTER—Dear Madam: When you were in Bangor last Summer, I called to see you with a child of mine that had been sick for four years. I had taken her to a number of physicians, and none could tell what ailed her or even her symptoms. You examined her case, and told me exactly her symptoms from the commencement of her sickness, which were very peculiar; also told me there was something alive in her, and also told there was a number of them, and told me that she drank them from a rain-water cistern. You said that you would not warrant a cure, but would try and do the best you could for her. She commenced taking your medicine in August last, and from that time till December, the child passed of large quantities of what we call *Tadpoles*, from rain water, and I think, and am certain that the child must have died had it not been for you. And I advise everybody to see Mrs Manchester, for I know that she has the power of knowing the condition of a person diseased better than any Physician that I have ever heard of. Please have this published, and let the world know that there is one who practices what they profess to.

Very truly and gratefully yours,
GEORGE E. MARTIN,

CHOLERA! CHOLERA!
Prof. Bouve's Atmospheric Purifier.
This article has been extensively used as a Deodorizing Agent by the government of Egypt, Turkey and France, during the late Cholera epidemic, and is the most perfect disinfectant extant. It effectually destroys all noxious gases and effluvia arising from decaying animal or vegetable matter, and for purifying Hospitals, Vaults, Drains, Cesspools, &c., cannot be surpassed.

Important.
DR. STEVENS, No 5 Daniel Street, would give notice that he has REDUCED the price of Permanent Sets of ARTIFICIAL TEETH on the Vulcanite Base, to that charged for them before the war.

He would also give notice that he is doing a new style of work for Under Sets of Teeth, called the COMBINATION BASE (Gold and Vulcanite) which produces by far the finest work offered to the public for the price is something in advance of that charged for the Vulcanite alone, but the strength, durability, ease of bearing, and beauty of finish obtained by it, more than double the value of the Teeth. mh12

GEORGE F. WEED,
S-u-r-g-e-o-n D-e-n-t-i-s-t,
FIRST ASSISTANT in the Office of Dr. STEVENS, No. 5 DANIEL STREET.

DR. WEED can be found at his place of business at all hours of the day and night, for the performance of any of the operations that come within the call of his profession.

Dr. A. P. STEVENS, No. 5 Daniel St., makes the saving of ULCERATED and painful front teeth, a speciality in his business. He also successfully restores to their natural state broken or badly decayed teeth, by building out corners and sides with PURE GOLD. (In many cases teeth so restored are as strong as any of their brother members, and in all cases are rendered eminently useful for a long series of years.) DISEASED TEETH, in all stages, treated, and in a very large majority of cases entire success attained.

Charges for such operations necessarily high, but nothing in comparison to the value of the Teeth. mch14

WHICH IS THE
Leading Life Insurance Comp'y
IN THE UNITED STATES?
Which is the Safest and the Cheapest?
The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of the

MUTUAL BENEFIT
LIFE INSURANCE COMPANY,
to be the *largest*, the "expenses of management" the *smallest*, the "ratio of assets to liabilities" or the *security* furnished to its members, the *largest* of any life institution in the country.

Premiums received in 1864.....$2,089,072
" " " " 1865.....3,029,087
Ratio of expenses to premiums rec'd in '64..12.96
" " " " " " '65..12.16
Ratio of assets to liabilities, Jan. 1, 1865...131.85

The inevitable conclusion from these official facts, is that the

MUTUAL BENEFIT LIFE Insurance Company
IS THE BEST AND THE CHEAPEST.
Because its NET ASSETS are proportionably LARGER than those of any other Life Insurance Company in the United States.

Because its "Managing Expenses" are LESS, and it has a LARGER SURPLUS to divide among its members than any Company in the United States.

QUERY. Will some one inform the public of that mysterious process by which a Company with a surplus proportionably much less, and expenses *very much* larger than another, can yet divide *more* to its members, and insure them at *less cost?* How is it done? Where does the money come from?

Every intelligent man will see at once that it *cannot be done.* Yet we have Agents among us that make this their boast.

Any one disposed or intending to insure can be furnished with the requisite information by applying to

Morning Chronicle.

☞ Oliver Wendell Holmes sent two poetical letters to the "post office" of an Epicopal fair at Pittsfield. In one of them the first stanza was:

"Fair lady, whose'er thou art,
Turn this poor leaf with tenderest care,
And—hush, O hush thy beating heart—
The one thou lovest will be there!"

On turning the "poor leaf" there was found a one dollar bill, with some verses beginning:

"Fair lady lift thine eyes and tell
If this is not a faithful letter;
This is the one (1) thou lovest well,
And nought (0) can make the love it better.

— Rev. Mr. Potter, of South Carolina, preached in Dr. Huntington's church, at Boston, on Sunday, and said that within two years his State would have a suffrage law like that of Massachusetts, giving the right to vote to those who can read and write, without regard to color.

[That is a very hopeful statement;—but query—was not Mr. Porter preaching politics? What is the world (and the church) a coming to?]

ANCIENT.—Mr. Isaac Barker of Tiverton, R. I., was in town to-day wearing clothing with silver buttons over two hundred years old. In company with his brother, Peleg Barker, he owns a house in Pembroke, twelve miles from Plymouth, which is two hundred and thirty-nine years old. It is still inhabited, has always been in their family, and is believed to be the oldest house in the United States.—*Fall River News.*

— One of Gough's stories is a neat hit at those dilatory people who are always behind time. Some one said to a person of this class, "I see that you belong to the three-handed people." "Three-handed, that's rather uncommon." "O no, common enough—two hands like other people—and *a little behind-hand!*"

Important to the Afflicted.

DR. DOW continues to be consulted at his office, No. 7 and 8 Endicott STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience (with unlimited means), Dr. Dow has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and *has for sale a new* article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

HIGHLY IMPORTANT

UNFORTUNATE FEMALES!

DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, Fits, and suppression of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.

His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.

Office, No. 23 Endicott street.

Persons at a distance can consult Dr. BRISCOE, by letter, describing the case, and have the medicine sent by express or mail, forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that attendants need not be the Doctor himself.

Address Dr. BRISCOE, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.

Patients furnished with rooms and board if desired, and secrecy observed in every case.

Office hours from 9 A. M. to 9 P. M.

Boston, July 16, 1865. ThSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.

N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.

P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

CHOLERA
DISARMED!!!

The Chief Causes of Pestilence Destroyed.

DR. E. R. COURARET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, Office and Laboratory, Nos. 298, 300, and 302 Henry street, N. Y.—Office, 42 Cedar street.

The Company organized on a permanent basis, with Courtaret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish the Disinfectants for private sick rooms, nurseries, urinals, water closets, privies, cesspools, sewers gutters, ships, railroads, hospitals, prisons, public buildings, markets of all kinds, slaughter houses, offal and fat-boiling establishments; all kinds of manures (*immensely increasing the value of the latter*), and wherever poisonous and offensive gases exist. These agents are deodorizers, antiseptics, antiputrescents, and disinfectants in the scientific meaning of the words. They remove noxious gases and destroy chemical principles—leaving in their places *healthful air*; they are DISINFECTERS, and *not merely absorbents* of poisonous gases—the only Disinfectants in which this is the case. The attention of medical and scientific men is directed to these disinfectants. Attached are testimonials of the first great discovery, which, with hundreds of others, can be seen at the Company's office.

Albany, March 30, 1866.

To the President of the New York Disinfecting Co.:

Dear Sir: It is all it is represented to be. We have made many trials of disinfectants, but now consider that we have found an article which surpasses all others as a remedy against all bad odors. T. ROESSLE & CO.

NEW YORK, April 9, 1866.

To the President of the New York Disinfecting Co.:

Dear sir: We pronounce it without exception to be the best we have ever known. Its effect upon every matter is complete and astonishing.

WELCOME TO SPRING.

There hath gone forth a voice,
And the whole earth has heard it and obeys;
The lodestar of streams are singing forth, "rejoice,"
And the snow melts beneath the sun's hot rays.

From out the silent woods
There are low whisperings on the milder air;
And skies and seas forget their angry moods,
And soft prophetic smiles of beauty wear.

Not a green blade of grass
By the moss-covered wall, no budding spray,
Nor violet blossoms greet me as I pass,
Nor bird hath warbled yet his spring-time lay:

Yet through the ample halls
Of earth and sea and sky, hath gentle Spring
Proclaimed her coming,—and before her falls
Subdued and powerless, Winter's prostrate king.

To many thou dost bring
Sad memories and deathless yearnings vain
For that which was, but is not, yet dost fling
O'er all a balm to mitigate each pain:

And so, oh Spring! we bless
Thy coming with full hearts, for every shade
Grows lighter beneath thy smile of tenderness,
And life is lovelier with thy bloom inlaid.

—Boston Transcript.

RUSSIA.—The attempted assassination of the Emperor Alexander turns out to be a much more serious affair than the idea of a single monomaniac. Gen. Mouravieff, in addressing the St. Petersburg nobility at a dinner where the preserver of the Emperor's life was entertained, said that it was not the act of a single individual, but of many acting in concert. Above a hundred arrests have already taken place in connection with this event in St. Petersburg and Moscow, while in Warsaw three times that number are placed in surveillance. The chief of the political police and the Police President of St. Petersburg have been removed from office, and superseded by men of more decided energy. The latter appointment is conferred upon G n. Trepoff, a German in the employ of the Czar, who has kept Warsaw in order for the last two years, and it is said, a few weeks ago, on the occasion of a visit to the capital, warned his master of the dangerous elements he knew to be at work in the immediate vicinity of the Winter Palace.

Different classes of conspirators are said to be implicated in this attempt, chief of which, however, are the *old landholders*, including many discontented *nobles*, who cannot brook the elevation of the serfs. It is feared the liberal policy of the Emperor in other matters may be *restrained* by this disclosure of the state of affairs.

Undoubtedly it will be so: and in the United States, the assassination of President Lincoln was not merely the act of Booth and his immediate aids, but of the old slaveocracy. And the discontented ex-nobles and ex-rebels, with the ignorance and prejudice of their followers, are *restraining* the liberal policy which equity and honor demand of us to-day. It is only restraint or check, however, that they can impose. The progress of the civilized and christian world is toward liberty and light, equality and fraternity. And this progress will continue, peaceably if it can—forcibly if it must.

AMERICAN AND FOREIGN PATENTS
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1837,
78 State Street, opposite Kilby Street,
BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to those which are offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof on great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

MONDAY, MAY 21, 1866.

WAGES AND LIVING.—The strike of the ship carpenters, joiners and caulkers in New York has not been brought to a close. The men declare that they will not yield their demand for the eight-hour system, and the bosses say that if the present condition of affairs continues much longer, they must remove their establishments to other ports.

Well: let a part of them leave. There *is* no good reason why all the ship work should be done in any one port. Other ports could do it as cheap and as well; and the workmen could live cheaper, perhaps, or in better houses, and have more room for the same rent. But when workmen in New York city get three or four dollars for eight hours' work, it is impossible to build cheap houses there, or to have cheap rents. If rents and provisions and clothes are cheap, then wages cannot be high, permanently. And so, if days are short and wages high, provisions and clothing must be costly, as well as rents. When a day's work (of 8 or 10 hours) will buy two bushels of corn, and a week's work will buy a barrel of best extra flour, the wages of labor are not below their usual level.

THE THIRD PARISH IN PORTLAND, Me., held an adjourned meeting on Thursday evening, when Rev. Mr. Walton sent in his written acceptance of their call to be their pastor, on condition that he be "not held to preach more than one sermon each Sabbath." A vote was taken on agreeing to this condition, and 17 proprietors voted for it to 12 against,—Dea. Barrett and Mr. Carruthers explaining that they dissented *only* from the one sermon condition. A vote was then taken of the parishioners not proprietors, who voted 13 for it and none against. It was suggested that the Church (i. e., regularly enrolled members,) might not concur in this arrangement,—nevertheless, the Parish voted Mr. W. $2000 yearly salary.

[Some persons might wonder why the one sermon condition should be so important in this case; but it is not really strange. In the regular circle of the orthodox congregational ministry, in Portland and vicinity, pulpit exchanges are easy, common and abundant; but in the present and prospective posture of Mr. W. and the 3d Parish, *he* will be shut out of that circle; perhaps he is not prepared to enter any other; and probably his people are not prepared to have him do so. His parish, now large, will probably be larger, and demand more *pastoral* labor. As a preacher, alone, he might be too severely tasked, if he *must* write two good sermons each week, and therefore he makes this condition, of great consequence to him now, though of far less moment when he might have exchanged half of every Sunday, or half of all the Sundays, if he chose.]

☞ A Washington letter of Thursday says:—

"A high official stated to-day that another officer of the army would soon be detailed as Commissioner of Freedmen's Affairs in Gen. Howard's place."

If this should be done, as a part of "my policy," it would go far toward nominating Gen. Howard for Vice President. GRANT & HOWARD would be a strong ticket.

☞ With the June number Beadle's Monthly closes its first volume. Among its contents is a very interesting illustrated article on Colorado, from the facile pen of Albert D. Richardson, who will contribute a series of papers on the new States and Territories of the West. Published at $3 a year, by Beadle & Co., New York.—Batchelder has it in this city.

☞ Godey's *Lady's Book* for June is embellished with "Christ and the Sisters of Bethany," a steel plate engraving: Colored fashion-plate, five figures, new styles summer dresses for the seaside, evening and walking dresses, all the latest fashions, &c., &c. The literary matter is, as usual, of a high order.

☞ "High Farming without Manure," six lectures on agriculture, delivered at the experimental farm at Vincennes, by M. George Ville, a work of interest to agriculturists, will be sent by mail, postpaid, for 30 cents by Messrs. A. Williams & Co., Boston.

— Rev. Theodore Clapp, D.D., formerly of New Orleans, died at Louisville, Ky., last week.

— The property of ex-Governor Aiken, of South Carolina, has been restored to him on the recommendation of General Sickles.

— Alfred Smith of Shelburne, Vt., 54 years old, and worth $6000, has been arrested and bound over for trial on a charge of incendiarism at Starksboro'.

— The workmen commenced laying the foundation of the new freight house for the Worcester and Nashua Railroad, at Worcester, Wednesday. Its dimensions are to be 400 feet long by 60 feet wide.

— Admiral Wilkes, of the Trent seizure, has bought a large landed property, in the heart of North Carolina, including extensive iron works, and is engaged in getting ready to develop it.

NEW HAMPSHIRE ITEMS.

—— Col. Walter Harriman, Secretary of State of New Hampshire, has been appointed Brigadier General by brevet.

—— On Wednesday last Rev. Geo. M. Rice was installed pastor of the First Congregational Unitarian Society in Dublin, as successor of Rev. Mr. Bridge.

—— A company of New-Hampshire Volunteer State Militia [Infantry], has been formed at Wilton and designated the "Wilton Light Infantry." Dearborn S. Moody, Captain.

—— The several churches in Nashua are receiving large additions. Twenty-nine were recently received into the Universalist Church, to twenty-two of whom the rite of baptism was administered.

—— The Coos Republican says that Mr. Edward Rowell of Lancaster sugared off 200 lbs. maple sugar on the 6th inst., the sap being gathered during the preceding week. Mr. R.'s sugar orchard is situated well up on the side of a mountain.

—— A correspondent of the Wolfeborough News, writing from Freedom, says: "The liquor-dealers in Effingham are about played out, or, at least, some of them have been playing off—skulking about down in the Pine-Tree State, just prior to court-time, for the obvious reason that they did not care about having an invitation to attend.

—— Ex-Gov. Colby has so far recovered from the effects of amputation of a foot, that he was able to be present in Concord last week at a meeting of the Trustees and other friends of the educational institution at New London. At this meeting it was voted to raise $100,000, with which to construct new buildings and provide for other wants of the institution. Forty thousand dollars are subscribed and it is understood that a daughter of Gov. Colby—Mrs. Colgate, of N. Y.,—will give $25,000.

BOUNTIES OF N. H. SOLDIERS WHO DIED IN SERVICE.—Gov. Smyth received on Friday, at Washington, about $60,000 from the Paymaster General, for the assigned United States bounties of those soldiers who died in the service, whose bounties were advanced by certain towns in the Granite State in 1863 and '64. When Gov. Smyth came into office, the Third Auditor had commenced paying these soldiers, and about $17,000 had been thus wrongfully paid. The Governor immediately furnished him with papers showing that these bounties belonged to the towns which had advanced them, and has at last got what had not been paid, to carry home to those towns. Government will also pay the assigned bounties of those regularly discharged, but the bounties advanced by towns to those who deserted will be a total loss to them. So says the Washington correspondent of the Boston Journal.

WASHINGTON ITEMS.—There is no truth in the report that the Committee are preparing a bill for the trial of Jeff. Davis by a Military Commission.

The President has decided to order the mustering out of all white volunteers.

The Freedmen's Bureau has received encouraging accounts from Gen. Gregory in Texas of the condition of the cotton and sugar crops there.

The House Committee on Banking has under consideration a bill to exempt from taxation all government bonds in the possession of National Banks.

The investigation concerning Davis' complicity in the assassination plot progresses slowly.

The House Committee on the Freedmen's Bureau have agreed to report a resolution for the appointment of a joint committee of Congress to investigate the working of the Freedmen's Bureau system, to travel thro' the Southern States to take testimony, and to report to Congress.

The rumors of intrigues in which Santa Anna is concerned has prompted a general desire in Washington to have Juarez aided, but the success of the proposed Mexican loan is very doubtful.

President Johnson has appointed quite a number of those who sustain his policy to be Postmasters in the Northern States, in place of Republicans whose terms of service are expiring, who now sustain Congress. Some of these new appointees will not be confirmed by the Senate.

☞ Mr. John M. Way, of Roxbury, Mass., was disposed to rejoice over Pres. Lincoln's assassination; and some of his neighbors called on him at his house soon after, and compelled him to put up the U. S. flag, and to do other things very distasteful to traitors. For these indignities he lately sued these neighbors, laying the damages at $20,000. The jury, on Saturday, gave him a verdict for $100.

— The commissioners appointed to examine the affairs of the Merchants' National Bank are of the opinion that the institution will be able to pay about 3 per cent on its liabilities.

— In Providence on Tuesday, a menagerie and circus passing his home so frightened John P. Gray, a lad twelve years old, that he went up into the attic and hung himself. He was recently seriously injured by being run over by a horse.

☞ The Biddeford Journal (an excellent paper, we would remark by the way of parentheses,) has the following items:

John H. Burleigh, *Esq.*, of South Berwick, is building a very elegant residence in that village, estimated to cost between $50,000 and $60,000.

Owing to a misunderstanding with regard to an exchange between a Saco Pastor and one of a neighboring town, the Saco Society Sunday morning found itself without a minister and after a lengthened waiting separated without a service.

A council was held at South Berwick last week to advise in reference to resignation of Rev. E. W. Allen, and the installation of Rev. Sylvanus Haywood of Dunbarton, N. H. Rev. Mr. Tobey of Durham, Moderator. Sermon at installation by Rev. Mr. Yeaton of Henniker, N. H.

Last Saturday night an attempt was made to fire the South Berwick Town House. It was fortunately discovered by a late pedestrian in season to prevent much damage. Also an attempt was made to fire a school house in Rollinsford on the night following. On Sunday night the barn of Dennis Ferguson, about a mile out on the Junction road from South Berwick village, was burned. Loss $500.

IN THE U. S. SENATE, Friday, May 18, the Senate receded from its amendment to the bill to fix the time and change of place of holding U. S. Courts in Virginia, and the bill then passed.

In the HOUSE, the bill to prevent and punish kidnapping was reported back to the Judiciary Committee and passed.

The bill recognizing as a post road the railroad bridge across Lake Champlain was read three times and passed.

The bill establishing a reform school in the District of Columbia was taken up, and after some discussion passed.

A bill was reported equalizing bounties. Laid over until next week.

A resolution was reported from the Committee on Elections, declaring Mr. Delano entitled to a seat from the 13th district of Ohio, and adopted.

A resolution was also adopted to pay Mr. Follett, the contestant, $1500 for expenses and loss of time.

☞ On Thursday, at Washington, the House Committee on Foreign Affairs had under discussion the Mexican question. The debate was general, but the committee unanimously sustained the policy of the Monroe doctrine. The committee seem willing to throw their influence in favor of the Liberal cause, without going so far as to recommend a loan by our Government.

☞ On Friday, in the U. S. Senate, Mr. Sumner presented the petition of John J. Varanne, who says he is a Union soldier, that the arch traitor, Jefferson Davis, should be punished for his crimes, and that his trial by a civil court where secessionists would be apt to get on the jury would not be safe, and he therefore asks that the President be authorized to convene a Court Martial to try him, and that if convicted he be shot on the 4th of July next. "In presenting this opinion," said Mr. Sumner, "I express no opinion on it; but now that the subject is before us, I will add that the trial of Jefferson Davis, at the present time, by a jury at Richmond, will be one of those great comedies which hereafter will excite the derision of the world." The petition was referred to the Military Committee.

☞ Among the largest advertisers in this country is the house of C. A. Richards & Co., of Boston. Our readers will observe, on our to-day's issue, that they have engaged an entire column in our paper, through the medium of which they propose to attract attention to their large stock of Pure Wines and Liquors, and also to the three leading articles for which they claim distinguished and important specialty. We, of course, know but little about these articles ourselves, but we do know that Messrs. Richards & Co. do an immense business in their sale, and that they are a reliable and responsible house and are not afraid to advertise. Success attend them, say we.

FOR CALIFORNIA.—*The Pacific Mail Steamship Co.*—This Company, whose advertisement appears in another column, and whose capital is to be increased to twenty millions of dollars, is one of the largest and most extensive steamship lines in the world. With a fleet of twelve large and splendidly manned and equipped steamships, and its immense capital, this Company is without a rival.—They are also building the two largest merchant steamships in the world; these vessels will be over five thousand tons burthen, and for speed, convenience, safety and comfort, will be unrivaled. As none but experienced seamen have command of the vessels composing the fleet, and the fact that this line carries the United States mail, additional security is given to the traveling public of the safety of these vessels; while their well-established reputation for convenience, speed and comfort, places the Pacific Mail at the head of our ocean steamship companies—a position its energetic, gentlemanly and courteous managers have justly earned for themselves.

— More than one-half the diseases of the human system are caused from the use of impure Breadstuffs; and as Saleratus and Soda are the essential properties for using, it behoves doubly necessary to be watchful. Never use Soda if you can procure this article. Go to your Grocer and get a paper. Depot 112 Liberty Street, New York. 89

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, accompany each box. Their wonderful producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weak nesses. **Price $1.50 per bottle.**

Ayer's Sarsaparilla

Is a concentrated extract of the choice root, so combined with other substances of still greater alterative power as to afford an effectual antidote for diseases Sarsaparilla is reputed to cure. Such a remedy is surely wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove, as this has, of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found in the following complaints:—

Scrofula, Scrofulous Swellings and Sores, Skin Diseases, Pimples, Pustules, Blotches, Eruptions, St Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, &c.

Syphilis or Venereal Disease is expelled from the system by the prolonged use of this SARSAPARILLA, and the patient is left in comparative health.

Female Diseases are caused by Scrofula in the blood, and are often cured by this EXTRACT OF SARSAPARILLA.

Do not discard this invaluable medicine, because you have been imposed upon by something pretending to be Sarsaparilla, when it was not. When you have used AYER'S—then, and not till then, will you know the virtues of Sarsaparilla. For minute particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the agent below named will furnish gratis to all who call for it.

AYER'S CATHARTIC PILLS, for the cure of Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Headache, Piles, Rheumatism, Heartburn arising from Disordered Stomach, Pain or Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Liver Complaint, Dropsy, Worms, Gout, Neuralgia, and for a Dinner Pill.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best Aperient in the world for all the purposes of a family physic.

Prepared by J. C. AYER & CO., Lowell, Mass., and sold by all Druggists and Dealers in Medicine everywhere. my1—2mMTuno

REDUCTION IN PRICE

OF THE

AMERICAN WATCHES.

MADE AT WALTHAM, MASS:

In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed

With Gold at Par,

so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of

More than 200,000 Watches,

have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.

We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:

1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy &Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.

The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,

ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED

to be the best time-keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit orders for single watches.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

ALLCOCK'S POROUS PLASTERS.—A celebrated physician says "he was amazed at the great number of beneficial indications produced by one of these plasters. He affirms that *headache* is cured by one worn just below the breast-bone; that one placed over the navel will cure hysterics, as well as dysentery, and affections of the bowels."

CURE OF VARICOSE VEINS.
City Point, Va., January 24, 1865.
T. ALLCOCK & CO.:
Gentlemen: Seeing your notice in the Police Gazette, I got four of your Porous Plasters and placed them on the parts where the pains were most severe, and in less than twelve hours could walk as well as ever. I could hardly believe it, I was so well pleased. I wanted to see if the lameness would come back on me or not, so I did more walking that day than I had done in a week. The next day I had some pain in my hip, but I put on a plaster there and in two hours the pain was all gone, nor have I felt it since. Certainly they are the best application for the relief and cure of pains in the joints and back, and for varicose or enlarged veins, I have ever known, and I would not be without them on any account. Yours truly,

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. POLICE COURT, May 19.—Cincinnatus, voluntarily returning to his plow and leaving the calls of ambition behind him, has for ages been an example worthy of all emulation; but the agriculturists who are impressed into our city's service through their lack of self-control have no such proud record to look back upon.

John Stevens, having unduly drowned his sorrows in the bowl, and being unable to liquidate the $6.86 imposed in such cases, was sent to rusticate at the House of Correction.

Michael Brooks, who depended not upon "babbling brooks" to quench his thirst, but sought that which would make a babbling Brooks of any Brooks in existence, also received the dread sentence of "6.86," and in default thereof was sent to Supt. Philbrick, who will doubtless teach him the conjugation of *agricola*.

☞ One of the most beautiful launches that we have witnessed for years was that of the yacht Alice, on Saturday. The day was fine and the gathering of spectators was very large. The piers, Liberty Bridge, Russell's barge and the street, all had their throng of patient waiters, and in this instance at least they were no losers. Knight's Cornet Band were present in their showy uniform, banishing any thought of tedium in waiting by their selections, and showing great improvement since last we heard them. A miniature steamer, about fifteen inches in length, (propelled, we suppose, by clock work,) amused the bystanders as it paddled noiselessly around the dock.

Gently and gracefully the finely modeled yacht glided from her ways into the element upon which we predict she will win new fame for her builder, (Mr. John E. Towns end,) and upon which we trust she will give new pleasure and continued health to her owner (Mr. Thos. E. Appleton of Boston.)

Nearly fifty tons register, of exceeding beauty in model, finely finished and furnished, she is a good specimen of what Portsmouth *can* turn off in her line, and we anticipate no bad report for her in the International Yacht Race, in which it is now proposed to enter her, and for which she must cross the Atlantic.

Communication.

$3000 for sprinkling the streets is an unnecessary and unfair appropriation. What benefit to the mass of tax-payers is it to sprinkle the streets? and in point of health it is injurious. The continual exhalation from the filthy surface of streets tends very much more to produce disease by being frequently wet, especially when the sun shines. And to expend the people's money to protect the finery and gewgaws of fancy dealers is unjust, and is inconsistent with the people's rights. ☞

[Perhaps it would be a good plan to postpone all our showers this summer, the rain is so apt to make things wet. If any man, after the siege of dust that we have had since the incoming of May, can have the heart to oppose any measure that shall relieve us from such another vesitation, all this reporter has to say is, "he's got more *grit* than we have."]

☞ We understand that permission has been obtained of the Navy Department for the use of the Dry Dock at the Navy Yard, and ship Simla is coming round from New York to this port for repairs.

☞ Joseph P. Morse, Esq., auctioneer, sold the Market Street House, land and buildings, to Stephen Tobey of Eliot, for $3000, on Saturday last.

☞ This evening, it will be remembered, is the last opportunity to see the fine exhibition of Banvard's Holy Land. It is spoken of in high terms.

BILLS APPROVED BY THE PRESIDENT. The bill authorizing the coinage of five-cent pieces. This coin is to be a legal tender in payment to the amount of one dollar. There is to be no new issue of fractional notes of less denomination than ten cents.

The bill providing that on and after the 16th inst., there shall be levied, collected and paid on all horses, mules and cattle, sheep, hogs and other live animals imported from foreign countries a duty of 20 per centum ad valorem. It provides that any such animals now bona-fide owned by citizens of the United States and now in the British Provinces may be admitted into the United States free until the 27th of May.

The bill to allow the Vice Admiral a Secretary, with the rank, sea pay and allowances of a Lieutenant in the Navy.

The joint resolution sending a greeting to the Emperor of Russia and congratulating him on his escape from the hands of the assassin.

The joint resolution relative to the United States Courts and Post Office in the city of New York.

The Eye, Ear, Catarrh,
—AND—
THROAT!

MRS. MANCHESTER,
The Independent
CLAIRVOYANT!
—AND—
ECLECTIC PHYSICIAN!

From 618 Broadway, New York, will arrive in PORTSMOUTH May —th, and take rooms at the FRANKLIN HOUSE, for a short time only.

A Clear Case of Clairvoyant Sight.

DEAR MADAM:—Permit me to tender you my sincere thanks for the cure you have effected on my child. My daughter, ten years old, was taken sick last January in a very singular manner. We called in six of the best Physicians in the city; they said the case was a very singular one—they never saw one like it—and came to the conclusion they could not tell what the disease was. Some days we thought that we should call on a Clairvoyant; there being none in Providence that we could rely on, we wrote to Mrs MANCHESTER, in Hartford and described her symptoms. She immediately examined her case and told that she had a Snake in her stomach, told where she had drunk it, and that it had been growing, and from the best of her judgement she should think it ten or twelve inches long. I gave the child her prescription, and in a few hours the child ejected the snake alive from the stomach; it was measured and found to be eleven and a half inches long. We have it preserved, that all may see for themselves that the statement is really so. I am confident that the child could not have lived, had it not been for Mrs Manchester, and we feel as though she never could be repaid for her skill. MARY RAY,
GEO. W. RAY.
Providence, R. I., Nov. 10, 1865.

BANGOR, May 15th, 1865.

MRS MANCHESTER—Dear Madam: When you were in Bangor last Summer, I called to see you with a child of mine that had been sick for four years. I had taken her to a number of physicians, and none could tell what ailed her or even her symptoms. You examined her case, and told me exactly her symptoms from the commencement of her sickness, which were very peculiar; also told me there was something alive in her, and also said there was a number of them, and told me that she drank them from a rain-water cistern. You said that you would not warrant a cure, but would try and do the best you could for her. She commenced taking your medicine in August last, and from that time till December, the child passed off large quantities of what we call *Tadpoles*, from rain water, and I think, and am certain that the child must have died had it not been for you. And I advise everybody to see Mrs Manchester, for I know that she has the power of knowing the condition of a person diseased better than any Physician that I have ever heard of. Please have this published, and let the world know that there is one who practices what they profess to.

Very truly and gratefully yours,
GEORGE E. MARTIN,
MARY L. MARTIN.

CHOLERA! CHOLERA!
Prof. Bouve's Atmospheric Purifier.

This article has been extensively used as a Deodorizing Agent by the governments of Egypt, Turkey and France, during the late Cholera epidemic, and is the most perfect disinfectant extant. It effectually destroys all noxious gases and effluvia arising from decaying animal or vegetable matter, and for purifying Hospitals, Vaults, Drains, Cess pools, &c., cannot be surpassed.

Important.

DR. STEVENS, No 5 Daniel Street, would give notice that he has REDUCED the price of Permanent Sets of ARTIFICIAL TEETH on the Vulcanite Base, to that charged for them before the war.

He would also give notice that he is doing a new style of work for Under Sets of Teeth, called the COMBINATION BASE (Gold and Vulcanite) which produces by far the finest work offered to the public. The price is something in advance of that charged for the Vulcanite alone, but the strength, durability, ease of wearing, and beauty of finish obtained by it, more than double the value of the teeth. mh12

GEORGE F. WEED,
S-h-r-g-e-o-n D-e-n-t-i-s-t-,
FIRST ASSISTANT in the Office of DR. STEVENS, No. 5 DANIEL STREET.

DR. WEED can be found at his place of business at all hours of the day and night, for the performance of any of the operations that come within the call of his profession.

Dr. A. P. STEVENS, No. 5 Daniel St., makes the saving of BLOOD and PAIN in front teeth, a speciality in his business. He also successfully restores to their natural shape broken or badly decayed teeth, by building out corners and sides with PURE GOLD. (In many cases teeth so restored are as strong as any of their brother members, and in all cases are rendered eminently useful for a long series of years.) DR RASED TEETH, in all stages, treated, and in a very large majority of cases entire success attained.

Charges for such operations necessarily high, but nothing in comparison to the value of the Teeth. mch14

From the Portsmouth Journal

SUMMER EXCURSIONISTS.—It is generally understood that our State, from Rye Beach to the White Mountains, is to be visited this summer by Excursionists from the large cities and towns of New England and the Middle States. The fear of the ravages of the Cholera will tend to send abroad many of those who are able to leave the large cities, and the increasing disposition to travel to change scenery will have their effect. Now as a place of pleasant resort, of varied scenery, of healthy air, and easy access to the ocean, there is none more attractive than Portsmouth, although we say it, who perhaps ought not to say it. We have good hotels here, but we fear not quite so extensive as the Summer demands may require. However, we trust that such as early in making application, can find boarding in our neighborhood, from which they can enjoy all the good health which the broad ocean, running river, still bay, green hills, and beautiful drives can give.

It cost the country $300,000 to bury Lincoln; at least Congress has appropriated that sum to cover the expenses. And to this should be added the $100,000 paid for the Theatre where he was killed, purchased by Government in consequence of that fact—making the whole "expense incident to the death and burial of Abraham Lincoln," $400,000!

The above from the N. H. Patriot, has appeared in various Judas Iscariot papers in the country. "It might have been sold for a hundred pence, and given to the poor," is the parallel idea.

Had our country spent 400 millions on the funeral of Jeff. Davis ten years ago, it would have been an economical expenditure for the Union.

The Freedmen's Bureau have found it necessary to largely increase the Government weekly rations to starving whites and blacks, in many portions of the South. Judge Wythe of North Alabama has come to Cincinnati pleading for the suffering and starving people of his district: "In the name of God and common humanity I beg for bread for my starving people." Says the Memphis Post, "a terrible reproach and a crime lies at the door of the people of Memphis that they allow here, within the circle of their own mercantile interest thousands of poor southern women and children literally starve to death without one effort to lend a helping hand." Says the Memphis Argus, (a rebel sheet)—"The Southern people are under no obligations to give relief," and it calls on the "Radicals"—"let *them shell out*, to help these Unionists!"

Evidence is said to abound in the Pennsylvania Oil region, that the people who once inhabited it made use of the oil. Clear traces exist of ancient operations—large pits, cribbed up with timbers, in which are found trees, showing 200 concentric circles of growth.

DRY SPRING.—On the last day of March, there was a fall of 1½ inches of rain; April 14, ¾ inch; April 23, 1½; May 17, ½ inch. Making less than 4 inches in 40 days.

CONCORD DAILY MONITOR.—During the June Session of the Legislature a MORNING AND EVENING EDITION OF THE DAILY MONITOR will be issued, the only daily paper published at the Capital of the State. It will contain full and accurate Legislative Reports by the accomplished Reporter, J. M. W. YERRINGTON; Concise Sketches of "Life in the State House," by "Spero;" the latest Telegraphic News, Daily; General Intelligence, Choice Miscellaneous Reading, and Editorials adapted to the times. A LIVE PAPER, which LIVE PEOPLE will want to read. TERMS.—Fifty Cents for the Session, invariably in advance. Address COGSWELL & STORTEVANT, Concord, N. H.

A LEAP IN THE DARK.—The name of the man who leaped from the eleven o'clock outward train of the Boston and Worcester Railroad, on Tuesday night, was Frank Matter, a German mechanic. It appears that he took passage intending to stop at Brighton, but neglected to get out when the train stopped there. Discovering his mistake when the cars were passing the Arsenal Station he leaped out into the dark, the speed at the time being at least twenty miles an hour. The force with which he struck broke his legs badly, and he then rolled to the foot of a deep embankment, and there vomited all night in a pool of water. The engineer of the early morning freight train saw the man lying there and gave notice to the authorities of the road, who sent him to the hospital.—*Boston Traveller.*

QUICK WORK.—A man in Nashua recently lost his "beloved companion" on Saturday. He buried her on Sunday, procured a certificate on Monday, and on Tuesday was again enjoying the pleasures of married life.

AGENTS WANTED
—FOR THE—
Great National Work,
THE
STANDARD HISTORY of the WAR,
Complete in one very large Volume of over 1,000 pages,
Splendidly Illustrated with over 150 Fine Portraits of Generals, Battle Scenes, Maps and Diagrams.

In the selection of matter for this great work the author has confined himself strictly to *official data* derived from the reports of Northern and Southern Generals, the report of the Committee on the Conduct of the War, National and Rebel Archives, etc.
He has carefully avoided the introduction of any matter not strictly *reliable* and *official*, and has succeeded in producing what is universally demanded, a *fair* and *unwarped* History of the War. The great superiority of this work over all others is everywhere acknowledged. It is marked by a degree of thoroughness and accuracy attempted by no contemporary.
Disabled officers and soldiers, teachers, energetic young men, and all in want of profitable employment, should send at once for circulars, and see why it sells faster and gives better satisfaction than any other History published. Address, JONES BROTHERS & CO., 14 Phœnix Building, Boston.

WANTED.—LOSSING'S SUPERBLY ILLUSTRATED HISTORY OF THE WAR. 3 vols. 100 pages each. Over 2000 fine engravings, besides maps, diagrams, etc., costing $50,000. HIGHLY IMPORTANT TO UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail, addressed by a communication stating particulars, will receive prompt attention.
Office, No. 23 Endicott street.
Persons at a distance can consult Dr. Briscoe, by letter, describing the case, and have the medicine securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that ladies need none but the Doctor himself.
Address Dr. Briscoe, No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secresy observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1866. ThSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No 23 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

CHEROKEE PILLS,
Or Female Regulator,
Cure *Suppressed, Excessive and Painful Menstruation, Green Sickness, Nervous and Spinal Affections, Pains in the Back, Sick-Headache, Giddiness,* and all diseases peculiar to the female system, by removing the cause and all the effects that arise from it. They are perfectly safe in all cases, *except when forbidden by directions,* and are easy to administer, as they are nicely sugar coated. They should be in the hands of every Maiden, Wife, and Mother in the land.
Ladies can address us in perfect confidence, and state their complaints in full, as we treat all Female Complaints, and prepare Medicines suitable for all diseases to which they are subject.—Thirty-two page pamphlet, in a sealed envelope, free.
The Cherokee Pills are sold by all druggists at $1 per box, or six boxes for $5; or they are sent by mail, free of postage, on receipt of $5, from observation, by addressing the sole proprietor,
Dr. W. R. MERWIN, 37 Walker St., N. Y.
N. B.—Cherokee Pills No. 2 are prepared for *special cases,* when milder medicines fail; these are sent by mail, free of postage, on receipt of $5, *the price of each box.*

DR. WRIGHT'S
REJUVENATING ELIXIR,
Or, Essence of Life,
Cures *General Debility, Weakness, Hysterics, Nervous Palpitation of the Heart and all Nervous Diseases.* It restores new life and vigor to the aged, causing the hot blood of youth to course the veins, refreshing the *Organs of Generation, removing Impotency and this Great Evil, Premature Decay.* It restores the system and *full vigor,* thus proving a perfect *Preventive of Disease,* removing *Sterility* and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than the "Elixir of Life." It gives a new lease of life, causing the weak and debilitated to have renewed strength and vigor, and the entire system to thrill with joy and pleasure.
Price, one bottle $2; three bottles $5; sent by express to any address.
Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make money. Be not deceived—ask for these medicines and take no others. If not to be obtained of druggists, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with full statement of the case, stating any disease with which ladies or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,
Dr. W. R. MERWIN, 37 Walker St., N. Y.

CHOLERA
DISARMED!!!
The Chief Causes of Pestilence Destroyed.
DR. E. R. CORAMER'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, (Office of the Laboratory, Nos. 298, 300, and 302 Henry street, N. Y.—Office, 42 Cedar street.
This Company organized on a permanent basis, with Courtlandt, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish the antidote to the Pestilence for sick rooms, nurseries, urinals, water closets, privies, cesspools, sewers gutters, ships, railroads, hospitals, public and private buildings, stables, all kinds of slaughter houses, offal and fat-boiling establishments; all kinds of manures (*immensely increasing the value of the latter*), and wherever noxious and offensive gases exist. These agents are deodorizers, antiseptics, antiputrescents, and disinfectants in the scientific meaning of the terms. They remove noxious gases and odors by chemical principles—leaving in their places *healthful* or, (in the instance of the latter), *inoffensive elements* of poisonous gases—not injurious to utensils in which they are used. The attention of medical and sanitary men is called to these disinfectants. Attached are testimonials in favor of this great discovery, which, with hundreds of others, can be seen at the Company's office.
DELAVAN HOUSE, Albany, March 30, 1866.
To the President of the New York Disinfecting Co.:
Dear Sir: It is all it is represented to be. We have made a thorough trial of disinfectants, and consider that we have found an article which surpasses all others as a remedy against all bad odors. BOESSER & CO.
NEW YORK, April 9, 1866.

FREEDMEN'S BUREAU IN TEXAS.—Brevet Brig. Gen. Gregory, Assistant Commissioner of the Freedmen's Bureau for Texas has forwarded to Maj. Gen. Howard a report of the operations of the Bureau in that State, dated April 18. He says he has just returned from a tour of inspection of many hundred miles in extent, through Western Texas, and everywhere found the laborers steady at work in the field, and well and profitably employed.

Misunderstandings between them and their employers are becoming quite unfrequent. He says the fredom of the negroe has become recognized as a palpable fact in most of Texas and property holders are disposed to treat his claims within an increasing degree of fairness; but he adds: "During March and up to date instances of maltreatment and violent abuse have perceptibly increased in some portions of the State. These can be readily traced to the very considerable reduction of the military force and to the increasing excitement on the grave national questions now agitating our government.

It is feared by loyal residents that the withdrawal of the troops from the interior will be followed by much harshness toward the freedmen, and that these cruelties will increase in a ratio proportionate to the army reduction. The conduct of Southern freedmen has been in every way loyal and commendable. Antagonism between the races they clearly see will result to their detriment. The same influence that urged the freedmen to labor will operate to make them faithful to their contracts. In this State the rate of wages has not been fixed either as to maximum or minimum by any regulations from this office. Under such arrangements the planters and farmers of Texas have put in large crops of sugar, corn, cotton and wheat, and I have heard the opinion that if the season continues as favorable as at present more cotton will be made than was ever made for many a year before.

The health of the State is good. The freedmen's schools are flourishing, there being 42 days schools and 19 Sunday schools, with a total attendance of 2830 children and 1760 adults. Besides these there are 18 or 20 private schools. The freedmen's schools in many parts of the State are passively accepted, and in many instances recognized and welcomed. They are wholly self-sustaining."

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
over Twenty Thousand Patients Cured Annually
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases; other inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blies, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and make happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER's great work (or the Married or those contemplating marriage—200 pages—full of plates—price 25 cts Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichol's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Morning Chronicle.

Portsmouth N. H.

TUESDAY, MAY 22, 1866.

WASHINGTON ITEMS.—The Boston Journal's correspondent says, in the Senate the proposed reconstruction amendments to the Constitution will be debated at length. It is the opinion of those best acquainted with the Senate, that the third section, which disfranchises all rebels until 1870, will be stricken out, and that the proposed amendments will then be passed, reserving the votes of Morgan, Lane of Kansas, Stewart, and with all of the steadfast Republicans.

The Herald's correspondent says the Senate will reject all appointments of conservative Republicans, even where they have served in the army or navy, in place of the present office-holders. Several appointments have been made in Massachusetts, but they will not be confirmed.

[This may not be all true; but there is truth in it.]

The story of the massacre at Fort Goodwin, Arizona, is false. Gen. McDowell telegraphs to Gen. Grant, from San Francisco, under date of Friday, that he has information showing it to be utterly unfounded.

The Revenue Tax Bill will be passed by the House before the close of this week, and the tariff bill will follow it.

REBELS IN THE NORFOLK NAVY YARD. Corporal H. J. Alfred, late of the First U. S. Colored Cavalry, writes from Norfolk to a Massachusetts member of Congress, that the officers at the Navy Yard there have employed over one hundred rebels, many of them returned rebel soldiers. One of these—James Turner—who was in the 13th Virginia Cavalry, was one of the very men with whom Alfred's company had an engagement, finally capturing them and the rebel flag under which they fought. Alfred complains that while these men are employed he can get no work, although he has a sick family dependent upon him.—[Such things ought not to be.]

FROM JAMAICA.—Colonel Hobbs, whose operations against the blacks during the late disturbances made his name notorious, has committed suicide. He became insane soon after the disclosures and jumped overboard from a vessel on which he had been placed to be taken to England.

Governor Eyre's friends are making efforts to raise an amount of money to present him with a testimonial in acknowledgment of his "valuable services to the colony," but as yet in only three out of twenty-two parishes have meetings been called to further the movement.

There has been a splendid coffee crop in Jamaica this year, and large sums have been realized by the negro settlers in some of the parishes, who cultivate this product.

☞ Gen. Wood of the U. S. Army, at Alabama, published the following order, May 13:

In compliance with instructions from the President of the United States, it is hereby directed that Raphael Semmes be not permitted to hold or exercise the functions of Judge of the Probate Court of Mobile county, or any other civil or political office of trust, while he remains unpardoned by the President of the United States.

☞ It would seem from the annexed item, which we clip from an exchange, that "Porkopolis" has broken from its moorings and drifted down stream:

The great suspension bridge over the Mississippi at Cincinnati will cost $1,750,000. There are 32,000 perches of masonry in the work.

☞ Messrs. E. T. Smith & Co., New York, manufacturers of Floral Perfumery, &c., have originated in "America" a new and exquisite Perfume, from the Sweet Opponax, a native flower of Mexico, of rare and very rich fragrance—from which their new Extract is distilled; which while very powerful, for sweetness and delicacy it is claimed has no equal. It is put up in elegant style, and those who have tried it pronounce it super-excellent.

☞ Harper's Magazine for June begins the 33d volume of that favorite periodical. Two very readable illustrated articles lead thevan in this number—"Personal Recollections of the War," by Porte Crayon; and the "Reese River Country," by J. Ross Browne. A. Williams & Co., Boston, New England agents. For sale by Messrs. Foster and Shores in this city.

☞ To H. L. Scott & Co., New York, we are indebted for the April number of the Westminster Quarterly Review. They republish the four leading English quarterlies and Blackwood's Magazine, at $4 a year for any one of them.

☞ It is enough to mention that the "Atlantic" for June has arrived. To its old patrons that is a sufficient reminder.

— The London Saturday Review thinks nothing is more absurd than the habit of taking a month's vacation as the only relaxation of a year of incessant toil, and says: "To alternate a long spell of excessive labor with a comparatively short spell of excessive repose is about as rational as to maintain that a man who takes a bottle of neat brandy one day and a quart of water the next, has been drinking brandy and water."

Correspondence of the Chronicle.

Mr. Editor:—Everything in this latitude indicates that the coming season will be one of the liveliest ever known at the Beach. Nearly all of the available space for packing sweltering mortals during the summer months has been engaged weeks and weeks ago, that is at the private houses. The proprietors of the hotels do not engage all of their rooms in advance, but hold some in reserve for transient guests that are always sure to happen along for a few days or weeks.

William F. Weld, of Boston, is to erect a spacious summer residence upon a lot purchased by him several years ago, situated about half a mile north of the Atlantic House. The house is to be seventy feet long, the first story to be built of stone. A stable and other buildings will be erected, which, when completed, will make one of the finest establishments at the Beach. A gang of workmen will commence operations about the first of June. It is intended to have the premises ready for occupation in the summer of 1867.

Mr. Philbrick's new hotel is being pushed rapidly forward, and the proprietor intends to complete it in season for the coming summer. There is yet a great amount of work to be done, but steam and muscle can accomplish wonders. Mr. P. has erected a steam engine, and has machinery for planing, sawing, motching, &c. This hotel will contain the modern improvements of gas, hot and cold water, &c., such as are found in first-class city hotels. It is reported that it will be named the "Farragut House," in honor of the hero of New Orleans and Mobile.

The addition to the Ocean House is completed, and will be furnished and ready for occupation long enough before the season commences. The adjoining cookery has been greatly enlarged, and new and improved cooking apparatus is being erected. We anticipate a heavy business for the Ocean House the coming season.

Truthfulness as a reporter would justify the mention of a new saloon and bowling-alley as among the list of new buildings recently erected, but modesty entirely forbids it.

The termination of Rev. Mr. Otis' pastoral charge of the Orthodox Church, leaves that organization without a regular minister. Mr. Otis has been a faithful pastor, and a gentleman in every sense of the word. He will leave behind him many warm friends not immediately connected with his church.

The Baptist meeting-house has recently been painted and carpeted, and is looking a hundred per cent. better for the welcome change. Rev. Clark Simonds, of Vermont, has been engaged to supply the pulpit, and will commence his labors on Sunday, May 27th. Yours, BUGGINS.

CONCORD (N. H.) RAILROAD.—The 25th annual report of the Directors of the Concord (N. H.) Railroad Corporation for the year ending March 31, 1866, has been published. The total receipts for the past year, including the earnings of the Manchester & Lawrence and Concord & Portsmouth Railroads, which are operated by the Concord Corporation, amounted to $867,956 74. After deducting all expenses, including the rent of the Concord & Portsmouth Railroad, there remained a balance accruing to the Concord, Manchester & Lawrence Road of $253,104 67, three fifths of which, or $151,862 80 has been apportioned to the Concord Corporation. Of this latter sum $120,000 has been devoted to two dividends of 4 per cent. each, while the balance of $31,862 80 has been added to the contingent and surplus fund of last year, increasing that fund to $171,775 48. This surplus revenue is invested in wood lot, wharf at Portsmouth, proportion of Hooksett Branch, and in wood and stock on hand belonging to the Concord Railroad. In relation to the late alleged defalcations upon the corporation the Directors say that for sometime past they "have not been satisfied with the returns of moneys collected in the cars, more especially during the greatly increased miscellaneous travel of the recent war. On this account some changes of conductors have been made, and suits have been instituted, which are now pending." The directors believe the business prospects of the road to be favorable, and they have caused tariffs of reduced rates of fares for passengers and freight to be prepared to go into effect at an early day.

☞ A case has been decided in Court of Common Pleas, New York city, in which the plaintiff, acting as broker, was to receive a commission of five hundred dollars on twenty-five hundred, on the sale of a pair of horses. It having been proved on the trial that the plaintiff received one hundred dollars from the purchaser, the Judge dismissed the case on the ground that the plaintiff was not justified in receiving any gift or commission from both parties.

— A short time before the surrender, a dying Confederate officer in one of the hospitals at Lauderdale Springs expressed a desire to be removed to Meridian to breathe his last. Upon the surgeon asking him the reason for so singular a request, he replied: "Because I could leave the world with less regret from Meridian than from any other point."

THE FOURTH.—*Messrs. Editors*: As there seems to be a slight agitation in the community in regard to celebrating the coming Fourth, I would suggest that a display of our Fire Department would be very acceptable to our citizens. Those splendid Steamers, new Hose Carriages and Hook & Ladder apparatus have never been shown up as they ought to be, and with the addition of the new Hand Engines, would make a superb turnout. Will the firemen give a thought to this matter?

Another feature, which has in former years, drawn crowds of sight-seers and pleased everybody, is a Regatta on our river. We doubt not but that if a slight movement is made in that direction, dozens of our boatmen will take hold of the matter in good earnest, and give us one of the best Regattas we ever had here.

Then there are the "Mechanics." What a fine display they gave us, with their various cars of trades, about ten years since. A repetition of that exhibition would be quite acceptable. Our various orders of Masons, Odd Fellows, and other local Societies are always ready to celebrate the glorious Fourth—worth more to us now than ever. And with the abundant supply of military in our vicinity for escort, there is no reason why the coming Fourth should not be properly celebrated. Where all classes take an interest, the work is easy. The war is over; the times are quiet; people breathe freer; it is a good time to celebrate. We hope to hear of a meeting being called very soon, and the good work taken hold of with patriotic zeal.

POLICE COURT, May 21.—Mary Rogers, who lately immigrated to this city from Washington, and who glories in the title of "Southerner," became exhilarated with beer—so she states—and "got out of her head;" at any rate she became so noisy that it was deemed expedient to locate her in the Station House. She was fined $6.86, and paid up.

James Armstrong, a young gentleman of respectable appearance, had been a little injudicious, so far as "taking too much" was concerned, and he paid up $6.86.

The case of Isaiah H. Cook, a continued case for stealing sheepskins from the slaughterhouse of John Stokell, was brought up, and a *nol. pros.* entered, there being no testimony against the defendant.

☞ The death of Mr. Robinson, recorded under the proper head, induces us to mention the singular fact, that in about one year, four principal merchants have died, all of whom occupied neighboring stores in one row on Bow street, viz. Messrs. Jenness, Wendell, Mathes and Robinson.

☞ Philharmonic Rehearsal this (Tuesday) evening, at quarter before 8.

IT NEEDS NO GHOST to tell us that if we don't take care of our teeth they will perish in our mouths, and in their decay impair the purity of the breath. With the knowledge that this catastrophe can be averted by the disinfectant healthful properties of SOZODONT, who would be so perverse as not to use it. 13

— As far as our experience goes, we have found that in every family where the J. Monroe Taylor Gold Medal Soap has been tested, it is found to be among the indispensables. We are very glad to find that it is in constant use in every household where its merits have become known. The ladies find it a safe and reliable article for cleaning paint, etc., as well as in washing the finest fabrics. It is appropriately called the Queen of Soaps, and stands at the head of its class. 89

Ayer's Sarsparilla

Is a concentrated extract of the choice root, so combined with other substances of still greater alterative power as to afford an effectual antidote for diseases Sarsaparilla is reputed to cure. Such a remedy is surely wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure may prove, as this has, of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found in the following complaints:—

Scrofula, Scrofulous Swellings and Sores, Skin Diseases, Pimples, Pustules, Blotches, Eruptions, St Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, &c.

Syphilis or Venerial Disease is expelled from the system by the prolonged use of this SARSAPARILLA, and the patient is left in comparative health.

Female Diseases are caused by Scrofula in the blood, and are often cured by this EXTRACT OF SARSAPARILLA.

Do not discard this invaluable medicine, because you have been imposed upon by something pretending to be Sarsaparilla, when it was not. When you have used AYER's—then, and not till then, will you know the virtues of Sarsaparilla. For minute particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the agent named below named will furnish gratis to all who call for it.

AYER'S CATHARTIC PILLS, for the cure of Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Headache, Piles, Rheumatism, Heartburn arising from Disorded Stomach, Pain or Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Liver Complaint, Dropsy, Worms, Gout, Neuralgia, and for a Dinner Pill.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best Aperient in the world for all the purposes of a family physic.

Prepared by J. C. AYER & CO., Lowell, Mass, and sold by all Druggists and Dealers in Medicine everywhere. my1—3mMTuSo

REDUCTION IN PRICE

OF THE

AMERICAN WATCHES.

MADE AT WALTHAM, MASS.

In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed

With Gold at Par,

so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of

More than 200,000 Watches,

have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.

We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:

1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy & Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.

The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,

ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED

to be the best time-keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit orders for single watches.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

ALLCOCK'S POROUS PLASTERS.—A celebrated physician says "he was amazed at the great number of beneficial indications produced by one of these plasters. He affirms that *headache* is cured by one worn just below the breast-bone; that one placed over the navel will cure hysterics, as well as dysentery, and affections of the bowels."

CURE OF VARICOSE VEINS.

Cedar Point, Va., January 24, 1865.

T. ALLCOCK & Co.:

Gentlemen: Seeing your notice in the Police Gazette, I got four of your Porous Plasters and placed them on the parts where the pains were most severe, and in less than twelve hours could walk as well as ever. I could hardly believe it, I was so well pleased. I wanted to see if the lameness would come back on me or not, so I did more walking that day than I had done in a week. The next day I had one pain in my hip, but I put on a plaster there and in two hours the pain was all gone, nor have I felt it since. Certainly they are the best application for the relief and cure of pains in the joints and back, and for varicose or enlarged veins, I have ever known, and I would not be without them on any account. Yours truly,

JOSEPH GATEWOOD.

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Livers-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the fair or a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. Dr. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.

Local.

HON. THOMAS B. LAIGHTON, the builder and owner for many years of the Appledore House, died last Friday morning, the eighteenth of April, 1866, at his residence on his favorite Island [one of Sir John Smith's, improperly called the Isles of Shoals.] Mr. Laighton was born in Portsmouth, and in his boyhood was severely afflicted with lameness, which lasted for years, and baffled the surgical and medical skill of the regular profession here,—but which was greatly alleviated by the treatment of Dr. Thompson, whose medicines also greatly improved the patient's general health.

The confinement which prevented the boy from going to school or learning a trade, was improved by him in gaining a great amount of general and miscellaneous knowledge, for which he found abundant use in after life.

With his recovered health, he took hold of business with a vigorous hand. He was in trade here at one time as a grocer. He was editor of the N. H. Gazette in the year 1835; was Post Master of Portsmouth; was a member of the New Hampshire Senate; and finally went out to "the Shoals," as keeper of the Light House on a lone island. There he found his favorite climate, and purchasing *real estate* on the largest island of the group, he made to himself a local habitation and a name, as builder, owner and landlord of the Appledore House, which he annually enlarged or improved, and where he spent his remaining days,—(closing them at the age of about 61 years,)—and where according to his own expressed will, he lies buried between the granite rocks, on one of which the initials of his name are to be all the sculptured memorial he desired.

His success in all these varied pursuits was answerable to the energy, determination and skill with which he applied himself to whatever he undertook.

His views on politics, religion and society were peculiar. In the Jacksonian era, he was one of the most earnest, efficient and skillful operators who created and managed the "democratic party,"—and he was one of the ablest and liveliest editors the New Hampshire Gazette ever had. In the Post Office he did his duty promptly, and helped his party. Going out to Appledore, he eschewed party politics entirely, and never seemed to take interest in them afterward.

He did not attach himself to any religious sect or people, and desired to have no ministerial or religious rites at his funeral.

In conversation he was often very interesting, and apparently enjoyed it as well as any one. Yet he chose to live away from the usual haunts of society; and for a long series of years he has been in Portsmouth or anywhere on the main land only once or twice.

With poor youthful prospects of life, he lived to three-score,—and with a crippled frame he has done more work than is commonly performed by two able-bodied men.

☞ Burgess, Prendergast, Hughes & La Rue's Minstrels are to perform at the Temple this evening. Though their first appearance as a troupe in this city, they include the names of several well known "stars," that would alone guarantee a good show. Besides the eccentricities of Cool Burgess and Archy Hughes, they will introduce the Sphynx, never before shown here, though very attractive elsewhere.

☞ A lad named George Haddock, son of Mr. Jacob Haddock of this city, while employed in the Messrs. Jarvis' hosiery manufactory, had a finger jammed a week or two since. From a lack of suitable attention at an early season, during last week the first of the phalanges had sloughed off and lockjaw supervened. Death released the little fellow from further suffering, on Monday morning.

ORDERED AWAY.—The Company of Artillery at Fort Constitution have been ordered to Portland, and will leave forthwith. It is understood that the reason for this is the lack of room to accommodate them, on the building of the Fort. Lieut. Hunting and his officers have conducted themselves since they have been with us in a manner to command the respect of our citizens, and we wish them a happy future.

☞ Capt. R. W. Huntington, of the Marine Corps, recently detached from Brooklyn, N. Y., has reported for duty at this naval station.

GENERAL TRAINING.—An Annual Parade of the Strafford Guards, 1st Light Battery, and Granite State Zouaves, of Dover, will take place to-day at that city. Knight's Cornet Band, of this city, takes part in the ceremonies. A grand time is expected.

WHICH IS THE

Leading Life Insurance Comp'y

IN THE UNITED STATES?

Which is the Safest and the Cheapest?

The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of the

MUTUAL BENEFIT

LIFE INSURANCE COMPANY,

to be the *largest*, the "expenses of management" the *smallest*, the "ratio of Assets to Liabilities," or the *security* furnished to policy holders, the *largest* of any life institution in the country.

Premiums received in 1864	$2,089,072
" " " " 1865	3,029,087
Ratio of expenses to premiums rec'd in '64	12.28
" " " " " " " '65	12.16
Ratio of assets to liabilities, Jan. 1, 1865	151.85

The inevitable conclusion from these official facts is that the

MUTUAL BENEFIT LIFE Insurance Company

IS THE BEST AND THE CHEAPEST.

Because its NET ASSETS are proportionably LARGER than those of any other Life Insurance Company in the United States.

Because its "Managing Expenses" are LESS, and it has a LARGER SURPLUS to divide among its members than any Company in the United States.

QUERY. Will some one inform the public of that mysterious process by which a Company with a surplus proportionably *much less*, and expenses *very much* larger than another, can yet divide *more* to its members, and insure them at *less cost?* How is it done? Where does the money come from?

Every intelligent man will see at once that it *cannot be done.* Yet we have Agents among us that make this their boast.

Any one disposed to insure, intending to insure can be furnished with the requisite information by applying to

QUICK CURES AND LOW PRICES!

over Twenty Thousand Patients Cured Annually

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private disease, at his old Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Buboe, Ulcerated Throat, Sore Nose and Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and manhood happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

Sent free to any address, one of Dr. Teller's Circulars.

A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat

TO THE LADIES.

DR. TELLER'S Female Pills are the only Agency in America, for the sale of Dr. Vichot's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

CLAIRVOYANT!

—AND—

ECLECTIC PHYSICIAN!

From 818 Broadway, New York, will arrive in PORTSMOUTH May —th, and take rooms at the FRANKLIN HOUSE, for a short time only.

A Clear Case of Clairvoyant-Sight.

DEAR MADAM:—Permit me to tender you my sincere thanks for the cure you have effected on my child. My daughter, ten years old, was taken sick last January in a very singular manner. We called in six of the best Physicians in the city; they said the case was a very singular one—they never saw one like it—and came to the conclusion they could not tell what the disease was. Some friends advised that we should call on a Clairvoyant; there being none in Providence that we could rely on, we wrote to Mrs MANCHESTER, in Portland, describing her symptoms. She immediately examined her case and told that she had a Snake in her stomach, told where she got it, and how it had been growing, and from the best of her judgement she should think it ten or twelve inches long. I gave the child her prescription and in a few hours the child ejected the snake alive from the stomach; it was measured and found to be eleven and a half inches long. We have it preserved, that all may see for themselves that this statement is really so. I am confident that the child could not have lived, had it not been for Mrs Manchester, and we feel as though she never could be repaid for her skill. MARY RAY,

GEO. W. RAY.

Providence, R. I., Nov. 10, 1865.

BANGOR, May 15th, 1865.

MRS MANCHESTER—Dear Madam: When you were in Bangor last Summer, I received from you with a child of mine that had been sick for four years. I had taken her to a number of physicians, and none could tell what was the matter, or even her symptoms. You examined her case, and told me exactly her symptoms from the commencement of her sickness, which were very peculiar; also told me there was something alive in her, and also said there was a number of them, and told me that she drank them from a rain-water cistern. You said that you would not warrant a cure, but would try and do the best you could for her. She commenced taking your medicine in August, and from that time till December, the child passed off large quantities of what we call *Tadpoles*, from rain water, and I think, and am certain that the child must have died had it not been for you. And I advise everybody to see Mrs Manchester, for I know that she has the power of knowing the condition of a person diseased better than any Physician that I have ever heard of. Please have this published, and let the world know that there is one who practices what they profess to.

Very truly and gratefully yours,

GEORGE E. MARTIN,

my8ins MARY L. MARTIN.

He would also give notice that he is doing a new style of work for Under Sets of Teeth, called the COMBINATION BASE (Gold and Vulcanite) which produces by far the finest work offered to the public. The price is something in advance of that charged for the Vulcanite alone, but the strength, durability, ease of bearing, and beauty of finish obtained by it, more than double the value of the Teeth. m8tf

Morning Chronicle.

Portsmouth N. H.

TUESDAY, MAY 22, 1866.

WASHINGTON ITEMS.—The Boston Journal's correspondent says, in the Senate the proposed reconstruction amendments to the Constitution will be debated at length. It is the opinion of those best acquainted with the Senate, that the third section, which disfranchises all rebels until 1870, will be stricken out, and that the proposed amendments will then be passed, reserving the votes of Morgan, Lane of Kansas, Stewart, and with all of the steadfast Republicans.

The Herald's correspondent says the Senate will reject all appointments of conservative Republicans, even where they have served in the army or navy, in place of the present office-holders. Several appointments have been made in Massachusetts, but they will not be confirmed.

[This may not be all true; but there is truth in it.]

The story of the massacre at Fort Goodwin, Arizona, is false. Gen. McDowell telegraphs to Gen. Grant, from San Francisco, under date of Friday, that he has information showing it to be utterly unfounded.

The Revenue Tax Bill will be passed by the House before the close of this week, and the tariff bill will follow it.

REBELS IN THE NORFOLK NAVY YARD. Corporal H. J. Alfred, late of the First U. S. Colored Cavalry, writes from Norfolk to a Massachusetts member of Congress, that the officers at the Navy Yard there have employed over one hundred rebels, many of them returned rebel soldiers. One of these—James Turner—who was in the 13th Virginia Cavalry, was one of the very men with whom Alfred's company had an engagement, finally capturing them and the rebel flag under which they fought. Alfred complains that while these men are employed he can get no work, although he has a sick family dependent upon him.—[Such things ought not to be.]

FROM JAMAICA.—Colonel Hobbs, whose operations against the blacks during the late disturbances made his name notorious, has committed suicide. He became insane soon after the disclosures and jumped overboard from a vessel on which he had been placed to be taken to England.

Governor Eyre's friends are making efforts to raise an amount of money to present him with a testimonial in acknowledgment of his "valuable services to the colony," but as yet in only three out of twenty-two parishes have meetings been called to further the movement.

There has been a splendid coffee crop in Jamaica this year, and large sums have been realized by the negro settlers in some of the parishes, who cultivate this product.

☞ Gen. Wood of the U. S. Army, at Alabama, published the following order, May 13:

In compliance with instructions from the President of the United States, it is hereby directed that Raphael Semmes be not permitted to hold or exercise the functions of Judge of the Probate Court of Mobile county, or any other civil or political office of trust, while he remains unpardoned by the President of the United States.

☞ It would seem from the annexed item, which we clip from an exchange, that "Porkopolis" has broken from its moorings and drifted down stream:

The great suspension bridge over the Mississippi at Cincinnati will cost $1,750,000. There are 32,000 perches of masonry in the work.

☞ Messrs. E. T. Smith & Co., New York, manufacturers of Floral Perfumery, &c., have originated in "America" a new and exquisite Perfume, from the Sweet Opponax, a native flower of Mexico, of rare and very rich fragrance—from which their new Extract is distilled; which while very powerful, for sweetness and delicacy it is claimed has no equal. It is put up in elegant style, and those who have tried it pronounce it super-excellent.

☞ Harper's Magazine for June begins the 33d volume of that favorite periodical. Two very readable illustrated articles lead the van in this number—"Personal Recollections of the War," by Porte Crayon; and the "Reese River Country," by J. Ross Browne. A. Williams & Co., Boston, New England agents. For sale by Messrs. Foster and Shores in this city.

☞ To H. L. Scott & Co., New York, we are indebted for the April number of the Westminster Quarterly Review. They republish the four leading English quarterlies and Blackwood's Magazine, at $4 a year for any one of them.

☞ It is enough to mention that the "Atlantic" for June has arrived. To its old patrons that is a sufficient reminder.

— The London Saturday Review thinks nothing is more absurd than the habit of taking a month's vacation as the only relaxation of a year of incessant toil, and says: "To alternate a long spell of excessive labor with a comparatively short spell of excessive repose is about as rational as to maintain that a man who takes a bottle of neat brandy one day and a quart of water the next, has been drinking brandy and water."

Correspondence of the Chronicle.

Mr. Editor:—Everything in this latitude indicates that the coming season will be one of the liveliest ever known at the Beach. Nearly all of the available space for packing sweltering mortals during the summer months has been engaged weeks and weeks ago, that is at the private houses. The proprietors of the hotels do not engage all of their rooms in advance, but hold some in reserve for transient guests that are always sure to happen along for a few days or weeks.

William F. Wehl, of Boston, is to erect a spacious summer residence upon a lot purchased by him several years ago, situated about half a mile north of the Atlantic House. The house is to be seventy feet long, the first story to be built of stone. A stable and other buildings will be erected, which, when completed, will make one of the finest establishments at the Beach. A gang of workmen will commence operations about the first of June. It is intended to have the premises ready for occupation in the summer of 1867.

Mr. Philbrick's new hotel is being pushed rapidly forward, and the proprietor intends to complete it in season for the coming summer. There is yet a great amount of work to be done, but steam and muscle can accomplish wonders. Mr. P. has erected a steam engine, and has machinery for planing, sawing, matching, &c. This hotel will contain the modern improvements of gas, hot and cold water, &c., such as are found in first-class city hotels. It is reported that it will be named the "Farragut House," in honor of the hero of New Orleans and Mobile.

The addition to the Ocean House is completed, and will be furnished and ready for occupation long enough before the season commences. The adjoining cookery has been greatly enlarged, and new and improved cooking apparatus is being erected. We anticipate a heavy business for the Ocean House the coming season.

Truthfulness as a reporter would justify the mention of a new saloon and bowling-alley as among the list of new buildings recently erected, but modesty entirely forbids it.

The termination of Rev. Mr. Otis' pastoral charge of the Orthodox Church, leaves that organization without a regular minister. Mr. Otis has been a faithful pastor, and a gentleman in every sense of the word. He will leave behind him many warm friends not immediately connected with his church.

The Baptist meeting-house has recently been painted and carpeted, and is looking a hundred per cent. better for the welcome change. Rev. Clark Simonds, of Vermont, has been engaged to supply the pulpit, and will commence his labors on Sunday, May 27th. Yours, BUGGINS.

CONCORD (N. H.) RAILROAD.—The 25th annual report of the Directors of the Concord (N. H.) Railroad Corporation for the year ending March 31, 1866, has been published. The total receipts for the past year, including the earnings of the Manchester & Lawrence and Concord & Portsmouth Railroads, which are operated by the Concord Corporation, amounted to $867,956 74. After deducting all expenses, including the rent of the Concord & Portsmouth Railroad, there remained a balance accruing to the Concord, Manchester & Lawrence Road of $253,104 67, three fifths of which, or $151,862 80 has been apportioned to the Concord Corporation. Of this latter sum $120,000 has been devoted to two dividends of 4 per cent. each, while the balance of $31,862 80 has been added to the contingent and surplus fund of last year, increasing that fund to $171,775 48. This surplus revenue is invested in wood lot, wharf at Portsmouth, proportion of Hooksett Branch, and in wood and stock on hand belonging to the Concord Railroad. In relation to the late alleged defalcations upon the corporation the Directors say that for sometime past they "have not been satisfied with the returns of moneys collected in the cars, more especially during the greatly increased miscellaneous travel of the recent war. On this account some changes of conductors have been made, and suits have been instituted, which are now pending." The directors believe the business prospects of the road to be favorable, and they have caused tariffs of reduced rates of fares for passengers and freight to be prepared to go into effect at an early day.

☞ A case has been decided in Court of Common Pleas, New York city, in which the plaintiff, acting as broker, was to receive a commission of five hundred dollars on twenty-five hundred, on the sale of a pair of horses. It having been proved on the trial that the plaintiff received one hundred dollars from the purchaser, the Judge dismissed the case on the ground that the plaintiff was not justified in receiving any gift or commission from both parties.

— A short time before the surrender, a dying Confederate officer in one of the hospitals at Lauderdale Springs expressed a desire to be removed to Meridian to breathe his last. Upon the surgeon asking him the reason for so singular a request, he replied: "Because I could leave the world with less regret from Meridian than from any other point."

THE FOURTH.—*Messrs. Editors*: As there seems to be a slight agitation in the community in regard to celebrating the coming Fourth, I would suggest that a display of our Fire Department would be very acceptable to our citizens. Those splendid Steamers, new Hose Carriages and Hook & Ladder apparatus have never been shown up as they ought to be, and with the addition of the new Hand Engines, would make a superb turnout. Will the firemen give a thought to this matter?

Another feature, which has in former years, drawn crowds of sight-seers and pleased everybody, is a Regatta on our river. We doubt not but that if a slight movement is made in that direction, dozens of our boatmen will take hold of the matter in good earnest, and give us one of the best Regattas we ever had here.

Then there are the "Mechanics." What a fine display they gave us, with their various cars of trades, about ten years since. A repetition of that exhibition would be quite acceptable. Our various orders of Masons, Odd Fellows, and other local Societies are always ready to celebrate the glorious Fourth—worth more to us now than ever. And with the abundant supply of military in our vicinity for escort, there is no reason why the coming Fourth should not be properly celebrated. Where all classes take an interest, the work is easy. The war is over; the times are quiet; people breathe freer; it is a good time to celebrate. We hope to hear of a meeting being called very soon, and the good work taken hold of with patriotic zeal. *

POLICE COURT, May 21.—Mary Rogers, who lately immigrated to this city from Washington, and who glories in the title of "Southerner," became exhilarated with beer—so she states—and "got out of her head;" at any rate she became so noisy that it was deemed expedient to locate her in the Station House. She was fined $6.86, and paid up.

James Armstrong, a young gentleman of respectable appearance, had been a little injudicious, so far as "taking too much" was concerned, and he paid up $6.86.

The case of Isaiah H. Cook, a continued case for stealing sheepskins from the slaughterhouse of John Stokell, was brought up, and a *nol. pros.* entered, there being no testimony against the defendant.

☞ The death of Mr. Robinson, recorded under the proper head, induces us to mention the singular fact, that in about one year, four principal merchants have died, all of whom occupied neighboring stores in one row on Bow street, viz. Messrs. Jenness, Wendell, Mathes and Robinson.

— As far as our experience goes, we have found that in every family where the J. Monroe Taylor Gold Medal Soap has been tested, it is found to be among the indispensables. We are very glad to find that it is in constant use in every household where its merits have become known. The ladies find it a safe and reliable article for cleaning paint, etc., as well as in washing the finest fabrics. It is appropriately called the Queen of Soaps, and stands at the head of its class. 89

Ayer's Sarsaparilla

Is a concentrated extract of the choice root, so combined with other substances of still greater alterative power as to afford an effectual antidote for diseases Sarsaparilla is reputed to cure. Such a remedy is surely wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove, as this has, of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found in the following complaints:—

Scrofula, Scrofulous Swellings and Sores, Skin Diseases, Pimples, Pustules, Blotches, Eruptions, St Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, &c.

Syphilis or Venereal Disease is expelled from the system by the prolonged use of this SARSAPARILLA, and the patient is left in comparative health.

Female Diseases are caused by Scrofula in the blood, and are often cured by this EXTRACT OF SARSAPARILLA.

Do not discard this invaluable medicine, because you have been imposed upon by something pretending to be Sarsaparilla, when it was not. When you have used AYER'S—then, and not till then, will you know the virtues of Sarsaparilla. For minute particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the agent below named will furnish gratis to all who call for it.

REDUCTION IN PRICE

OF THE

AMERICAN WATCHES.

MADE AT WALTHAM, MASS:

In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed

With Gold at Par,

so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of

More than 200,000 Watches,

have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.

We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:

1. "American Watch Co., " Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy &Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.

The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,

ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED

to be the best time-keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit orders for single watches.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

ALLCOCK'S POROUS PLASTERS.—A celebrated physician says "he was amazed at the great number of beneficial indications produced by one of these plasters. He affirms that *headache* is cured by one worn just below the breast-bone; that one placed over the navel will cure hysterics, as well as dysentery, and affections of the bowels."
CURE OF VARICOSE VEINS.
City Point, Va., January 24, 1865.
T. ALLCOCK & Co.:
Gentlemen: Seeing your notice in the Police Gazette, I got four of your Porous Plasters and placed them on the parts where the pains were most severe, and in less than twelve hours could walk as well as ever. I could hardly believe it, I was so well pleased. I wanted to see if the lameness would come back on me or not, so I did more walking that day than I had done in a week. The next day I had some pain in my hip, but I put on a plaster there and in two hours the pain was all gone, nor have I felt it since. Certainly they are the best application for the relief and cure of pains in the joints and back, and for varicose or enlarged veins, I have also known, and I would not be without them on any account. Yours truly,

Perry's Moth and Freckle Lotion.
☞ Chloasma, or Mothpatch, (also called Liverspot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. Local.

HON. THOMAS B. LAIGHTON, the builder and owner for many years of the Appledore House, died last Friday morning, the eighteenth of April, 1866, at his residence on his favorite Island [one of Sir John Smith's, improperly called the Isles of Shoals.] Mr. Laighton was born in Portsmouth, and in his boyhood was severely afflicted with lameness, which lasted for years, and baffled the surgical and medical skill of the regular profession here,—but which was greatly alleviated by the treatment of Dr. Thompson, whose medicines also greatly improved the patient's general health.

The confinement which prevented the boy from going to school or learning a trade, was improved by him in gaining a great amount of general and miscellaneous knowledge, for which he found abundant use in after life.

With his recovered health, he took hold of business with a vigorous hand. He was in trade here at one time as a grocer. He was editor of the N. H. Gazette in the year 1835; was Post Master of Portsmouth; was a member of the New Hampshire Senate; and finally went out to "the Shoals," as keeper of the Light House on a lone island. There he found his favorite climate, and purchasing *real estate* on the largest island of the group, he made to himself a local habitation and a name, as builder, owner and landlord of the Appledore House, which he annually enlarged or improved, and where he spent his remaining days,—(closing them at the age of about 61 years,)—and where according to his own expressed will, he lies buried between the granite rocks, on one of which the initials of his name are to be all the sculptured memorial he desired.

His success in all these varied pursuits was answerable to the energy, determination and skill with which he applied himself to whatever he undertook.

His views on politics, religion and society were peculiar. In the Jacksonian era, he was one of the most earnest, efficient and skillful operators who created and managed the "democratic party,"—and he was one of the ablest and liveliest editors the New Hampshire Gazette ever had. In the Post Office he did his duty promptly, and helped his party. Going out to Appledore, he eschewed party politics entirely, and never seemed to take interest in them afterward.

He did not attach himself to any religious sect or people, and desired to have no ministerial or religious rites at his funeral.

In conversation he was often very interesting, and apparently enjoyed it as well as any one. Yet he chose to live away from the usual haunts of society; and for a long series of years he has been in Portsmouth or anywhere on the main land only once or twice.

With poor youthful prospects of life, he lived to three-score,—and with a crippled frame he has done more work than is commonly performed by two able-bodied men.

☞ Burgess, Prendergast, Hughes & La Rue's Minstrels are to perform at the Temple this evening. Though their first appearance as a troupe in this city, they include the names of several well known "stars," that would alone guarantee a good show. Besides the eccentricities of Cool Burgess and Archy Hughes, they will introduce the Sphynx, never before shown here, though very attractive elsewhere.

☞ A lad named George Haddock, son of Mr. Jacob Haddock of this city, while employed in the Messrs. Jarvis' hosiery manufactory, had a finger jammed a week or two since. From a lack of suitable attention at an early season, during last week the first of the phalanges had sloughed off and lockjaw supervened. Death released the little fellow from further suffering, on Monday morning.

ORDERED AWAY.—The Company of Artillery at Fort Constitution have been ordered to Portland, and will leave forthwith. GENERAL TRAINING.—An Annual Parade of the Stratford Guards, 1st Light Battery, and Granite State Zouaves, of Dover, will take place to-day at that city. Knight's Cornet Band, of this city, takes part in the ceremonies. A grand time is expected.

WHICH IS THE
Leading Life Insurance Comp'y
IN THE UNITED STATES?
Which is the Safest and the Cheapest?
The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of the
MUTUAL BENEFIT
LIFE INSURANCE COMPANY,
to be the *largest*, the "expenses of management" the *smallest*, the "ratio of assets to liabilities" or the *security* furnished to its members, the *largest* of any life institution in the country.

Premiums received in 1864	$2,089,072
" " 1865	2,020,087
Ratio of expenses to premiums rec'd in '64	12.96
" " " " " '65	16.18
Ratio of assets to liabilities, Jan. 1, 1865	123.83

The inevitable conclusion from these official facts, is that the
MUTUAL BENEFIT LIFE Insurance Company
IS THE BEST AND THE CHEAPEST.
Because its NET ASSETS are proportionably LARGER than those of any other Life Insurance Company in the United States.
Because its "Managing Expenses" are LESS, and it has a LARGER SURPLUS to divide among its members than any Company in the United States.
QUERY. Will some one inform the public of that mysterious process by which a Company with a surplus proportionally *much less*, and expenses *very much* larger than another, can yet divide *more* to its members, and insure them at *less cost?* How is it done? Where does the money come from?
Every intelligent man will see at once that it *cannot be done*. Yet we have Agents among us that make this their business.
Any one disposed or intending to insure can be furnished with the requisite information by applying to

MRS. MANCHESTER,
The Independent
CLAIRVOYANT!
—AND—
ECLECTIC PHYSICIAN!
From 618 Broadway, New York, will arrive in PORTSMOUTH May —th, and take rooms at the FRANKLIN HOUSE, for a short time only.
A Clear Case of "Clairvoyant-Sight."
DEAR MADAM:—Permit me to tender you my sincere thanks for the cure you have effected on my child. My daughter, ten years old, was taken sick last January in a very singular manner. We called in six of the best Physicians in the city; they said the case was a very singular one—they never saw one like it—and came to the conclusion they could not tell what the disease was. Some friends advised that we should call on a Clairvoyant; there being none in Troy I dence that we could rely on, we wrote to Mrs MANCHESTER, in Portland, describing her symptoms. She immediately examined her case and stated that she had a snake in her stomach, told where she had drank it, and that it had been growing, and from the best of her judgement she should think it ten or twelve inches long. I gave the child her prescription and in a few hours the child ejected the snake alive from the stomach; it was measured and found to be eleven and a half inches long. We have it preserved, that all may see for themselves that this statement is really so. I am confident that the child could not have lived, and it not been for Mrs Manchester, and we feel as though she never could be repaid for her skill. MARY W. RAY.
GEO. W. RAY.
Providence, R. I., Nov. 10, 1865.
BANGOR, May 16th, 1865.
MRS MANCHESTER—Dear Madam: When you were in Bangor last Summer, I called to see you with a child of mine that had been sick for four years. I had taken her to nearly all the physicians, and none could tell what ailed her or even her symptoms. You examined her case, and told me exactly her symptoms from the commencement of her sickness, which were very peculiar; also told me there was something alive in her, and also said there was a number of them, and told me that she drank them from a rain-water cistern. You said that you would not warrant a cure, but would try and do the best you could for her. She commenced taking your medicine in August last, and from that time till December, the child passed off large quantities of what we call *Tadpoles*, from the waters, and I think, and am certain that the child must have died had it not been for you. And I advise everybody to see Mrs Manchester, for I know she has the power of knowing the condition of a person disease better than any Physician that I have ever heard of. Please have this published, and let the world know that there is one who practices what they profess to.
Very truly and gratefully yours,
GEORGE E. MARTIN,

Morning Chronicle.

SENTENCED TO THE STATE PRISON.—The following persons were sentenced to the N. H. State Prison by the Supreme Judicial Court recently in session at Amherst:

John A. Gannett, for forgery, 5 years; Wm. English for same offense, 3 years; Horace A. Waters, passing counterfeit money, 5 years; Francis Reed, stealing horse and carriage, 3 years. The all pleaded guilty to the crimes of which they were charged.

Gannett will be remembered as stopping for a time at French's Hotel, in Peterboro', about two years ago. While there he made the acquaintance of Miss Barney, of Hancock, to whom he paid much attention, and after gaining her affections, succeeded in getting possession of her book of account with the Savings Bank at Keene. He then forged an order purporting to be signed by Miss Barney and witnessed by Mark Bowers, upon which the bank paid him the money, and he left for parts unknown. Some time afterward he appeared at Clark's Hotel, in New Ipswich, where he stole silver ware and other valuables, for which he has been serving a term in the jail at Manchester, and having graduated there has commenced a five years' course at Concord. He was formerly one of a prominent firm of Boston, from which firm he withdrew about ten years ago with $30,000 in cash. This he invested in another concern, and lost $20,000 of it. Naturally vicious he proceeded from one degradation to another until finally he has hauled up in the State Prison.

English is the person who passed a forged note upon Frederick Livingston, Esq., of Peterboro', purporting to be the note of John D. Butler, of Bennington, upon which he obtained one hundred dollars in money.

Reed, we believe, lived in Antrim, and the horse stolen belonged to Mr. Burtt, of Hillsboro' Bridge. He was taken in Vermont and brought to Amherst for trial.

Waters lived in Lowell, Mass., where his family now resides. The crime for which he has been sentenced was committed in Nashua.

Five persons were sentenced at the adjourned Law Term in March, for the term of seven years each, for the crime of "robbing from the person," all belonging to Manchester.

We are informed by Sherriff Scott that twenty persons in all have been sentenced to the State Prison, from Hillsboro' Co., since his appointment in June last, all of whom have been *safely committed.—Peterboro' Transcript.*

☞ At Nashville, Tenn., May 17, was observed as a day of fasting and prayer by the proclamation of the Mayor, in accordance with a previously published account that the President had ordered the day to be so observed on account of the near approach of the cholera.

Late in the afternoon it was discovered that no fast had been thus designated by the President.

John Porterfield, formerly a banker and an old resident, has been arrested and lodged in the Penitentiary, *it is rumored*, in consequence of implication with the conspirators in Canada some time previous to the death of Mr. Lincoln.

— The Algerine journals are filled with details of the disastrous invasion of locusts. Thick clouds of them have alighted on the country near Dellys, and they are also most numerous at Marengo. The cultivated slopes of Mustapha have suffered severely, the corn crops being nearly all devoured.

—TO—

UNFORTUNATE FEMALES!

DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Fluxes, General Debility, &c., and suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.

His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.

Office, No. 23 Endicott street.

Persons at a distance can consult Dr. BRISCOE by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that atients see none but the Doctor himself.

Address Dr. Briscoe, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.

Patients furnished with rooms and board if desired, and secrecy observed in every case.

Office hours from 9 A. M. to 9 P. M.

Boston, July 16, 1865. TThSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.

N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.

☞ Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

Cherokee Remedy,

Cures all Urinary Complaints, viz: *Gravel, Inflammation of the Bladder and Kidneys, Retention of Urine, Strictures of the Urethra, Dropsical Swellings, Brick Dust Deposits*, and all diseases that require a diuretic, and when used in conjunction with the

CHEROKEE INJECTION,

does not fail to cure *Gonorrhœa, Gleet and all Mucous Discharges* in Male or Female, curing *recent cases in from one to three days*, and is especially recommended in those cases of *Fluor Albus or Whites in Females.* The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.

Price, Remedy, One Bottle, $2, Three Bottles, $5.
" Injection, " " $2, " $5.

The Cherokee *"Cure," "Remedy,"* and *"Injection"* are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds,—in order to make money—in place of these. *Do not deceived.* If the druggists will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us *in perfect confidence.* We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. CHOLERA

DISARMED!!!

The Chief Causes of Pestilence Destroyed.

DR. E. R. COURARET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, Nos. 288, 300, and 302 Henry street, N. Y.—Office, 42 Cedar street.

This Company organized on a permanent basis, with Courteret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish his Disinfecting Fluids for sick rooms, nurseries, urinals, water closets, privies, cesspools, sewers, gutters, ships, railroads, hospitals, prisons, and public institutions, of all kinds, slaughter houses, offal and fat-boiling establishments; all kinds of manures (*immensely* increased the value of the latter), and wherever noxious and offensive gases exist. These agents are deodorizers, antiseptics, antiputrescents, and disinfectants in the sense of the word, and not merely. They remove noxious gases and odors by chemical principles—leaving in their places *healthful* ones, and destroying, and not merely covering up, *germs* of poisonous gases—not injurious to utensils in which they are used. The attention of medical and scientific men is directed to these chemicals. Attached are testimonials in favor of this great discovery, which, with hundreds of others, can be seen at the Company's office

Dr. Courarret's Address, Albany, March 20, 1866.

To the President of the New York Disinfecting Co.:

Dear Sir: It is all it is represented to be. We have made many trials of disinfectants, but now we believe that we have found an article which surpasses all others as a remedy against all bad odors. T. HOSSELL & CO.

NEW YORK, April 9, 1866.

To the President of the New York Disinfecting Co.:

Dear Sir: We pronounce it without exception to be the best we have ever known. Its effect upon every matter is complete and instantaneous.

A PATRIOTIC MOUNTAIN WIDOW.—In a picturesque glen of the mountain region of New Hampshire, lives an intelligent, refined, pious, patriotic widow 93 years of age. Coming to this place (Groton) nearly 70 years ago, when it was mostly a wilderness, with husband, Henry Phelps, from Hollis, she has remained here ever since, and now, when nearly a century has passed over her, in possession of mental powers but little impaired, yet with a slender frame bent almost to a right angle; with her own fingers, and from her own moderate means, she has done, what probably has been done by few if any in like circumstances. She sent of her own handiwork to the Sanitary Commission, Freedmen's Aid Society, etc., 19 quilts; 35 pairs of socks; 21 shirts; besides sheets, pillow cases, blankets, towels, handkerchiefs, &c., &c., too numerous to mention. With some aid from her two daughters, she pared, cut and dried 240 lbs., apples from her own orchard, for the Sanitary Commission. In addition she sent $15, in money. A hired man, who manages her farm, has caught much of patriotic spirit, as he gave last year from his earnings $60, for various objects of Christian patriotism.—Numbers of the best newspapers and monthly periodicals adorn their tables and book shelves; simply from the influence of the information thus derived, acting on pious patriotic hearts, the aged, excellent widow, quite ripe for a better world, has done a service for her country that should be told for a memorial of her.—*W. C. In Congregationalist.*

— Gen. Santa Anna's professions of adherence to the Liberal cause are believed by the friends of President Juarez in this country to be solely in interest of the French, who they say seek to get up some combination by which, on the departure of Maximilian, a new Government apparently Mexican, shall be made to appear, with which a treaty of peace can be concluded, recognizing the claims put forward by France, and the loans which have been raised by Maximilian. It is said these plans are fully known to President Juarez and the Liberal leaders in Mexico.

Morning Chronicle.

Portsmouth N. H.

WEDNESDAY, MAY 23, 1866.

☞ A Financial Panic has just occurred in England, which culminated late in the afternoon of May 10th, in the suspension of Overend, Gurney & Co. Their business was converted in August last into a limited liability company, with a nominal capital of five *millions* sterling, of which a million and a half was paid up. Their liabilities are stated at from ten to twelve million pounds sterling. Next day more failures occurred in London. The first was that of the comparatively small bank, "The English Joint Stocks," for £800,000 sterling. Then came that of Petto & Brotts, for £4,000,000 sterling; then that of Z. W. S. Plimpton, railway contractor, for £200,000, and finally it was understood that the Imperial Mercantile Credit Association, whose paid up capital is half a million sterling, and the Consolidated Discount Company, with a paid up capital of a quarter of a million sterling, must, with extremely heavy commitments, pass into liquidation. The question of war for the moment is overshadowed by the financial panic. There is no modification in in the threatening aspect of affairs no the Continnent.

— The Emperor of Russia, being aware of the disproportion between the moral culture of Komissaroff (who lately saved his life) and his new position, has resolved to remedy the evil. His Majesty has requested General Todleben, as a personal service, to undertake the direction of the newly-made noble's education. The defender of Sebastopol has accepted the task with pleasure.—*Exchange.*

This is a droll item, as it stands. We suspect, however, that the "*moral* culture" spoken of would be better rendered *mental* culture, or culture of *manners*. Manners and morals have some affinity, and in some languages the word is nearly or quite the same. The fact that a soldier is to be the tutor in this case, instead of a Greek Priest, indicates that manners are to be taught rather than morals.

☞ The noted German foot traveller, Fr. Schæfer, who journeyed from Boston to Washington on foot, and from that city West, is now going from St. Louis across the country through Utah to California. Schæfer is feeling well, and enjoys his migratory habits exceedingly well. His ambition appears to be to travel over every part of the globe on foot, and he bids fair to accomplish that object now.

☞ "Creation's blot, creation's blank;" a new version of this famous quotation, suggested by seeing the ladies, blank-book in hand, flocking "like all creation" to Mercantile Hall, Boston, to take notes of Prof. Blot's culinary lectures. SAUL.

— A package of knives made in 1765 was sold at auction in New Haven the other day.

— "Molly Mollasses," a native American, is hale and hearty, and 102 years old. She lives happily in the city of Bangor.

— A mackerel fleet of a hundred vessels, with a thousand men, rendezvoused in the harbor of Newport, R. I., last Friday.

— A Paris architect, borrowing an idea from the Romans, has invented a brick which hardens with time and completely resists humidity.

— The floating "motes" in the air of a railway car proved to be little particles of iron that had evidently come from the wheels and rails.

— Mr. Benjamin Elwell, who died at Kennebunk on Sunday of last week at the age of 75 years, had worked as a boot and shoe maker on one spot at Kennebunk Landing for 60 years.

— Edward Harris of Woonsocket, the celebrated woolen manufacturer, is quite ill, and fears are entertained that he will not recover. He has overworked himself, and is physically prostrated.

— Next month (June 2) the people of Nebraska are to vote for or against a State organization. From present appearances the Constitution will receive a decided majority in every county of the Territory.

— Two maiden ladies at Lowville, Pa., received the sum of $2000 a few days ago, and a night or two afterward their house was broken into. After a good deal of choking they confessed to having $49, which the burglars took and left. The villains have since been arrested.

— Shad have never been plentier than during the present season. Last Tuesday over 3000 were caught at one fishing station on the Connecticut—500 at one haul. On two days of this week 10,000 were caught and hauled to market. The wholesale price is $18 per hundred.

— The anaconda of the Garden of Plants, Paris, died recently of consumption; its lungs were filled with most curious worms, which extended or contracted like a spyglass, and which, seen through a microscope presented a most horrible appearance; they were armed with five axes at the head, with which they made their way.

NEW HAMPSHIRE ITEMS.

—— Rev. T. H. Miller is to preach at South Hampton next Sunday.

—— Summer tourists have commenced journeying to Northern New Hampshire.

—— A fan factory, employing forty hands, and manufacturing about 800 fans per day, has been started at Nashua.

—— The amount of property bequeathed by the late Moody Kent to the New Hampshire Asylum for the Insane is estimated at $135,000.

—— Beside the large and destructive fire last week in the Hooksett and Bow woods, there were other smaller but still disastrous fires in the woods at Nashua, Hollis and Milford.

—— May 15th, at Stratham the house of the late James Rollins was burned. The fire was discovered while the family was at dinner, and probably caught by sparks on the roof. The loss was probably about $2000, insured $600 at the Rockingham Farmer's Mutual Insurance Company.—Most of the furniture was saved.

—— Senator Sherman and Gen. Sherman are expected at Dartmouth College commencement, to see a nephew graduate. The class of 1841 will have its quarter centennial meeting, and Hanover is likely to be full to overflowing. George H. Bissell of New York has added $900 to his gift for a gymnasium, making $24,000 in all, and the work is to begin at once. About $7000 or $8000 have already been pledged toward the contemplated memorial or alumni hall, and a scholarship of $1000 has recently been given to the college by an old resident of Hanover, Major William Tenney.

—— The Rochester Courier says that on Saturday night, May 12, "about 12 o'clock, some cowardly rascal discharged a double-barrel gun loaded with heavy musket shot and pieces of lead, into the shutters of Chas. K. Chase's store, sending a charge through each window. It was done with the intention of damaging the goods on the shelves, but in his excitement the hireling fired too high, so that the injury was not so great as he hoped. The damage upwards of $100. Mr. Chase is thus maliciously assailed, because he has been forward, in company with the other members of the citizens' committee, in enforcing the laws of the State against rumsellers. They have openly boasted that they will destroy by *such means* all he possesses, as well as all possessed by any other member of this committee, unless they let their rumselling alone. * * * It remains to be seen whether the threats that have been repeatedly made by a handful of rascals and pauper-makers, to fail him up or clean him out, shall be permitted. The town has offered a reward of $300 for the arrest of the scamp."

— The U. S. Treasury and sub-Treasuries contain over $80,000,000 in specie.

— Montgomery Blair, Senator Hendricks and Gen. Rosseau spoke at a meeting on Saturday, at Westminster, Md., indorsing President Johnson and denouncing Congress.

— A great storm of wind, rain, hail, thunder and lightning visited Rochester, N. Y., Sunday afternoon, unroofing buildings, smashing glass windows, and doing other mischief. It lasted only a few minutes, and was confined to that city.

— The most remarkable occurrence of the season, says the Jackson (Miss.) Clarion, is the receipt, by a gentleman in Grenada, of a letter from Vicksburg, making inquiries concerning the ownership of one hundred and eighty bales of cotton sent from Yalobusha county three years ago and still lying in Vicksburg unclaimed.

— The President has signed the postal appropriation bill. A morning paper hinted that he would not sign it, because it contained a provision which virtually prohibited the President from designating any Washington journal for the publication of the advertising of the executive departments. The morning paper mistook the matter.

— It is reported on authority that cannot be questioned, that Jeff. Davis, when caught, was entirely enveloped in a large and ample *aqua scutum* cloak, belonging to his wife, which fell to his heels, and was buttoned up to his neck in front, having its hood spread over his soft felt hat so as altogether to conceal his face. In external appearance this disguise made him seem to be a woman.

— A writer in the New Orleans Christian Advocate says that, so far as he has ascertained, between one thousand and twelve hundred meeting houses were burned during the war. These churches he thinks, had cost the people not less than five millions of dollars. In the loss the Methodists were the greatest sufferers, the Baptists next, then the Presbyterians, the Catholics last.

— The driver of a Jamestown (Cal.) vegetable wagon, while on his way home one night recently, was stopped by a very gentlemanly robber, with a mask on, and politely requested to pungle; but finding that the transferable cash amounted to only two dollars, he returned it to the owner, remarking that "no gentleman would take so small a sum."

MASSACRE OF FRIENDLY INDIANS.—The Governor of Idaho has informed the Commissioner of Indian Affairs of the massacre of sixteen friendly Indians on the 11th of March, fifteen miles above Idaho City, near the mouth of Moore's Creek, on the Boise river, by a party of citizens of Ida county. He concludes by saying:—"There were but two grown males; the rest were women and children. The immediate settlers, miners, protested against the murder, and their statements I shall send you in a few days, showing that the Indians were defenceless and peaceable. If anything will serve to bring on a general Indian war, it is such acts as these."

☞ The Portland Advertiser says Annie S. Johnson, a child 12 years old, whose mother resides at Libby's Corner, has been missing since March last. Some time during that month she went to visit a sister in Epping, N. H., and after a stay of one week started on her return, but never reached her home, nor has anything been heard from her. As she received an injury to her head in infancy, it is thought she may have become demented and wandered away. She has dark hair and eyes. Any one who can furnish information that shall lead to her recovery, will confer a favor by calling at the Star office in Portland, or writing to that paper.

THE U. S. HOUSE of Representatives, Monday, passed, 83 to 27, a concurrent resolution to appoint a Joint Committee of two Senators and three members of the House to investigate the action of the Freedmen's Bureau and its affairs in the States where the Bureau has been in operation, with full powers.

☞ We learn from the Yarmouth Register that on Tuesday and Wednesday of last week a fire in the woods of Barnstable, Mass., spread from near "Pitcher's Way" to the fields near the village, burning over 2000 acres, the average value of which was $5 to $10 per acre. Some of the land burned over was covered by pines, from seed planted by the owners, and highly valued. Major Phinney, Hon. George Marston and Sheriff Bursley are among the losers.

"THE BRAVE OLD SALT; or Life on the Quarter Deck." 1 vol. 16mo. pp.339. Price $1.50. Just published by Lee & Shepard, Boston.

This is the sixth and last of Oliver Optic's Army and Navy Stories, and is a record of an officer's life mostly in Admiral Farragut's squadron; written in the clear, familiar style which has made its author so popular with the youth of New England, this book is not without interest for children of older growth, and the lessons it inculcates are those of worth for every age. It may be obtained at Mr. Batchelder's news depot in this city.

THE ACADEMY OF MUSIC in New York City was destroyed by fire, which began about midnight Monday. There had been an Opera performed in the building Monday evening, but it was closed before the fire broke out. The Dutch Reformed Church on 15th street, the Church of the Redemption on 14th street, and the Piano Manufactory of Winchester & Co., were also destroyed. Loss $1,500,000, or more.

— Widow Sherman, of West Springfield, Mass., had a husband, a brother, twenty cousins and seventeen nephews in the Union army during the war. Her husband was killed.

☞ Messrs. E. T. Smith & Co., New York, manufacturers of Floral Perfumery, &c., have originated in "America" a new and exquisite Perfume, from the Sweet Opoponax, a native flower of Mexico, of rare and very rich fragrance—from which their new Extract is distilled; which while very powerful, for sweetness and delicacy it is claimed has no equal. It is put up in elegant style, and those who have tried it pronounce it super-excellent.

☞ To L. Scott & Co., New York, we are indebted for the April number of the Westminster Quarterly Review. They republish the four leading English quarterlies and Blackwood's Magazine, at $4 a year for any one of them.

— A hoop skirt recently caused a Portland steamer to deviate from its course, but this is only one case of deviation for which crinoline is responsible.

— "Be thou chaste as ice and as pure as snow, thou shalt not escape unhealthy compounds in thy food," was a true maxim until Herrick Allen's Gold Medal Saleratus came to our relief. Since using it, we feel that there is one article in the way of Saleratus that all can use with healthy results. We have almost cured our dyspepsia, and thanks to the Gold Medal Saleratus for it. Try it, and you will say with us, that perfection has been obtained, and the inventor has immortalized his name forever. Most of the Merchants have it. 90

REDUCTION IN PRICE
OF THE
AMERICAN WATCHES.
MADE AT WALTHAM, MASS:
In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed
With Gold at Par,
so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of
More than 200,000 Watches,
have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.
We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:
1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy & Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of case.
The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,
ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED
to be the best time-keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit orders for single watches.
CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

ALLCOCK'S POROUS PLASTERS.—A celebrated physician says "he was amazed at the great number of beneficial indications produced by one of these plasters. He affirms that *headache* is cured by one worn just below the breast-bone; that one placed over the navel will cure hysterics, as well as dysentery, and affections of the bowels."

CURE OF VARICOSE VEINS.
City Point, Va., January 24, 1865.
T. ALLCOCK & Co.:
Gentlemen: Testing your notice in the Police Gazette, I got four of your Porous Plasters and placed them on the parts where the pains were most severe, and in less than twelve hours could walk as well as ever. I could hardly believe it, I was so well pleased. I wanted to see if the lameness would come back on me or not, so I did more walking that day than I had done in a week. The next day I had some pain in my hip, but I put on a plaster there and in two hours the pain was all gone, nor have I felt it since. Certainly they are the best application for the relief and cure of pains in the joints and back, and for varicose and enlarged veins. I know of none, and I would not be without them on any account. Yours truly,
ap28dawlm JOSEPH GATEWOOD.

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or freckles, are often very annoying, particularly to those of a delicate complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. Dr. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION. Sold by all Druggists in Portsmouth and elsewhere. tysndaw—oct19

Local.

☞ We are glad to notice that Messrs. Tredick of this city have determined to bring their ship Simla, recently damaged while on her voyage to New York, around to this port for repairs, the Secretary of the Navy having consented to grant the use of the floating dry dock at the Navy Yard, in which to dock the ship. This will prove a good chance for our worthy mechanics, who will doubtless repair the ship in a better manner than it would have been done in New York, where in many instances the smallest amount of work is done for the largest price that can be charged. At this time, when work at the Navy Yard is less in demand by the Department, an expenditure of several thousand dollars upon one of our merchant ships is quite fortunate for our mechanics. The last ship, not a man-of-war, that was docked at the Navy Yard, was the British steamer North American of the Portland and Liverpool line, which was injured in approaching Portland harbor and brought here for repairs. The recent strike in New York has sent many vessels from that port to be repaired at other seaports, where it can be done cheaper and better and in as short time.

MARRIED VS. SINGLE.—The match game of Base Ball between nine married and nine single members of the Rockingham Club, comes off this (Wednesday) afternoon at 2 o'clock, at the field on Middle street opposite Anthony. The names of the married men are as follows: Captain, C. A. Shannon; 1st base, E. G. Peirce, jr.; pitcher, C. L. Hayes; catcher, O. H. Lackey; 2d base, W. Freeman; 3d base, R. Kimball, jr.; short stop, N. B. Colman; right field, W. O. Sides; centre field, J. H. Foster; left field, A. M. Payson, scorer. Single men — Captain, F. W. Rhoades; catcher, G. W. Marston; pitcher, W. F. Lamb; 1st base, F. W. Brown; 2d base, H. Barlow; 3d base, J. W. Tucker; short stop, A. Emery; right field, D. J. Vaughan; centre field, J. H. Dow; left field, F. L. Dodge, scorer. The captains have made choice of W. W. Palfrey, Esq., as umpire, and the game is to be played according to the rules of the National Association, each side having nine innings. Ample accommodations are provided especially for the ladies.

Communication.

THE CHOLERA.—One day last week, while walking with a friend, admiring your beautiful city, when near Richards Avenue a very offensive smell greeted my olfactory nerves. Inquiring the cause, I was informed it proceeded from the slaughter house, about one third of a mile distant, and that during the southwesterly winds, the same nauseating smell was noticed by all living in that locality. Why is the nuisance allowed, Mr. Editor? Cannot something be done to abate it? Your Health Officers should inquire into the matter, and have this cholera breeder removed. STRANGER.

The "stranger" does not know, we suppose, that a suit was brought against this odor, or the source of it, a few years ago, and the jury, (from the rural districts) virtually decided that it was *not* a nuisance; —though some of the neighbors thought otherwise.

Communication.

Messrs. Editor:—A lady who had occasion to walk over the Creek Bridge on Sunday towards the Woodbury mansion, desires me to say she found a dreadful stench there, which the neighbors told her came from decaying and rotten grains from the brewery, spread out as food for cows and pigs and fowls. She thinks it invites the cholera. What do the Health Officers think of it?
Xc.

Communication.

Messrs. Editors:—Among all the plans and propositions offered by those who have communicated through your columns in regard to a celebration of the coming "Fourth," I have seen no reference to the most important portion of the exercises appropriate to such a day. Processions, Regattas, &c., are all very well, and have their votaries; but there is a higher, nobler duty to be performed in connection with the "programme" proposed. It is to have the people gather in some appropriate place to listen to an Oration from the lips of some patriotic citizen,—also reading of the Declaration of Independence, and rendering of appropriate Odes. We hope that those who take hold of the matter will not lose sight of this, the most important part of the celebration, which certainly should not be omitted. PUBLIC SPIRIT.

☞ Our comic editor has discovered a mare's nest. He informs us that there is a placard on a large pleasure boat at Pier Wharf which announces that craft "For Sale," and insists that it should read "For Sail." We guess the owner of the boat knows his own business best.

☞ The Portland Advertiser is informed that the rumor set afloat by the Biddeford Journal, to the effect that the P., S. & P. R. R. have bought the Portland & Rochester Road is incorrect, there not being the least foundation for it.

☞ The Directors of the Portland, Saco & Portsmouth Railroad made an examination of the road between this city and Portland on Tuesday, accompanied by the Presidents of Eastern and Boston & Maine Roads, and many of the Directors of those roads. Admiral Bailey accompanied the party.

☞ Mr. Laighton, whose taste in floriculture has lost nothing by his long experience, offers a choice variety of seeds for sale, at his store 44 Market street.

POLICE COURT, May 22.—Bridget Waldron, charged with the commission of an assault, was acquitted.

☞ A question is now pending before the Supreme Court whether property captured belonging to insurgents should be forfeited for the benefit of the captors.—Twenty-three millions of such property is claimed by military and naval officers. The House recently directed an inquiry on the subject, requesting the Secretary of the Treasury to withhold distribution in the meantime. He replies that 687 prize cases have been decreed, amounting to nearly twenty-three millions of dollars. Ten millions have been paid to officers and men of the navy, and an equal sum to the Naval Pension Fund; 32 cases are pending in the Supreme Court, and 268 cases in Circuit Courts, worth nine millions and a half dollars, part of which may be forfeited by law.

GOLD, Tuesday, 132 3 4. The news from London, of the failures there, caused gold to jump up from 131 to 134 1-2, but it dropped down again to 132 3 4 at 1 o'clock.

LIGHT HOUSES IN THE SOUTH.—A recent report of the Lighthouse Board shows that since the close of the war light houses have been re-established in no less than sixty-nine important stations on the Southern coast.

— The debt of Massachusetts is said to be about $100,000,000.

— A large lot of blooded sheep (native stock) have just been sold in San Antonio, Texas, at prices ranging from $14 to $100.

The Eye, Ear, Catarrh,
—AND—
THROAT!
MRS. MANCHESTER,
The Independent
CLAIRVOYANT!
—AND—
ECLECTIC PHYSICIAN!

From 618 Broadway, New York, will arrive in PORTSMOUTH May —th, and take rooms at the FRANKLIN HOUSE, for a short time only.

A Clear Case of Clairvoyant Sight.

DEAR MADAM:—Permit me to tender you my sincere thanks for the cure you have effected on my child. My daughter, ten years old, was taken sick last January in a very singular manner. We called in six of the best Physicians in the city; they said the case was a very singular one—they never saw one like it—and came to the conclusion they could not tell what the disease was. Some friends advised that we should call on a Clairvoyant: there being none in Providence that we could rely on, we wrote to Mrs MANCHESTER, in Portland, describing her symptoms. She immediately examined her case, told that she had a Snake in her stomach, told where she had drank it, and that it had been growing, and from the best of her judgement she should think it ten or twelve inches long. I gave the child her prescription and in a few hours the child ejected the snake alive from the stomach; it was measured and found to be eleven and a half inches long. We have it preserved, that all may see for themselves that this statement is really so. I am confident that the child could not have lived, had it not been for Mrs Manchester, and we feel as though she never could be repaid for her skill. MARY RAY,
GEO. W. RAY.
Providence, R. I., Nov. 10, 1865.

BANGOR, May 15th, 1865.

MRS MANCHESTER—Dear Madam: When you were in Bangor last Summer, I called to see you with a child of mine that has been sick for four years. I had taken her to a number of physicians, and none could tell what ailed her or even her symptoms. You examined her case, and told me exactly her symptoms from the commencement of her sickness, which were very peculiar; also told me there was something alive in her, and also said there was a number of them, and told me that she drank them from a rain-water cistern. You said that you would not warrant a cure, but would try and do the best you could for her. She commenced taking your medicine in August last, and from that time till December, the child passed off large quantities of what we call *Tadpoles*, from rain water, and I think, and am certain that the child must have died had it not been for you. And I advise everybody to see Mrs Manchester, for I know that she has the power of knowing the condition of a person disease better than any Physician I have ever heard of. Please have this published, and let the world know that there is one who practices what they profess to.
Very truly and gratefully yours,
GEORGE E. MARTIN,
my8ins MARY L. MARTIN.

CHOLERA! CHOLERA!
Prof. Bouve's Atmospheric Purifier.

This article has been extensively used as a Deodorizing Agent by the Commissioners of Egypt, Turkey and France, during the late Cholera epidemic, and is the most perfect disinfectant extant. It effectually destroys all noxious gases and effluvia arising from decaying animal or vegetable matter, and for purifying Hospitals, Vaults, Drains, Sick rooms, &c., cannot be surpassed.

Important.

DR. STEVENS, No 5 Daniel Street, would give notice that he has secured the services of Permanent *Sets of ARTIFICIAL TEETH* on the Vulcanite Base, to that charged for them before the war.

He would also give notice that he is doing a new style of work for Under Sets of Teeth, called the COMBINATION BASE (Gold and Vulcanite) which produces by far the finest work offered to the public. The price is something in advance of that charged for the Vulcanite alone, but the strength, durability, ease of hearing, and beauty of finish obtained by it, more than double the value of the teeth. mh12

GEORGE F. WEED,
S-u-r-g-e-o-n D-e-n-t-i-s-t,
FIRST ASSISTANT in the Office of Dr. STEVENS, No. 5 DANIEL STREET.

DR. WEED can be found at his place of business at all hours of the day and night, for the performance of any of the operations that come within the call of his profession.

Dr. A. P. STEVENS, No. 5 Daniel St., makes the saving of UNCRATED and painful front teeth, a specialty in his business. He also successfully restores to their natural shape broken or badly decayed teeth, by building out corners and sides with PURE GOLD. (In many cases teeth so restored are as strong as any of their brother members, and in all cases are rendered eminently useful for a long series of years.) DISEASED TEETH, in all stages, treated, and in a very large majority of cases entire success attained.

Charges for such operations necessarily high, but nothing in comparison to the value of the teeth. mch14

WHICH IS THE
Leading Life Insurance Comp'y
IN THE UNITED STATES?

Which is the Safest and the Cheapest?

The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of THE

MUTUAL BENEFIT
LIFE INSURANCE COMPANY,

to be the *largest*, the "expenses of management" the *smallest*, the "ratio of Assets to Liabilities," or the *security* afforded to its members, the *largest* of any like institution in the country:

Premiums received in 1864	$2,089,072
" " " " 1865	3,029,087
Ratio of expenses to premiums received in '64	12.96
" " " " " " '65	12.16
Ratio of assets to liabilities, Jan. 1, 1865	151.85

The inevitable conclusion from these official facts is that the

MUTUAL BENEFIT LIFE
Insurance Company
IS THE BEST AND THE CHEAPEST.

Because its NET ASSETS are proportionably LARGER than those of any other Life Insurance Company in the United States.

Because its "Managing Expense" are LESS, and it has a LARGER SURPLUS to divide among its members than any Company in the United States.

QUERY. Will some one inform the public of that mysterious process by which a Company with a surplus proportionably *much less*, and expenses *very much* larger than another, can yet divide more to its members, and insure them at *less cost?* How is it done? Where does the money come from?

Every intelligent man will see at once that *it cannot be done*. Yet we have Agents among us that make this their boast.

Any one desiring or intending to insure can be furnished with the requisite information by applying to
HENRY A. YEATON, Agent.

Morning Chronicle.

TIMOTHY TITCOMB'S LAST.—Our readers, and undoubtedly a great many others, will enjoy the following characteristic note from Dr. J. G. Holland, the famous author and lecturer. It was occasioned by a misunderstanding between him and the Committee of the Gloucester Lyceum and Library Association, as to the terms of his acceptance of their invitation to deliver "Jonathan at School" there last winter. The letter which named the number of "slices," not at hand at the time, finally coming to light, the Doctor gracefully masters "the situation" in this wise:

SPRINGFIELD, April 23d, 1866.

To H. R.: —

I give it up; and with it goes
This "ten-spot" from its snug repose.
Though this, and more, ten thousand fold,
I've won me with this silk of gold,
'Tis thy first record, brave old pen!
That ever cost my hand a ten.
But in these days of lofty prices,
These greenbacks are such slender slices,
That I return a paper which
Won't make me poor nor Hiram Rich.

J. G. H.

The reply of the Corresponding Secretary to the above explains the misunderstanding. It was as follows:

To J. G. H.:

Dear Doctor, I received your note,
And now am sorry that I wrote,
For you will think I'm very sure,
It was my purpose to allure,
With hookless line and cunning bait,
That "ten-spot" from a "sunken fate."
This, hear me, was not my intention,
But just to prove 'twas not invention,
Our statement of the promised sum,
For which your "Jonathan" would come,
I'll hand the whole to the Committee;
I know they'll vote you kind and witty.
I will confess your *notes* are nest,
Though the affair is—"bitter-sweet."
What will McCulloch say? 'Tis clear
That some financial change is near,
When "greenbacks" come from *Holland* here!

Gloucester, April 27, 1866. H. R.

— In Monomoy Bay three fishermen have taken in their set nets, upon an average, 2000 mackerel per day, for two or three weeks. The fish are packed in ice, and sent to Boston and New York, but mostly to Chicago.

— The Richmond Examiner, enraged at the remarks of Senator Sherman respecting the letter of Wade Hampton, which Reverdy Johnson introduced to the Senate the other day, bids Mr. Sherman to recollect Preston Brooks, and beware of Southern vengeance. [This Examiner is the paper that was stopped by Gen. Grant, but set agoing again by President Johnson, and sustains his policy!]

HIGHLY IMPORTANT
—TO—
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.

His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.

Office, No. 23 Endicott street.

Persons at a distance can consult Dr. BRISCOE, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.

Address DR. BRISCOE, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.

Patients furnished with rooms and board if desired, and secrecy observed in every case.

Office hours from 9 A. M. to 9 P. M.

Boston, July 16, 1865. ThSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No 23 Endicott street.

N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.

P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

CHEROKEE CURE,
THE GREAT
INDIAN MEDICINE,

Cures all diseases caused by self-abuse, viz:—*Spermatorrhœa, Seminal - Weakness, Night - Emissions, Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Pale Countenance, Insanity, Consumption,* and all diseases that follow as a sequence of youthful indiscretion.

The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two page pamphlet sent in a sealed envelope, free to any address.

Price $2 per bottle, or three bottles for $5. Sold by all druggists; or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

Cherokee Remedy,

Cures all Urinary Complaints, viz: *Gravel, Inflammation of the Bladder and Kidneys, Retention of Urine, Strictures of the Urethra, Dropsical Swellings, Brick Dust Deposits,* and all diseases that require a diuretic, and when used in conjunction with the

CHEROKEE INJECTION,

does not fail to cure *Gonorrhœa, Gleet and all Mucous Discharges* in Male or Female, curing *recent cases in from one to three days,* and is especially recommended in those cases of *Fluor Albus or Whites in Females.* The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.

Price, Remedy, One Bottle, $2, Three Bottles, $5.
" Injection, " " $2, " " $5.

The Cherokee "*Cure,*" "*Remedy,*" and "*Injection*" are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds,—in order to make money—in place of these. *Be not deceived.* If the druggists will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us in *perfect confidence.* We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,

CHOLERA
DISARMED!!!
The Chief Causes of Pestilence Destroyed.

DR. E. R. COURARET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, Nos. 509, 511, and 513 Henry street, N. Y.—Office, 42 Cedar street.

This Company organized on a permanent basis, with Courtaret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish its DISINFECTING FLUIDS for sick rooms, nurseries, urinals, water closets, privies, cesspools, sewers, gutters, ships, railroads, hospitals, prisons, and public institutions of all kinds, slaughter houses, offal and fat-boiling establishments; all kinds of manure (*immensely* increasing the value of the latter), and wherever poisonous and offensive gases exist. These agents are decomposers, antiseptics, antidotes, and not disinfectants in the scientific meaning of the words. They remove noxious gases and odors by chemical principles—leaving in their place *healthful air*; they are DESTROYERS, and *not merely absorbents* of poisonous gases—not injurious to utensils in which they are used. The attention of medical and scientific men is directed to these disinfectants. Attached are testimonials in favor of this great discovery, with hundreds of others, can be seen at the Company's office.

DELAVAN HOUSE, Albany, March 30, 1866.

HISTORY OF CORRUPTION.—The Tribune's Washington correspondent, May 17, said:

The President removed B. S. Brown, Collector of Internal Revenue in the Fourth District of Pennsylvania, represented by Judge Kelley, and appointed J. W. Stokes, a clerk in one of the Departments. Mr. Brown was appointed by Mr. Lincoln about eighteen months since, and was very influential in the election of Lincoln and Johnson, but he does not support the policy of Mr. Johnson, and is not willing to strike down Kelley.

It is asserted by reliable men that on Sunday night the President sent for the Colorado Senators. They were received by Mr. Cooper, his private Secretary, and were sounded as to their political views; and intimations made that if they were prepared to sustain the President's policy he could arrange to have the bill signed.

They declined to do so, and were finally ushered into the presence of the President, and the offer was there made directly to them; but they were unwilling to abandon their openly avowed principles of a lifetime, and said that they preferred to let the bill be vetoed. If this statement is not correct, the Senators should deny it.

We do not see that they have denied it. The reader will make his own comment.

SOUTH CAROLINA.—Dr. T. G. Wright, Superintendent of Freedmen's Schools, writes to Reuben Tomlinson, Superintendent of Education for South Carolina, under date of Columbia, S. C., April 25, as follows:—

I am informed by letter from Mrs. J. Ward Simmons, teacher of freedmen's school at Lexington Court House, S. C., that on Friday evening, 20th inst., her school house was attacked by about thirty white men, who fired muskets or pistols, threw stones and used axes upon the building, breaking the windows and otherwise injuring the house, and endangering the lives of the teacher and pupils. On leaving the room, accompanied by her son, Mrs. Simmons was followed by the mob, who cursed and threatened her until she reached her home. The colored men attending the school escorted the teacher to her home, and afforded her protection.

The school has been in operation since January 1, and has had the protection of soldiers stationed there, but the garrison has just been removed, and the citizens are beginning to show their disposition toward the freedmen, and what they will do when unrestrained by fear of the military. The school is closed until suitable protection is afforded.

— The Humboldt (Kansas) Union having secured a lady compositor, his "better half" complained that he staid out too late o'nights. "Wife," said he, "you don't know how hard printers have to work." Setting type and "setting up with a gal" does seem like doing double work for a married man.

AGENTS WANTED
—FOR THE—
Great National Work,
THE
STANDARD HISTORY of the WAR,
Complete in one very large Volume of over 1,000 pages,
Splendidly Illustrated with over 150 Fine Portraits of Generals, Battle Scenes, Maps and Diagrams.
In the selection of matter for this great work the author has confined himself strictly to *official data* derived from the reports of Northern and Southern Generals, the report of the Committee on the Conduct of the War, National and Rebel Archives, etc.
He has carefully avoided the introduction of any matter not strictly *reliable* and *official*, and has succeeded in producing what is universally demanded, a *fair and impartial* History of the War. The great superiority of this work over all others is everywhere acknowledged. It is market by a degree of thoroughness and accuracy attempted by no contemporary.
Disabled officers and soldiers, teachers, energetic young men, and all in want of profitable employment, should send at once for circulars, and see why it sells faster and gives better satisfaction than any other History published. Address, JONES BROTHERS & CO., 14 Phœnix Building, Boston.

THURSDAY, MAY 24, 1866.

HABEAS CORPUS BILL.—About a month ago, a paper in New England, one of the most earnest allies of the rebellion through the war, and one of the noisy supporters of "my policy" now, contained the following item:

"Davis was a lawful belligerent and has committed *no crime* and can be convicted of none, while these scoundrels (the Republicans) are guilty of *every crime* in the calendar. So guilty are they, that their fellow *conspirators* in Congress are now at work making a law to shield them from the judgment which is upon their track. This law is designed to protect not only the members of these military inquisitions, but scoundrels of every *grade* and *hue* who have been committing all manner of crimes under order, all over the country for the past five years.

It is *ex post facto* and unconstitutional, and, if enacted by Congress, will probably meet another *veto* from the President. We allude to this bill incidentally to show the lawless aims and objects of those perjured men who have betrayed *their country* and their *God* in the Federal Legislature. These are the men who would murder Jefferson Davis, regardless of every principle of law and justice known among civilized humanity."

This law has passed Congress, however; and the President did not VETO it, but approved and signed it! Now if the above counterblast against Congress be true and proper, then President Johnson is in the same condemnation, and he and they are *conspirators* and *criminals*,—while Davis was *the only lawful* belligerent, and has committed *no crime*,—but must we infer be regarded as the model patriot of the age. A paper claiming the democratic name publishes such stuff,—and some readers calling themselves democrats may be able to swallow it. But those who can do this, and also take down "my policy" and the habeas corpus bill,—must have a throat like an open sepulchre.

☞ A Washington correspondent of the Boston Recorder, in a letter written several days ago, says:

In a recent letter I wrote that Mr. Johnson confined his appointments to the Republican ranks. I regret that he has changed his policy and has now openly united himself to the Democracy. Among the appointments last week was that of Mr. Peter Lamon, who was reported by the Potter Investigating Committee three years ago for disloyalty, having said that he would wade up to his knees in blood before Lincoln should be inaugurated. True, that he offered as an excuse, that he was in his cups; but he forgot the old maxim, *In vino veritas*. He was removed, but is now reinstated. Other appointments are made on the recommendation of leading Democrats, and though Mr. Johnson has not openly removed any Republican for the crime of being of the same opinion that he was when elected to his high office, yet that consummation cannot be far off; every day increases the breach, and office-holders in this city dread the time when Congress shall have adjourned. Many fear a Jacksonian sweep of all the Departments.

Perhaps the above statements are not all correct; but there is too much truth in them to be disregarded. The *fear* and *dread* spoken of are exactly the effects which are desired by those malign spirits of lying, drunkenness and hypocrisy which have entered into the bosoms of certain great men from whom better things were expected. But though they set themselves and take counsel together, against justice and equity,—yet their wicked counsels, and all wicked counsels, shall be turned into foolishness, by Him who turneth the way of the wicked upside down. Much mischief they may do,—but their violent dealing will ultimately come down upon their own pate.

THE RIGHT WAY.—The heart of the nation does not yearn for blood. We can say (remarks the *N. Y. Tribune*) of our war, that it was fought with mercy, and followed by magnanimity, and that no man has been slain for his part as an armed rebel soldier. The people of the South were defeated; their defeat ended bloodshed. The question is not whether they shall be treated as tigers, but whether a part of them, a loyal and deserving part, shall be permitted to exercise the privileges for which they fought. We wish to harm no Southern man. We do not want a boll of his cotton or a stalk of his sugar-cane. We desire for him peace and prosperity, and trust that God will keep him from evil ways, especially from the sin of rebellion. We desire pardon for all, peace for all, the National flag for all, the ballot for all. They are men like ourselves, and we propose to treat them as men. We make no distinction of color or race. To the loyalist, white or black, we offer the hand of justice and fraternity—to the rebel, white or black, the hand of mercy and fraternity. Our reconstruction can only be perfect when it means justice, mercy, peace, universal suffrage and universal amnesty.

— A young lady in Iowa, all for love, recently hung herself to a limb—of the law.

— New York city and county have a debt of fifty-two millions, and have public property valued at forty millions.

☞ The Board of Regents of the "National Asylum for Disabled Volunteer Soldiers," chartered by Congress, held its first session recently at the office of the Surgeon General in Washington. Chief Justice Chase, Governor Smyth of New Hampshire, Gen. Butler, Gen. Osterhaus, Lewis B. Gunckel, Jay Cooke, George H. Walker, and Hon. Edwin M. Stanton, Secretary of War, were present at the meeting. Gen. Butler was chosen President, Gen. Osterhaus and George H. Walker Vice Presidents, and Lewis B. Gunckel Secretary. After an informal discussion, Gen. Butler, Governor Smyth and Hon. E. M. Stanton were appointed a committee to draft rules and regulations for the proposed asylum.

It will be recollected that at a meeting of the one hundred corporators of the "National Naval and Military Asylum," originally incorporated, it was found impossible to obtain a quorum, and the act of Congress was recently so amended as to vest the power in a board of regents. At the same time the navy was detached from the army, as it was shown that sailors and soldiers would not fraternize in the same asylum. By a subsequent joint resolution the following regents were appointed to act with the President, Chief Justice, and Secretary of War: Richard J. Oglesby, Benjamin F. Butler, and Frederick Smyth, to serve six years; Lewis B. Gunckel, Jay Cooke, and P. Joseph Osterhaus, to serve four years; John H. Martindale, Horatio G. Stebbins, and Geo. H. Walker, to serve two years.

Among the questions to be settled by the Board of Regents are: How many asylums shall be established in the country? Where shall they be located? What rules shall be established for the admission of inmates? What kind of buildings shall be erected? And what officers shall be appointed?

The Asylum is more richly endowed already than any other charitable institution in the country, as Congress voted it all the stoppages on fines adjudged against such officers and soldiers by sentence of court-martial or military commission over and above amounts necessary for the reimbursement of the Government or of individuals; all forfeitures on account of desertion from such service, and all moneys due such deceased officers and soldiers which now are or may be unclaimed for three years after the death of such officers and soldiers, to be repaid upon the demand of the heirs or legal representatives of such deceased officers and soldiers. Mr. Stanton thinks that the fund may reach six millions of dollars.

NEW HAMPSHIRE ITEMS.

—— Daniel Hussey of Nashua has received a patent for improvement in drawing rollers.

—— Rev. John Le Bosquet has removed to Danbury as the stated supply of a Congregational Church.

UNION MOWER.—In a recent number of the Maine Farmer appears a letter from Gov. Cony of that State, in which he says:

"The Union Mower that I purchased last July, proved itself a first class machine.—My men cut with it about eighty tons of hay, and it did not get out of order nor cost a cent for repairs that season, and when taken out of the field, was in as good condition as on the first day it was used. It is of easy draft, and I know of none better in use, and if I had occasion to purchase another should select the Union.

Farmers in New Hampshire would do well to follow Gov. Cony's example. "A word to the wise is sufficient."—Goodwin, Sweetser & Co., are agents for Portsmouth and vicinity.

— The Richmond Republic, the only Union paper in that city, suspended publication Monday, for want of support.

— It is said that in the event of an Austro-Prussian war, which is not improbable, Austria can set in the field against her foe 433,700 men, Prussia about half a million, Italy 350,000.

— The President has pardoned B. Palmer, a Brigadier General in the rebel army, Charles E. Mould, for stealing letters from the post office, and George Coats and J. W. Bowling, smugglers.

— A brutal prize fight, for $1400, took place in New Orleans Sunday, May 13, between King of that city and Farrell of Philadelphia. It was won by the former, eighty-three rounds being fought in sixty-eight minutes.

— The New York Academy of Music is to be immediately rebuilt. It is estimated that $200,000 will be sufficient to rebuild the Opera House. The Managers are determined to have the Academy rebuilt by the 1st of November.

— The Boston Herald says, "Gen. Howard is an honest man, who means to do the square thing by everybody. It has long been a question with us whether he had enough of the instincts of a rogue about him to detect a rogue by his management."

— The Washington Republican says that Santa Anna has come to this country as the agent of Maximilian, and has plenty of French gold with which he expects to silence republican principles, neutralize the Monroe doctrine, and procure the recognition of Austrian despotism in Mexico.

SECRETARY SEWARD made one of his most crafty speeches at Auburn, N. Y., May 22, in which he fully endorses the President's policy (or rather what he claims as his own,) and in a very ingenious (not ingenuous) way, glosses over the great difference between that policy or obstinacy, and the expressed opinions of Congress and the loyal people. It is more like the plea of a shrewd lawyer defending a bad case, than the plain statement of a witness who means to tell the truth. He says:

The representatives of the National Union party in Congress do not yet agree with the President; but I think they differ only in regard to non-essentials. Some are understood to insist that the people of no State ought to reserve the right of secession or disunion. The President says exactly the same thing. A State that should claim to reserve a right of secession could not be loyal. Others contend that after rebellion a State ought not to be accepted which insists upon or admits the validity of the debts of the rebellion. The President says exactly the same thing. A State that should insist upon the validity of such debts could not be loyal. Others argue that as a consequence of the abolition of slavery a change of the basis of representation has become desirable and necessary. This can be done only by amending the Constitution of the United States: while Congress are yet unable to agree among themselves upon the form of such an amendment, the President says let us amend the Constitution so as to proportion representation according to suffrage.

The President did *not* say this, but he said, IF any amendment be necessary, (which I do *not* think is needful at *present*,) then let representation be proportioned to suffrage! or words to that effect. If he will now and hereafter adopt and act on what Sec. Seward says here, so far it will be well. But we find both these old gentlemen in a great hurry to get into Congress a set of men who would *most effectually prevent* our getting two-thirds of the Senate for any such amendment! Every one of their reconstructed M. C.'s would vote squarely against it—and they know it! It is base hypocrisy to pretend otherwise.

We have not much room for extracts or criticism: but we copy Mr. Seward's conclusion:

What, then, is my conclusion? It is one at least that will be admitted to harmonize with my past life. I am hopeful—hopeful of the President, hopeful of Congress, hopeful of the National Union party, hopeful of the Democratic party, hopeful of the unrepresented States. Above all, hopeful of the whole people, and hopeful of the continued favor of Almighty God.

This is worthy of attention—and we adopt it with only slight variations, so as to read, "Put not your trust in Princes," or Secretaries, or Presidents,—or Congresses, or political parties—but "Trust in God—and keep your powder dry!" U. T.

REDUCTION IN PRICE
OF THE
AMERICAN WATCHES.
MADE AT WALTHAM, MASS:
In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed
With Gold at Par,
so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of
More than 200,000 Watches,
have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.
We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:
1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy & Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.
The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,
ALL THE PRODUCTS OF THEIR FACTORY
ARE FULLY WARRANTED
to be the best time keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit orders for single watches.
CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

ALLCOCK'S POROUS PLASTERS.—
A celebrated physician says he was amazed at the great number of beneficial indications produced by one of these plasters. He affirms that *headache* is cured by one worn just below the breast-bone; that one placed over the navel will cure hysterics, as well as dysentery, and affections of the bowels."

CURE OF VARICOSE VEINS.

City Point, Va, January 24, 1865.
T. ALLCOCK & Co.:
Gentlemen: Seeing your notice in the Police Gazette, I got four of your Porous Plasters and placed them on the parts where the pains were most severe, and in less than twelve hours could walk as well as ever. I could hardly believe it, I was so well pleased. I wanted to see if the lameness would come back on me or not, so I did more walking that day than I had done in a week. The next day I had some pain in my hip, but I put on a plaster there and in two hours the pain was all gone, nor have I felt it since. Certainly they are the best application for the relief and cure of pains in the joints and back, and for varicose or enlarged veins, I have ever known, and I would not be without them on any account. Yours truly,
JOSEPH GATEWOOD.

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot) and Lentigo, or Freckle, are oft-times very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than do a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. Dr. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for those discoloration, which he says proves infallible and harmless.

Messrs. Editors:—I like the rational and timely suggestion of "Public Spirit," in Wednesday's Chronicle. It is assuredly entitled to consideration. The "Glorious Fourth" can be celebrated in a measurably "glorious" manner without the inordinate explosion of gunpowder, at the imminent risk of life and limb; or the gluttonous indulgence in cold ham, pastry, sponge-cake and small beer. Let us commemorate our country's natal day by having a good procession and fireworks, if practicable; but in any event, by an oration, the reading of the Declaration of Independence, a patriotic poem, music, etc., which would afford more *enduring* satisfaction and enjoyment to our citizens and neighbors than any other feature of varied festivities. A speaker's stand might be erected on Market Square, or far better, in some pleasantly-shaded, grassy field in our picturesque outskirts; a procession might be formed, comprising our noble returned soldiers and sailors, the different societies, citizens, school children in white, &c., and march to the music of our excellent Cornet Band, to the spot designated for the exercises of the day, where thousands would enjoy the "feast of reason and flow of soul" provided for their intellectual gratification.

Shall not some good speaker be invited to deliver an oration, and one of our own poets to write a poem for that occasion, in order that we may be enabled to spend the approaching anniversary of our National Independence in a way that shall please every one and redound to the honor and credit of our beautiful city? Who says yes? WEST END.

NEW ROAD TO NEWINGTON.—The road commissioners have staked out a road from near the Almshouse to connect with the new road made by Newington. The distance would be about a mile and a half, and some estimate the expense of constructing, fencing, and damage to very valuable land half the distance, and costly hilly road for the remainder, at from ten to twelve thousand dollars. Last year a petition was presented to the city authorities to lay out a public road, beginning at the road near the house of the late Judge Woodbury and following that good old road, having good stone walls, to near the house of Albert W. Parsons—thence on a hard, level straight line less than three-fourths of a mile to the said new Newington road. The only valuable land on this route is that of Mr. P., who will claim only the expense of a short fence. The Almshouse team, with plow and harrow, and four good hands, could make the road so short a distance in three or four days. Why this neglect to lay out the best route, and that which would best accommodate the public, and save great expense? ECONOMY.

Communication.

BRIDGE ACROSS NORTH MILL POND.—A few individuals have subscribed nearly a thousand dollars in order to get a bridge constructed over a narrow place, three or four hundred feet, of the North Mill-pond. An ocular view would convince any one of its expedience. It would save an immense travel annually. But it is necessary for the Mayor and Aldermen to lay out a road each side of the pond—on the North side to connect with the road leading to Newington. There would be no land damages. House lots would be for sale each side of the road. Many buildings have already been erected on the North side, which is the most eligible and pleasant situation for houses in the city. Within ten years very many buildings will be erected, and all the land is very fertile. PROGRESS.

THE BASE BALL CLUB had a very favorable afternoon for their match game (Benedicts *vs.* Bachelors,) on Wednesday afternoon, and a goodly number of spectators visited the grounds during the progress of the game. The "old bachs" came out victorious, scoring 99 to their opponents' 46. The married labored under the disadvantage of the absence of one or two of their best players, and lameness of some who did play. Lack of space compels us to omit the score this morning, but we will furnish it in our next issue. The married men are confident that they can play another game which will result in their favor, and it is probable another game will be played in a few weeks.

☞ Two of the soldiers lately stationed at Fort Constitution and two female companions in arms, were arrested on Tuesday night for night walking, in violation of the statute relating thereto. They were furnished a lodging at the Bridewell, and in consideration of the departure of the company to which they were attached, were released on Wednesday morning. The aforesaid females may perhaps profit from the lesson.

☞ Company I, 3d Regiment, Heavy Artillery, lately station at Fort Constitution, left this place for Portland on Wednesday morning.

☞ We must say that we can see no good reason for the removal of the troops from this post. The idea of the lack of accommodation is simply an absurdity to all who are cognizant of the facts in this matter. Fort Constitution might be wholly abandoned to the workmen, and still there is sufficient accomodation for the troops in the barracks outside the walls, to say nothing of those at Fort McClary.

The amount of public property in Portsmouth and vicinity is very large, much too large to be without some show of military protection, and we trust the New Hampshire delegation in Congress will second the remonstrances that have been forwarded to headquarters against this removal of troops.

To our merchants also the matter assumes considerable importance in a business light.

☞ We understand that Saml. M. Pook, Jr., has been assigned to this yard as Asst. Naval Constructor.

☞ At St. Louis, Monday night, the members of both the Old and New School Assemblies of the Presbyterian church met in the Second Church for the first time since 1837, to discuss the question of reunion. Eloquent speeches were made, and the meeting terminated by 1200 persons rising and voting that they considered reunion desirable and practicable. It is definitely stated that the Assemblies will inaugurate measures to effect an organic reunion. The separation was made somewhat on doctrines,—but mainly on the question of slavery,—the old school being in its *dotage* on that subject, and therefore most prevalent in the Southern and border States. The history of this old school through the rebellion, is somewhat pitiable, and somewhat contemptible also.

MRS. MANCHESTER,
The Independent
CLAIRVOYANT!
—AND—
ECLECTIC PHYSICIAN!

From 618 Broadway, New York, will arrive in PORTSMOUTH May —th, and take rooms at the FRANKLIN HOUSE, for a short time only.

A Clear Case of Clairvoyant Sight.

DEAR MADAM:—Permit me to tender you my sincere thanks for the cure you have effected on my child. My daughter, ten years old, was taken sick last January in a very singular manner. We called in six of the best Physicians in the city; they said the case was a very singular one—they never saw one like it—and came to the conclusion they could not tell what the disease was. Some friends advised that we should call on a Clairvoyant: there being none in Providence that we could rely on, we wrote to Mrs MANCHESTER, in Utica, and described her symptoms. She immediately examined her case and told that she had a Snake in her stomach, told where she came by it, and that it had been growing, and from the best of her judgement she should think it ten or twelve inches long. I gave the child her prescription and in a few hours the child ejected the snake alive from the stomach; it was measured and found to be eleven and a half inches long. We have it preserved, that all may see for themselves that this statement is really so. I am confident that the child could not have lived, had it not been for Mrs Manchester, and we feel as though she never could be repaid for her skill. MARY RAY,
GEO. W. RAY.
Providence, R. I., Nov. 10, 1865.

BANGOR, May 15th, 1865.

MRS MANCHESTER—Dear Madam: When you were in this city, I called on you for advice in regard with a child of mine that had been sick for four years. I had taken her to a number of physicians, and none could tell what was the matter with her symptoms. You examined her case, and told me exactly her symptoms from the commencement of her sickness, which were very peculiar; also told me there was something alive in her, and also said there was a number of them, and told me that she drank them from a rain-water cistern. You said that you could not warrant a cure, but would try and do the best you could for her. She commenced taking your medicine in August last, and from the time till December, the child passed off large quantities of what we call *Tadpoles*, from rain water, and I think, and am certain that the child must have died had it not been for you. And I advise everybody to see Mrs Manchester, for I know that she has the power of healing the diseases of any person diseased better than any Physician that I have ever heard of. Please have this published, and let the world know that there is one who practices what they profess to.

Very truly and gratefully yours,
GEORGE E. MARTIN,
my8ins MARY L. MARTIN.

Important.

DR. STEVENS, No 5 Daniel Street, would give notice that he has REDUCED the price of Permanent Sets of ARTIFICIAL TEETH on the Valuate base, to that charged for them before the war.

He would also give notice that he is doing a new style of work for Upper Sets of Teeth, called the COMBINATION BASE (Gold and Vulcanite) which produces by far the finest work offered to the public. The price is something in advance of that charged for the Vulcanite alone, but the strength, durability, ease of bearing, and beauty of finish obtained by it, more than double the value of the Teeth. mh12

GEORGE F. WEED,
Surgeon Dentist,
FIRST ASSISTANT in the Office of Dr. STEVENS, No. 5 DANIEL STREET.

DR. WEED can be found at his place of business at all hours of the day and night, for the performance of any of the operations that come within the call of his profession.

Dr. A. P. STEVENS, No. 5 Daniel St., makes the saving of TEETH and their permanent restoration, a specialty in his business. He also successfully restores to their natural shape broken or badly decayed teeth, by building up crowns and sides with PURE GOLD. (In many cases teeth so restored are as strong as any of their brother members, and in all cases are rendered eminently useful for a long series of years.) DISEASED TEETH, in all stages, treated, and in a very large number of cases entire success attained.

Charges for such operations necessarily high, but nothing in comparison to the value of the Teeth. mcn14

WHICH IS THE
Leading Life Insurance Comp'y
IN THE UNITED STATES?
Which is the Safest and the Cheapest?

The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of the

MUTUAL BENEFIT
LIFE INSURANCE COMPANY,

to be the *largest*, the "expenses of management" the *smallest*, the "ratio of Assets to Liabilities," or the *security* furnished to its members, the *largest* of any life institution in the country.

Premiums received in 1864	$2,089,072
" " " 1865	3,069,087
Ratio of expenses to premiums rec'd in '64	12.96
" " " " " " '65	12.16
Ratio of assets to liabilities, Jan. 1, 1865	161.85

The inevitable conclusion from these official facts, is that the

MUTUAL BENEFIT LIFE Insurance Company
IS THE BEST AND THE CHEAPEST.

Because its NET ASSETS are proportionably LARGER than those of any other Life Insurance Company in the United States.

Because its "Managing Expenses" are LESS, and it has a LARGER SURPLUS to divide among its members than any Company in the United States.

Query. Will some one inform the public of that mysterious process by which a Company with a surplus proportionably *much less*, and expenses *very much larger* than ours, can yet divide *more* to its members, and insure them at *less cost?* How is it done? Where does the money come from?

Every intelligent man will see at once that it *cannot be done.* Yet we have Agents among us that make this their boast.

Any one disposed or intending to insure can be furnished with the requisite information by applying to
HENRY A. YEATON, Agent.

WHILE THE DAYS ARE GOING BY.

There are lonely hearts to cherish,
While the days are going by;
There are weary souls who perish,
While the days are going by;
If a smile we can renew—
As our journey we pursue,
Oh! the good we all may do,
While the days are going by!

There's no time for idle scorning
While the days are going by;
Let our face be like the morning
While the days are going by;
Oh! the world is full of sighs,
Full of sad and weeping eyes:
Help your fallen brother rise
While the days are going by.

All the loving links that bind us
While the days are going by,
On by one we leave behind us
While the days are going by;
But the seeds of good we sow
Both in shade and shine will grow,
And will keep our hearts aglow
While the days are going by.

SINGULAR ACCIDENT.—On Saturday last, Mr. E. D. Stowell and a companion started from Worcester, Mass., to take a colt to some place in Connecticut, and while passing through Webster the colt became frightened and Mr. Stowell, who was leading him, was pulled out of the wagon and somewhat bruised, but not so as to prevent his getting about as usual after arriving at his destination. He retired to rest as usual, and was found dead in his bed next morning, probably from the effects of his fall. He was a resident in this vicinity. *Worcester Spy.*

THE GALLANT SIXTY-NINTH.— Two gallant sons of Erin, being just discharged from the service, were rejoicing over the event with a wee taste of the crature, when one who felt all the glory of his own noble race, suddenly raised his glass above, and said, "Arrah, Mike, here's to the gallant 69th Sixty-Ninth—*the last in the field and the first to leave!*" "Tut, tut, man," said Mike, "ye don't mann that." "Don't mane it, is it? Then what do I mane?" "You mane," said Mike, and he raised his glass high, and looked lovingly at it—"Here's to the gallant ould Sixty-Ninth, *equal to none!*" And so they drank.

RED RIVER WIT.—A young chap, residing not far from Red River, where high water, with loss of fences, etc., has been the latest excitement, hearing some one recently that Herod the Great reigned thirty-seven years, "Aunt Mary," he asked, "don't you reckon that raised the river?"—*Shreveport News.*

— The idle should not be classed among the living; they are sort of dead men not fit to be buried.

— An exchange says that, "in the absence of both editors, the publisher had succeeded in securing the services of a gentleman to edit the paper that week."

— Travellers along the sea shore of New Zealand have to wear veils to protect their faces and eyes from a fine metallic sand which rises with every puff of wind. This sand proves upon analysis to be the purest ore of iron known.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By the most study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, and unfits the individuals for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

AMERICAN AND FOREIGN PATENTS
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1837,
78 State Street, opposite Kilby Street,
BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed in the most reasonable terms, with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions. Advice of counsel or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantage of securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add, that he has abundant reason to believe, and can prove, that his office is more free from the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, enables him to offer the most ample and reliable decisions relative to patents.
There, besides large collections of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, through his position, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them as early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided *in his favor*, by the Commissioner of Patents. R. H. EDDY.

HIGHLY IMPORTANT TO UNFORTUNATE FEMALES!
DR BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, in the usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and irregularities, and all other old complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 32 Endicott street.
Persons at a distance can consult Dr. BRISCOE, by letter, describing the case, and have the medicines separately put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that clients see none but the Doctor himself.
Address Dr. BRISCOE, at No. 32 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secrecy observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1865. ThSly
DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 32 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
P. S.—Ladies who wish to stay in the city under my care for a few days, can be furnished with kind nurses. Charges moderate.

CHEROKEE CURE,
THE GREAT
INDIAN MEDICINE,
Cures all diseases caused by self-abuse, viz:—*Spermatorrhœa, Seminal Weakness, Night Emissions, Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Sight, Premature Old Age, Weak Nerves, Difficult Breathing, Pale Countenance, Incurable Consumption*, and all diseases that follow as a sequence of youthful indiscretions.
The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two page pamphlet sent in a sealed envelope, free to any address.
Price $2 per bottle, or three bottles for $5. Sold by all druggists; or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor,
Dr. W. R. MERWIN, 37 Walker St., N. Y.

Cherokee Remedy,
Cures all Urinary Complaints, viz: *Gravel, Inflammation of the Bladder and Kidneys, Retention of Urine, Stictures of the Urethra, Dropsical Swellings, Brick Dust Deposits*, and all diseases that require a diuretic, and will be used in conjunction with the
CHEROKEE INJECTION,
does not fail to cure *Gonorrhœa, Gleet and all Mucous Discharges* in Male or Female, curing *recent cases in from one to three days*, and is especially recommended in those cases of *Fluor Albus*, or *Whites in Females*. The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.
Price, Remedy, One Bottle, $2, Three Bottles, $5.
" Injection, " " $2, " $5.
The Cherokee "*Cure*," "*Remedy*," and "*Injection*" are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds, in order to make money—in place of these. *Be not deceived*. If the druggists will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us *in perfect confidence*. We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,

CHOLERA DISARMED!!!
The Chief Causes of Pestilence Destroyed.
DR. E. R. CORAREE'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, Nos 198, 200, and 202 Henry street, N. Y.—Office, 42 Cedar street.
The Company organized on a permanent basis, with Courtaret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish its Disinfectants for sick rooms, hospitals, nurseries, urinals, water closets, privies, cesspools, sewers, gutters, ships, railroads, hospitals, slaughter houses, offal and fat-boiling establishments; all kinds of manures (*immensely* increasing their value), public buildings wherever noxious and offensive gases exist. These agents are deodorizers, antiseptics, antiputrescents, and disinfectants in the strictest sense of the word. They remove noxious gases and odors by chemical principles—leaving in their places *healthful* ones, and are perfectly harmless. The *only disinfectants* of poisonous gases—not injurious to utensils in which they are used. The attention of medical and sanitary men is invited to the use of our fluids. Attached are testimonials in favor of this great discovery, which, with hundreds of others, can be seen at the Company's office.
Dr. Ezra Stevens, Astor House, Aug. 30, 1866.
To the President of the New York Disinfecting Co.:
Dear Sir: It is said it is represented to be. We have used many times your Disinfecting Fluid, now consider that we have found an article which surpasses all others as a remedy against all bad odors. Yours, &c.

THE REBEL IDEA OF SECESSION.—Many of the prominent rebels in Washington declared that, while they conscientiously believe that secession was no crime, they admit that they committed a great blunder. Mr. Reverdy Johnson gives an instance of this in debate:

"I met," said he, "a Southern gentleman who was a member of the Peace Convention, of which I happened to be one, in the cars here the day before yesterday. He was a Southern man, very warm, very decided, very zealous, and, as I thought and told him at the time, if he succeeded in controlling the deliberations of the Convention, war would certainly be the result, and that the institution of slavery, of which they were so much attached, would necessarily fall. He looked careworn when I saw him, the day before yesterday, only. I recognized him and he recognized me, and he immediately took his seat by me and said, quite in a sorrowful tone—and I have no doubt in great sincerity: 'You were right and I wrong. I admit that I was wrong. God forgive me!' I have no doubt,—said Mr. Johnson—"he spoke with as much sincerity as a man can feel, and that he was sincere, equally sincere, when he was a member of that convention I have no doubt, not the slightest."

Admitting all this to be true, what follows? Answer, that the great Southern Statesmen, as their friends north and south deemed them, were not Statesmen at all! but dreamers, and filthy dreamers too; dreaming that a Nation which sprung into existence by declaring that "all men are created equal," could go on and prosper under the rule of slavery, living a lie every day, and sleeping quietly in a lap of lies every night.

They have partly waked up now:—but there is a great deal of dreaming yet, in the country, some of it even in Washington.

— In the gallery of the theatre in Dublin, one night, a coal porter made himself disagreeable. There was a yell of "Throw him over," followed by the exquisitely droll idea, "Don't waste him; kill a fiddler wid him."

— The proprietors of the Fort Pitt Cannon Foundry, Pittsburg, intend sending a big twenty inch cannon from that city to the Paris Exhibition. It will be 22 feet long, 5 1-2 feet diameter at the breech, and will weigh 50 tons. When completed it will be mounted on an iron carriage, weighing eight tons, and will be accompanied by specimens of balls, shells and cartridges. The cost will be about $30,000.

10,000 Rolls of
ROOM PAPERS AND BORDERS,
In Gold, Gilt, Satin and Plain.
J. W. & A. STAVERS, No. 12 Market street, have just received their spring stock of ROOM PAPERS, WINDOW CURTAINS and BORDERS, direct from New York manufacturers, which were bought at the lowest market price, enabling us to offer better inducements to purchasers. The public are invited to examine our stock before purchasing, as we are confident it will be for their interest, as we have the largest stock of the above goods to be found in the city.
To persons wishing Paper for a whole house, or in large quantities, we will make a liberal discount.
Goods cheerfully shown, and sent to any part of the city free of expense.
J. W. & A. STAVERS.

AGENTS WANTED
—FOR OUR—
Great National Work,
THE
STANDARD HISTORY of the WAR,
Complete in one very large Volume of over 1,000 pages,
Splendidly Illustrated with over 150 Fine Portraits of Generals, Battle Scenes, Maps and Diagrams.
In the selection of matter for this great work the author has confined himself strictly to *official data* derived from the reports of Northern and Southern Generals, the report of the Committee on the Conduct of the War, National and Rebel Archives, etc.
He has carefully avoided the introduction of any matter not strictly *reliable* and *official*, and has succeeded in producing what is universally demanded, a *fair* and *impartial* History of the War. The great superiority of this work over all others is everywhere acknowledged. It is market by a degree of thoroughness and accuracy attempted by no contemporary.
Disabled officers and soldiers, teachers, energetic young men, and all in want of profitable employment, should send at once for circulars, and see why it sells faster and gives better satisfaction than any other History published. Address, JONES BROTHERS & CO., 14 Phœnix Building, Boston.

Morning Chronicle.

Portsmouth N. H.

FRIDAY, MAY 25, 1866.

THE GRAND SERENADE at Washington, of the President and the Cabinet, came off at last, on Wednesday night,—and a very small go-off it was. Perley, in his letter to the Boston Journal, thus describes it.

The "fumigation serenade," avowedly gotten up by the officeholders' Johnson club for the purpose of smoking out the political opinions of the Cabinet officers, came off tonight. About a thousand tramped around from house to house, listening to the same tunes from the marine band at each halting place, and bearing nothing new or strange, as the report in another column will show.

President Johnson, very wisely, said but a few words of thanks. Mr. Fred. Seward briefly apologized for the absence of the Secretary of State. Secretary Wells simply indorsed the Executive policy. Secretary McCulloch was the only one who evidently said what he meant and meant what he said—as he assailed Congress squarely and fairly. Postmaster General Dennison indulged in hopes of a reunion between the President and Congress. Secretary Stanton stood between two flaring candles, and read his confession of faith, which was so made up of extracts from the President's Messages and his own views, that it was difficult to say which was which, or what the Secretary's real views are. Messrs. Harlan and Speed dodged speech-making, but wrote letters of apology—that of the Secretary of the Interior showing clearly that he is not an indorser of the policy of the President. Taken all in all, the serenade was a failure.

This brief sketch gives a very fair view of all the speeches except Mr. Stanton's.—After a careful reading we are satisfied that Mr. Stanton supports the President and his policy about in the same way as Uncle Toby would do, if he had a seat in the Cabinet. He does not support the new 3d Article of Amendment—any more than we do:—neither does he commit himself at all in favor of the peculiar notions which constitute what is called "my policy,"—with which rebels and traitors are so greatly pleased.

☞ Two papers in Massachusetts, not claiming to belong to the democratic party, support Pres. Johnson's policy,—and one of them bedaubs him with fulsome flattery:—the editors of both, hold snug offices "under the crown." Does any body remember the golden days of John Tyler?

MEXICO.—Dates from Vera Cruz 12th, and city of Mexico 10th, state that the contemplated withdrawal of French troops caused considerable excitement. The probabilities were that Maximilian would abdicate before the withdrawal. The report of the withdrawal of 1000 French troops and the arrival of a battalion of the Foreign Legion is confirmed. The concentration of French troops preparatory to withdrawal was currently reported. A Colonel and Lieut. Colonel of the Imperial forces were murdered by their own men at Riverde. U. S. Minister Corwin had started for home. Minister Romero, at Washington, has official intelligence from El P. so to the 27th ult. Gen. Garcia had obtained a victory over the French at Magdalena, Sonora, on the 6th, and Gen. Rivera had routed a French force at Zacetacus. The French had burned the town of Atonilicom, in Coahuila.

— John Gallagher, a Boston groggery-keeper, was indicted for the murder of Denis Cokely, who took drink late one night, but declined to pay, and defied Gallagher.—His trial has just closed: Gallagher was found guilty of manslaughter, and sentenced to ten years in the State Prison.

— Rain fell plentifully all over New England on Monday afternoon and evening and on Tuesday morning, greatly to the satisfaction of many whose wells were short of water, and to the delight of the farmers, who were beginning to be afraid of a light hay crop.

NEW HAMPSHIRE ITEMS.

—— The town of Newport has voted the liberal sum of $45,000 to be applied toward the proposed extension of the Concord & Claremont Railroad.

—— "The Legislative Reporter" will be issued the coming session of the Legislature as heretofore, by the proprietors of the Statesman and Independent Democrat. Price for the Session, fifty cents. Orders may be addressed to Fogg & Hadley, or McFarland & Jenks.

—— Adjutant General Head has ordered the shipment from the Lancaster Arsenal of the remaining "Bennington Cannon," captured by New Hampshire troops in the war of the Revolution, as well as the fragments of its fellow, exploded a year since, for Concord, where they are to be suitably inscribed and placed in the rotunda of the new State House, in accordance with a former Resolve of the State Legislature, and among trophies of American and Union valor, achieved during the war of 1812, the war with Mexico and the recent war against treason and rebellion.

GEN. GRANT ON RECONSTRUCTION.—We find in the Lewiston (Me.) Journal some interesting notes made by the editor of an hour's interview with General Grant at Washington a few days since. The General intimated that it would perhaps have been better for the country had the war continued for a year longer, explaining and adding further observations on the state of the country, as follows:

"There were some parts of the country where our armies had never trod, particularly Texas, which needed to feel the blighting effects of war to bring their people to a realizing sense of the enormity of their crime and the necessity of a thorough repentance. 'I find,' said he, 'that those parts of the South which have not felt the war, and particularly those which have been within our lines and have therefore escaped the rebel conscription and taxes, are much less disposed to accept the situation in good faith, than those portions which have been literally overrun with fire and sword.'

Referring to the temper of the Southern people he remarks that they are much less disposed now to bring themselves to the proper frame of mind than they were one year since. 'A year ago,' said he, 'they were willing to do anything; now they regard themselves as masters of the situation. Some of the rebel generals,' he added, are behaving nobly and doing all they can to induce the people to throw aside their old prejudices and to conform their course to the changed condition of things. Johnson and Dick Taylor particularly, are exercising a good influence; but,' he added, 'Lee is behaving badly. He is conducting himself very differently from what I had reason, from what he said at the time of the surrender, to suppose he would. No man at the South is capable of exercising a tenth part of the influence for good that he is, but instead of using it, he is setting an example of force acquiescence so grudging and pernicious in its effects as to be hardly realized.'

'The men who were in the rebel armies,' said Grant, 'acquiesce in the result much better than those who stayed at home. The women are particularly bitter toward the Union and Union men.' 'Of course,' he added, 'there is some bitterness of feeling among all classes, but I am satisfied it would soon die out if their leading men had not somehow got the idea that treason after all was not very bad, and that the Southern cause, as they phrase it, will yet triumph, not in war, but in politics.' 'In my judgment,' said Grant, 'the tone of certain men and certain papers at the North is such as to do incalculable mischief in making the late rebels believe that they are just as much entitled to rule as ever, and that if they will only stand by what they are pleased to call their "rights," they will have help from the North.' 'This,' significantly added Grant, 'is only playing over again the incipient stages of the rebellion.' He was confident that the large majority of the Southern people would smother their resentments and become good citizens, if the mischief-makers at the North (the Copperheads) would only let them alone. For himself, if he had the power, the first thing he would do would be to seize the New York News and kindred sheets, which are giving the South so dangerous an idea of their own position and 'rights.'

'Troops,' said Gen. Grant, 'must be kept in all the principal points in the South for some time to come. This will be necessary to repress the turbulence of a class of the South very dangerous to all well disposed persons, and also to protect the rights of freedmen, who are looked upon with deep hatred by a very large proportion of the people.'"

☞ A Cincinnati dispatch says the colored levee laborers at Memphis struck for higher wages Wednesday, and attempted to parade the streets. The authorities of the Freedmen's Bureau, fearing another riot, caused the arrest of the negro strikers and conveyed them to the fort. Gen. Fiske also made a haul of labor brokers of the class who have been demoralizing freedmen to induce them to insist of their employers higher wages. Many were bounty jumpers during the war.

A BRAVE GIRL.—One day last week a band of outlaws went to the house of a man named Gunter, in Overton county, Tennessee, and on some frivolous pretext took him to the woods, stripped and were unmercifully whipping him, when his daughter seized a hatchet, rushed to the spot and succeeded with heroic bravery in killing two of the ruffians and wounding others. The young lady and her father have since been driven from the country.

☞ Sec. Seward is as foxy as the President is fiery. Advocating, as he does, the President's policy, he holds it up in the most conciliatory light possible, and he does not express a hint which could be regarded as offensive by any member of Congress. He repudiates all affinity with the Democrats; in fact, he links the rebels and Democrats together as the opponents of harmony; and even in case of the possible failure of the Republicans to effect a settlement, he says the work would have to be done by "some new and yet undeveloped political organization," [i. e., a Seward party or Johnson party]. There are serious omissions in Mr. Seward's speech. It does not grapple with those parts of the reconstruction problem which are the source of the greatest anxiety. And his setting aside the term of "reconstruction" in his definition of the crisis, and substituting "reconciliation," will not suit the popular taste any better than President Johnson's favorite word "restoration." The people say reconstruction, and that is what they mean. Four millions of men who have been slaves are hereafter to be citizens; six or seven millions have been traitors, but now want to have places in the Union again; here is the question of representation to be adjusted on a new basis, the old having passed away; and measures taken which shall prevent the nation from going through another bloody struggle. All these things require reconstruction. Settle that right, and reconciliation will follow. The North is reconciled now. How is it with the South? On this Mr. Seward is not explicit, for the evidences of submission which he cites are due more to the military triumph of the Government than to the good will of the Southern people. Nor does he have one word to say respecting the security of the rights of the freedmen and their complete incorporation into the body of American citizens. The people feel that these are among the essentials of reconstruction, and in passing over them so lightly, Mr. Seward falls short.

VAGRANTS AND VAGABONDS.—The act passed by the Massachusetts Legislature simplifies the legal method of proving that a man is a vagrant and a vagabond, by defining that under this category shall be classed idle persons who wander about and visit tippling shops; persons who are known to be pickpockets or thieves either by confession or within the knowledge of the police; men who prowl round depots, banking institutions, places of amusement, etc. These can be arrested and sent to the House of Correction for the term of not less than four nor more than twelve months. In Boston orders have been given to put this law into execution, which will have the effect of clearing the Common of many vagrants who frequent it, to the annoyance of decent people.

IN CONGRESS, Wednesday, the Senate debated Reconstruction; the Freedmen's new Bureau Bill occupied the House, and the Committee of the Whole worked on the Tax Bill.

GEN. O. S. FERRY was elected U. S. Senator from Connecticut on Wednesday, by a vote of 13 to 8—showing an unbroken Republican Union front in the Connecticut Senate.

— The little tax of one cent upon every box of matches netted the government $1,500,000 last year.

Lyon's Periodical Drops!
THE GREAT FEMALE REMEDY FOR IRREGULARITIES.
These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**
Prepared by Dr. JOHN L. LYON, 196 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weakness. **Price $1.50 per bottle.**

REDUCTION IN PRICE
OF THE
AMERICAN WATCHES.
MADE AT WALTHAM, MASS.
In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed
With Gold at Par,
so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of
More than 200,000 Watches,
have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.
We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:
1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy & Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.

The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,
ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED
to be the best time keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit orders for single watches.
CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

ALLCOCK'S POROUS PLASTERS.—A celebrated physician says "he was amazed at the great number of beneficial indications produced by one of these plasters. He affirms that *headache* is cured by one worn just below the breast-bone; that one placed over the navel will cure hysterics, as well as dysentery, and affections of the bowels."

CURE OF VARICOSE VEINS.

City Point, Va., January 24, 1865.

T. ALLCOCK & CO:

Gentlemen: seeing your notice in the Police Gazette, I got four of your Porous Plasters and placed them on the parts where the pains were most severe, and in less than twelve hours could walk as well as ever. I could hardly believe it, if was so well pleased. I wanted to see if the lameness would come back on me or not, so I did more walking that day than I had done in a week. The next day I had some pain in my hip, but I put on a plaster there and in two hours the pain was all gone, nor have I felt it since. Certainly they are the best application for the relief and cure of pains in the joints and back, and for varicose or enlarged veins. I have my leg on, and it would not be without them on any account.

Yours truly,
JOSEPH GATEWOOD.

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the dark blotch spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. Dr. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for those discolorations, which is at once prompt, infallible and harmless.

William W. Palfrey, Esq., acted as umpire, and C. S. Whittemore as scorer.

☞ A correspondent yesterday suggested "Progress," in the shape of the proposed new Bridge across the North Mill Pond. It ought to be built, and that speedily; and also another across the South Pond. If Portsmouth was a new city, instead of an old one, everybody would say that these ponds should be bridged. Well, why not now? And as to the new "Elwyn Park," which we recently proposed to be laid out near the South Pond,—we have no doubt that the owner of that fine slope would devote the land for the purpose, if the City and the public would take hold of the matter aright. It need not and ought not to cost the City very much, but it can and ought to be done—mainly by private subscription. And in this connection we must and will say, that to us it has always seemed unaccountably strange, that while so many "Sons of Portsmouth," at home and abroad live and die with so much money that they can "hardly" find heaven—few or none of them ever think of doing a thing for the good old City or any of its Societies. As to all such matters of progress—we don't see why they are not as feasible and desirable, on a proportionate scale, in Portsmouth, as in Boston, Portland or New York. Yet, while it is very common to commend enterprise and publick spirit elsewhere—to many of our citizens allow themselves too think that Portsmouth is too poor, or too dull, or too old, to be improved, which to us is all gammon. None of these things *do themselves* anywhere; but live men have to do them. And where is there a better chance than here?

Communication.

THAT NEW ROAD.—"Economy" wants to know why the cheapest route was not selected for the new highway to Newington? Well, simply because the Board of Mayor and Aldermen refused to do it, when requested by the petition last year; and the County Commissioners, when called on the ground this year, did what the new petition asked them to, (and what alone we believe they *can* do,) and laid out a much more expensive route.

So much for false economy; for while the old road, if continued through, would cost but a trifle, the new one, as projected, will foot up a round $10,000 or more. We wonder when towns, cities and individuals will learn that it is useless and more than useless to oppose new roads,—so long as the petitioners have the safety-valve of the County Commissioners open to them? It is of no use to kick against the pricks of progress—especially the progress of new roads. FACT.

☞ The Dover Enquirer states that the body of a man was found in the Piscataqua river, near Dover Point, on the 22d inst. He had but one leg, and from letters found in a memorandum book, it is supposed to be the body of Daniel Sherburne, formerly of this city, who has been missing since Saturday evening, April 14. His death must have occurred some weeks ago, as his body was in a state of putrefaction, so that no features could be recognized.

☞ A friend, who is no doubt correct, suggests that Mr Thos. B. Laighton was not Post Master of Portsmouth; but only *head clerk* of that office under Mr. Greenleaf. Even so: we remember him well as Post Master *de facto*, having received Mail Matter promptly and correctly at his hands very often,—and so we had forgotten that he was not also P. M. *de jure*.

POLICE COURT, May 24.—Man is prone to drink and be drunken, if we may draw an inference from the individuals who appear before this court. Patrick Meade was recruited for agricultural duties at the City Farm, having been guilty of too free an indulgence in stimulants.

The Eye, Ear, Catarrh,
—AND—
THROAT!

MRS. MANCHESTER,
The Independent
CLAIRVOYANT!
—AND—
ECLECTIC PHYSICIAN!

From 618 Broadway, New York, will arrive in PORTSMOUTH May —th, and take rooms at the FRANKLIN HOUSE, for a short time only.

A Clear Case of Clairvoyant Sight.

DEAR MADAM:—Permit me to tender you my sincere thanks for the cure you have effected on my child. My daughter, ten years old, was taken sick last January in a very singular manner. We died in six of the Best Physicians in the city; they said the case was a very singular one—they never saw one like it—and came to the conclusion they could not tell what the disease was. Some friends advised that we should call on a Clairvoyant: there being none in Providence that they could rely on, we wrote to Mrs MANCHESTER, in Portland, describing her symptoms. She immediately examined her case and told that she had a Snake in her stomach; told where she had drank it, and that it had been growing, and from the best of her judgement she should think it ten or twelve inches long. I gave the child her prescription and in a few hours the child ejected the snake alive from the stomach; it was measured and found to be eleven and a half inches long. We have it preserved, that all may see for themselves that this statement is really so. I am confident that the child could not have lived, had it not been for Mrs Manchester, and we feel as though she never could be repaid for her skill. MARY RAY,
GEO. W. RAY
Providence, R. I., Nov. 10, 1865.

BANGOR, May 15th, 1865.

MRS MANCHESTER—Dear Madam: When you were in Bangor last Summer, I called to see you with a child of mine that had been sick for four years. I had taken her to a number of physicians, and none could tell what ailed her or even her symptoms You examined her case, and told me exactly her symptoms from the commencement of her sickness, which were very peculiar; also told me there was something alive in her, and also said there was a number of them, and told me that she drank them from the rain-water cistern. You said that you would not warrant a cure, but would try and do the best you could for her. She commenced taking your medicine in August last, and from that time till December, the child passed off large quantities of what we call *Tadpoles*, from rain water, and I think, and am certain that the child must have died had it not been for you. And I advise everybody to see Mrs Manchester, for I know that she has the power of knowing the condition of a person diseased better than any Physician that I have ever heard of. Please have this published, and let the world know that there is one of the practices what they profess to.

Very truly and gratefully yours,
GEORGE E. MARTIN,
my8ins MARY L. MARTIN.

CHOLERA! CHOLERA!

Prof. Bouve's Atmospheric Purifier.

This article has been extensively used as a Deodorizing Agent by the governments of Egypt, Turkey and France, during the late Cholera epidemic, and is the most perfect disinfectant extant. It effectually destroys all noxious gases and effluvia arising from decaying animal or vegetable matter, and for purifying hospitals, Vaults, Drains, Cess pools, &c, cannot be surpassed.

Important.

DR. STEVENS, No. 5 Daniel Street, would give notice that he has REDUCED the price of Permanent Sets of ARTIFICIAL TEETH on the Vulcanite Base, to that charged for them before the war.

He would also give notice that he is doing a new style of work for Under Sets of Teeth, called the COMBINATION BASE (Gold and Vulcanite) which produces by far the finest work offered to the public. The price is something in advance of that charged for the Vulcanite alone, but the strength, durability, ease of bearing, and beauty of finish obtained by it, more than double the value of the teeth. mh12

Surgeon Dentist,
FIRST ASSISTANT in the Office of Dr. STEVENS, No. 5 DANIEL STREET.

DR. WEED can be found at his place of business at all hours of the day and night, for the performance of any of the operations that come within the call of his profession.

Dr. A. P. STEVENS, No. 5 Daniel St., makes the saving of ULCERATED and painful front teeth, a speciality in his business. He also succes-fully restores to their natural shape broken or badly decayed teeth, by building out corners and sides with PURE GOLD. (In many cases teeth so restored are as strong as any of their brother teeth, and in all cases are found perfectly eminently useful for a long series of years.) DISEASED TEETH, in all stages, treated, and in a very large majority of cases successfully cured.

Charges for such operations necessarily high, but nothing in comparison to the value of the teeth. mo14

WHICH IS THE
Leading Life Insurance Comp'y
IN THE UNITED STATES?

Which is the Safest and the Cheapest?

The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of the

MUTUAL BENEFIT
LIFE INSURANCE COMPANY,

to be the *largest*, the "expense of management" the *smallest*, the "ratio of Assets to Liabilities," or the *security* furnished to its members, the *largest* of any life institution in the country.

Premiums received in 1864	$2,089,072
" " " 1865	3,029,987
Ratio of expenses to premiums rec'd in '64	19.96
" " " " " " '65	19.16
Ratio of assets to liabilities, Jan. 1, 1865	121.86

The inevitable conclusion from these official facts, is that the

MUTUAL BENEFIT LIFE Insurance Company

IS THE BEST AND THE CHEAPEST.

Because its NET ASSETS are proportionably LARGER than those of any other Life Insurance Company in the United States.

Because its "Managing Expenses" are LESS, and it has a LARGER SURPLUS to divide among its members than any Company in the United States.

QUERY. Will some one inform the public of that mysterious process by which a Company with a smaller proportionate assets and expenses very much larger than another, can yet divide *more* to its members, and insure them at *less cost?* How is it done? Where does the money come from?

Every intelligent man will see at once that it *cannot be done.* Yet we have Agents among us that make this their boast.

Any one disposed or intending to insure can be furnished with the requisite information by applying to

Morning Chronicle.

SANTA ANNA.—The Mexican Club of New York, which embraces a large number of responsible and patriotic Mexicans, have adopted a paper in regard to General Santa Anna, in which they vigorously protest against any recognition of him as the possessor of influence or responsibility concerning the affairs of the republic. They style him a "most odious tyrant," who betrayed the cause of native independence, an "oppressor" of the Mexicans, "the source of the evils and calamities of Mexico," and otherwise denounce him as a man not to be trusted.

— A man proves himself fit to go higher, who shows that he is faithful where he is.

— Taglioni, the great ballet dancer, is yet living, and is 88 years old.

— The meanest reason for getting married that was ever heard, was from a man who said he wanted some one to part his back hair for him.

— "My 'pinion is," said a philosophical old lady of much experience and observation, "that any man as dies on washin' day does it out of pure spite."

— At a medical examination, a young aspirant for a physician's diploma, was asked—"When does mortification ensue?" "When you propose, and are rejected," was the reply that greeted the amazed questioner.

— A half drunken ruffian stopped a quiet Pittsburger the other night with the rough salutation: "Here, stop now, what have you got in your pocket?" "A three-barreled revolver," was the instant reply. The burger passed unmolested.

— The other night at a hotel a convivially disposed gentleman, retiring late, walked independently and somewhat noisily up the stairs and along the corridor to his room. "Why, what a noise you make," said his wife, who heard with some anxiety the heavy tread of his boots, "how heavily you walk." "Well, my dear," was the gruff response, "if you can get a barrel of whisky up stairs with any less noise, I should like to see you do it."

QUICK CURES AND LOW PRICES.

For Twenty Years established in this Country exclusively

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the latest and most approved remedies for all these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Buboes, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of these Doctors' Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their manhood, thereby becoming the victims of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and manhood. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps inclosed, will secure a copy by return mail. Dr Teller has devoted a lifetime to the care of those diseases upon which his books treat

TO THE LADIES.

Dr. Teller still remains the only Agency in America, for the sale of Dr. Vichol's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of ladies. In the price of $1, (the price per box,) these Pills will be sent by mail or express, to any part of the world, secure from curiosity or exposure.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice. N. B.—No students or boys employed. Notice this, address all letters to

DISARMED!!!

The Chief Causes of Pestilence Destroyed.

DR. E. R. COURARET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their laboratory, Nos. 208, 209, and 302 Henry street, N. Y.—Office, 62 Cedar street.

This Company organized on a permanent basis, with Courtaret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish its DISINFECTING FLUIDS for sick rooms, nurseries, urinals, water closets, privies, cesspools, sewers, gutters, ships, railroads, hospitals, prisons, and public institutions of all kinds, slaughter houses, offal and fat-boiling establishments; all kinds of manures (*immensely* increasing the fertility of the latter), and other situations and offensive gases exist. These agents are deodorizers, antiseptics, antiputrescents, and disinfectants in the strictest sense of the words. They remove noxious gases and odors by chemical principles—leaving in their places *healthful* and *invigorating* substances, and are *destroyers* of poisonous gases—not injurious to utensils in which they are used. The attention of medical and scientific men is respectfully invited to these disinfectants. Attached are testimonials in favor of this great discovery, which, with hundreds of others, can be seen at the Company's office

To the President of the New York Disinfecting Co.:

Dear Sir: It is all it is represented to be. We have used many disinfectants, but now we consider that we have found an article which surpasses all others as a remedy against all bad odors. T. ROESSEL & CO.

NEW YORK, April 20, 1866.

To the President of the New York Disinfecting Co:

Dear Sir: We pronounce it without exception to be the best we have ever found. Our success upon every matter is complete and instantaneous.

HERALDIC DEVICES.—We clip the following from the Boston Herald:

A dead rat produces a cent in Louisville.

What are the Fenians doing? Are they wearing off the green?

The rebel leaders, who were supposed to be actuated by a desire to be President, are generally becoming presidents—of railroads.

Some one has invented a new telegraph. It is proposed to place a line of women 30 steps apart, and communicate the news to the first as a secret.

IMPORTANT TO HOUSEKEEPERS.—An Englishman has invented a process of purifying rancid butter, and making it as sweet as if just from the churn. The butt is placed in a cylinder, the sides of which are pierced near the bottom with a number of small holes. The machine is then placed in the water, a close fitting cap is then screwed down on the butter, by which it is forced through the holes in long, fine threads. By this process, it is stated that "a most vile tasting specimen of Irish butter" was "transformed into a sweet smelling, savory tasting article." Possibly this is the same plan employed in New York in Manufacturing "June butter" out of what is little better than waggon-grease.

PETROLEUM LUBRICATORS.—The New Bedford Standard states that the Union Mills of Fall River have just had six thousand cases of calicoes thrown back on their hands, damaged by petroleum oil, which was used as a lubricator on the looms, having spattered on the cloth. All the washing and bleaching the fabric was subjected to at the print works failed to eradicate the petroleum, and the consequence is a chemical "spotting" effect on the colors.

— A warning needed at all fashionable assemblages—Look out for paint.

— "Sal, what time do your folks dine?" "As soon as you goes; that's missus' orders."

— It is said that paint on lightning rods destroys their conducting powers.

— Some constables in Provincetown recently seized a barrel of whiskey while the same was being transported illegally; and being required by the statute to convey it to a place of safety, they committed it to the jail in Provincetown, where it is now imprisoned, and where it is the only occupant. No writ of habeas corpus has yet been issued.

We know some parties who would like to be in the same cell with that criminal.

Portsmouth N. H.

SATURDAY, MAY 26, 1866.

GOLD, Friday, 139 1-2, at 1 P. M. It opened at 141. The European news has given it an upward turn. $5,000,000 go to Europe to-day. Some writers are deceiving their readers by the pretence that our affairs would have been better to-day if we had got back to specie payments awhile ago. But if in some respects it might have been so, in others it would have been worse, for we should have had failures on every hand. Prices of merchandise, flour, wheat and cotton rose with the gold.

CONGRESS, it is said, will pass a new Freedmen's Bureau Bill. It is a curious fact that the law now in operation says, in its first section, There shall be "a Bureau of Refugees, Freedmen, and Abandoned Lands." One might suppose, from the yells against it, that it had no provision for any one who is not black; but in fact, the *Refugees* stand first.

WASHINGTON ITEMS. — Washington special dispatches say that Judge Thomas of the Virginia Circuit Court has opened the question of the Constitutionality of the Civil Rights bill by deciding against the admission of the testimony of negroes in a civil suit in which white men alone were the parties.

The statement that the Senate had reconsidered the rejection of Frank Blair's nomination is incorrect.

It is undestood that Mrs. Jeff. Davis has gone to Washington to urge that her husband be transferred to some northern prison, where there is less danger from the peculiar diseases prevalent at Fortress Monroe.

The trial of Davis will probably be postponed until August or September next, owing to the strong feeling on the subject in Richmond. Much animosity prevails against the Grand Jury who indicted him, and until this subsides, the Attorney General thinks it best to delay the trial. [How *beautifully* rebeldom is restored, or reconciled, or reconstructed.]

NO GOOD REASON.—A business paper says, speaking of the Serenade Speeches:

We are at a loss to see why Mr. McCulloch should go out of his way to assail and depreciate members of Congress as "Constitution Tinkers," "Jupiter Tonans," &c., &c. It is surely very important that a good understanding and good feeling should subsist between Congress and the Treasury Department at this time; but these gratuitous attacks can have no such tendency. If Secretary McCulloch heartily believes in the President's policy, let him do all he can for its support within his appropriate sphere, and let him leave to Congress the same liberty of action. In short, the same rule applies to all officials at Washington. Let them confine themselves to their duties under the best light they can command, and let them drop proselyting. The people are making up their own minds about all these questions. They are looking to the facts; and the influence of patronage and of great names will not affect one man in a thousand. They expect their representatives in all branches of the government to agree, at any rate to *try* to agree, in the work of reconstruction. If they cannot, the decisive voice of the people must be heard, first thro' their usual organs of expression, and finally through their renewal or displacement of their present public servants.

☞ A Memphis, Tenn., dispatch of May 23, says:

Gen. Fiske made a haul to-day of labor brokers of the class who have been demoralizing freedmen to induce them to insist of their employers higher wages. Many were bounty-jumpers during the war.

Another dispatch from Memphis, May 24, says:—

A card appeared yesterday morning in the Bulletin, signed by D. H. Roberts, charging Gen. Kunkle, Superintendent of the Freedmen's Bureau, in connection with C. C. Smith of the Intelligencer, with refusal to contract for the employ of freedmen without a bonus of $15 apiece. The same statement was telegraphed in advance to the papers in several of the northern cities. It appears that dishonorable propositions were made to the officers of the Bureau, which failed to accomplish their purpose, and Roberts resorts to the correspondent of a northern paper, who publishes the card, and another correspondent published it in order to bring the Bureau into disrepute. A statement appeared in all the papers this morning, signed by Roberts, denying and *retracting* everything in his card of the day before.

The Congressional Committee to-day examined a number of witnesses. The investigation is likely to cover more ground than was expected, and to show that the riot was more extensive in results than was previously reported.

A NEW FEATURE IN THE EPISCOPAL RITUAL.—At St. Luke's (Episcopal) Church New York, on Tuesday morning, Bishop Potter consecrated a young lady to good works, giving her the name in religion of Sister Agnes. A society has been formed in the church under the title of St. Mary's Sisterhood, and several of the members attired in robes similar to those of the Roman Catholic Sisters of Charity occupied pews near the altar. Bishop Potter was assisted in the ceremonies by seven other clergymen. Communion being administered, the lady was led to the altar, and there solemnly consecrated to religious service. The church was crowded upon the occasion.

THE REIGN OF TERROR IN TENNESSEE. The following letter was sent to General Schenck at Washington, and forwarded to the N. Y. Tribune with permission to publish it. We have Gen. Schenck's authority for saying that it is from a perfectly trustworthy and truthful man, who is fully able to substantiate all he says. It is such statements as these that justify the sending a Congressional Committee to Tennessee.—Persecution of the negro now at the South means hatred of Emancipation, and a determination to set the laws of the Union at defiance, just as the negro riots in New York in the summer of 1863 meant aid to the Southern rebellion. Federal troops were used in the one case, and Federal authority must be resorted in the other to sustain the laws of the United States. The following letter is only additional evidence of that necessity:

MEMPHIS, May 4.

My Dear General:—I have intended writing you ever since I came to Tennessee, but I have been expecting from day to day that the worst would come, and I could tell you all in one letter. I trust the worst *has* come. This city has been, during the last few days, the scene of most inhuman and devilish outrages. A difficulty occurred between a few colored soldiers and the police of the city. It has grown into a most horrible riot. Every colored church and school-house had been burned. Thousands of dollars' worth of property have been destroyed, more than forty colored people have been shot in cold blood, women have been burned in their houses, women have been shot down walking the street.

The most fiendish outrages have been committed. Every man who wore a blue uniform or a black skin was in danger of his life, and he is to-day. I have no doubt there is a secret organization backing up and sustaining this thing. It has been necessary to send all the lady teachers North to prevent their being murdered. The United States flag is no protection unless encircled by United States bayonets.

Something must be done for this country; loyal men, black and white must be protected. This country is no more fit to be a limited into the Union than Jeff. Davis is to be President. It behooves the Radical men in Congress to stand by the right, and when it becomes necessary, the men who fought the last war are ready to fight another.

I have seen eleven fires blazing at one time; I have seen women shot down; I have seen men murdered: and all this for no other reason and for no other offence than that they were loyal. If there is any power in the Government let the loyal men of the land be protected.

One of our officers has been shot down in the streets of Grenada, Miss., for no other reason than that he wore a blue uniform and was doing duty as an officer of the Government. Throughout this whole country such a spirit exists that a man cannot call his life his own and proclaim that he is a Union man. What I say, General, I will back up with incontestible proof, and will furnish the affidavits to establish every assertion.

I hope that this mockery will be ended—sending officers of Government into this country to protect the people whom you have set free, without the power to enforce a $500 judgment. All rests with the men who constitute the majority of Congress. Such men as you need no backing up; and to those men who do, I have only to say that they can count on the men who brought the country out of the last Rebellion. They will stand by them, let come what may.

REPORT ON THE MEMPHIS RIOTS.—Major Gildreth, the officer sent by General Howard to investigate the Memphis riots, has made a partial report on the subject. From it we extract the following:

"The civil authorities have not taken the slightest notice of these terrible riots, and seem to regard them as simply a skirmish between the police and negroes. It was certainly a very one sided skirmish, as from the testimony no resistance was made by the negroes after the first night. The citizens have been advised to hold a meeting and denounce the conduct of the mob, but still they either neglect or refuse to do so. The papers of Memphis are at the root of the whole matter. They have incited riot and murder for months, and this is only a legitimate result of their inflammatory and incendiary articles, and these poor whites, between whom and the negroes a feud has always existed, have been but their tools."

RELIEF TO THE INHABITANTS OF LOUISIANA.—Gen. Baird, commissioner of the Freedmen's Bureau in Louisiana, reports that he has taken measures to afford relief to the inhabitants of the overflowed districts of that State. His first contribution was fifty barrels of flour and twelve barrels of pork. In this case, as in many others, the Bureau has been a handy piece of furniture for white people, though one of the poor whites did kick at it.

AN IMPOSTOR.—A fellow representing himself as George Murdough, George W. Murdough of Manchester, N. H., and as being a member of Lafayette Lodge, No. 41, has been imposing upon the Masons of Taunton, of Trenton, N. J., Woonsocket, R. I., and other places, and obtaining aid and money from them. He was at Woonsocket last Saturday. The brethren at Manchester know nothing about him and earnestly desire that he may be arrested and made to suffer for his rascalities.

☞ The Worcester Spy states that the Charter Oak Mutual Coal Co., of Hartford, Conn., is a mere swindle, and has been so from the beginning. People in Worcester have put $22,000 into it, but they can't get it out.

INSTALLATION AT WARE, MASS.—On Wednesday, May 9th, the Unitarian Society at Ware welcomed a new laborer to their pleasant town and pretty church. The Council was organized by the choice of Rev. R. R. Shippen of Worcester, Moderator; and of Rev. E. J. Galvin of Brookfield, Scribe; and proceeded to instal Rev. WILLIAM G. NOWELL. The order of exercises was as follows: Introductory prayer and reading the Scriptures, by Rev. Charles A. Humphreys; Sermon, by Rev. H. W. Foote; Prayer of Installation and Charge, by Rev. Rush R. Shippen; Right Hand of Fellowship, by Rev. Edward G. Galvin; Address to the People, by Rev. John W. Hudson, late Pastor; Concluding Prayer, by Rev. John H. Moore; Benediction by the Pastor.

The Sermon was from John vii. 32: "And ye shall know the truth, and the truth shall make you free." It undertook to show that this knowledge of the truth which Christ promised to his disciples was not the intellectual perception of facts or dogmas, but was a spiritual fidelity alike by the individual and by the Christian Church. An interesting circumstance of the installation was the fact that most of those taking part were fellow students at the Divinity School with Mr. Nowell. Q.

☞ The following appointments are made for the Portland District, M. E. Church:

Kennebunk—S. Allen.
York—J. Collins.
Kittery—A. Hatch.
South Eliot—J. O. Thompson.
Eliot—E. Robinson.
Scotland—J. W. Sawyer.
South Berwick and Berwick—C. W. Morse.

☞ The church that Mr. Peabody is to build at Georgetown, Mass., is not for the Beecher congregation, but for the old church on the primitive foundation, holding to the doctrines of his ancestors. He has already purchased the site for the building, and last Sunday worshipped with the *new* society that came off from Mr. Beecher's ministrations. That is quite another thing; but no matter: both sects are to have houses.

☞ One of the most fashionable establishments in the city of New York is that of Mad. Demorest. She is the head and acknowledged leader of fashion. She has taken in for a series of years respectable colored girls who are anxious to learn the trade of dress making. Neat and industrious, they have shown taste and tact. The experiment has not only proved satisfactory, but has sent out scores who are earning a good living. Some of the most elegant dresses of the city belles are made by the fingers of the sable daughters.

— The ladies of Lansing, Michigan, are adopting a new style of dress. It appears to consist of cloth pants like those worn by men, and an old-fashioned Indian "wampus," or sack, which comes just above the knees. Everything is said to hang from the shoulders, doing away with tight lacing, and alleged to be very conducive to health.

— Some "dry" joker stole a city watering trough in Biddeford a few nights since.

— Mr. President,—I wish the friends in the forepart of the meeting would speak up, so that the friends in the back part of the meeting can hear what is going on in the front part of the meeting. Friends in the back part of the meeting feel as much interested as the friends in the forepart of the meeting; it is highly necessary that friends in the forepart of the meeting should speak up, so that friends in the backpart of the meeting can hear what is going on in the forepart of the meeting, especially if they are saying anything about the J. Monroe Taylor Gold Medal Soap, which every one says is so good. 91

BETTER LATE THAN NEVER.—If your teeth are going, and you have not yet tried the "SOZODONT," as a preservative, try it now. Abandon all other dentifrices, and give it a fair chance; it is guaranteed to be as harmless as water. 14

— Petroleum lubrications do not seem to be the right thing. It is said that a Massachusetts Company have had 6000 cases of calicoes thrown back on their hands, damaged by petroleum oil, which was used as a lubricator on the looms, and spattered on the cloth. All the washing and bleaching the fabric was subjected to at the print works failed to eradicate the petroleum, and the consequence is a chemical "spotting" effect on the colors.

— At a town meeting last week, in Haverhill, Mass., the Selectmen were instructed to charge $50 per night for the use of the town, hall for theatrical and minstrel performances, and also to refuse a license to any such companies to occupy any other hall.

— New crevasses and more flooded country are reported in New Orleans dispatches of the 23d.

GENTS:—Having used, and witnessed the beneficial effects of PERRY DAVIS' PAIN KILLER, I take great pleasure in recommending it to the public as the very best Family Medicine with which I am acquainted. In this establishment are employed nearly one hundred persons, and your PAIN KILLER has been used with the most astonishing results. For FOUR YEARS not a single severe case of Cholic, Summer Complaint, or Dysentery, but has yielded like magic to the curative powers of the "Killer;" and for Cuts, Bruises, etc., it is in almost daily use, and with like good effects. REDUCTION IN PRICE
OF THE
AMERICAN WATCHES.
MADE AT WALTHAM, MASS:

In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed

With Gold at Par,

so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of

More than 200,000 Watches,

have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.

We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:

1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy &, Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.

The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,

ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED

to be the best time-keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit order for single watches.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

ALLCOCK'S POROUS PLASTERS.—A celebrated physician says "he was amazed at the great number of beneficial indications produced by one of these plasters. He affirms that *headache* is cured by one worn just below the breast-bone; that one placed over the navel will cure hysterics, as well as dysentery, and affections of the bowels."

CURE OF VARICOSE VEINS

City Point, Va., January 24, 1865.

T. ALLCOCK & Co.:

Gentlemen: Seeing your notice in the Police Gazette, I got four of your Porous Plasters and placed them on the parts where the pains were most severe, and in less than twelve hours could walk as well as ever. I could hardly believe it, I was so well pleased. I wanted to see if the lameness would come back on me or not, so I did more walking that day than I had done in a week. The next day I had some pain in my hip, but I put on a plaster there and it two hours the pain was all gone, nor have I felt it since. Certainly they are the best application for the relief and cure of pains in the joints and back, and for varicose and varied veins. I have ever known, and I would not be without them on any account. Yours truly,

JOSEPH GATEWOOD.

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Livespot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for they discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Local.

IN BOARD OF ALDERMEN, Thursday evening, petitions of Henry C. Gerrish and Henry F. Gerrish for sidewalk in State St., were granted.

Bonds of William L. Philbrick, Superintendent of City Farm, were accepted.

An Ordinance received from the Common Council, relating to dealers in old junk, was passed.

The following resolution was passed—Ayes,—Ald. Hodgdon, Henderson, Wilson, Martin and Ham, 5; Nays—Ald. Ayers and Davis, 2:

Resolved, that —— be invited by the City Government of Portsmouth to deliver an oration in this city on the approaching anniversary of our National Independence: also that —— be invited to read the Declaration of Independence and —— to deliver a poem on that occasion.

Ald. Henderson, Davis and Ayers were appointed a committee to select persons to be invited agreeably to the foregoing Resolution, and to report costs.

Petitions of Engineers and Firemen of Steam Fire Engines for increase of pay, were referred to Committee on Fire Department.

The Appropriation Bill which had passed the Common Council, amounting to $147,038.92 was read and referred to Com. on 2nd Reading of Bills; the said Committee reported back the bill with amendments.

A motion to strike out the appropriation of $10,000 for ward room in Ward Three was negatived—yeas, Ald. Davis, Wilson and Foster, 3; nays, Ald. Hodgdon, Ayers, Henderson, Martin and Ham, 5. An amendment fixing the sum at $7000, was passed.

The appropriation of $3000 for sprinkling streets was stricken out, and $3000 added for repairs on outside of City Rooms.

The appropriation of $4200 for pay of firemen was stricken out, and $3000 inserted.

The appropriation of $10,000 for purchase and alteration of Academy having been stricken out, Ald. Ham moved a reconsideration. Lost—yeas, Ald. Henderson, Martin, Foster and Ham, 4: nays, the Mayor, Ald. Ayers, Davis, Hodgdon and Wilson, 5.

The rules being suspended, the bill was read a second time and passed as amended—the appropriations amounting to $122,838 92.

IN COMMON COUNCIL, the Appropriation Bill was passed; also resolutions relative to the collection of taxes, and bills in amendment of Ordinance No. 104, and fixing the pay of firemen.

Communication.

Messrs. Editors: When the time arrives (and it seems not far distant,) that a public meeting shall be called to lay out the work for a celebration on the coming Fourth, we hope to see a large gathering and a general manifestation of interest in the matter by every one. There are many who are not willing to work, who will subscribe liberally towards paying for such an undertaking. Those who reap a good return of trade on such days, should be willing to give some of the profits to the cause. And there are hundreds of ways in which citizens and young folks can help towards making the celebration attractive and successful. To have the children of the schools properly represented, it will be necessary that the teachers should take an active part and give their influence towards this patriotic movement. Carriages and other vehicles could be procured and paid for by a slight donation from each scholar, and the various schools could vie with each other in furnishing the most attractive turn-outs.—There is considerable work in projecting and in carrying out a celebration, but when the people take hold *en masse*, it is a pleasant and easy task to all concerned. Let the Peace, which has again dawned over our glorious country, be again celebrated on the coming Independence Day. **

MRS. MANCHESTER,
The Independent
CLAIRVOYANT!
—AND—
ECLECTIC PHYSICIAN!

From 618 Broadway, New York, will arrive in PORTSMOUTH May —th, and take rooms at the FRANKLIN HOUSE, for a short time only.

A Clear Case of Clairvoyant Sight.

DEAR MADAM:—Permit me to tender you my sincere thanks for the cure you have effected on my child. My daughter, ten years old, was taken sick last January with a very singular manner. We called in six of the best Physicians in the city; they said the case was a very singular one —they never saw one like it—and came to the conclusion they could not tell what the disease was. Some friends advised that we should call on a Clairvoyant; there being none in Providence that we could rely on, we wrote to Mrs MANCHESTER, in Portland, describing her symptoms. She immediately examined her case and told that she had a Snake in her stomach, told where she had drank it, and that it had been growing, and from the best of her judgement she should think it ten or twelve inches long. I gave the child her prescription and in a few hours the child ejected the snake alive from the stomach; it was measured and found to be eleven and a half inches long. We have it preserved, that all may see for themselves that this statement is really so. I am confident that the child could not have lived, had it not been for Mrs Manchester, and we feel as though she never could be repaid for her skill. MARY A. RAY,
GEO. W. RAY.

Providence, R. I., Nov. 10, 1865.

BANGOR, May 15th, 1865.

MRS MANCHESTER—Dear Madam: When you were in Bangor last Summer, I called to see you with a child of mine that had been sick for four years. I had taken her to a number of physicians, and none could tell what ailed her or even her symptoms. You examined her case, and told me exactly her symptoms from the commencement of her sickness, which were very peculiar; also told me there was something alive in her, and also said there was a mate to one of them, and told me that she drank them from a rain-water cistern. You said that you would not warrant a cure, but would try and do the best you could for her. She commenced taking your medicine in August last, and from that time till December, the child passed off large quantities of what we call *Tadpoles*, from rain water, and I think, and am certain that the child must have died had it not been for you. And I advise everybody to see Mrs Manchester, for I know that she has the power of knowing the condition of a person diseased better than any Physician that I have ever heard of. These facts have been published, and let the world know that there is one who practices what they profess to.

Very truly and gratefully yours,
GEORGE E. MARTIN,
my8ins MARY L. MARTIN.

DR. STEVENS, No 5 Daniel Street, would give notice that he has REDUCED the price of Performance of ARTIFICIAL TEETH on the Vulcanite Base, to that charged for them before the war.

He would also give notice that he is doing a new style of work for Under Sets of Teeth, called the COMBINATION BASE (Gold and Vulcanite) which produces by far the finest work offered to the public. The price is something in advance of that charged for the Vulcanite alone, but the strength, durability, ease of wearing, and beauty of finish obtained by it, more than double the value of the teeth. mhl2

WHICH IS THE
Leading Life Insurance Comp'y
IN THE UNITED STATES?

Which is the Safest and the Cheapest?

The following figures are from the later Reports of the New York Insurance Commissioner, showing the Amount of business of the

MUTUAL BENEFIT
LIFE INSURANCE COMPANY,

to be the *largest*, the "expenses of management" the *smallest*, the "ratio of Assets to liabilities," or the *security* furnished to its members, the *largest* of any like institution in the country.

Premiums received in 1864.....$2,209,072
" " " 1865.....$2,[illegible]
Ratio of expenses to premiums paid in 1864 [illegible]
" " " " " 1865 [illegible]16
Ratio of assets to liabilities, Jan. 1, 1865.....[illegible]55

The inevitable conclusion from these official facts, is that the

MUTUAL BENEFIT LIFE
Insurance Company
IS THE BEST AND THE CHEAPEST.

Because its NET ASSETS are proportionably LARGER than those of any other Life Insurance Company in the United States.

Because its "Managing Expenses" are LESS, and it has a LARGER SURPLUS to divide among its members than any Company in the United States.

QUERY. Will some one informs the public of that mysterious process by which a Company with a surplus proportionably *much less*, and expenses *very much larger* than another, can yet divide *more* to its members, and *cost less* to do it? How is it done? Where does the money come from?

Every intelligent man will see at once that it *cannot be done*. Yet we have Agents among us that make that their boast.

Any one disposed on attending to insure can be furnished with the requisite information by applying to

HENRY A. YEATON, Agent.

[WRITTEN FOR THE TRAVELLER.]

PINK.

Ten long years his cunning play
Lightened many a gloomy day,—
As for daily meat and drink,
Comes to me my little Pink.

Now he frisks along the floor,
Now he sits behind the door;
Oh! so cunning! Why, I think,
Never lived a dog like Pink!

Faithful watcher day and night,
Always ready for a flight!
Now he's off as quick as wink!—
What a very Puck is Pink!

Little dog, in Nature's chain,
You were fashion'd not in vain;—
Just as I, you are a link,
And a fellow-creature, Pink!

So I'll take good care of you,
Be your nurse and playmate, too;
Till the spark of life shall sink—
Will I love my little Pink!

ATTEMPT AT POISONING.—A boy about sixteen or seventeen years of age, who has been in the employ of Mr. John R. Ireland, of Danbarton, for about a month past, attempted to poison the whole family last Sunday afternoon. The family went to church, leaving this boy at home alone, and in their absence he sprinkled strychnine upon some meat designed for supper. Mr. Ireland and his wife and one of their boys partook of the meat, but had not eaten much before Mrs. I. discovered something wrong in the taste of the food, and a closer inspection revealed the strychnine, while all began to experience nausea and distress. As they had a small quantity of strychnine in the house, immediate search was made and it was found to be missing. A dose of mustard acted as an emetic and relieved the sufferers till the physician arrived, who said there were enough of the poison on one slice of the meat to have killed them all. The boy was arrested and confessed the deed.—*Manchester Mirror.*

REPRESENTATION OF THE SOUTH.—A member of the Connecticut Senate, on Tuesday last, introduced a resolution requesting the State Senators and Representatives in Congress to favor the admission of the Tennessee delegation to Congress without delay. He hoped the resolution would pass without discussion, as the principles embodied in it were universally acknowledged to be right. The yeas and nays were called, and the resolution passed unanimously.

NEOLOGY.—A new word has been coined in Paris, illustrating the political conduct of Count Von Bismarck; it is "Bismarquer," a synonym for "tricher," to cheat at cards. One of our Senators in Congress has a similar honor, for we read a few days ago of an intemperate fellow who was arrested for "McDougallizing" in the streets.

— It is stated that George Peabody has settled the church controversy in Georgetown, Mass., by proposing to build a new meeting-house for the seceding Congregationalists, under the lead of the Rev. Mr. Beecher.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

CHOLERA
DISARMED!!!
The Chief Causes of Pestilence Destroyed.
DR. E. R. COURARET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, Nos. 296, 300, and 302 Henry street, N. Y.—Office, 42 Cedar street.
This Company organized on a permanent basis, with Courtaret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish its DISINFECTING FLUIDS for sick rooms, nurseries, urinals, water closets, privies, cesspools, sewers, gutters, ships, railroads, hospitals, prisons, and public institutions of all kinds, slaughter houses, offal and fat-boiling establishments; all kinds of manures (*immensely* increasing the value of the latter), and wherever poisonous and offensive gases exist. These agents are deodorizers, antiseptics, and disinfectants, and disinfectants in the scientific meaning of the words They remove noxious gases and odors by chemical principles—leaving in their place *healthful air;* they are DESTROYERS, and *not merely absorbents* of poisonous gases—not injurious to utensils in which they are used. The attention of medical and scientific men is directed to these disinfectants. Attached are testimonials in favor of these great discovery, which, with hundreds of others, can be seen at the Company's office.
DELAVAN HOUSE, Albany, March 30, 1866.
To the President of the New York Disinfecting Co.:
DEAR SIR: It is all it is represented to be. We have made many trials of disinfectants, but now consider that we have found an article which surpasses all others as a remedy against all bad odors. T. ROBERT & Co.
NEW YORK, April 9, 1866.
To the President of the New York Disinfecting Co:
Dear Sir: We pronounce your disinfecting fluid to be the best we have ever known. Its effect upon every matter is complete and instantaneous.

IS ANIMAL FOOD NECESSARY?—Mr. Curling, seventeen years agent on the Devon estate in Ireland, says:

"There are 6680 persons on the estate. They are energetic, moral, and well behaved. I do not remember a crime in seventeen years, not even so much as stealing a chicken. They are a contented, grateful people—grateful even for fair play. Out of six hundred farmers deduct fifty, and the rest do not see a wheaten loaf or smell meat except at Christmas and Easter. They have been brought up to this custom. One tenant on the Devon estate I have seen sit down to potatoes, buttermilk and Indian meal, who purchased at a recent sale £10,000 worth of property, and did not have to borrow a shilling to pay for it. I believe this to be the usual mode of living in Limerick."

— Over thirty years ago Rev. E. K. Avery was tried in Rhode Island for the murder of Sarah M. Cornell, and acquitted. The girl was found dead in the woods near a camp meeting, and Avery was said to have been seen with her just before. Proof has lately appeared that the man seen with the girl was not Avery, but a person resembling him in size and dress, and that the girl committed suicide.

[Who tells this story? We have seen no credit for it.]

— In Castleton, Vt., last week, while a man was cleaning out an old cellar over which a house was burned thirteen years ago, he turned out a loaf of bread from a depth of six feet. It was as hard and dry as a brick, as well it might be.

— The Lyndon Union says a man in Troy, Vt., aged 75 years, cut three cords of wood in ten hours. A man in Montpelier, aged about ninety years, cut two cords in one day.

— A Fortress Monroe dispatch says a revival is in progress among the negro villages of the Peninsula, and every Sunday about one hundred negroes of all ages are baptized and join the church.

— One-half of a six-inch shell was dug up in a garden on India street, Portland, last week; undoubtedly a relic of Mowatt's bombardment of the town in 1775.

—Why is a restless sleeper like a lawyer? Because he lies on one side, and turns and lies on the other.

Great National Work,
THE
STANDARD HISTORY of the WAR,
Complete in one very large Volume of over 1,000 pages,
Splendidly Illustrated with over 150 Fine Portraits of Generals, Battle Scenes, Maps and Diagrams.
In the selection of matter for this great work the author has confined himself *strictly to official data* derived from the reports of Northern and Southern Generals, the report of the Committee on the Conduct of the War, National and Rebel Archives, etc.
He has carefully avoided the introduction of any matter not *strictly reliable* and *official*, and has succeeded in producing what is universally demanded, a *fair* and *impartial* History of the War. The great superiority of this work over all others is everywhere acknowledged. It is marked by a degree of thoroughness and accuracy attempted by no contemporary.
Disabled officers and soldiers, teachers, energetic young men, and all in want of profitable employment, should send at once for circulars, and see why it sells faster and gives better satisfaction than any other History published. Address, JONES BROTHERS & CO., 14 Phœnix Building, Boston.

Morning Chronicle.

Portsmouth N. H.

MONDAY, MAY 28, 1866.

THE UNION REPUBLICAN SENATORS held a caucus Friday morning and evening, confidential. Perley says, it is understood, however, that the propriety of taking a recess was discussed and disapproved, and that the great question of reconstruction mainly occupied the attention of the Senators present. Some newsmongers profess to know that a proposition presented by Senator Sherman, although not exactly acceptable to many, finally received the approbation of all present, and will be passed in the Senate by at least 34 votes. Others go further and intimate that the President will approve of the proposed measure.—Whether these statements are authentic or not, I will not pretend to say; but I am warranted in asserting that the Senators left the caucus this afternoon in excellent spirits, confident that harmonious action by the majority of the Upper House was a fixed fact.

IN THE U. S. HOUSE OF REPRESENTATIVES, May 25, Mr. Hooper of Massachusetts, from the Committee on Banking and Currency, reported a bill to secure and regulate the safe keeping of public money entrusted to disbursing officers of the United States.

Mr. Schenck, from the Committee on Military Affairs, reported back the substitute for the bounty bill, and asked that they pass it immediately. He moved the previous question, which prevailed, 81 to 24.

The substitute was agreed to—84 to 33.

The bill then passed the House almost unanimously.

Only two members voted in the negative—Messrs. Nicholson and Trimble. The vote stood 139 to 2.

The House then went into Committee of the Whole upon the Tax bill. The free list was under consideration.

An amendment relative to tar being offered, Mr. Kelley sent up an extract from the North Carolinian, which Mr. Kelley said seemed to reflect the views of our sagacious Secretary of the Treasury, declaring that the Southern people would never submit to a direct tax except at the point of the bayonet.

Mr. Stevens asked if it was an extract from the speech of the Secretary of the Treasury.

Mr. Kelley replied that it was only the views of one of the Secretary's friends, who agreed with him that all laws passed by Congress while the Southern members were not there, were unconstitutional.

VERY DARK VIEW.—A loyal paper says, we observe by our Southern exchanges that our dark question in this country has a very dark side—that is to say, they are making a great ado over the alleged decline of the negro race. Under slavery, they say, the negroes not only rose from cannibalism to Christianity, but they flourished and rapidly increased in numbers, whereas, in their new state of freedom they are fast diminishing and must ultimately disappear as a material ingredient of our population. The facts to support this theory are a little misty. Who can tell us a year, or two or three years, the destinies of a community? When the old Puritan settlement in Massachusetts dwindled so alarmingly in its earlier years, was there not room for carping contemporaries to declare that the climate was fatal and the whole scheme of colonization was doomed? During the last four years the South has lost more whites than blacks; and yet we do not see that our Southern contemporaries either infer the extinction of their own race, or charge their tremendous loss of life to the discredit of rebellion, in the same way that they insinuate the fatality of freedom to the negro.

A NEWSPAPER CHANGE.—It is reported that the Chicago Republican, one of the strongest opponents of the President's policy in the West, will change front, and come out in a few days as an administration journal. Its business manager, Mr. Mack, and Charles A. Dana, the editor, are to retire. This reminds us of the change that came over the Boston Courier when Mr. Buckingham left it;—of that older change when John Melcher sold the New Hampshire Gazette to the Republican party—of one more recent, when the Gazette came from Daniel street to the Chronicle office—and of the somerset turned by the Portland Advertiser a few years ago. We remember also, the papers of the Tyler party,—and a number that ate dirt in 1850. The New York World, above all others, has been a changeling. Begun on a religious basis or pretence, it has been this, that, and the other;—and generally wrong.

— At Dedham, Mass., Friday, May 25, John Moran was found guilty of murdering Mary Ellen Kearney, and sentenced to be hanged.

— The Richmond Times represents that the experiments made in Virginia with foreign laborers have proved a failure.

OHIO DEMOCRACY.—At the recent Democratic State Convention of Ohio, Vallandigham was on the Committee on Resolutions. The chief speech in the morning was made by Mr. Pendleton (the McClellan nominee for Vice President), who charged Congress with designing to overthrow the Government,—said the danger was terrible, and begged everybody to run to the assistance of President Johnson, "who sought to switch the country from the blind and bigoted Jacobins." The evening session was illuminated by the eloquence of Vallandigham. He said he agreed with Pendleton that Congress, if successful at the next election, intended to depose Andrew Johnson and put Chief Justice Chase in his place. It was now tempting the President to use force against the two Houses, but he will not do that, although they are "usurpers." But he will resist despotism with all the power of the purse and the sword. In that event the Democrats will come into power, and will enjoy the privilege in turn of making "arbitrary arrests." "Possibly," he said, "Vallandigham himself may then be the military commandant of Ohio." Not (says the Boston Journal)—we are disposed to add—so long as the leaders of the Ohio Democracy continue to make such fools of themselves as Vallandigham and Pendleton appear to have done on this occasion.

☞ A Washington dispatch of Saturday states that the Republican Senatorial caucus determined that it was best to continue the session of Congress until the middle of July, unless something was developed not now anticipated. Constitutional amendments were discussed. The 3d section may be amended, or modified, or strengthened, or propositions may be substituted so as to disfranchise forever certain classes of rebels, and forbid them ever holding Federal or State offices. It was agreed unanimously that every attempt should be made to harmonize the conflicting views, and when that was done, then the amendment should be passed by a party vote, or 33 against 14. There was a greater unanimity of sentiment, and a firmer determination was developed to stand solidly together upon all important questions, than has ever before been manifested.

THE HOOSAC TUNNEL.—The workmen at the Hoosac Tunnel lately struck for an advance from $2.25 to $2.75 per day, and about one-third of them were discharged and the rest are kept at work at the old price. Some seventy men are now employed on the west side of the moutain, and the work is being carried forward successfully. Two engines are at work, one of forty and one of one hundred horse power. They have already gone some 800 feet into the mountain. They sled the drill in getting out the rock. They sometimes send up in the bucket pieces of stone that weigh 5000 ponds. The engineer says that, with the progress now making and likely to be made on both sides of the mountain, it will take eight years to complete the tunnel.

☞ In Winter Street, Boston, on Friday, the wife of a gentleman, said to reside in East Boston, having suspicions that her husband was too intimate with another and to her unknown female, watched his movements, and caught him in the act of assisting a female into his buggy. Mrs. —— instantly pounced with the ferocity of a tigress upon the strange female, and preventing her from getting into the vehicle, drew a rawhide or riding whip and laid it well on her head and shoulders. The whipped female beat a hasty retreat up a flight of stairs, while the naughty husband lost no time in driving rapidly down the street. Persons who witnessed the affair did not attempt to interfere, and say that the whipping was done brown.

HEAVY DAMAGES.—In Boston, the case of James Mulcheary vs. Dr. H. I. Bowditch, has been finished in the Superior Court. The plaintiff sought to recover damages for alleged injuries from the defendant in branding upon his breast the letter D, in 1865. The defendant was examining surgeon for recruits in Fourth District, and the plaintiff was going through the process to make him a cavalryman, when the alleged injury was received. The defendant did not deny marking a D, with lunar caustic, in the belief that plaintiff was a deserter, but claims that the mark was aggravated by subsequent application on the part of the plaintiff. The case was tried last Fall, and the jury disagreed. At the new trial the jury found a verdict for the plaintiff; damages $1000.

— Jeff. Davis entered Fortress Monroe a prisoner one year ago, May 24.

— The recent election in West Virginia for the ratification or rejection of the constitutional amendment disfranchising persons engaged in the rebellion, passed off quietly. Returns from the interior counties come in very slowly. Full returns have been received from 11 counties, indicating large majorities for ratification. Wheeling city and Ohio county give over 800 majority for rejection.

NEW HAMPSHIRE ITEMS.

—— A bridle road has just been cut to the top of Kearsarge Mountain. Horses went up there, for the first time, May 23. A carriage road will probably be made from Warner Village to the summit of Kearsarge, in a few years.

—— James B. Moore, of Concord, who studied for the legal profession and was admitted to practice, subsequently entered upon a theological course, and is now a clergyman of the Unitarian denomination—preaching with acceptance to discriminating congregations of a body of Christians who maintain a high stand for intelligence and culture. The Lancaster Republican speaks highly of the labors of Mr. Moore in the Unitarian Church in that town, on Sunday, May 12th.

NEW LONDON.—The purpose to raise $100,000 with which to erect new, elegant and substantial buildings for the theological and academical establishment for which New London is so justly celebrated, is likely to be completely successful. In addition to other generous gifts, it is understood that two of the Messrs. Brown, at Fisherville, give $5000 each.

We learn from a gentleman of New London that twelve acres of land, south of the Baptist Church edifice, have been purchased for the new site, and that the work of building will be entered upon next year.

The old building at Scythe Factory Village, in which such a multitudinous number of excellent scythes have been made and sent over the country, is demolished, and a granite building going up, to be occupied for the same purpose as its illustrious predecessor."—*Statesman.*

☞ The Washington correspondent of the N. Y. Tribune, speaks as follows of the debate on Saturday, 19th inst.:

On Saturday, Messrs. Morris of New York and Patterson of New Hampshire delivered two speeches in the House on Reconstruction; both were dignified, practical, able arguments in favor of the Congressional policy. Neither made any assault upon the President, but made the issue one of principle only.

☞ We have news from England to May 16. The London Times says the number of deaths from Cholera in Liverpool is increasing. Dr. Ross, of the Helvetia, is dead. Three more emigrants are dead. The cholera had appeared at the new depot, at Bankhall, and five patients had been removed to the workhouse. A report of the London Money Market, May 14, says the panic is over. No more failures are reported. The bank refused to make advances on consols. Consols closed at 86 1-2 a 3-4 for money. French rentes 68f. 85c.

No fighting on the Continent yet:—In Austria the military preparations and patriotic demonstrations continue. War was considered imminent. The departure of the Vienna garrison for Bohemia had commenced. Substitution money for military exemption had been abolished. Patriotic appeals were being made for contributions for the formation of a volunteer corps. The Mexican volunteer corps had been disbanded.

Prussia's reply to the Austrian note upon the Duchies question had been presented in Vienna to Mendsdorf. The settlement proposed by Austria was declined. Hopes were entertained that Austria will make concessions. Bismarck is said to be modifying his cabinet.

It is reported that Prussia has summoned Hanover on account of the warlike preparations, and announced her intention of occupying her military roads.

— The London News says negotiations have lately been carried on at Vienna for the cession of Venice to Italy.

— A Memphis dispatch says cotton is firm, owing to constant unfavorable reports of the coming crop. Holders think the stock is nearly exhausted, and look for higher prices.

— The food crops in Tennessee are backward. Only half a crop of wheat is anticipated, but corn and cotton are promising.

— One dollar bills of the Leicester National Bank, altered to tens, are in circulation. The work is imperfectly done, and will hardly deceive the discerning.

— The fire in the Sandwich (Mass.) woods broke out again Wednesday and extended over 2000 acres. In all 7000 acres of land have been burned over. The total loss is estimated at $70,000.

— News from the interior of Georgia represents that agricultural products have been nearly ruined by the late heavy rains. The wheat crop is a failure on account of rust. Great destitution prevails.

— The announcement of the death of Senator Wright, of New Jersey, originated in the fact that he was attacked with paralysis at his residence in Newark Wednesday, under circumstances which rendered his recovery extremely doubtful. He is reported much better.

— Our better-half says she always welcomes the Gold Medal Soap with the same heartiness with which she would greet an old friend; it is in reality a real gem, an elegant ornament to every household, and every lady of taste and economy will be sure to patronize it; it cleans superior to any other mixture made, besides making clothes so white and nice. Most of the merchants sell it. 92

DENTISTRY!

—AT—

No. 5 Daniel Street.

Some of the Advantages of Consulting Dr. Stevens.

Patients having Artificial Teeth fitted at this office always have the advantage of a large assortment of A No. 1 Teeth to select from.

They always, if they choose, have the privilege of selecting size and color of tooth to suit themselves.

The patient alone always has the matter of decision as to whether the case is a "fit" or not, as no Set of Teeth is ever considered satisfactory to the proprietor of this office, unless they are entirely so to the patient.

DR. STEVENS *never* uses articles of an inferior quality (although they plentifully abound in the Profession,) in his business.

Dentistry, medically considered, is a speciality at this office.

Painful Teeth treated and cured.

Ulcerated Teeth treated and saved to a life of usefulness.

Badly decayed and broken Teeth restored to usefulness and beauty.

Charges always reasonable for the quality of work performed, but no *Cheap Work* (so called) done at this office.

REDUCTION IN PRICE

OF THE

AMERICAN WATCHES.

MADE AT WALTHAM, MASS.

In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed

With Gold at Par,

so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of

More than 200,000 Watches,

have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.

We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:

1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy & Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.

The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,

ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED

to be the best time keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit order for single watches.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

ALLCOCK'S POROUS PLASTERS.—A celebrated physician says "he was amazed at the great number of beneficial indications produced by one of these plasters. He affirms that *headache* is cured by one worn just below the breast-bone; that one placed over the navel will cure hysterics, as well as dysentery, and affections of the bowels."

CURE OF VARICOSE VEINS.
City Point, Va., January 24, 1865.
T. ALLCOCK & CO.:
Gentlemen: Seeing your notice in the Police Gazette, I got four of your Porous Plasters and placed them on the parts where the pains were most severe, and in less than twelve hours could walk as well as ever. I could hardly believe it, I was so well pleased. I wanted to see if the lameness would come back on me or not, so I did more walking that day than I had done in a week. The next day I had some pain in my hip, but I put on a plaster there and in two hours the pain was all gone, nor have I felt it since. Certainly they are the best application for the relief and cure of pains in the joints and back, and for varicose or enlarged veins, I have ever known, and I would not be without them on any account. Yours &c.,

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. B. C. PERRY, who has made diseases of the skin a speciality, has discovered a remedy for those discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION. Sold by all Druggists in Portsmouth and elsewhere. lysndaw—oct19

FOURTH OF JULY CELEBRATION.—*Its Progress.*—Last Thursday evening a motion was made and a vote passed by the Aldermen that suitable persons should be invited to deliver an Oration, read the Declaration of Independence, and deliver a poem on the coming Fourth. A special meeting is to be held by the City Authorities this (Monday) evening to take further action in regard to the matter, and it is hoped that they will give their support to the cause, which seems to be so popular with our citizens generally. We also learn from one of our public spirited townsmen that a meeting of the citizens will be held this week to act in concert with the City Authorities. We have just time enough to get up a demonstration that will do credit and relieve the monotony which has for the past five years settled down upon us on our country's birthday. We have no doubt but what it will be done, if the people take hold in good earnest as they have done in former years.

For the Chronicle.

NOW IS THE TIME.—We are pleased to notice the arrival of Madame Manchester, the celebrated Independent Clairvoyant and Botanic Doctress, in our city. Those who are troubled with diseases of any kind, should call before it is too late, and consult Madam M. She comes highly recommended, and can show hundreds of testimonials from persons of high standing that she rescued from an early grave. Call at once and consult her, at the Franklin House.

REAL ESTATE SALE.—William H. Hackett sold at auction on Saturday, house and lot No. 5 Manning St., to John W. Berry, for $625.

House No. 3 Anthony St., to Michael Mahony, for $639.

☞ The parents of the boy Haddock, who was said to have died by a *neglected* wound, request us to correct that statement, as everything within their power was done to save him, and four doctors were employed.

☞ We are requested to state that in consequence of the difficulty in procuring a suitable room, and the near approach of the Summer heats, Mr. Joy's Commercial School will not commence till the first of September, when his Adult and Juvenile Classes in Music will be resumed.

☞ Dr. Stevens has a few words to say to the readers of the Chronicle in this morning's issue, that will be worth the careful attention of all.

☞ The Phrenological Journal for June contains portraits of Hon. Solomon Foot, Thomas Jefferson, Aaron Burr, Constance Emily Kent, Jenny Lind, a group of Moquis or Utah Indians, with upwards of 20 illustrations and sketches of character; also Practical Physiognomy, Love and Lovers, Marriage and Divorce, Celibacy, Revelation and Science, Your Likeness, Strong Men, Hints to Preachers and Sextons, Physical Culture, True Politeness, How to Talk, Fashions, etc. $2 a year, or 20 cents a number. A new volume,—the 44th—begins with the next number. Fowler & Wells, 389 Broadway, New York, publishers.

☞ Gold on Saturday in Boston was quoted at about 139. The shipment of specie from New York for Europe was $6,095,000, making the total export this week at $11,266,466, and for the last two weeks $20,029,761.

The later foreign news per steamer America was received on 'Change with evident satisfaction. The announcement that the financial panic in England was over without further important failures, and that United States securities remained steady under the recent decline, inspired the belief that the worst had been passed. The latest quotation for Five-Twenties in London was 65 3-4, and the price of cotton remained unchanged. Money was very tight, and the late advance in the Bank of England rate was still maintained, but it was some relief to to the commercial community here to learn that the great panic had subsided.

The gold market was affected by the foreign news, and soon after the opening hour prices began to decline. The recent advance in gold will have the tendency to prevent Five Twenties from being sent to this country from abroad, and this fact is having some effect in depressing the gold premium.

☞ Jeff. Davis is a State Prisoner, taken and imprisoned and held by the President's order. Congress has taken no action on his case, and can neither be blamed nor praised justly for any of his joys or sorrows.

— Robert Christian Wiley, Foreign Minister of the Hawaiian Islands for many years, died there last fall, leaving property to the amount of $130,000 to Robert Christian Cochrane, on the condition that the latter should assume his name. The young man, instead of complying with the conditions of the will, cut his throat with a razor.

— A letter from Port Royal says the tornado of the 4th instant nearly demolished the freedmen's village on Port Royal Island. Forty houses were destroyed and thirteen persons severely injured. On St. Helena Island the village was nearly destroyed several lives lost, and many injured.

The Eye, Ear, Catarrh,
—AND—
THROAT!
MRS. MANCHESTER,
The Independent
CLAIRVOYANT!
—AND—
ECLECTIC PHYSICIAN!
From 618 Broadway, New York, has arrived in PORTSMOUTH and taken rooms at the FRANKLIN HOUSE, for a short time only.

A Clear Case of Clairvoyant Sight.

DEAR MADAM:—Permit me to tender you my sincere thanks for the cure you have effected on my child. My daughter, ten years old, was taken sick last January in a very singular manner. We called in six of the best Physicians in the city; they said the case was a very singular one—they never saw one like it—and came to the conclusion they could not tell what the disease was. Some friends advised us that we should call on a Clairvoyant; there being none in Providence that we could rely on, we wrote to Mrs MANCHESTER, in Portland, describing her symptoms. She immediately examined her case and told that she had a Snake in her stomach, told where she had drank it, and that it had been growing, and from the best of her judgement she should think it ten or twelve inches long. I gave the child her prescription and in a few hours the child ejected the snake alive from the stomach; it was measured and found to be eleven and a half inches long. We have it preserved, that all may see for themselves that this statement is really so. I am confident that the child could not have lived, had it not been for Mrs Manchester, and we feel as though she never could be repaid for her skill. MARY RAY,
GEO. W. RAY.

BANGOR, May 15th, 1865.

MRS MANCHESTER—Dear Madam: When you were in Bangor last Summer, I called to see you with a child of mine that had been sick for four years. I had taken her to a number of physicians, and none could tell what ailed her or even her symptoms You examined her carefully and told me exactly her symptoms from the commencement of her sickness, which were very peculiar; also told me there was something alive in her, and also said there was a number of them, and told me that she drank them from a rain-water cistern. You said that you would not warrant a cure, but would try and do the best you could for her. She commenced taking your medicine in August last, and from that time till December, the child passed off large quantities of what we call *Toadpokes*, from rain water, and I think, and am certain that the child must have died had it not been for you. And I advise everybody to see Mrs Manchester, for I know that she has the power of knowing the condition of a person diseased better than any Physician that I have ever heard of. Please have this published, and let the world know that there is one who practices what they profess to.

Very truly and gratefully yours,
my8ins GEORGE E. MARTIN,
MARY L. MARTIN.

CHOLERA! CHOLERA!
Prof. Bouve's Atmospheric Purifier.

This article has been extensively used as a Deodorizing Agent by the governments of Egypt, Turkey and France, during the late Cholera epidemic, and is the most perfect disinfectant extant. It effectually destroys all noxious gases and effluvia arising from decaying animal or vegetable matter, and for purifying Hospitals, Vaults, Drains, Privies, &c., cannot be surpassed.

Important.

DR. STEVENS, No 5 Daniel Street, would give notice that he has REDUCED the price of Permanent Sets of ARTIFICIAL TEETH on the Vulcanite Base, to that charged for them before the war.

He would also give notice that he is doing a new style of work for Under Sets of Teeth, called the COMBINATION BASE (Gold and Vulcanite) which produces by far the finest work offered to the public. The price is something in advance of that charged for the Vulcanite alone, but the strength, durability, ease of bearing, and beauty of finish obtained by it, more than double the value of the Teeth. mh12

Surgeon Dentist,
FIRST ASSISTANT in the Office of Dr. STEVENS, No. 5 DANIEL STREET

DR. WEED can be found at his place of business at all hours of the day and night, for the performance of any of the operations that come within the call of his profession.

Dr. A. P. STEVENS, No. 5 Daniel St., makes the saving of DECEASED and painful teeth a specialty in his business. He also successfully restores to their natural shape broken or badly decayed teeth, by building out corroded portions with pure GOLD. (In many cases teeth so restored are as strong as any of their brother members, and in all cases are rendered eminently useful for a long series of years.) DISEASED TEETH, in all stages, treated, and in a very large majority of cases entire success attained

Charges moderate, such operations necessarily high, but nothing in comparison to the value of the Teeth. mch14

WHICH IS THE
Leading Life Insurance Comp'y
IN THE UNITED STATES?
Which is the Safest and the Cheapest?
The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of the
MUTUAL BENEFIT
LIFE INSURANCE COMPANY,
to be the *largest*, the "expenses of management" the *smallest*, the "ratio of assets to liabilities," or the *security* furnished to its members, the *largest* of any life institution in the country.
Premiums received in 1864.....$2,089,072
" " " 1865.....3,020,087
Ratio of expenses to premiums rec'd in '64..12.96
" " " " " " '65..12.16
Ratio of assets to liabilities, Jan. 1, 1865....161.85
The inevitable conclusion from these official acts, is that the
MUTUAL BENEFIT LIFE Insurance Company
IS THE BEST AND THE CHEAPEST.
Because its NET ASSETS are proportionably LARGER than those of any other Life Insurance Company in the United States.
Because its "Managing Expenses" are LESS, and it has a *LARGER SURPLUS to divide among its members* than any Company in the United States.
QUERY. Will some one inform the public of that mysterious process by which a Company with a surplus proportionably *much less*, and expenses *very much larger* than another, can yet divide *more* to its members, and insure them at *less cost?* How is it done? Where does the money come from?
Every intelligent man will see at once that it *cannot be done.* Yet we have Agents among us that make this their boast.
Any one disposed or intending to insure can be furnished with the requisite information by applying to

From the Portsmouth Journal

CELEBRATION OF INDEPENDENCE.

We are pleased to see a disposition on the part of some of our citizens to observe the coming "Fourth" with appropriate festivities. If we cannot have a great celebration, a reception of the Sons of Portsmouth and a surpassing display, it is pleasant to do the next best thing, and at least make it worth the while for people of the neighboring towns to spend the day here, in such enjoyment as we can offer. We believe, too, at the time of so large demands on the city treasury, that this should be done by private subscription. There are classes of our citizens who would be variously benefitted by such a celebration. To some it would be a source of much revenue, while to others the only benefit to be derived would be the pleasure attending the affair. Hence some whose proportion of the tax would be comparatively small were the thing to be accomplished by appropriation of the City Government, could afford to pay their fifty, one hundred or more dollars towards the object, and make it a most profitable investment. These will doubtless do liberally towards a display. Others who are more or less benefitted will give more or less rather than not have a celebration; and those of our citizens who are ever ready with their means will probably most willingly contribute so that we may do our city credit in carrying out the enterprise. There are many young men and ladies who would aid, by good taste, strong arms and industrious fingers, in the work, if a general interest could be awakened. Many hands make light work, after we are once under way. A procession, an oration, a poem, a dinner, and such afternoon and evening entertainment as may be gotten up, would make the day a lively one for Portsmouth.

There is the more reason for a celebration of some kind this year, from the fact that while we were almost urged by the Sons of Portsmouth abroad to have a second re-union this year, we have neglected the necessary arrangements, and that affair must for this year at least be put off. The reputation of the city seems to require that something be done to show that we are not lost to all enterprise in this direction.

We can thus present an opportunity for the Sons to come home informally and enjoy a good time with us, and perhaps we may thus better prepare ourselves for a larger celebration next year.

THE CREED OF THE DEMOCRATIC PARTY.

The creed of the Democracy has ever been consistent upon one subject—ever in support of the Southern oligarchy and slavery, and as an inevitable sequence, the degradation of the Southern white masses. Upon nearly all other subjects it has been as changeable as the winds, and governed by circumstances and events as they have occrured. When eleven States seceded from the Union, in order to establish an oligarchy government, whose "corner stone was slavery," although the Northern Democrats regretted to part with their Southern allies, they firmly held to the doctrine of State rights, State sovereignty, and that they had a lawful right to withdraw from the Union. The comparatively few who denied that absurdity, left the party and patriotically rallied under the National flag. It cannot be denied that all the Southern 'patriots,' who waged war for the extension and perpetuation of slavery, by their solemn declarations, war measures, the and establishment of a Southern confederacy which they supported four years under the protection of their armies, absolved themselves from all allegiance to the Federal Government, and thereby by high treason forfeited all their former constitutional rights, even the right of property and person. This they did not deny until after their conquest. In point of *fact*, without regard to law, they were *out* of the Union. This, their statesmen would blush to deny, were it not for the positive denial of their Northern allies in and out of Congress to the contrary. The latter boldly assert that they have not been out of the Union—that upon the cessation of bloody hostilities, all their former constitutional rights (as if by magic,) suddenly reverted to them, and therefore they are now *in* the Union again! This they attempt to prove by specious or metaphysical reasoning. But "facts are stubborn things." John Q. Adams contended truly, that the Federal Constitution was established by the PEOPLE; "we the people of the United States," as declared in its preamble. It was upon the doctrine that State rights, including secession, was paramount to the Federal sovereignty, that the rebellion was organized, and justified by the Northern democracy under the teaching of the corrupt oligarchs, who thus making the Union bond a rope of sand. Still the *fact* stands out in bold relief that they did withdraw, and are still out of the Union in respect to their relations to the Government, and will so remain "until they shall knock at the door," and Congress shall see fit to readmit them. A person steals a horse. It is admitted on all hands, that he did not alter the *fact*, nor purge the crime by offering to restore the horse.

Since the objects of making war against the North, and all attempts to maintain a new despotic government within the old Union have been defeated, the magnates of the Democratic party have suddenly changed these principles, and now with all their boasted eloquence, claim that State cannot absolve itself from its allegiance to the Federal government, but what is more surprising, cannot change its condition and relations to the same, so as to work a forfeiture of its former rights, and therefore is entitled, after being conquered, to an unconditional admission among the loyal sisterhood of States. Thus the crime of treason is to be pardoned!

Senator Davis of Kentucky, the eloquent exponent of the present Democratic creed, recently said in the U. S. Senate, that our government is a political partnership. No persons but the parties who formed the partnership, are parties to the government. All but white men are excluded from it. Again, he compared it to "a close corporation," into which only a particular class of persons could be admitted as additional parties. Thus he makes the Government to be a mere partnership, from which each partner has power to withdraw! But having withdrawn in numbers solemnly and formally, that after a sanguinary conflict, the partners have a clear right to return and resume their former rights as members of the firm without the consent of the existing members of the old firm.

That the Democratic leaders are ready to repudiate their past, and support any new doctrines for the purpose of getting the rebel States readmitted, and thus by a union of forces, again control the National councils, and shape the future destinies of the Republic, is very apparent. That a ray of light from a high source will be a stimulus to greater efforts, is probable, but all in vain. It therefore becomes a more imperative necessity to preclude the rebel States from readmission for some years to come—or until "the framework of Southern society" shall be reconstructed.

There is yet no security for a permanent peace. The rebellion is not wholly crushed out. The smoke of the smouldling embers, indicates that those who have "the unconquerable will" yet remaining, would fan the same to a flame, should our military guards be withdrawn. "*Make haste slowly*," should be the motto of Congress—but no step backwards.

AMERICAN AND FOREIGN PATENTS

R. H. EDDY,

Solicitor of Patents,

Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,

78 State Street, opposite Kilby Street, BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Also, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching patents. Issues of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, not ascertainable the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHARLES MASON,

Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE,

Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN application, all but one of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN ATTACKS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

HIGHLY IMPORTANT

TO

UNFORTUNATE FEMALES!

DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and suppression of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.

His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.

Office, No. 33 Endicott street.

Persons at a distance can consult Dr. Briscoe, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that clients see none but the Doctor himself.

Address Dr. Briscoe, at No. 33 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.

Patients furnished with rooms and board if desired, and secrecy observed in every case.

Office hours from 9 A. M. to 9 P. M.

Boston, July 16, 1865. ThSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No 33 Endicott street.

N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.

P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

CHEROKEE PILLS,

Or Female Regulator,

Cure *Suppressed, Excessive and Painful Menstruation, Green Sickness, Nervous and Spinal Affections, Pains in the Back, Side, Headache, Giddiness*, and all diseases that spring from irregularity, by restoring the same to all the effects that arise from it. They are perfectly safe in all cases, *except those forbidden by the directions*, and are easy to administer, as they are nicely *sugar coated*. They should be in the hands of every Maiden, Wife, and Mother in the land.

Ladies can address us in perfect confidence, and state their complaints in full, as we treat all Female Complaints, and prepare Medicines suitable for all diseases to which the sex are subject—Thirty-two page pamphlet, in a sealed envelope, free.

The Cherokee Pills are sold by all druggists at $1 per box; or six boxes for $5; or they will be sent by mail, free of postage, in an ordinary letter, free from observation, by addressing the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

N. B.—Cherokee Pills No. 2 are prepared for *special cases*, when milder medicines fail; these are sent by mail, free of postage, on receipt of $5, *the price of each box.*

DR. WRIGHT'S

REJUVENATING ELIXIR,

Or, Essence of Life,

Cures *General Debility, Weakness, Hysterics in Females, Palpitation of the Heart and all Nervous Diseases.* It restores new life and vigor to the aged, causing the hot blood of youth to course the veins, restoring the *Organs of Generation, removing Impotency and Sterility.* *Manliness* and full vigor, thus proving a perfect "*Elixir of Love*," removing *Sterility* and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life, causing the weak and debilitated to have renewed strength and vigor, and the entire system to thrill with joy and pleasure.

Price, one bottle $2; three bottles $5; sent by express to any address.

Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make money. Be not deceived—look for those medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed, and free from observation. We will be pleased to receive letters with full statements in regard to any disease with which ladies or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,

DISARMED!!!

The Chief Causes of Pestilence Destroyed.

DR. E. R. COURARET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, Nos 208, 209, and 304 Henry street, N. Y.—Office, 42 Cedar street.

This Company organized on a permanent basis, with Courtaret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish its DISINFECTING FLUIDS for sick rooms, nurseries, urinals, water closets, private cesspools, sewers, gutters, ships, railroads, hospitals, prisons, and public institutions of all kinds, stables, slaughter houses, and piggeries—for plantments; all kinds of manures (*immensely* increasing the value of the latter), and wherever poisonous vapors or effluvia prevail, they are the deodorizers, antiseptics, antiputrescents, and disinfectants in the scientific meaning of the words—destroying noxious exhalations (or germs), chemical principles—leaving in their places *healthful air*; they are DESTROYERS, and *not merely absorbents*, as Charcoal, Lime, and other ordinary articles in which they are used. The attention of medical and scientific men is directed to these disinfectants. Attached are testimonials in favor of this great discovery, which have hundreds of others, can be seen at the Company's office

DELAVAN HOUSE, Albany, March 30, 1866.

A GREAT LAND-SLIDE.—The Yreka Journal, published in Siskiyou county, in the northern part of California, contains the following:

"An immense slide of ground descended last week from the top of the mountain south of Deadwood Creek, damming up the creek sufficient to create a reservoir sixty feet deep. The slide came in a solid body, slipping along on a clay clay formation upon which the whole mountain rests. The slide traveled a distance of about a quarter of a mile, and held together so compact that it even moved the sluices and logs out of the creek without damaging them. For two days and nights the creek was held above the slide, where it was fifty yards from bank to bank, with about one thousand inches of water running. On the morning of the third day the water commenced running over the slide, and coursing rapidly through the trees, which remained in the same position they were in on the top of the mountain before the slide. Many persons have visited the place, and consider it one of the grandest natural scenes."

Two CUSTOMS OFFICERS BADLY SOLD. On Tuesday night several of the Customs Inspectors at Buffalo were on the lookout for smugglers. They generally go in pairs, as it is not only lonesome but dangerous to be alone. Two of these watchful gentlemen were on duty near Tonawanda, when they saw a horse and wagon approaching them, the latter containing two men. The officers concluded these men were on a smuggling expedition, and resolved to spoil the job. The night was rather dark, and of course favored the officers, who managed to follow the wagon without being seen (?) for nearly three miles. By this time the legs of the vigilant Inspectors began to tire, and they hailed the two suspected smugglers and ordered them to stop. The men in the wagon did so, when the officers discovered that they had been chasing for three miles two of their brother Inspectors.

— Let no one suppose that by acting a good part through life, he will escape slander. There will be those even who hate men for the very qualities that ought to procure esteem. There are some folks in the world who are unwilling others should be better than they.

Morning Chronicle.

Portsmouth N. H.

TUESDAY, MAY 29, 1866.

☞ The Traveller's Washington correspondent says the Republican caucus in the Senate was successful. It was ascertained that nearly all the Senators present were opposed to the third section of the House amendment; that more than two thirds of the Senate will vote for the amendment finally after it has been duly considered and amended as a majority of the Republicans think proper. Doolittle, Morton, Cowan and Dixon were not invited to attend the caucus, as they are no longer regarded as members of the Republican party. They admit that they are laboring to break it up, and raise up a third party.

The Bounty Bill is the topic of conversation just now. The Baltimore Sun says of it if passed by the Senate, which is doubtful, the act will add over $200,000,000 to the already enormous debt of the nation. It is not believed that the most of the soldiers of the country whom this bill proposes to benefit, have ever expressed a desire for its passage or will now attempt to avail themselves of it. The whole scheme has been gotten up and engineered in the interest of several members of Congress who desire to be re-elected next fall, and several rapacious speculators. Indeed the only bounties proposed to be paid are the soldiers who have received none from the government of the United States without reference to those given by the States and municipalities, some of which appropriated large sums, others very small ones or none at all; and therefore, even should the bill pass, there will in fact be no actual equalization effected.

WASHINGTON ITEMS.—Gen. Sprague, Assistant Commissioner of the Freedmen's Bureau in Arkansas, has forwarded to the Commissioner, under date of the 15th inst., a communication from Capt. Abell, a Superintendent of the Bureau in that State, which says that the freedmen are coming in almost daily from Texas, in a most destitute condition, and report that anarchy and despotism reign there. Many are driven from their homes and families, and many have been shot and hung for expressing a desire to enjoy their rights as freedmen. Gen. S., in concluding his letter, says that it is very probable the report is exaggerated, and he is of the opinion that it is, although Capt. Abell has never shown a disposition to report sensation rumors.

The workingmen are engaged in collecting and burying the soldiers and civilians who died in the service in and about Hampton, Va. They report that they have thus far reinterred in the cemetery at Hampton the remains of about 4000 men. As most of these men died of wounds or disease in the hospitals near Fortress Monroe, their names, rank and regiments are all known.

MERCHANTS' NATIONAL BANK.—The House Committee on Banks and Banking, of which Mr. Samuel Hooper is acting chairman, is actively investigating the affairs of the Merchants' National Bank at Washington. It appears that Bayne & Co., the Baltimore stock operators, who owe this bank nearly three-quarters of a million dollars, have been really insolvent for some time past, and that their Baltimore obligations are over one million dollars. Some of the stock-holders of the Merchants' National Bank, who are men of means, will have to pay sums equal to the amount of their stock, in accordance with the provisions of the banking law.

☞ A Memphis, Tenn., dispatch of May 26 says Gen. Alcorn, U. S. Senator elect from Mississippi, has made an application to Gen. Fiske, of the Freedmen's Bureau, for a teacher of the freedmen's school at Frian's Point, Mississippi.

All the Freedmen's Courts in Tennessee were abolished by the Assistant Commissioner, the law of the State making colored persons competent witnesses in all the civil courts, having gone into operation.

The civil rights bill, legalizing slave marriages, giving their children the right of inheritance, and making all persons without regard to color equal before the law, has passed both branches of the Tennessee Legislature, and become a law.

PUBLIC OPINION AT RICHMOND.—A Washington correspondent makes the following statement respecting the popular denunciation of the jury who are to sit at the trial of Jeff. Davis:

I learn from the very best authority at Richmond that two gentlemen, long resident of that city, who were on the Grand Jury which found a true bill against Jefferson Davis, have already been so marked and made the object of persecution in their social and business relations that they have been compelled to close up their business, and are making preparations to leave the city. Such facts are a sorry commentary on the progress of loyalty and conciliation in the late rebel capital."

— A cotton factory in Macon, Ga., is now turning out 20,000 yards of sheeting per month.

Correspondence of the Chronicle.

Accident at a Barn Raising.

RYE, May 28.

Messrs. Editors: On Saturday afternoon, as a large number of men were engaged in raising the new and heavy barn belonging to Mr. David Jenness, a portion of the sills gave way, and some twenty-five or thirty men were precipitated into the cellar beneath—a distance of nine feet—amid piles of boards and broken timber. Strange to relate, no lives were lost or limbs broken, although nearly every man was more or less bruised. Mr. Moses Garland received a blow upon the head, and was for awhile unconscious; and Mr. Lewis L. Perkins had a finger badly crushed. Aside from these, there were no serious injuries inflicted.

The accident was caused by the want of proper support beneath one of the long sills. The work was interrupted for an hour or so,—but the rubbish was cleared away, damages repaired, and the frame erected by 8 o'clock in the evening. Had the accident occurred a few minutes earlier, when sixty men were throwing up the broadsides, the result must have been of the most disastrous character. Yours truly, BUGGINS.

PRESBYTERIAN CHURCH.—At St. Louis, May 25, resolutions on the state of the country were adopted by the New School Assembly of the Presbyterian Church, quite radical in tone. They rejoice at the continued functions of the Freedmen's Bureau, and rejoice at the passage of the Civil Rights bill; reiterate the position the assembly took last year in regard to negro suffrage, and claim that if suffrage be not universal, it ought, at least, to be impartial, and declare that the basis of representation in Congress should be changed so as to meet the exigencies growing out of the abolition of slavery; and that neither the national Executive nor Congress should adopt any mode of reconstruction that does not effectually protect all loyal persons in the Southern States; and allege that, for the vindication of national justice the chief fomenters and representatives of the rebellion should, by due process of law, be consigned to punishment. A motion to strike out this last resolution was lost by a decided vote, and the whole series were passed without a dissenting voice.

CONGRESS.—On Saturday, the House made some progress in committee, with the Internal Revenue Bill, but did not finish it. A debate sprung up between Messrs. Stevens and Delano, the former denouncing Sec. McCulloch for some partisan action in relation to an appointment,—and the latter defending him.

THE FISHING BOUNTY POLICY ADOPTED BY THE PROVINCES.—It is announced that the Newfoundland government offers a bounty of three dollars per ton to every vessel fitted out from that colony for the mackerel fishery, and four dollars per ton to each vessel engaged in cod fishing on the Banks.

☞ At Oil City, Pa., May 26, a most destructive fire took place. The whole east side of Oil Creek, comprising half of the business portion of the city, is in ashes; 75 stores, 8 hotels, 40 dwelling houses, a church, and a seminary, are a mass of ruins.

The loss is over one million dollars, which is insured for only $100,000.

The oil shipping portion of the city sustained no loss. Over 175 families have been rendered houseless by the fire.

HEAVY FAILURE.—It is stated that the liabilities of Hon. C. V. Culver, representative from the Titusville Oil District of Pennsylvania, will reach five million dollars, while the assets will pay only preferred creditors. Many heretofore affluent citizens who trusted in him have been reduced to penury.

ARREST OF A FORGER.—Geo. C. Beck, *alias* Howe, was arrested in Rochester, N. Y. on Wednesday on charge of being connected with the forgery of certificates on bonded warehouses in New York. The principals who were concerned in the forgery have been known and arrested for some time, but there was no probability that they could be convicted as long as Howe was at large. The amount of money obtained in the forgeries was not far from three hundred thousand dollars.

NEW NAME FOR A NEW PARTY.—The new party, of which President Johnson seems to be the bright particular star, is unfortunate. It has no name. Several have been suggested, but they would not suit all members of the anonymous organization. The new party is to be pitied; for if it remains nameless, it will have no influence, and sink into oblivion, unhonored and unsung. We have heard a name suggested which we think decidedly appropriate; and if those who have the christening to do will only style their faction the "Demi-Johnson Party," we think they will succeed much better in their sandwiching process. The name may savor of succotash, but that will be just right for a party which is "corned" at least half the time. We make no charge for giving publicity to this *nom de guerre*, but only ask that we be kindly remembered after the Demi-Johnsonians come into power, and they begin the distribution of fat offices.—*Sterling Gazette.*

— Dr. Chapin says the cause that never made a fanatic never produced a martyr.

IRVING BANK EMBEZZLEMENT.—The young man whose arrest took place in New York a few days ago for embezzlement of the funds of the Irving Bank is Robert D. Snodgrass, son of Rev. Dr. Snodgrass of Goshen. He was employed in the bank with an annual salary of $1400, and a month ago his accounts being unattended to, the President ordered them posted up, and employed another man for this purpose.—Snodgrass sent in his resignation, which was not accepted. In examining his accounts a deficit of $45,000 was discovered, and it was found he had been in collusion with the depositor of the bank, who had omitted to enter the checks drawn by Snodgrass on the final ledger account. Both were arrested. Snodgrass has returned half the deficit, and the rest has been pledged by his friends.

GEN. TOOMBS' ADVICE TO THE YOUNG MEN OF THE SOUTH.—Mrs Robert Toombs passed through Montgomery, Ala., a few days since, from Havana, en route for her old home at Washington, Wilkes county, Ga. She left Gen. Toombs at Havana, in excellent health, enduring his exile with fortitude. She says his advice to the young men of the South is that they remain in the South, which he still considers a country much preferable to Brazil, Mexico or Cuba, and, by patient endurance and active industry, rebuild upon the surest of foundations their own shattered fortunes and that of their native land.

PUNISHMENT OF RAILWAY NEGLIGENCE.—Probably the first criminal prosecution and conviction, in this country, of a person employed by a railroad company for negligence resulting in disaster, took place in Newark during the present week. The accused was Edward O'Brien, a switch tender on the New Jersey Railroad, who left a switch misplaced, and a train of cars were thrown off the track, causing the death of two persons. He was tried for manslaughter and found guilty, but recommended to mercy.

☞ Rev. Stuart Robinson, D. D., has returned to his church in Louisville, and has been elected as one of the Commissioners to the next General Assembly.

The Philadelphia Presbyterian says of this:

"No selection could have been made more unfortunate for the peace of the church. We confess that we do not know any minister in the Presbyterian church of the South, even though the most flagrant of rebels, that we would not rather see on the floor of the Assembly than this bold, brilliant, but unscrupulous and vituperative member from Canada."

The Richmond Observer says of the above:

"Such vituperative calumny is perhaps the highest compliment which a fanatical Radical can offer to a man of conservative principles."

GAS FROM PETROLEUM.—It is claimed in New York that a process has been discovered for making gas from petroleum, and that it can be economically applied to lighting and heating purposes. Experiments will soon be made to test the practicability of its being brought into general use.

THE DAMAGED CALICOES.—According to the Fall River Monitor, the statement in regard to calicoes returned to the Union Mills of that city, on account of being spotted with petroleum, was much exaggerated, both in respect to the amount of goods returned and the extent of the imperfections.

— John Rogers might have learned something from Prof. Blot. The careless fellow let his stake burn while he was cooking himself. "That's what's the *martyr*."—*Exchange.*

We think the above a little *over-done*, and the tomater part but little *understewed*.

— Mrs. Catherine R. Rudder, the wife of the Rev. Wm. Rudder, rector of St. Stephen's Church, Philadelphia, met with sudden death in New York at about seven o'clock on Thursday morning. About ten days previous she had been placed under the care of Dr. Wm. W. Jones, who had observed that she was suffering from temporary insanity, and upon the morning of her death she leaped from the window upon the pavement, a distance of about 30 feet.

— A quiet, happy couple residing in Western New York were disagreeably surprised a few days ago in finding that they had been divorced. The process was gone through without their knowledge or consent, some wag having instituted the suit probably to prove the purity of the law regarding such matters.

— The Connecticut Legislature have under investigation the eight hour movement, and intend to give it a thorough examination; the meetings of the committee appointed for this purpose are open to visitors who may wish to hear or testify.

— Call for Herrick Allen's Gold Medal Saleratus. Agitate until you get it. If your grocer has not got it, ask him to go to the wholesale Agent, get a box, and try it. It is the best in the world. Do not be put off with any other. Use it instead of soda; it is a great deal better. Try it. Most of the Merchants have it. Their depot is 118 Liberty street, New York. 92

☞ The Washington correspondent of the Philadelphia Inquirer makes the following statement:—

The House Judiciary Committee, for the last three days, have been hearing more testimony in reference to Davis and Clay's complicity with the assassination. As to their guilt there is no doubt upon the minds of the leading members of the committee, and all statements to the contrary are unfounded.

☞ A Louisville, Ky., dispatch of Sunday says:

Terrell, the murderer, was captured by the citizens of Shelbyville yesterday, and sent here to-day. He received thirty three shots before being captured, and it is supposed they will prove mortal. A man named Bunker was also captured with him. A third associate escaped.

There are rumors that a large number of Fenians are going northward from this vicinity to-night. Destination unknown.

—The Mahomets believe that some of all religions are saved, and that at the day of judgment, there shall be erected a fourth banner for such to resort to, who never heard of Moses, Jesus, or Mahomet. "Assuredly (they argue) there is no malice in the Omnipotent, and he will not damn men for their involuntary ignorance of his revealed laws, provided they live up to the genuine dictates of Nature and Reason, which are the truest standards of virtue and positive religion."

DENTISTRY!
—AT—
No. 5 Daniel Street.
Some of the Advantages of Consulting Dr. Stevens.
Patients having Artificial Teeth fitted at this office always have the advantage of a large assortment of A No. 1 Teeth to select from.
They always, if they choose, have the privilege of selecting size and color of tooth to suit themselves.
The patient alone always has the matter of decision as to whether the case is a "fit" or not, as no Set of Teeth is ever considered satisfactory to the proprietor of this office, unless they are entirely so to the patient.
DR. STEVENS never uses articles of an inferior quality (although they plentifully abound in the Profession,) in his business.
Dentistry, medically considered, is a speciality at this office.
Painful Teeth treated and cured.
Ulcerated Teeth treated and saved to a life of usefulness.
Badly decayed and broken Teeth restored to usefulness and beauty.
Charges always reasonable for the quality of work performed, but no *Cheap Work* (so called) done at this office.
☞ DR. T. F. WEED still remains with DR. STEVENS as Assistant. my28

GENTS:—Having used, and witnessed the beneficial effects of PERRY DAVIS' PAIN KILLER, I take great pleasure in recommending it to the public as the very best Family Medicine with which I am acquainted. In the establishment are employed nearly one hundred persons, and your PAIN KILLER has been used with the most astonishing results. For FOUR YEARS not a single severe case of Cholic, Summer Complaint, or Dysentery, but has yielded like magic to the curative powers of the "Killer;" and for Cuts, Bruises, etc., it is in almost daily use, and with like good effects. REDUCTION IN PRICE
OF THE
AMERICAN WATCHES.
MADE AT WALTHAM, MASS.
In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed
With Gold at Par,
so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of
More than 200,000 Watches,
have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.
We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:
1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy & Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.
The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,
ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED
to be the best time-keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit order for single watches.
CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.
